

KEY INVESTOR INFORMATION

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

Loomis Sayles Strategic Alpha Bond Fund (I/A(USD) ISIN: LU0556612868), a sub-fund of Natixis International Funds (Lux) I SICAV

Management Company and Promoter: Natixis Investment Managers S.A., part of the Natixis group of companies
Investment Manager: Loomis, Sayles & Company, L.P., part of the Natixis group of companies

Objectives and Investment Policy

Investment objective:

The investment objective of Loomis Sayles Strategic Alpha Bond Fund (the "Fund") is to generate positive returns over a 3 year period.

Investment policy:

The Fund invests primarily in fixed income securities of worldwide issuers and in derivatives instruments in order to gain exposure to such assets

The Fund invests at least 51% of its total assets in fixed income securities issued by worldwide issuers, cash and cash equivalents and money market instruments. Fixed income securities and related instruments may include debt securities issued or guaranteed by sovereign governments, government agencies, public international bodies and corporations.

Although the Fund may invest up to 100% of its total assets in fixed income securities rated below investment grade, it is expected that the Fund's investments in below investment grade fixed income securities will not exceed 50% of the Fund's total assets. Below investment grade fixed income securities are securities rated less than BBB- (Standard & Poor's Ratings Services), Baa3 (Moody's Investors Service, Inc.), an equivalent rating by Fitch Ratings or other Nationally Recognized Statistical Rating Organization, or if unrated, determined by the Investment Manager to be equivalent.

Fixed income securities may also include investments in convertibles bonds, mortgage-backed securities and asset-backed securities (including CLO/CDO up to 5% and non-Agency RMBS up to 15% of the Fund's total assets). Up to 25% of the Fund's total assets may be invested in mortgage-backed securities and asset-backed securities rated below investment grade.

The Fund may invest up to 5% of its total assets in fixed income securities listed on the China Interbank Bond Market through the mutual bond market access between Mainland China and Hong Kong (the "Bond Connect"). The Fund may invest up to 49% of its total assets in securities other than those described above. The Fund may not invest more than 10% of its total assets in equities, including but not limited to, preferred stocks, common stocks and other equity-type securities and certain eligible A-Shares via the Shanghai-Hong Kong Stock Connect program and/or Shenzhen-Hong Kong Stock Connect

program (collectively, the "Stock Connects"). The Fund may invest up to 10% of its net assets in undertakings for collective investment.

The Fund is actively managed and uses a research-driven strategy in allocating investments across a global range of investment opportunities related to credit, currencies and interest rates. The Fund also seeks to actively manage the risks that arise from exposure to changes in credit, currencies and interest rates.

The Fund uses derivatives for hedging and investment purposes. The Fund will use derivatives (i) to reduce certain risks, such as the risk of owning bonds, the risk that the exchange rate between the U.S. dollar and other currencies changes or the risk that occurs when interest rates change and (ii) to gain exposure to certain investment markets, individual companies or governments in a manner that can be more liquid than buying bonds or other securities and to currencies other than the U.S. dollar.

The Reference Currency of the Fund is the US Dollar.

The Fund is not managed relative to a specific index. However, for indicative purposes only, the Fund's performance may be compared to the 3 Month USD Libor Index. In practice, the portfolio of the Fund is likely to include constituents of the index, however, the Fund is unconstrained by the index and may therefore significantly deviate from it.

Shareholders may redeem Shares on demand on any business day in Luxembourg. Income derived from the Fund is distributed for distributing Shares and reinvested for accumulating Shares, as further detailed in this document. Please refer to the section entitled "Subscription, Transfer, Conversion and Redemption of Shares" of the Prospectus for additional information.

Recommendation: this Fund may not be appropriate for investors who plan to withdraw their money within less than 3 years.

Risk and Reward Profile

1	2	3	4	5	6	7
---	---	---	---	---	---	---

This ranking on the synthetic risk and reward indicator scale is due to the Fund's allocation to fixed income and currency markets. Historical data may not be a reliable indication for the future. The risk category shown is not guaranteed and may shift over time. There is no capital guarantee or protection on the value of the Fund. The lowest category does not mean "risk free".

The following risks are materially relevant to the Fund but are not adequately captured by the synthetic indicator:

Stock Connect risk: The Fund may invest in China "A" shares via the Shanghai-Hong Kong Stock Connect and/or Shenzhen-Hong Kong Stock Connect programs which are subject to additional clearing and settlement constraints, potential regulatory changes as well as operational and counterparty risks.

Bond Connect risk: The Fund may invest in securities dealt on China Inter Bond through the Hong Kong Bond Connect program which is subject to additional clearing and settlement constraints, potential regulatory changes as well as operational and counterparty risks.

Counterparty risk: The counterparty risk is the risk that a counterparty with whom the UCITS has entered into OTC transactions would not be

in a position to fulfil its liabilities toward the UCITS.

Credit risk: Credit risk arises from the risk of impairment of the quality of an issuer and/or an issue, which may entail a reduction in the value of the security. It may also arise from default at maturity by an issuer in the portfolio.

Liquidity risk: Liquidity risk represents the price reduction which the UCITS should potentially accept to have to sell certain securities for which there is one insufficient request on the market.

Impact of Management Techniques risk: The risk linked to the management techniques is the risk of increased losses due to the use of financial derivatives instruments and/or securities lending and repurchase transactions.

Please refer to the section entitled "Specific Risks" of the Prospectus for additional details on risks.

Charges for this Fund

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

Charges by Share Class-Share Class I

One-Off charges taken before or after you invest

Entry Charge	3.00%
Exit Charge	None *

This is the maximum that might be taken out of your money before it is invested.

Charges taken from the Fund over a year

Ongoing Charges:	1.01% p.a.
------------------	------------

Charges taken from the Fund under certain specific conditions
