This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

Ostrum Global Inflation Fund (I/A(EUR) ISIN: LU0255251166), a sub-fund of Natixis International Funds (Lux) I SICAV

Management Company and Promoter: Natixis Investment Managers S.A., part of the Natixis group of companies
Investment Manager: Ostrum Asset Management, part of the Natixis group of companies

Objectives and Investment Policy

Investment objective:

The investment objective of Ostrum Global Inflation Fund (the "Fund") is to outperform the Bloomberg World Government Inflation-Linked Bond Index Hedged in Euro over the recommended investment period of 2 years.

Investment policy:

The Fund invests primarily in inflation-linked debt securities of issuers worldwide which are member states or have their registered offices in member states of the Organisation for Economic co-operation and Development (OECD). It invests globally in debt securities of governments, public international bodies or other public or corporate issuers. Such debt securities may have a fixed, adjustable or variable rate.

The Fund may invest up to one-third of its total assets in money market instruments, time deposits or other debt securities, such as non-inflation-linked debt securities. The Fund is actively managed and uses a research-driven strategy in selecting securities.

The Fund may use derivatives for hedging and investment purposes.

Underlying Investment Objective for Reduction of Duration Exposure for the DH share class

The underlying investment objective of the DH Share Class is to deliver absolute performance to investors derived from inflation. This objective is achieved by mitigating nominal rate or real rate duration on inflation-linked bonds issued worldwide.

The Reference Currency of the Fund is Euro.

The Fund is managed in reference to and seeks to outperform the Bloomberg World Government Inflation-Linked Bond Index over the recommended investment period. However, it does not aim to replicate that index and may therefore significantly deviate from it.

Shareholders may redeem Shares on demand on any business day in Luxembourg. Income derived from the Fund is distributed for distributing Shares and reinvested for accumulating Shares, as further detailed in this document. Please refer to the section entitled "Subscription, Transfer, Conversion and Redemption of Shares" of the Prospectus for additional information.

Recommendation: this Fund may not be appropriate for investors who plan to withdraw their money within less than 2 years.

Risk and Reward Profile

1	2	3	4	5	6	7
---	---	---	---	---	---	---

This ranking on the synthetic risk and reward indicator scale is due to the Fund's allocation to fixed income markets. Historical data may not be a reliable indication for the future. The risk category shown is not guaranteed and may shift over time. There is no capital guarantee or protection on the value of the Fund. The lowest category does not mean "risk free".

The following risks are materially relevant to the Fund but are not adequately captured by the synthetic indicator:

Counterparty risk: The counterparty risk is the risk that a counterparty with whom the UCITS has entered into OTC transactions would not be in a position to fulfil its liabilities toward the UCITS.

Credit risk: Credit risk arises from the risk of impairment of the quality of an issuer and/or an issue, which may entail a reduction

in the value of the security. It may also arise from default at maturity by an issuer in the portfolio.

Impact of Management Techniques risk: The risk linked to the management techniques is the risk of increased losses due to the use of financial derivatives instruments and/or securities lending and repurchase transactions.

Please refer to the section entitled "Specific Risks" of the Prospectus for additional details on risks.

Charges for this Fund

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

Charges by Share Class-Share Class I

One-Off charges taken before or after you invest

Entry Charge	2.50%
Exit Charge	None *

This is the maximum that might be taken out of your money before it is invested.
