Chairman's letter

Dear Shareholder,

We are pleased to present to you the Semiannual Report for PIMCO Fixed Income Source ETFs plc covering the six-month reporting period ended 30 September 2014. In the following pages, please find details on each Fund's investment performance and a discussion of the factors that influenced performance during the reporting period.

As previously announced on 26 September 2014, William "Bill" Gross, PIMCO's Chief Investment Officer and co-founder, resigned from the firm. PIMCO subsequently elected Daniel Ivascyn to serve as Group Chief Investment Officer ("Group CIO"). In addition, PIMCO appointed Andrew Balls, CIO Global Fixed Income; Mark Kiesel, CIO Global Credit; Virginie Maisonneuve, CIO Global Equities; Scott Mather, CIO US Core Strategies; and Mihir Worah, CIO Real Return and Asset Allocation. Outside of the reporting period on 3 November 2014, PIMCO announced that Marc Seidner will return to the firm effective 12 November in a new role as CIO Non-traditional Strategies and Head of Portfolio Management in the New York office. Under this leadership structure, Mr. Balls and Mr. Worah have additional managerial responsibility for PIMCO's Portfolio Management group and trade floor activities globally. Mr. Balls will oversee Portfolio Management in Europe and Asia-Pacific, and Mr. Worah will oversee Portfolio Management in the PIMCO Fixed Income Source ETFs plc.

Douglas Hodge, PIMCO's Chief Executive Officer, and Jay Jacobs, President, will continue to serve as the firm's senior executive leadership team, spearheading PIMCO's business strategy, client service and the firm's operations.

These appointments are a further evolution of the structure that PIMCO established earlier in 2014, reflecting our belief that the best approach for PIMCO's clients and our firm is an investment leadership team of seasoned, highly skilled investors overseeing all areas of PIMCO's investment activities.

During his 43 years at PIMCO, Mr. Gross made great contributions to building the firm and delivering value to PIMCO's clients. Over this period PIMCO developed into a global asset manager, expanding beyond core fixed income, now encompassing nearly 2,500 employees across 13 offices, including over 250 portfolio managers. Mr. Gross was also responsible for starting PIMCO's robust investment process, with a focus on long-term macroeconomic views and bottom-up security selection – a process that is well institutionalised and will continue into PIMCO's future.

As an update, in the financial markets over the reporting period:

- Investors reacted positively to better clarity regarding central bank policy despite a period marked by ongoing geopolitical risks. Equities posted positive returns and yields on developed market bonds were generally lower (prices therefore higher) as central banks remained largely accommodative. However, geopolitical risk continues to be a concern for investors, especially the ongoing tension between Ukraine and Russia, and the growing unrest in the Middle East. Investors reacted to these geopolitical events by either embracing risk assets (at times when concerns ebbed) to resorting to the perceived safety of fixed income assets (at times of heightened concern).
- In Europe, slower economic growth and fears of deflation prompted a series of unprecedented actions by the European Central Bank ("ECB"). For example, ECB President Mario Draghi lowered the ECB's benchmark rate by 10 basis points, reduced its deposit rate into negative territory to help mitigate potential deflationary forces (making the ECB the first major central bank to do so), opened a liquidity channel to help encourage bank lending, and announced plans for an asset purchase programme. These measures reflect the ECB's determination to tackle the threat of deflation in the Eurozone amid slower-than-expected economic growth.
- The US economy showed signs of improvement on steady employment growth and renewed business investment activity, which was viewed favourably by investors. At its September 2014 meeting, the Federal Reserve ("Fed") reiterated its intent to keep the Federal Funds Rate near zero for a considerable time even after the completion of its purchases of US Treasuries and mortgage-backed securities by the end of October 2014. In addition, the Fed noted that future increases in the Federal Funds Rate would be dependent on signs of continuing economic improvement in the US, including a decline on the US unemployment rate.
- Japan raised its consumption tax, leading to a decline in household spending and retail sales, which weighed on the Japanese
 economy. China, also facing a more challenging growth outlook, launched a mini-stimulus programme and continued to fine
 tune its monetary policies amid lingering concerns regarding shadow banking-related defaults. Investors also watched closely
 the growing protests in Hong Kong towards the end of the reporting period, monitoring China's reaction.

Chairman's letter (continued)

If you have questions regarding the PIMCO Fixed Income Source ETFs plc, please contact the London office on +44 (0) 20 3640 1000, or for fund-operation questions, the Administrator on +353 (0)1 603 6200. We also invite you to visit www.source.info for additional information.

Thank you for the trust you have placed in PIMCO. We are privileged to serve you through our global ETF offerings. You can expect from our ETF products PIMCO's continued commitment to excellence in managing risk and delivering returns.

Sincerely,

allit

William R. Benz Chairman . 21 October 2014

Important information about the Funds

This material is authorised for use only when preceded or accompanied by the current PIMCO Fixed Income Source ETFs plc Prospectus. Investors should consider the investment objectives, risks, charges and expenses of each Fund carefully before investing. This and other information is contained in each Fund's Prospectus supplement. Please read the Prospectus carefully before you invest or send money.

The PIMCO Emerging Markets Advantage Local Bond Index Source UCITS ETF, the PIMCO European Advantage Government Bond Index Source UCITS ETF. the PIMCO German Government Bond Index Source UCITS ETF and the PIMCO Short-Term High Yield Corporate Bond Index Source UCITS ETF are exchange-traded funds ("ETFs") that all seek to provide a return that closely corresponds, before fees and expenses, to the total return of a specified index (collectively, the "Passive Funds"). The Passive Funds employ a representative sampling strategy in seeking to achieve their investment objectives and as a result may not hold all of the securities that are included in the underlying index. The PIMCO Covered Bond Source UCITS ETF, the PIMCO Euro Short Maturity Source UCITS ETF, the PIMCO Sterling Short Maturity Source UCITS ETF and the PIMCO US Dollar Short Maturity Source UCITS ETF, unlike Passive Funds, are actively managed ETFs that do not seek to track the performance of a specified index (collectively, the "Active Funds" and together with the Passive Funds, the "Funds"). PIMCO Emerging Markets Advantage Local Bond Index Source UCITS ETF, PIMCO Short-Term High Yield Corporate Bond Index Source UCITS ETF, PIMCO Sterling Short Maturity Source UCITS ETF and PIMCO US Dollar Short Maturity Source UCITS ETF are listed on the Irish Stock Exchange (as well as the London Stock Exchange). Shares of the PIMCO Covered Bond Source UCITS ETF, PIMCO Euro Short Maturity Source UCITS ETF, PIMCO European Advantage Government Bond Index Source UCITS ETF and PIMCO German Government Bond Index Source UCITS ETF are listed and traded at market prices on the Deutsche Börse AG. The Funds are also listed and traded on other secondary markets. The market price for each Fund's shares may be different from the Fund's net asset value ("NAV"). Each Fund issues and redeems shares at its NAV only in blocks of a specified number of shares ("Primary Shares"). Only certain large institutional investors may purchase or redeem Primary Shares directly with the Funds at NAV ("Authorised Participants"). Secondary market investors may redeem shares directly in circumstances where the stock exchange value of the shares significantly varies from its NAV. These transactions are in exchange for certain securities similar to a Fund's portfolio and/or cash.

The Funds invest in particular segments of the securities markets, which are not representative of the broader securities markets. While we believe that bond funds have an important role to play in a well-diversified investment portfolio, an investment in a Fund alone should not constitute an entire investment program. It is important to note that in an environment where interest rates may trend upward, rising rates would negatively impact the performance of most bond funds, and fixed income securities held by the Funds are likely to decrease in value. The price volatility of fixed income securities can also increase during periods of rising interest rates resulting in increased losses to the Funds. Bond funds and individual bonds with a longer duration (a measure of the expected life of a security) tend to be more sensitive to changes in interest rates, usually making them more volatile than securities or funds with shorter durations.

The Funds may be subject to various risks in addition to those described above. Some of these risks may include, but are not limited to, the following: secondary market trading risk, interest rate risk, credit risk, market risk, liquidity risk, derivatives risk, leveraging risk, issuer risk, mortgage-related and other asset backed risk, foreign investment risk, emerging markets risk and management risk. A complete description of these and other risks is contained in the Prospectus of the Company. The Funds may use financial derivative instruments for hedging purposes or as part of an investment strategy. Use of these instruments may involve certain costs and risks such as liquidity risk, interest rate risk, market risk, credit risk, management risk and the risk that a Fund could not close out a position when it would be most advantageous to do so. A Fund could lose more than the principal amount invested in these financial derivative instruments. The credit quality of a particular security or group of securities does not ensure the stability or safety of the overall portfolio.

On each individual Fund Summary page in this Semiannual Report ("Shareholder report"), the Net Performance chart measures performance assuming that all dividend and capital gain distributions were reinvested. Returns do not reflect the deduction of taxes that a shareholder would pay on: (i) Fund distributions; or (ii) the redemption of Fund shares. The Net Performance chart measures each Fund's performance against the performance of a broad-based securities market index (benchmark index). Each Fund's past performance, before and after taxes, is not necessarily an indication of how the Fund will perform in the future. An investment in a Fund is not a deposit of a bank and is not guaranteed or insured by the Federal Deposit Insurance Corporation or any other government agency. It is possible to lose money on investments in the Funds.

Important information about the Funds (continued)

The Funds may make available a complete schedule of portfolio holdings and the percentages they represent of the Funds' net assets. On each business day, before commencement of trading on Relevant Stock Exchanges (as defined in the Prospectus), each Fund will disclose on <u>www.source.info</u> the identities and quantities of the Fund's portfolio holdings that will form the basis for the Fund's calculation of NAV in respect of the previous Dealing Day. Fund fact sheets provide additional information regarding a Fund and may be requested by calling +44 (0) 20 3640 1000.

PIMCO Covered Bond Source UCITS ETF

Since inception net performance based on NAV - As at 30 September 2014

Name	6 Months	Since Inception ¹
PIMCO Covered Bond Source UCITS ETF		
(Inception 17-Dec-2013)	5.59%	8.25%
Barclays Euro Aggregate Covered 3% Cap	4.06%	6.16%

¹ Cumulative return net of fees and expenses.

