## ECHIQUIER AGENOR SRI MID CAP EUROPE - I Share (ISIN: FR0011188259)

Subfund of the Echiquier mutual fund (SICAV) managed by La Financière de l'Echiquier

### Objectives and investment policy

Echiquier Agenor SRI Mid Cap Europe is a stock-picking UCI. It invests in European growth small and mid-caps, selected in particular for the quality of their management, using a dual "best in universe" and "best efforts" ESG approach.

The management objective of the UCITS is combined with an extra-financial approach incorporating environmental, social, and governance (ESG) criteria, such as the issuer's environmental policy, employee protection or the competence of the management team. The extra-financial objective is to help companies move forward on ESG issues by engaging in dialogue with them on a regular basis and by sharing with them specific areas of improvement monitored over time.

The MSCI Europe Mid Cap NR index is a representative benchmark of the management of Echiquier Agenor SRI Mid Cap Europe. This index, used for information purposes only, represents the trend of all euro-denominated equities of European mid-cap companies. It is calculated in euros, with dividends reinvested. Investors are advised that the portfolio's composition may differ from that of the benchmark index.

The UCITS implements active and discretionary management based on a rigorous stock-picking process through an in-depth evaluation of the companies included in the portfolio.

Echiquier Agenor SRI Mid Cap Europe has a 60% minimum exposure to European equities and a maximum exposure of up to 25% to non-European equities. The UCITS is primarily exposed to European small and mid-cap stocks, i.e., those with a market capitalisation of less than 10 billion euros. In order for the UCITS to be eligible for PEAs, 75% of its assets are invested in PEA-eligible financial instruments.

In constructing the portfolio and assessing extra-financial criteria, the management team selects stocks according to an internal ESG rating methodology, after applying a sector exclusion filter.

This approach may have certain methodological limits detailed in the prospectus. In addition, for more detailed information on the extra-financial rating methodology used for the UCITS and its limits, investors

should refer to the Transparency Code of La Financière de l'Echiquier available on [www.lfde.com](http://www.lfde.com).

The UCITS reserves the right to invest a maximum of 25% in fixed-income products. At the time of acquisition and for monitoring purposes over the life of the securities, credit risk is assessed on the basis of in-house research and analysis by La Financière de l'Echiquier and using the ratings produced by agencies. Eligible securities are deemed investment grade, i.e., having a minimum Standard & Poor's rating of BBB- or equivalent or considered as such by the management team.

Financial derivative instruments, both traded on regulated markets or over the counter, can be used on an exceptional basis to:

- Hedge the portfolio against currency risk and against equity risk when the manager anticipates a significant deterioration in market performance;
- Occasionally expose the portfolio to equity risk during significant subscription transactions. The UCITS does not, in any event, intend to implement a strategy of over-exposing the portfolio to equity risk.

**Recommended investment period:** This Fund may not be suitable for investors who plan to withdraw their money within 5 years.

**Allocation of income:** Accumulation.

**Deadline for centralising subscription/redemption orders:** Investors can make a request for redemption every business day. Redemption requests are centralised each market trading day before 12 p.m. (Paris time) with our centraliser BNP Paribas Securities Services and executed on the net asset value calculated on the closing price on the day they are centralised.

**Frequency of valuation:** The net asset value is calculated daily, except for days when the Paris stock market is closed and on official French public holidays.

**Taxation:** Eligible for the PEA

### Risk and reward profile

This indicator represents the historical annual volatility of the UCITS over a 5-year period.

The UCITS's risk indicator reflects the exposure of its net assets to its investment universe.

Historical data such as that used to calculate the synthetic risk indicator may not provide a reliable indication of the future risk profile of the UCITS.

The risk category associated with this UCITS is not guaranteed and may change over time.

The lowest category does not mean "risk-free".

Significant risk(s) for the UCITS not included in this indicator:

**Credit risk:** Credit risk is the risk of an issuer's credit rating being downgraded or of it defaulting. The value of debt securities or bonds in which the Fund invests may fall, causing the Fund's net asset value to decline.

**Guarantee:** The capital initially invested is not guaranteed.
