ISIN-Code: LU0607983383

The fund is managed by Nordea Investment Funds S.A., a company of the group Nordea Bank AB.

Objectives and Investment Policy

The fund aims to provide an attractive absolute return by taking long or short exposures in a broad range of asset types such as:

- stocks and debt instruments from various economic sectors, industries, regions and countries,
- stocks and bonds indices,
- volatility of indices,
- local currencies worldwide,
- interest rates, and
- commodities or commodities indices.

Such exposures may be achieved (i) via direct investments in those asset types, (ii) via the purchase of exchange traded funds or other collective investment vehicles or (iii) via the use of financial derivative instruments*.

* These are financial contracts the value of which depends on the market price of a reference item.

A total of 20 percent of the fund's net assets may be invested in mortgage and asset backed securities.

The fund is leveraged. This means:

- the cumulated contract values of long and short derivative instruments added to the market value of direct investments regularly exceed by several times the net assets of the fund.

- the fund is using statistical tools to daily estimate the maximal loss** that it could suffer over the next month in 99 out of 100 cases (the "value-at-risk" or VaR). Such VaR may not exceed 20% of the fund's net assets.

** Statistical estimations are predictions of future performances but may significantly deviate from reality.

The fund implements a relatively higher return / higher risk investment strategy than the Multi-Asset Fund of the same umbrella (Nordea 1, SICAV).

Nordea's Policy for Responsible Investment aims to create responsible returns with Responsibility throughout environmental, social and governance analysis, norm based screening and active ownership activities.

The fund may take part to a securities lending program. Any investor may redeem its shares in the fund on demand, on a daily basis. This fund may not be appropriate for investors who plan to withdraw their money within a period of 5 years.