- The investment objective of the Fund is to seek to maximise total return, consistent with prudent investment management. The Fund will seek to achieve its investment objective by investing in an actively managed portfolio of Fixed Income Securities (as defined in the Prospectus) of which at least 80% will be invested in Covered Bonds in accordance with the policies set out in the Fund's Prospectus. Covered Bonds are securities issued by a financial institution and backed by a group of loans residing on the balance sheet of the financial institution known as the "cover pool". The Fund's base currency is Euro.
- The Fund commenced operations on 17 December 2013.
- An overweight in Periphery covered bonds and security selection within these segments contributed positively to performance, driven by spread convergence of Periphery to Core as well as outperformance of specific instruments such as Spanish Multicèdulas.
- Exposure to hedged non-Euro denominated investments contributed positively to performance due to tightening of spreads as well as incremental carry over fundamentally comparable Euro denominated issues.
- An overweight to the intermediate portion of the yield curve contributed positively to absolute returns as 5 to 10 year rates fell over the reporting period.
- A marginally short duration position (or sensitivity to changes in market interest rates) slightly detracted from performance due to declining interest rates over the reporting period.

PIMCO Emerging Markets Advantage Local Bond Index Source ETF

Since inception net performance based on NAV - As at 30 September 2014

Name	6 Months	Since
PIMCO Emerging Markets Advantage Local		
Bond Index Source UCITS ETF

PIMCO Emerging Markets Advantage Local		
Currency Bond Index	(1.61%)	1.47%

¹ Annualised return net of fees and expenses for share classes incepted over a year ago.

- The Fund seeks to provide a return that closely corresponds, before fees and expenses, to the total return of the PIMCO Emerging Markets Advantage Local Currency Bond Index (the "Index") by investing its assets in a diversified portfolio of non-US Dollar-denominated Fixed Income Instruments (as defined in the Prospectus) that, as far as possible and practicable, consist of the component securities of the Index. The Fund may invest directly in the component securities of the Index or gain an indirect exposure to those securities through derivative instruments such as swaps. The Index tracks the performance of a GDP-weighted basket of emerging market local government bonds, currencies, or currency forwards, subject to a maximum exposure of 15% per country.
- Currencies to which the Fund had exposure declined relative to the US Dollar and offset gains experienced as emerging market yields declined, resulting in negative performance for the Fund and the Index over the reporting period.

PIMCO Euro Short Maturity Source UCITS ETF

Since inception net performance based on NAV - As at 30 September 2014

		Since
Name	6 Months	inception ¹
PIMCO Euro Short Maturity Source UCITS		
ETF (Inception 11-Jan-2011)	0.50%	1.29%
Eonia [®] - Euro OverNight Index Average	0.06%	0.35%

¹ Annualised return net of fees and expenses for share classes incepted over a year ago.

- The Fund seeks to generate maximum current income, consistent with preservation of capital and daily liquidity, by investing primarily in an actively managed diversified portfolio of Euro-denominated Fixed Income Securities (as defined in the Prospectus) of varying maturities including government bonds and securities issued or guaranteed by their sub-divisions, agencies governments, or instrumentalities, corporate debt securities and mortgage or other asset-backed securities. The Fund may seek to obtain market exposure to the securities in which it primarily invests by entering into a series of purchase and sale contracts or by using other investment techniques (such as buy backs). The Fund's weighted average maturity is not expected to exceed 3 years. The average portfolio duration of the Fund will be up to one year based on the Investment Adviser's forecast for interest rates. The Fund invests only in investment grade securities that are rated at least Baa3 by Moody's or BBB by S&P (or, if unrated, determined by the Investment Adviser to be of comparable quality). The Fund may invest up to a maximum of 5% of its assets in emerging market Fixed Income Securities.
- Positive duration exposure (or sensitivity to changes in market interest rates) to Spain, Slovenia, Germany, and France was positive for performance as interest rates in these countries generally declined during the reporting period.
- Exposure to Austrian government guaranteed debt detracted from performance due to security selection.
- Exposure to corporate financials and industrials was positive for performance due to spread compression and security selection.

PIMCO European Advantage Government Bond Index Source UCITS ETF

Since inception net performance based on NAV - As at 30 September 2014

		Since
Name	6 Months	inception ¹
PIMCO European Advantage Government		
Bond Index Source UCITS ETF		
(Inception 11-Jan-2011)	5.82%	6.96%
PIMCO European Advantage Government		
Bond Index	5.89%	7.04%

¹ Annualised return net of fees and expenses for share classes incepted over a year ago.

- The Fund seeks to provide a return that closely corresponds, before fees and expenses, to the total return of the PIMCO European Advantage Government Bond Index (the "EurADI Index"). The Fund will invest its assets in a diversified portfolio of Euro-denominated Fixed Income Instruments (as defined in the Prospectus) that, as far as possible and practicable, consist of the component securities of the EurADI Index. The Fund may invest directly in the component securities of the EurADI Index or gain an indirect exposure to those securities through derivative instruments such as swaps. The EurADI Index is designed to offer investors an improved benchmark for European sovereign bond "beta" and is a GDP-weighted, investable benchmark comprised of investment grade, Eurodenominated government bond securities in the Eurozone. Where it is not possible for the Fund to invest directly or indirectly in the component securities of the EurADI Index, the Fund may also invest in Fixed Income Instruments that are as close to the component securities of the EurADI Index as possible. For cost effectiveness, the Fund may seek to obtain market exposure to the securities in which it primarily invests by entering into a series of purchase and sale contracts.
- Exposure to European Government yields within the EurADI Index, which declined over the reporting period, resulted in positive performance for both the Fund and the Index.

PIMCO German Government Bond Index Source UCITS ETF

Since inception net performance based on NAV - As at 30 September 2014

Name	6 Months	Since inception ¹
PIMCO German Government Bond Index		
Source UCITS ETF (Inception 21-Jun-		
2012)	4.58%	2.95%
Markit iBoxx € Germany Index	4.62%	2.98%

¹ Annualised return net of fees and expenses for share classes incepted over a year ago.

- The Fund seeks to provide a return that closely corresponds, before fees and expenses, to the total return of the Markit iBoxx € Germany Index (the "Index"), by investing its assets in a diversified portfolio of Eurodenominated Fixed Income Instruments (as defined in the Prospectus) that, as far possible and practicable, consist of the component securities of the Index. The Fund may invest directly in the component securities of the Index or gain an indirect exposure to those securities through derivative instruments such as swaps. The Index tracks the performance of Euro-denominated sovereign debt publicly issued by the German central government. Qualifying securities must have at least one year remaining term to final maturity, a fixed coupon schedule and a minimum amount outstanding of €2 billion. Bills and other money market instruments are excluded from the Index. Where it is not possible for the Fund to invest directly or indirectly in the component securities of the Index, the Fund may also invest in Fixed Income Instruments that are as close to the component securities of the Index as possible.
- Exposure to German Government Bund yields, which declined over the reporting period, resulted in positive performance for both the Fund and Index.

PIMCO Short-Term High Yield Corporate Bond Index Source UCITS ETF

Since inception net performance based on NAV - As at 30 September 2014

Name	6 Months	Since inception ¹
PIMCO Short-Term High Yield Corporate		
Bond Index Source UCITS ETF		
Classes denominated in USD		
USD Income Class		
(Inception 14-Mar-2012)	(0.47%)	6.55%
BofA Merrill Lynch 0-5 Year US High Yield		
Constrained Index	0.22%	7.52%
Classes denominated in EUR		
EUR Income Hedged Class		
(Inception 16-Oct-2013)	(0.53%)	3.07%
BofA Merrill Lynch 0-5 Year US High Yield		
Constrained Index (EUR Hedged)	0.14%	4.08%

¹ Annualised return net of fees and expenses for share classes incepted over a year ago.

- The investment objective of the Fund is to seek to provide a return that closely corresponds, before fees and expenses, to the total return of the BofA Merrill Lynch 0-5 Year US High Yield Constrained Index (the "Index"). The Fund will invest its assets in a diversified portfolio of US Dollardenominated Fixed Income Instruments (as defined in full in the Prospectus) that, as far possible and practicable, consist of the component securities of the Index. The Fund may invest directly in the component securities of the Index or gain an indirect exposure to those securities through derivative instruments such as swaps. The Index tracks the performance of short-term US Dollar-denominated below investment grade corporate debt publicly issued in the US domestic market including bonds, Rule 144a securities and pay-in-kind securities including Toggle Notes. Qualifying securities must have less than five years remaining term to final maturity, a below investment grade rating (based on an average of Moody's, S&P and Fitch), a fixed coupon schedule and a minimum amount outstanding of \$100 million. In addition, issuers of qualifying securities must be located in or have substantial business operations in investment grade countries that are members of the FX G10, Western Europe or territories of the US and Western Europe.
- An underweight to the Utilities sector relative to the Fund's benchmark index detracted from performance as this sector outperformed the Fund's overall benchmark index during the reporting period.

PIMCO Sterling Short Maturity Source UCITS ETF

Since inception net performance based on NAV - As at 30 September 2014

Name	6 Months	Since inception ¹
PIMCO Sterling Short Maturity Source		
UCITS ETF (Inception 10-Jun-2011)	0.36%	0.83%
3 Month GBP LIBID Index	0.24%	0.63%

¹ Annualised return net of fees and expenses for share classes incepted over a year ago.

- The Fund seeks to generate maximum current income, consistent with preservation of capital and daily liquidity by investing primarily in an actively managed diversified portfolio of UK Sterling-denominated Fixed Income Securities (as defined in the Prospectus) of varying maturities including government bonds and securities issued or guaranteed by governments, their sub-divisions, agencies or instrumentalities, corporate debt securities and unleveraged mortgage or other asset-backed securities. The Fund may seek to obtain market exposure to the securities in which it primarily invests by entering into a series of purchase and sale contracts or by using other investment techniques (such as buy backs). The Fund may invest without limit in mortgage or other asset-backed securities. The Fund's weighted average maturity is not expected to exceed 3 years. The average portfolio duration of the Fund will be up to one year based on the Investment Advisers' forecast for interest rates. The Fund invests only in investment grade securities that are rated at least Baa3 by Moody's or BBB by S&P (or, if unrated, determined by the Investment Advisers to be of comparable quality). The Fund may invest up to a maximum of 5% of its assets in emerging market Fixed Income Securities.
- Exposure to select high quality investment grade bonds, especially in the banking sector, contributed to performance as these securities delivered positive total returns over the reporting period.
- Modest exposure to European covered bonds contributed to performance as these securities delivered positive total returns over the reporting period.
- An exposure to certain government Agency and government guaranteed bonds contributed to performance as these issues outperformed over the reporting period.

