Mirova Europe Sustainable Equity Fund is a sub-fund of Mirova Funds (the "SICAV").

R/A (EUR) ISIN LU0552643339

Natixis Investment Managers International, part of the BPCE Group, is the Management Company of the Fund.

OBJECTIVES AND INVESTMENT POLICY

The Sub-Fund has a sustainable investment objective which is to allocate the capital towards sustainable economic models with environmental and/or social benefits by investing in companies whose economic activity contributes positively to or does not significantly harm the achievement of one or more of the UN Sustainable Development Goals (SDGs) and/or reduces the risk of not achieving one or more of the UN SDGs. The Sub-Fund will seek to invest in companies, listed on European stock exchanges, while systematically including Environmental, Social and Governance ("ESG") considerations, with financial performance measured against the MSCI Europe Net Dividends Reinvested Index over the recommended minimum investment period of 5 years. The MSCI Europe Dividend Net Index is representative of the European Equity markets.

The Product is actively managed. The Product's performance may be compared to the Benchmark. In practice, the portfolio of the Sub-Fund is likely to include constituents of the Benchmark, but the Investment Manager has full discretion in the selection of the securities comprising the portfolio within the limits of the Sub-Fund's investment policy. However, it does not aim to replicate that Benchmark and may therefore significantly deviate from it.

The Benchmark can be used to determine the performance fee that will possibly be levied.

The Investment policy of the Sub-Fund is to invest in European equity securities of companies who are developing products or services to respond to key sustainable issues on the 8 major sustainable themes: energy, mobility, building and cities, management of natural resources, consumption, healthcare, Information technology and finance.

The Product follows an ESG thematic and "Best-In-Universe" approach (complemented by sectoral exclusion, commitment and voting policies) which aims at assessing systematically the social and environmental impacts of each company in relation to the achievement of UN SDGs. It involves the rating of each company in respect of the criteria: Environmental (such as environmental recycling), Social (such as employee health) and Governance (such as business ethics). An ESG strategy may comprise methodological limitations such as the ESG Driven Investments Risk. Please refer to the sections "Description of the extra-financial analysis and consideration of the ESG criteria" and "Principal risks" of the Prospectus for additional information.

The Sub-Fund may invest at least 80% of its net assets in European equity securities and up to 10% of its net asset in money market and cash instruments.

The Sub-Fund may use derivatives for hedging and efficient portfolio management purposes.

Income earned by the Sub-Fund is reinvested.

Shareholders may redeem Shares on demand on any business day in Luxembourg at 13h30.