PIMCO US Dollar Short Maturity Source UCITS ETF

Since inception net performance based on NAV - As at 30 September 2014

Name	6 Months	Since inception ¹
PIMCO US Dollar Short Maturity Source		
UCITS ETF (Inception 22-Feb-2011)	0.37%	1.02%
Citi 3-Month Treasury Bill Index	0.02%	0.06%

¹ Annualised return net of fees and expenses for share classes incepted over a year ago.

- The Fund seeks to generate maximum current income, consistent with preservation of capital and daily liquidity, by investing primarily in an actively managed diversified portfolio of US Dollar-denominated Fixed Income Securities (as defined in the Prospectus) of varying maturities including government bonds and securities issued or guaranteed by governments, their sub-divisions, agencies or instrumentalities, corporate debt securities and mortgage or other asset-backed securities. The Fund may seek to obtain market exposure to the securities in which it primarily invests by entering into a series of purchase and sale contracts or by using other investment techniques (such as buy backs). The Fund may invest without limit in mortgage or other asset-backed securities. The Fund's weighted average maturity is not expected to exceed 3 years. The average portfolio duration of the Fund will be up to one year based on the Investment Advisers' forecast for interest rates. The Fund invests only in investment grade securities that are rated at least Baa3 by Moody's or BBB by S&P (or, if unrated, determined by the Investment Advisers to be of comparable quality). The Fund may invest up to a maximum of 5% of its assets in emerging market Fixed Income Securities.
- An increase in 2-year yields during the reporting period detracted from performance due to the Fund's overweight exposure to the 2-year portion of the yield curve.
- Exposure to investment grade corporate securities added to overall performance as these securities generated positive total returns during the reporting period.
- Exposure to securitised products, such as commercial mortgage-backed securities, benefited performance as these securities generated positive total returns during the reporting period.

Benchmark descriptions

The Barclays Euro Aggregate Covered 3% Cap Index (the "Index") tracks the performance of Euro-denominated covered bonds. Inclusion is based on the currency denomination of the issue and not the domicile of the issuer. Qualifying securities must have an investment grade rating (based on an average of Moody's, S&P and Fitch), at least one year remaining term to final maturity, a fixed coupon schedule and a minimum amount outstanding of EUR 300 million. Index constituents are capitalisation-weighted, based on their current amount outstanding, provided the total allocation to an individual issuer does not exceed 3%. It is not possible to invest directly in an unmanaged index.

PIMCO Emerging Markets Advantage Local Currency Bond Index

The PIMCO Emerging Markets Advantage Local Currency Bond Index tracks the performance of a GDP-weighted basket of emerging market local government bonds, currencies, or currency forwards, subject to a maximum exposure of 15% per country. Countries are selected, and their weights are determined, annually. Qualifying countries must have a minimum average sovereign rating of BB- (with such ratings provided by recognised rating agencies), represent greater than 0.3% of world GDP, designated as mid or low income based on Gross National Income per capita as published by the World Bank and have a liquid local bond or FX market. Countries whose internal or external borrowing is subject to EU or US sanctions are not eligible for the Index. It is not possible to invest directly in an unmanaged index.

Eonia[®] - Euro OverNight Index Average

Eonia[®] - Euro OverNight Index Average is the effective overnight reference rate for the Euro. It is computed as a weighted average of all overnight unsecured lending transactions undertaken in the interbank market, initiated within the Euro area by the contributing banks. It is not possible to invest directly in an unmanaged index.

PIMCO European Advantage Government Bond Index

The PIMCO European Advantage Government Bond Index (EurADI Government) is a new GDP-weighted benchmark that tracks investment-grade, euro-denominated government bond securities in the Eurozone. Launched in July 2010, EurADI Government is the Eurozone component of the PIMCO Global Advantage Government Bond Index (GLADI Government) and designed to offer investors an improved benchmark for European sovereign bond "beta". By avoiding the bias of market capitalization-weighted indexes to overweight highly indebted countries, the European Advantage Government Bond Index provides a building block for portfolios with the potential for higher risk-adjusted returns. It is not possible to invest directly in an unmanaged index.

Markit iBoxx € Germany Index

Markit iBoxx € Germany Index tracks the performance of Eurodenominated sovereign debt publicly issued by the German central government. Qualifying securities must have at least one year remaining term to final maturity, a fixed coupon schedule and a minimum amount outstanding of €2 billion. Bills and other money market instruments are excluded from the index. It is not possible to invest directly in an unmanaged index.

BofA Merrill Lynch 0-5 Year US High Yield Constrained Index

The BofA Merrill Lynch 0-5 Year US High Yield Constrained Index tracks the performance of short-term US Dollardenominated below investment grade corporate debt issued in the US domestic market with less than five years remaining term to final maturity, a fixed coupon schedule and a minimum amount outstanding of \$100 million, issued publicly. Allocations to an individual issuer will not exceed 2%. It is not possible to invest directly in an unmanaged index.

3 Month GBP LIBID Index

3 Month GBP LIBID Index. LIBID (London Interbank Bid Rate) is an average interest rate, determined by the British Bankers Association, that banks charge one another for the use of shortterm money (3 months) in England's Eurodollar market. It is not possible to invest directly in an unmanaged index.

Citi 3-Month Treasury Bill Index

Citi 3-Month Treasury Bill Index is an unmanaged index representing monthly return equivalents of yield averages of the last 3 month Treasury Bill issues. It is not possible to invest directly in an unmanaged index.

Portfolio of investments and assets (unaudited) (continued)

As at 30 September 2014

Notes to Portfolio of investments and assets (amounts in thousands*):

* A zero balance may reflect actual amounts rounding to less than one thousand.

(a) Cash of \$810 has been pledged as collateral for OTC swap and forward foreign currency contracts as governed by ISDA Master Agreements as at 30 September 2014.

(b) Fair value measurements¹

The following is a summary of the fair valuations according to the inputs used as at 30 September 2014 in valuing the Fund's assets and liabilities:²

Category ³	in active for	ed prices e markets r identical restments (Level 1)	Sig	nificant other observable inputs (Level 2)	Significant unobservable inputs (Level 3)	Fair value
Transferable securities	\$	0	\$	293,675	\$ 0	\$ 293,675
Financial derivative instruments ⁴		0		58	0	58
Totals	\$	0	\$	293,733	\$ 0	\$ 293,733

¹ See Note 3 in the Notes to financial statements for additional information.

² There were no transfers into and out of Level 1, Level 2 and Level 3 during the period ended 30 September 2014.

³ Refer to the Portfolio of investments and assets for additional information.

⁴ Financial derivative instruments may include open future contracts, swap agreements, written options and forward foreign currency contracts.

(c) Collateral (received) pledged for OTC financial derivative instruments

The following is a summary by counterparty of the market value of OTC financial derivative instruments and collateral (received)/pledged as at 30 September 2014:

	Financia	al derivativ	/e asse	ts		Financia	l deriv	ative liabili	ties

Portfolio of investments and assets (continued)

As at 31 March 2014

Notes to Portfolio of investments and assets (amounts in thousands*):

* A zero balance may reflect actual amounts rounding to less than one thousand.

(a) Securities with an aggregate market value of \$1 and cash of \$1,150 have been pledged as collateral for OTC swap and foreign currency contracts as governed by ISDA Master Agreements as at 31 March 2014.

(b) Fair value measurements¹

The following is a summary of the fair valuations according to the inputs used as at 31 March 2014 in valuing the Fund's assets and liabilities:²

Category ³	in activ fo	ted prices e markets r identical /estments (Level 1)	Sig	nificant other observable inputs (Level 2)	Significant unobservable inputs (Level 3)	Fair value
Transferable securities	\$	0	\$	220,539	\$ 0	\$ 220,539
Financial derivative instruments ⁴		0		1,912	0	1,912
Totals	\$	0	\$	222,451	\$ 0	\$ 222,451

¹ See Note 3 in the Notes to financial statements for additional information.

² There were no transfers into and out of Level 1, Level 2 and Level 3 during the year ended 31 March 2014.

³ Refer to the Portfolio of investments and assets for additional information.

⁴ Financial derivative instruments may include open futures contracts, swap agreements, written options and forward foreign currency contracts.

(c) Collateral (received) pledged for OTC financial derivative instruments

The following is a summary by counterparty of the market value of OTC financial derivative instruments and collateral (received)/pledged as at 31 March 2014:

As at 30 September 2014

Notes to Portfolio of investments and assets (amounts in thousands*):

* A zero balance may reflect actual amounts rounding to less than one thousand.

(a) Principal amount of security is adjusted for inflation.

(b) Securities with an aggregate market value of €63,668 have been pledged or delivered as initial collateral and /or additional collateral for repurchase agreements, reverse repurchase agreements, and/or sale-buyback financing transactions as governed by Master Repurchase Agreements and/or Global Master Repurchase Agreements as of 30 September 2014.

(c) Restricted securities

							% of
		Maturity	Acquisition			Fair	net
Issuer description	Coupon	date	date	Cost		value	assets
Slovenska izvozna in razvojna banka dd	3.383%	03/28/2016	03/26/2014	€ 4,737	€	4,778	0.31

(d) Fair value measurements¹

The following is a summary of the fair valuations according to the inputs used as at 30 September 2014 in valuing the Fund's assets and liabilities:²

Category ³	Quoted prices in active markets for identical investments (Level 1)	Significant other observable inputs (Level 2)	Significant unobservable inputs (Level 3)		Fair value
Transferable securities	€ 0	€ 1,575,372	€ 10,616	€	1,585,988

The following is a summary of the fair valuations using significant unobservable inputs (Level 3) for the Fund during the period ended 30 September 2014:

																u	hange in nrealised eciation/
										Net o	hange in					(depi	reciation)
	Sta	irting					Accrued		Realised	u	nrealised	Ne	t transfers		Ending	on inve	estments

(a) Principal amount of security is adjusted for inflation.

Significant portfolio changes are defined as the twenty largest purchases and twenty largest sales. Should there have been less than that amount of transactions, all such transactions have been disclosed.

Overnight investments of uninvested Fund cash which usually mature the next business day have been excluded from the Significant changes in portfolio composition.

Portfolio of investments and assets (continued)

As at 31 March 2014

Notes to Portfolio of investments and assets (amounts in thousands*): *A zero balance may reflect actual amounts rounding to less than one thousand.

(a) Securities with an aggregate market value of €2,957 have been pledged or delivered as initial collateral and/or additional for repurchase agreements, reverse repurchase agreements, and/or sale-buyback financing transactions as governed by Master Repurchase Agreements and/or Global Master Repurchase Agreements as at 31 March 2014.

(b) Restricted securities

							% of
		Maturity	Acquisition			Fair	net
Issuer description	Coupon	date	date	Cost		value	assets
Slovenska izvozna in razvojna banka dd	3.619%	03/28/2016	03/26/2014	€ 2,696	€	2,690	0.25

(c) Fair value measurements¹

The following is a summary of the fair valuations according to the inputs used as at 31 March 2014 in valuing the Fund's assets and liabilities:²

Category ³	in acti f	oted prices ve markets or identical ivestments (Level 1)	Sig	nificant other observable inputs (Level 2)		Significant unobservable inputs (Level 3)		Fair value
Transferable securities	€	0	€	1,034,727	€	0	€	1,034,727
Deposits with credit institutions		0		4,897		0		4,897
Totals	€	0	€	1,039,624	€	0	€	1,039,624

¹ See Note 3 in the Notes to financial statements for additional information.

² There were no transfers into and out of Level 1, Level 2 and Level 3 during the year ended 31 March 2014.

³ Refer to the Portfolio of investments and assets for additional information.

(d) Reverse repurchase agreements as of 31 March 2014:

						revers	Payable for se repurchase	% of
Counterparty	Borrowing rate	Settlement date	Maturity date	Borro	wing amount		agreements	net assets
BRC	(1.500%)	03/25/2014	03/24/2016	€	2,960	€	(2,959)	(0.28)

(e) Borrowings and other financing transactions summary

The following is a summary by counterparty of the market value of borrowings and other financing transactions and collateral (received)/pledged as of 31 March 2014:

Counterparty	agre proce	urchase eement eds to be ceived	rep	able for everse urchase eements	fii	Total rowings & other nancing nsactions	Со	llateral ed)/pledged	l Net exp	osure ⁽¹⁾
Global/Master repurchase agreements BPS BRC Total borrowings and other financing transactions	€	4,900 0 4,900	€ €	0 (2,959) (2,959)	€	4,900 (2,959)	€	(4,891) 2,957	€	9 (2)

⁽¹⁾Net exposure represents the net receivable/(payable) that would be due from/to the counterparty in the event of default. Exposure from borrowings and other financing transactions can only be netted across transactions governed under the same master agreement with the same legal entity. See Note 15, Financial risks, in the Notes to financial statements for more information regarding master netting agreements.

(1) If the Fund is a seller of protection and a credit event occurs, as defined under the terms of that particular swap agreement, the Fund will either (i) pay to the buyer of protection an equal amount to the notional amount of the swap and take delivery of the referenced obligation, or underlying securities comprising the referenced index or (ii) pay a net settlement amount in the form of cash or securities equal to the notional amount of the swap less the recovery value of the referenced obligation or underlying securities comprising the referenced index.

⁽²⁾ The maximum potential amount the Fund could be required to pay as a seller of credit protection or receive as a buyer of credit protection if a credit event occurs as defined under the terms of that particular swap agreement.

Transferable securities	\$	1,358	\$	0	\$ (900)	\$	0	\$ 35	\$	(189)	\$	0	\$	304	\$	(33)

¹ See Note 3 in the Notes to financial statements for additional information.

² There were no transfers into and out of Level 1, Level 2 and Level 3 during the period ended 30 September 2014.

³ Refer to the Portfolio of investments and assets for additional information.

⁴ Financial derivative instruments may include open futures contracts, swap agreements, written options, purchased options and forward foreign currency contracts.
 ⁵ Net purchases and sales for financial derivative instruments may include payments made or received upon entering into swap agreements to compensate for differences

between the stated terms of the swap agreement and prevailing market conditions.
⁶ Any difference between Net change in unrealised appreciation/(depreciation) and Net change in unrealised appreciation/(depreciation) on investments held at period end may be due to an investment no longer held or categorised as Level 3 at period end.

As at 30 September 2014, the EUR Income (Hedged) Class had the following forward foreign currency contracts outstanding:

Settlement month		Currency to be delivered		Currency to be received	Counterparty	Unrealised appreciation	Unrealised (depreciation)	Net unrealised appreciation/ (depreciation)	% of net assets

				\$ 1,009	0.11

(1) If the Fund is a seller of protection and a credit event occurs, as defined under the terms of that particular swap agreement, the Fund will either (i) pay to the buyer of protection an equal amount to the notional amount of the swap and take delivery of the referenced obligation, or underlying securities comprising the referenced index or (ii) pay a net settlement amount in the form of cash or securities equal to the notional amount of the swap less the recovery value of the referenced obligation or underlying securities comprising the referenced index.

⁽²⁾ The maximum potential amount the Fund could be required to pay as a seller of credit protection or receive as a buyer of credit protection if a credit event occurs as defined under the terms of that particular swap agreement.

(e) Fair value measurements¹

The following is a summary of the fair valuations according to the inputs used as at 31 March 2014 in valuing the Fund's assets and liabilities:²

Category ³	in activ fo	ted prices e markets r identical /estments (Level 1)	Sig	nificant other observable inputs (Level 2)	Significant unobservable inputs (Level 3)	Fair value
Transferable securities	\$	0	\$	948,011	\$ 1,358	\$ 949,369
Financial derivative instruments		0		1,009	0	1,009
Totals	\$	0	\$	949,020	\$ 1,358	\$ 950,378

The following is a summary of the fair valuations using significant unobservable inputs (Level 3) for the Fund during the year ended 31 March 2014:

														t change in unrealised preciation/
	b	Starting		Net	Net	d	Accrued	Realised gains/	 change in unrealised preciation/	t transfers in/(out) of	t	Ending balance at	× 1	preciation) vestments held at
Category ³	31-	Mar-2013	р	urchases	sales ⁴	(p	remiums)	(losses)	 preciation)	· · ·		Mar-2014	31-	Mar-2014 ⁵
Transferable securities	\$	1,173	\$	0	\$ 0	\$	0	\$ 0	\$ 185	\$ 0	\$	1,358	\$	185

¹ See Note 3 in the Notes to financial statements for additional information.

² There were no transfers into and out of Level 1, Level 2 and Level 3 during the year ended 31 March 2014.

³ Refer to the Portfolio of investments and assets for additional information.

⁴ Net purchases and sales for financial derivative instruments may include payments made or received upon entering into swap agreements to compensate for differences between the stated terms of the swap agreement and prevailing market conditions.

⁵ Any difference between Net change in unrealised appreciation/(depreciation) and Net change in unrealised appreciation/(depreciation) on investments held at year end may be due to an investment no longer held or categorised as Level 3 at year end.

As at 31 March 2014, the EUR Income (Hedged) Class had the following foreign currency contracts outstanding:

Notes to Portfolio of investments and assets (amounts in thousands*):

* A zero balance may reflect actual amounts rounding to less than one thousand.

- (a) Securities with an aggregate market value of £1,357 have been pledged or delivered as initial collateral and/or additional for repurchase agreements, reverse repurchase agreements, and/or sale-buyback financing transactions as governed by Master Repurchase Agreements and/or Global Master Repurchase Agreements as at 30 September 2014.
- (b) When-issued security.
- (c) Fair value measurements¹

The following is a summary of the fair valuations according to the inputs used as at 30 September 2014 in valuing the Fund's assets and liabilities:²

Category ³	in activ fo	oted prices ve markets or identical vestments (Level 1)	Sig	nificant other observable inputs (Level 2)		Significant unobservable inputs (Level 3)		Fair value
Transferable securities	£	0	£	66,644	£	0	£	66,644
Financial derivative instruments ⁴		0		306		0		306
Totals	£	0	£	66,950	£	0	£	66,950

Portfolio of investments and assets (unaudited) (continued)

As at 30 September 2014

¹ See Note 3 in the Notes to financial statements for additional information.

² There were no transfers into and out of Level 1, Level 2 and Level 3 during the period ended 30 September 2014.

³ Refer to the Portfolio of investments and assets for additional information.

⁴ Financial derivative instruments may include open futures contracts, swap agreements, written options, purchased options and forward foreign currency contracts.

(d) Reverse repurchase agreements as of 30 September 2014:

						reve	Payable for rse repurchas	
Counterparty	Borrowing rate	Settlement date	Maturity date	Borrov	wing amount		agreement	ts s
BRC	(0.750%)	08/19/2014	08/18/2016	£	505	£	(504)	(0.79)

(a) Fair value measurements¹

The following is a summary of the fair valuations according to the inputs used as at 31 March 2014 in valuing the Fund's assets and liabilities:²

Category ³	in active fo	ted prices e markets r identical vestments (Level 1)	Sigr	nificant other observable inputs (Level 2)	t	Significant unobservable inputs (Level 3)		Fair value
Transferable securities	£	0	£	77,250	£	0	£	77,250
Financial derivative instruments ⁴		0		37		0		37
Totals	£	0	£	77,287	£	0	£	77,287

¹ See Note 3 in the Notes to financial statements for additional information.

² There were no transfers into and out of Level 1, Level 2 and Level 3 during the year ended 31 March 2014.

³ Refer to the Portfolio of investments and assets for additional information.

⁴ Financial derivative instruments may include open futures contracts, swap agreements, written options, purchased options and forward foreign currency contracts.

Portfolio of investments and assets (continued)

As at 31 March 2014

(b) Collateral (received) pledged for OTC financial derivative instruments

The following is a summary by counterparty of the market value of OTC financial derivative instruments and collateral (received)/pledged as at 31 March 2014:

Fi	inancia	l deriv	ative asse	ts	Fina	ncial der	ivative liab	ilities

Transferable securities	s \$ 41,087	\$	13,951	\$ (32,045)	\$ 2	\$ 9	\$	19	\$	(6,707)	\$ 16,316	\$	14

¹ See Note 3 in the Notes to financial statements for additional information.

² There were no transfers into and out of Level 1 during the period ended 30 September 2014.

³ Refer to the Portfolio of investments and assets for additional information.

⁴ Net purchases and sales for financial derivative instruments may include payments made or received upon entering into swap agreements to compensate for differences between the stated terms of the swap agreement and prevailing market conditions.

⁵ Any difference between Net change in unrealised appreciation/(depreciation) and Net change in unrealised appreciation/(depreciation) on investments held at period end may be due to an investment no longer held or categorised as Level 3 at period end.

Portfolio of investments and assets (unaudited) (continued)

As at 30 September 2014

The following table presents the transfers between levels for securities held at 30 September 2014 and 31 March 2014:

	active	Quoted prices in active markets for identical investments (Level 1)				Significant unobservable inputs (Level 3)
Transfers between levels 2 and 3: Transferable securities	\$	0	\$	6,707	\$	(6,707)

At 30 September 2014, the net amount disclosed for investments that transferred from Level 3 to Level 2 was the result of a vendor price being used for two corporate bonds, one sovereign issue and one mortgage-backed security at 30 September 2014 rather than a PIMCO fair value price as previously used. At 30 September 2014, the net amount disclosed for investments that transferred from Level 2 to Level 3 was the result of a PIMCO fair value price being used for one mortgage-backed security at 30 September 2014 rather than a vendor price as previously used.

Transfers between levels of the fair value hierarchy, for the purpose of preparing the above table, are deemed to have occurred at the end of the reporting period.

Significant portfolio changes are defined as the twenty largest purchases and twenty largest sales. Should there have been less than that amount of transactions, all such transactions have been disclosed.

Overnight investments of uninvested Fund cash which usually mature the next business day have been excluded from the Significant changes in portfolio composition.

Portfolio of investments and assets (continued)

As at 31 March 2014

Notes to Portfolio of investments and assets (amounts in thousands*):

* A zero balance may reflect actual amounts rounding to less than one thousand.

(a) Securities with an aggregate market value of \$54,941 have been pledged or delivered as initial collateral and/or additional collateral for repurchase agreements, reverse repurchase agreements, and/or sale-buyback financing transactions as governed by Master Repurchase Agreements and/or Global Master Repurchase Agreements as of 31 March 2014.

(b) Restricted securities

		Maturity	Acquisition		Fair	net
Issuer description	Coupon	date	date	Cost	value	assets
BMW Finance NV	0.813%	06/16/2014	12/10/2013	\$ 4,002	\$ 4,004	0.24

(c) Fair value measurements¹

The following is a summary of the fair valuations according to the inputs used as at 31 March 2014 in valuing the Fund's assets and liabilities:²

o	in act	oted prices ive markets for identical nvestments	Si	gnificant other observable inputs	Significant unobservable inputs	.
Category		(Level 1)		(Level 2)	(Level 3)	Fair value
Transferable securities	\$	0	\$	1,622,233	\$ 41,087	\$ 1,663,320
Deposits with credit institutions		0		31,477	0	31,477
Totals	\$	0	\$	1,653,710	\$ 41,087	\$ 1,694,797

The following is a summary of the fair valuations using significant unobservable inputs (Level 3) for the Fund during the year ended 31 March 2014:

									Net o	hange in
									unr	ealised
										ciation/
									(depred	ciation)
					Net	t change				on
						in			inves	tments
	Starting			Accrued	Realised ur	nrealised	Net transfers	Ending		held at
	balance at	Net	Net	discounts/	gains/ appr	eciation/	in/(out) of	balance at	3	1-Mar-
Category ³	31-Mar-2013	purchases ⁴	sales ⁴	(premiums)	(losses) (depr	eciation)	Level 3	31-Mar-2014		2014 ⁵
Transferable securities	\$ 14,747	\$ 58,438	\$ (13,550)	\$ 35	\$ 5 \$	41	\$ (18,629)	\$ 41,087	\$	11

¹ See Note 3 in the Notes to financial statements for additional information.

² There were no transfers into and out of Level 1 during the year ended 31 March 2014.

³ Refer to the Portfolio of investments and assets for additional information.

⁴ Net purchases and sales for financial derivative instruments may include payments made or received upon entering into swap agreements to compensate for differences between the stated terms of the swap agreement and prevailing market conditions.

⁵ Any difference between Net change in unrealised appreciation/(depreciation) and Net change in unrealised appreciation/(depreciation) on investments held at year end may be due to an investment no longer held or categorised as Level 3 at year end.

0/of

Portfolio of investments and assets (continued)

As at 31 March 2014

The following table presents the transfers between levels for securities held at 31 March 2014 and 31 March 2013:

	active	ed prices in markets for nvestments (Level 1)	Significant other observable inputs (Level 2)	Significant unobservable inputs (Level 3)		
Transfers between levels 2 and 3: Transferable securities	\$	0	\$ 18,629	\$ (18,629)		

At 31 March 2014, the net amount disclosed for investments that transferred from Level 3 to Level 2 was the result of a vendor price being used for one corporate bond and two asset-backed securities at 31 March 2014 rather than a PIMCO fair value price as previously used.

(d) Reverse repurchase agreements as of 31 March 2014:

					revers	Payable for se repurchase	% of
Counterparty	Borrowing rate	Settlement date	Maturity date	Borrowing amount		agreements	net assets

BSN		(10,593)		0		(10,593)		10,581		(12)
JPS		(13,787)		0		(13,787)		13,764		(23)
Master securities forward transactions agreements										
BCY		0		(29,106)		(29,106)		29,061		(45)
Total borrowings and other financing transactions	\$	(25,934)	\$	29,106)						

(1) Net exposure represents the net receivable/(payable) that would be due from/to the counterparty in the event of default. Exposure from borrowings and other financing transactions can only be netted across transactions governed under the same master agreement with the same legal entity. See Note 15, Financial risks, in the Notes to financial statements for more information regarding master netting agreements.

Notes to the financial statements (unaudited)

For the period ended 30 September 2014

1. General information

Each of the funds (hereinafter referred to individually as a "Fund" and collectively as the "Funds") discussed in this report is a subfund of the PIMCO Fixed Income Source ETFs plc (the "Company"), an open ended umbrella investment company with variable capital and with segregated liability between Funds incorporated with limited liability in Ireland under the Companies Acts, 1963 to 2013 with registration number 489440 and authorised by the Central Bank of Ireland as an undertaking for collective investment in transferable securities pursuant to the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations, 2011 (as amended) (the "UCITS Regulations"). The Company is an umbrella type company in that Classes of shares may be issued in relation to different Funds from time to time. More than one class of shares ("Class") may, at the discretion of the Board of Directors (the "Board"), be issued in relation to a Fund. A separate portfolio of assets is maintained for each Fund and is invested in accordance with the investment objectives and policies applicable to such Fund. Additional Funds may be created from time to time by the Board with the prior written approval of the Central Bank of Ireland. Additional Classes may be created from time to time by the Board and will be notified and cleared in advance with the Central Bank of Ireland. The Company was incorporated on 24 September 2010.

The Funds are exchange-traded funds ("ETF") and Shares of the Funds will be listed and traded at market prices on one or more Relevant Stock Exchanges (as defined in the Prospectus) and other secondary markets. The market price for a Fund's Shares may be different from the Fund's Net Asset Value. Typically only Authorised Participants may purchase Shares at Net Asset Value from the Company. Authorised Participants may subscribe for Shares in cash or in kind with securities similar to a Fund's portfolio (and acceptable as such to the Investment Advisers).

The PIMCO Covered Bond Source UCITS ETF, PIMCO Euro Short Maturity Source UCITS ETF, PIMCO European Advantage Government Bond Index Source UCITS ETF and PIMCO German Government Bond Index Source UCITS ETF are traded on the Deutsche Börse AG and the PIMCO Emerging Markets Advantage Local Bond Index Source UCITS ETF, PIMCO Short-Term High Yield Corporate Bond Index Source UCITS ETF, PIMCO Sterling Short Maturity Source UCITS ETF and the PIMCO US Dollar Short Maturity Source UCITS ETF are listed on the Irish Stock Exchange and traded on the London Stock Exchange.

2. Significant accounting policies

The following is a summary of the significant accounting policies and estimation techniques adopted by the Company and applied in the preparation of these financial statements:

(a) Basis of accounting

The financial statements presented are unaudited condensed financial statements for the six month period ended 30 September 2014. They have been prepared in accordance with IAS 34 - Interim Financial Reporting. The unaudited condensed financial statements should be read in conjunction with the financial statements for the year ended 31 March 2014 which were prepared in accordance with International Financial Reporting Standards ("IFRS") as adopted by the European Union and Irish statute comprising the Companies Acts, 1963 to 2013, and the UCITS Regulations.

The financial statements are prepared under the historical cost convention as modified by the revaluation of financial assets and liabilities held at fair value through profit or loss. The Company maintains separate accounts for each Fund. Shares are issued by the Company and allocated to whichever Fund is selected by the shareholder. Upon redemption, shareholders are only entitled to their portion of the net assets held in the Fund in respect of which shares have been issued to them.

Financial statement figures have been rounded to thousands unless otherwise indicated throughout the report.

(b) New and amended accounting pronouncements not yet effective

At the date of authorisation of these financial statements, the following interpretations and amendments to existing standards, which have not been applied, were in issue but not yet effective:

Amendments to IAS 32, "Financial instruments: Presentation", on offsetting financial assets and financial liabilities – for annual accounting periods beginning on or after 1 January 2014.

Amendments to IFRS 10, "Consolidated Financial Statements", defines an investment entity and introduces an exception from the consolidation requirements for investment entities – for annual accounting periods beginning on or after 1 January 2014.

IFRS 9, "Financial Instruments", classification and measurement of financial assets and financial liabilities for annual accounting periods beginning on or after 1 January 2018.

Notes to the financial statements (unaudited) (continued)

The Board has not yet assessed the impact that the adoption of these standards and interpretations in future periods will have on the financial statements of the Company. These standards and interpretations will be adopted when they become effective.

(c) Determination of Net Asset Value

The Net Asset Value (the "NAV") of each Fund and/or each Class will be calculated as of the close of regular trading on each Dealing Day (normally 4:00 p.m., Eastern time) as disclosed in the Company's most recent Prospectus or the relevant supplement.

(d) Security transactions

Security transactions are recorded as of the trade date. Securities purchased or sold on a when-issued or delayeddelivery basis may be settled 15 days or more after the trade date. Realised gains and losses from securities sold are recorded on the identified cost basis. Dividend income is recorded on the ex-dividend date, except certain dividends from foreign securities where the ex-dividend date may have passed, which are recorded as soon as the Fund is informed of the exdividend date. Interest income, adjusted for the accretion of discounts and amortisation of premiums, is recorded on the accrual basis from settlement date and calculated using an effective interest methodology. Estimated tax liabilities on certain foreign securities are recorded on an accrual basis and are reflected as components of interest income or as withholding taxes on dividends and other investment income on the Statements of comprehensive income as appropriate.

(e) Multi-class allocations

Each Class of a Fund offered by the Company has equal rights, unless otherwise specified, as to assets and voting privileges (except that shareholders of a Class have exclusive voting rights regarding any matter relating solely to that Class). Within each Class of each Fund, the Company may issue either or both Income Shares (shares which distribute income) and Accumulation Shares (shares which accumulate income). The multiple Class structure permits an investor to choose the method of purchasing shares that is most beneficial to the investor, given the amount of the purchase, the length of time the investor expects to hold the shares, and other circumstances. Where there are shares of a different Class or type in issue, the NAV per share amongst Classes may differ to reflect the fact that income has been accumulated or distributed, or may have differing fees and expenses. Realised and unrealised capital gains and losses of each Fund are allocated daily to each Class of shares based on the relative net assets of each Class of the respective Fund.

(f) Foreign currency

The financial statements of each Fund are presented using the currency of the primary economic environment in which it operates (the "functional currency"). The Funds in the Company have the same functional and presentation currency. The presentation currency of the financial statements is primarily Euros, except for certain Funds that are denominated in US Dollars or in British Pound Sterling. The Company totals of the Funds, required under Irish Company law, are presented in Euro, which is the primary economic environment of the Company. All amounts are in Euro unless otherwise indicated.

The market values of foreign securities, currency holdings and other assets and liabilities are translated into the functional currency of each Fund based on the current exchange rate for each business day. Fluctuations in the value of currency holdings and other assets and liabilities resulting from changes in exchange rates are recorded as unrealised gains or losses on foreign currency.

The unrealised appreciation or depreciation arising from the translation of securities denominated in a foreign currency are included in Net change in unrealised appreciation/(depreciation) on foreign currency. Realised gains and losses arising between the transaction and settlement dates on purchases and sales of foreign currency denominated securities are included in Net realised gain/(loss) on foreign currency on the Statements of comprehensive income.

The Statements of financial position are translated using exchange rates at the period end and the Statements of comprehensive income, Statements of changes in net assets attributable to redeemable participating shareholders and Statements of cash flows are translated at an average rate over the period for inclusion in the combined financial statements of the Company. The method of translation has no effect on the value of net assets allocated to the individual Funds.

(g) Transaction costs

Transaction costs are costs incurred to acquire financial assets or liabilities at fair value through profit or loss. They include fees and commissions paid to agents, advisers, brokers and dealers. Transaction costs are included on the Statements of comprehensive income within Net realised gain/(loss) and Net change in unrealised appreciation/(depreciation) on transferable securities and deposits with credit institutions, Net realised gain/(loss) and Net change in unrealised appreciation/ (depreciation) on financial derivative instruments, Net realised gain/(loss) and Net change in unrealised appreciation/ (depreciation) on foreign currency.

Notes to the financial statements (unaudited) (continued)

(h) Equalisation

The Company follows the accounting practice known as income equalisation. The income equalisation adjustment ensures income distributed to the shareholders investing in the Income Class Shares is in proportion to the time of ownership in the distribution period. A sum equal to that part of the issued price per Share which reflects net income (if any) accrued but undistributed up to the date of issue of the Shares will be deemed to be an equalisation payment and treated as repaid to the relevant shareholder on (i) the redemption of such Shares prior to the payment of the first dividend thereon or (ii) the payment of the first dividend to which the shareholder was entitled in the same accounting period as that in which the Shares are issued. The payment of any dividends subsequent to the payment of the first dividend thereon or the redemption of such Shares subsequent to the payment of the first dividend will be deemed to include net income (if any) accrued but unpaid up to the date of the relevant redemption or declaration of dividend.

3. Investments at fair value

This category has two sub-categories: financial assets and liabilities held for trading, and those designated by management at fair value through profit or loss at inception. Financial assets or liabilities held for trading are acquired or incurred principally for the purpose of selling or repurchasing in the short term. Derivatives are also categorised as held for trading, as the Company does not designate any derivatives as hedges in a hedging relationship. Financial assets and financial liabilities designated at fair value through profit or loss at inception are financial instruments that are not classified as held for trading but are managed, and their performance is evaluated on a fair value basis in accordance with the Funds' documented investment strategy.

The Funds' policy requires Pacific Investment Management Company LLC, including PIMCO Europe Ltd. ("PIMCO") and the Board to evaluate the information about these financial assets and liabilities on a fair value basis together with other related financial information.

Gains and losses arising from changes in the fair value of the 'financial assets at fair value through profit or loss' category are included on the Statements of comprehensive income in the period in which they arise.

Fund securities and other assets for which market quotes are readily available are valued at market value. Fair value is generally determined on the basis of last reported sales prices, or if no sales are reported, based on quotes obtained from a quotation reporting system, established market makers, or pricing services. Investments initially valued in currencies other than the functional currency of the Funds are converted using exchange rates obtained from pricing services. As a result, the NAV of the Funds' Shares may be affected by changes in the value of currencies in relation to the Funds' functional currency. The value of securities traded in foreign markets or denominated in currencies other than the Funds' functional currency may be affected significantly on a day that the Relevant Stock Exchange is closed and the NAV may change on days when an investor is not able to purchase, redeem or exchange shares.

If the value of a security that is solely traded on a foreign exchange has materially changed after the close of the security's primary exchange or principal market but before the close of the dealing day, the security will be valued at fair value based on procedures established and approved by the Board. Securities that do not trade when a Fund is open are also valued at fair value. A Fund may determine the fair value of investments based on information provided by pricing service providers and other third party vendors, which may recommend fair value prices or adjustments with reference to other securities, indices or assets. In considering whether fair value pricing is required and in determining fair values, a Fund may, among other things, consider significant events (which may be considered to include changes in the value of securities or securities indices) that occur after the close of the relevant market and before the close of the dealing day. A Fund may utilise modelling tools provided by third party vendors to determine fair values of securities impacted by significant events. Foreign exchanges may permit trading in foreign securities on days when the Company is not open for business, which may result in a Fund's portfolio investments being affected when you are unable to buy or sell shares. A Fund has retained a pricing service to assist in determining the fair value of foreign securities. This service utilises statistics and programs based on historical performance of markets and other economic data to assist in making fair value estimates. Fair value estimates used by a Fund for foreign securities may differ from the value realised from the sale of those securities and the difference could be material to the financial statements. Fair value pricing may require subjective determinations about the value of a security or other asset, and fair values used to determine a Fund's NAV may differ from guoted or published prices, or from prices that are used by others, for the same investments. In addition, the use of fair value pricing may not always result in adjustments to the prices of securities or other assets held by a Fund.

Notes to the financial statements (unaudited) (continued)

IAS 32 defines fair value as the price that a fund would receive to sell an asset or pay to transfer a liability in an orderly transaction between market participants at the measurement date. IFRS 7 establishes and requires disclosure of a fair value hierarchy, separately for each major category of assets and liabilities, that segregates fair value measurements into levels (Levels 1, 2, and 3). The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. Levels 1, 2, and 3 of the fair value hierarchy are defined as follows:

Level 1 — Inputs using quoted prices in active markets or exchanges for identical assets and liabilities.

Level 2 — Significant other observable inputs, which may include, but are not limited to, quoted prices for similar assets or liabilities in markets that are active, quoted prices for identical or similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable for the assets or liabilities (such as interest rates, yield curves, volatilities, prepayment speeds, loss severities, credit risks and default rates) or other market corroborated inputs.

Level 3 — Significant unobservable inputs based on the best information available in the circumstances, to the extent observable inputs are not available, which may include assumptions made by the Board or persons acting at their direction that are used in determining the fair value of investments.

Level 1 and Level 2 trading assets and trading liabilities, at fair market value

The valuation techniques and significant inputs used in determining the fair market values of financial instruments classified as Level 1 and Level 2 of the fair value hierarchy are as follows:

Fixed income securities including corporate, convertible and municipal bonds and notes, US government agencies, US treasury obligations, sovereign issues, bank loans, convertible preferred securities and non-US bonds are normally valued by pricing service providers that use broker dealer quotations, reported trades or valuation estimates from their internal pricing models. The service providers' internal models use inputs that are observable such as issuer details, interest rates, yield curves, prepayment speeds, credit risks/spreads, default rates and quoted prices for similar assets. Securities that use similar valuation techniques and inputs as described above are categorised as Level 2 of the fair value hierarchy.

Fixed income securities purchased on a delayed-delivery basis are marked to market daily until settlement at the forward

settlement date. These securities are categorised as Level 2 of the fair value hierarchy.

Mortgage-related and asset-backed securities are usually issued as separate tranches, or classes, of securities within each deal. These securities are also normally valued by pricing service providers that use broker dealer quotations or valuation estimates from their internal pricing models. The pricing models for these securities usually consider tranche-level attributes, current market data, estimated cash flows and market-based yield spreads for each tranche, and incorporates deal collateral performance, as available. Mortgage-related and asset-backed securities that use similar valuation techniques and inputs as described above are categorised as Level 2 of the fair value hierarchy.

Common stocks, exchange-traded funds and financial derivative instruments, such as futures contracts or options contracts that are traded on a national securities exchange, are stated at the last reported sale or settlement price on the day of valuation. To the extent these securities are actively traded and valuation adjustments are not applied, they are categorised as Level 1 of the fair value hierarchy. Valuation adjustments may be applied to certain securities that are solely traded on a foreign exchange to account for the market movement between the close of the foreign market and the close of the local exchange. These securities are valued using pricing service providers that consider the correlation of the trading patterns of the foreign security to the intraday trading in the local markets for investments. Securities using these valuation adjustments are categorised as Level 2 of the fair value hierarchy. Preferred securities and other equities traded on inactive markets or valued by reference to similar instruments are also categorised as Level 2 of the fair value hierarchy.

Investments in registered open-ended investment management companies will be valued based upon the unaudited NAVs of such investments and are categorised as Level 1 of the fair value hierarchy. Investments in unregistered open-end investment management companies will be calculated based upon the unaudited NAV of such investments and are considered Level 1 provided that the NAV is observable, calculated daily and is the value at which both purchases and sales will be conducted. Investments in privately held investment funds will be valued based upon the unaudited NAVs of such investments and are categorised as Level 2 of the fair value hierarchy. Investments in privately held investment funds where the inputs of the NAVs are unobservable will be calculated based upon the NAVs of such investments and are categorised as Level 3 of the fair value hierarchy.

Notes to the financial statements (unaudited) (continued)

Short-term investments having a maturity of 60 days or less are generally valued at amortised cost which approximates fair market value. These investments are categorised as Level 2 of the fair value hierarchy.

Over-the-counter financial derivative instruments, such as foreign currency contracts, options contracts, or swap agreements, derive their value from underlying asset prices, indices, reference rates, and other inputs or a combination of these factors. These contracts are normally valued on the basis of broker dealer quotations or pricing service providers. Depending on the product and the terms of the transaction, the value of the derivative contracts can be estimated by a pricing service provider using a series of techniques, including simulation pricing models. The pricing models use inputs that are observed from actively quoted markets such as issuer details, indices, spreads, interest rates, curves, dividends and exchange rates. Derivatives that use similar valuation techniques and inputs as described above are categorised as Level 2 of the fair value hierarchy.

Centrally cleared swaps listed or traded on a multilateral or trade facility platform, such as a registered exchange are valued by the respective exchange. For centrally cleared credit default swaps the clearing facility requires its members to provide actionable levels across complete term structures. These levels along with external third party prices are used to produce daily settlement prices. Centrally cleared interest rate swaps are valued using a pricing model that references the underlying rates including the overnight index swap rate and LIBOR forward rate. These securities are categorised as Level 2 of the fair value hierarchy.

Level 3 trading assets and trading liabilities, at fair value

The valuation techniques and significant inputs used in determining the fair values of Fund assets and financial instruments classified as Level 3 of the fair value hierarchy are as follows:

Securities and other assets for which market quotes are not readily available are valued at fair value as determined in good faith by the Board or persons acting at their direction and are categorised as Level 3 of the fair value hierarchy.

Market quotes are considered not readily available in circumstances where there is an absence of current or reliable market-based data (e.g., trade information, bid/asked information), including where events occur after the close of the relevant market, but prior to the close of the Funds' Dealing Day, that materially affect the values of the Funds' securities or assets. In addition, market quotes are considered not readily available when, due to extraordinary circumstances, the exchanges or markets on which the securities trade, do not

open for trading for the entire day and no other market prices are available. The Board has delegated to PIMCO the responsibility for monitoring significant events that may materially affect the value of the Funds' securities or assets and for determining whether the value of the applicable securities or assets should be re-evaluated in light of such significant events. The Board has adopted methods for valuing securities and other assets in circumstances where market quotes are not readily available, and has delegated the responsibility for applying the valuation methods to PIMCO. For instances in which daily market guotes are not readily available investments may be valued, pursuant to guidelines established by the Board, with reference to other securities or indices. In the event that the security or asset cannot be valued pursuant to one of the valuation methods established by the Board, the value of the security or asset will be determined in good faith by the Pricing Committee of the Board, generally based upon recommendations provided by PIMCO. When a Fund uses fair valuation methods applied by PIMCO that use significant unobservable inputs to determine its NAV, securities will be priced by another method that the Board or persons acting at their direction believe accurately reflects fair value and are categorised as Level 3 of the fair value hierarchy. These methods may require subjective determinations about the value of the security.

While the Funds' policy is intended to result in a calculation of the Funds' NAV that fairly reflects security values as of the time of pricing, the Funds cannot guarantee that values determined by the Board or persons acting at their direction would accurately reflect the price that a Fund could obtain for a security if it were to dispose of that security as of the time of pricing (for instance, in a forced or distressed sale). The prices used by a Fund may differ from the value that would be realised if the securities were sold.

For fair valuations using significant unobservable inputs, IFRS 13 requires a reconciliation of the beginning to ending balances for reported market values that presents changes attributable to total realised and unrealised gains or losses, purchases and sales, and transfers in/out of the Level 3 category during the period. In accordance with the requirements of IFRS 13, a fair value hierarchy and Level 3 reconciliation if any, have been included in the Notes to Portfolios of investments and assets for each respective Fund. IFRS 13 also requires disclosure of any transfers between Level 1, Level 2 and Level 3 and the reasons for those transfers. Details of transfers, if any, have been included in the Notes to Portfolios of investments and assets for each respective Fund.

Additionally, if changing one or more inputs utilised in determining the fair value of Level 3 assets or liabilities would change fair value significantly, IFRS 13 requires disclosure of the

Notes to the financial statements (unaudited) (continued)

possible effect to a Fund. As of 30 September 2014 and 31 March 2014, changing one or more of the inputs utilised in determining the fair value of Level 3 assets or liabilities, if any, would not have significantly changed the fair value of a Fund.

4. Efficient portfolio management

To the extent permitted by the investment objectives and policies of the Funds and subject to the limits set down by the Central Bank of Ireland from time to time and to the provisions of the Prospectus, utilisation of financial derivative instruments and investment techniques shall be employed for efficient portfolio management purposes by all the Funds. The Funds may use these financial derivative instruments and investment techniques to hedge against changes in interest rates, nonfunctional currency exchange rates or securities prices or as part of their overall investment strategies.

The total interest income/(expense) arising from Repurchase agreements during the period ended 30 September 2014 was €35,607/ (€Nil) (30 September 2013 €29,984/ (€1,151)).

The total interest income/(expense) arising from Reverse repurchase agreements during the period ended 30 September 2014 was €50,967/ (€4,841) (30 September 2013 €13,838/ (€14,761)).

The total interest income/(expense) arising from sale buyback financing transactions during the period ended 30 September 2014 was €16,115/ (€Nil) (30 September 2013 €105,578/ (€13,025)).

5. Taxation

Under current law and practice the Company qualifies as an investment undertaking as defined in Section 739B of the Taxes Consolidation Act, 1997, as amended. On that basis, it is not chargeable to Irish tax on its income or gains. However, Irish tax may arise on the happening of a "chargeable event". A chargeable event includes any distribution payments to shareholders or any encashment, redemption, cancellation or transfer of shares and the holding of shares at the end of each eight year period beginning with the acquisition of such shares. No Irish tax will arise on the Fund in respect of chargeable events in respect of:

(a) A shareholder who is neither an Irish resident nor ordinarily resident in Ireland for tax purposes, at the time of the chargeable event, provided appropriate valid declarations in accordance with the provisions of the Taxes Consolidation Act, 1997, as amended, are held by the Fund or the Fund has been authorised by the Irish Revenue to make gross payments in the absence of appropriate declarations; and

(b) Certain exempted Irish tax resident shareholders who have provided the Fund with the necessary signed statutory declarations.

The Finance Act 2010 provides that the Revenue Commissioners may grant approval for investment funds marketed outside of Ireland to make payments to non-resident investors without deduction of Irish tax where no relevant declaration is in place, subject to meeting the "equivalent measures". A fund wishing to receive approval must apply in writing to the Revenue Commissioners, confirming compliance with the relevant conditions.

Dividends, interest and capital gains (if any) received on investments made by the Funds may be subject to withholding taxes imposed by the country from which the investment income/gains are received and such taxes may not be recoverable by the Funds or its shareholders.

In accordance with the reporting fund regime introduced by the United Kingdom HM Revenue and Customs, each share class will be viewed as a separate "offshore fund" for UK tax purposes. The reporting regime permits an offshore fund to seek advance approval from HM Revenue and Customs to be treated as a reporting fund. Once an offshore fund has been granted "reporting fund" status, UK tax law provides that it will maintain that status for so long as it continues to satisfy the conditions to be a "reporting fund", which include making reports to HM Revenue and Customs and investors for each period of account, without a requirement to apply for further certification by HM Revenue and Customs.

Each Share Class in the Company is treated as a "reporting fund". This has been approved by HM Revenue and Customs for all share classes in existence at 31 March 2014 and will be approved for all share classes created since 1 April 2014.

6. Dividend distribution policy

It is the current dividend distribution policy of the Company to pay to the holders of Income Class Shares the net investment income of the Funds, if any (which consists of income less expenses). Dividends paid in respect of any Income Class Shares in the Funds will be declared monthly and paid in cash after declaration. In the case of the PIMCO Covered Bond Source UCITS ETF dividends paid in respect of any Income Class Shares will be declared annually and paid in cash after declaration.

The net investment income allocated to Accumulation Class Shares in the PIMCO Emerging Markets Advantage Local Bond Index Source UCITS ETF will neither be declared nor distributed

Notes to the financial statements (unaudited) (continued)

but the NAV per share of accumulation shares will be increased to take account of the net investment income.

Any dividend distribution unclaimed after a period of six years from the date of declaration of such dividend distribution shall be forfeited and shall revert to the account of the relevant Fund.

7. Soft commissions

The Company did not enter into soft commission arrangements during the period ended 30 September 2014 or the period ended 31 March 2014.

8. Segregated liability

Further to the relevant provisions of the Investment Funds, Companies and Miscellaneous Provisions Act, 2005, the Company has adopted segregated liability between Funds. Accordingly, any liability on behalf of or attributable to any Fund of the Company shall be discharged solely out of the assets of that Fund, and neither the Company nor any Director, receiver, examiner, liquidator, provisional liquidator or other person shall apply, nor be obliged to apply, the assets of any such Fund in satisfaction of any liability incurred on behalf of or attributable to any other Fund of the Company, irrespective of when such liability was incurred.

9. Changes to the Prospectus and to the Memorandum and Articles of Association

The Prospectus and all Supplements for the Company were consolidated and reissued on 18 February 2014. The Supplements to the Consolidated Prospectus were amended for the following:

- For the amendments to the PIMCO Covered Bond Source UCITS ETF (30 May 2014) and (1 August 2014);
- For the amendments to the PIMCO Emerging Markets Advantage Local Bond Index Source UCITS ETF (30 May 2014);
- For the amendments to the PIMCO Euro Short Maturity Source UCITS ETF (30 May 2014);
- For the amendments to the PIMCO European Advantage Government Bond Index Source UCITS ETF (30 May 2014);
- For the amendments to the PIMCO German Government Bond Index Source UCITS ETF (30 May 2014);
- For the amendments to the PIMCO Short-Term High Yield Corporate Bond Index Source UCITS ETF (30 May 2014);
- For the amendments to the PIMCO Sterling Short Maturity Source UCITS ETF (30 May 2014);
- For the amendments to the PIMCO US Dollar Short Maturity Source UCITS ETF (30 May 2014).

The Memorandum and Articles of Association was amended on 23 September 2014.

10. Fees and expenses

(a) Fees payable to the manager

The fees payable to PIMCO Global Advisors (Ireland), Ltd. (the "Manager") as set out below shall not exceed 2.50% per annum of the NAV of each class of each Fund.

(b) Management fee

The Manager provides or procures investment advisery, administration, custody and other services in return for which each Fund pays a single management fee to the Manager. The management fee for each Fund is accrued on each Dealing Day and is payable monthly in arrears. The Manager may pay the management fee in full or in part to the Investment Advisers in order to pay for the investment advisery and other services provided by the Investment Advisers and in order for the Investment Advisers to pay for administration, custody and other services procured for the Funds by the Manager.

The management fee for each class of each Fund (expressed as a per annum percentage of its NAV) is as follows:

Fund	Accumulation	Income
PIMCO Covered Bond Source UCITS ETF PIMCO Emerging Markets Advantage	N/A	0.38%*
Local Bond Index Source UCITS ETF PIMCO Euro Short Maturity Source UCITS	0.60%	0.60%
ETF	N/A	0.35%
PIMCO European Advantage Government Bond Index Source UCITS ETF	N/A	0.30%
PIMCO German Government Bond Index Source UCITS ETF	N/A	0.15%
PIMCO Short-Term High Yield Corporate Bond Index Source UCITS ETF		
USD Income Shares	N/A	0.55%
EUR Income Hedged Share	N/A	0.60%
PIMCO Sterling Short Maturity Source		
UCITS ETF	N/A	0.35%
PIMCO US Dollar Short Maturity Source		
UCITS ETF	N/A	0.35%

* This figure takes account of a fee waiver by the Manager in the amount of 0.05% p.a. until 11 December 2014. The fee waiver will expire from 11 December 2014.

The management fee in place for all Funds at 31 March 2014 remains unchanged.

Notes to the financial statements (unaudited) (continued)

Given the fixed nature of the management fee, the Manager, and not shareholders, takes the risk of any price increases in the cost of the services covered by the management fee and takes the risk of expense levels relating to such services increasing above the management fee as a result of a decrease in net assets. Conversely, the Manager, and not shareholders, would benefit from any price decrease in the cost of services covered by the management fee, including decreased expense levels, as a percentage of net assets, resulting from an increase in net assets.

(c) Investment advisery services

On behalf of the Company, the Manager provides and/or procures investment advisery services. Such services include the investment and reinvestment of the assets of each Fund. The fees of the Investment Advisers are paid by the Manager from the management fee.

(d) Administration, custody and other services

On behalf of the Company, the Manager provides and/or procures administration, custody and other services. Such services include administration, transfer agency, fund accounting, co-promotion, custody and subcustody in respect of each Fund. The fees and expenses of the Administrator and Custodian are paid by the Manager from the management fee, or by the Investment Advisers.

On behalf of the Company, the Manager provides and/or procures certain other services. These may include listing sponsor services, paying agent and other local representative services, accounting, audit, legal and other professional adviser services, company secretarial services, printing, publishing and translation services, and the provision and co-ordination of certain supervisorial, administrative and shareholder services necessary for operation of the Funds.

Fees and any ordinary expenses in relation to these services (together with VAT, if any thereon) will be paid by the Manager, or by the Investment Advisers on behalf of the Manager, from the management fee.

The Company paid Directors' fees of €10,600 during the period ended 30 September 2014 (amount at 30 September 2013 was €11,112). The aggregate fee paid to each independent Director shall not exceed €10,600 in each year. In addition, each independent Director is reimbursed for any reasonable out-of pocket expenses. Directors' fees are a component of "Other expenses" on the Statements of comprehensive income.

(e) Expense limitation (including management fee waiver and recoupment)

The Manager has agreed with the Company, pursuant to the Management Agreement between the Company and the Manager dated as of 9 December 2010, as amended, to manage total annual fund operating expenses for any Class of a Fund, by waiving, reducing or reimbursing all or any portion of its management fee, to the extent that (and for such period of time that) such operating expenses would exceed, and pro rata Directors' fees, the sum of such Class of such Fund's management fee (prior to the application of any applicable management fee waiver), as applicable, and other expenses borne by such Fund's share class not covered by the management fee as described above (other than pro rata Directors' fees), plus 0.0049% per annum (calculated on a daily basis based on the NAV of the Fund).

In any month in which the Management Agreement is in effect, the Manager may recoup from a Fund any portion of the management fee waived, reduced or reimbursed pursuant to the Management Agreement (the "Reimbursement Amount") during the previous 36 months, provided that such amount paid to the Manager will not: 1) exceed 0.0049% per annum of the Class of the applicable Fund's average net assets (calculated on a daily basis); 2) exceed the total Reimbursement Amount; 3) include any amounts previously reimbursed to the Manager; or 4) cause any Class of a Fund to maintain a net negative yield.

Notes to the financial statements (unaudited) (continued)

The Board may at their discretion, impose the following transaction fees on shareholders:

	Subscription/redemption	Exchange		In-kind	
Fund	transaction fee	transaction fee	transac	ction fee	Mix fee
PIMCO Covered Bond Source UCITS ETF	up to 3%	up to 1%	€	1,000	€1,000 plus a maximum of 3% on any cash portion
PIMCO Emerging Markets Advantage Local Bond Index Source UCITS ETF	up to 3%	up to 1%	\$	1,000	\$500 plus a maximum of 3% on any cash portion
PIMCO Euro Short Maturity Source UCITS ETF	up to 3%	up to 1%	€	1,000	€500 plus a maximum of 3% on any cash portion
PIMCO European Advantage Government Bond Index Source UCITS ETF	up to 0.45%	up to 1%	€	1,000	€500 plus a maximum of 0.45% on any cash portion
PIMCO German Government Bond Index Source UCITS ETF	up to 3%	up to 1%	€	1,000	€500 plus a maximum of 3% on any cash portion
PIMCO Short-Term High Yield Corporate Bond Index Source UCITS ETF	up to 3%	up to 1%	\$	1,000	\$500 plus a maximum of 3% on any cash portion
PIMCO Sterling Short Maturity Source UCITS ETF	up to 3%	up to 1%	£	1,000	£500 plus a maximum of 3% on any cash portion
PIMCO US Dollar Short Maturity Source UCITS ETF	up to 3%	up to 1%	€	1,000	€500 plus a maximum of 3% on any cash portion

11. Related party transactions

The Manager, Investment Advisers, Distributor and Directors are related parties as defined by IAS 24 "Related Party Disclosures". Fees payable to these parties are disclosed in Note 10.

During the periods ended 30 September 2014 and 30 September 2013 the Funds below engaged in purchases and sales of securities among affiliated Funds (amounts in thousands):

	30 September 2014			30 September 20			013	
Fund		Purchases		Sales	Pu	rchases		Sales
PIMCO Emerging Markets Advantage Local Bond Index Source UCITS ETF	€	129,602	€	N/A	€	N/A	€	N/A
PIMCO Euro Short Maturity Source UCITS ETF		70,938		2,496		103,797		14,906
PIMCO Short-Term High Yield Corporate Bond Index Source UCITS ETF		7,026		3,678		48,026		N/A
PIMCO Sterling Short Maturity Source UCITS ETF		1,283		N/A		1,304		N/A
PIMCO US Dollar Short Maturity Source UCITS ETF		386,537		410,334		163,603		263,703

The following table reflects the outstanding shares owned by PIMCO Funds: Global Investor Series plc, PIMCO Select Funds plc and PIMCO Cayman Trust, related parties of the Company, as at 30 September 2014 and 31 March 2014:

Fund	30 September 2014 % owned	31 March 2014 % owned
PIMCO Euro Short Maturity Source UCITS ETF	19.28	22.87
PIMCO Short-Term High Yield Corporate Bond Index Source UCITS ETF	N/A	1.88
PIMCO Sterling Short Maturity Source UCITS ETF	42.88	38.02
PIMCO US Dollar Short Maturity Source UCITS ETF	90.79	83.24

Notes to the financial statements (unaudited) (continued)

12. Connected parties

Transactions carried out with the Manager, Investment Advisors, Distributors, Trustee and/or associated or group companies of these ("connected parties") are carried out as if negotiated at arm's length and only when in the best interests of the shareholders. The Directors are satisfied that there are arrangements (as evidenced by written procedures) in place to ensure that connected party transactions are carried out as described above and that they have been complied with during the period.

13. Exchange rates

For the purposes of combining the financial statements of the Funds, to arrive at Company figures (required under Irish Company law), the amounts on the Statements of financial position have been translated at the exchange rate ruling at 30 September 2014 from US Dollar to Euro (USD/EUR 0.79161) (31 March 2014 USD/EUR 0.72556) and British Pound Sterling to Euro (GBP/EUR 1.28332) (31 March 2014 GBP/EUR 1.20961). The amounts on the Statements of comprehensive income, Statements of changes in net assets attributable to redeemable participating shareholders and the Statements of cash flows have been translated at an average exchange rate for the period ending 30 September 2014 from US Dollar to Euro (USD/EUR 0.74250) (30 September 2013 EUR/USD 0.76010) and British Pound Sterling to Euro (GBP/EUR 1.24400) (30 September 2013 GBP/EUR 1.17300).

The following tables reflect the exchange rates used at 30 September 2014 and 31 March 2014 to convert the Euro balances. They were also used to convert the investments and other assets and liabilities denominated in currencies other than Euro:

Notes to the financial statements (unaudited) (continued)

14. Share capital

(a) Authorised shares

The authorised share capital of the Company is 2 redeemable non-participating shares of no par value and 500,000,000,000 shares of no par value initially designated as unclassified shares.

(b) Subscriber shares

The subscriber shares do not form part of the NAV of the Company and are thus disclosed in the financial statements by way of this note only. In the opinion of the Board, this disclosure reflects the nature of the Company's business as an investment fund.

(c) Redeemable participating shares

The issued participating share capital is at all times equal to the NAV of the Funds. Redeemable participating shares are redeemable at the shareholders' option and are classified as financial liabilities. The opening and closing shares in issue per share class are disclosed in Note 15.

15. Net asset values

Each Fund's net assets attributable to redeemable participating shareholders, shares issued and outstanding and net asset value per share as at periods ending 30 September 2014, 31 March 2014 and 31 March 2013 are as follows (amounts are in thousands, except per share amounts). Net Assets divided by Shares issued and outstanding may not equal the NAV per share due to rounding:

PIMCO Covered Bond Source UCITS ETF

16. Regulatory and litigation matters

The Company is not engaged in any material litigation or arbitration proceedings and is not aware of any material litigation or claim pending or threatened by or against them.

17. Tracking Error

The following table sets out the tracking error for each of the Passive Funds for the years ended 30 September 2014 and 30 September 2013. Tracking error is defined in the European Securities and Markets Authority ("ESMA") Guidelines as the volatility of the difference between the annual return of the index-tracking UCITS and the annual return of the index or indices tracked. Each of these Funds performed within the target tracking error.

Fund	Tracking Error: 30 September 2014	Tracking Error: 30 September 2013
