

Key Investor Information

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

The Jupiter Global Fund - Jupiter Dynamic Bond

(the 'Fund'), a sub-fund of The Jupiter Global Fund (the 'Company')

Class I GBP Q Inc HSC (ISIN - LU0750223959)

The management company is Jupiter Asset Management International S.A. (“the Management Company”).

Objectives and investment policy

The Fund's objective is to achieve a high income with the prospect of capital growth. The Fund will invest primarily in high yield bonds, investment grade bonds, government bonds, convertible bonds and other bonds.

Benchmark Information

The Fund is actively managed. The Fund is not managed by reference to a benchmark and does not use a benchmark for performance comparison purposes. This means the Investment Manager is taking investment decisions with the intention of achieving the Fund's investment objective without reference to a benchmark. The Investment Manager is not in any way constrained by a benchmark in its portfolio positioning.

Any income arising in relation to this share class is distributed on a quarterly basis. By default this distribution will be automatically reinvested to purchase more shares, unless you inform us that you wish to receive this income.

This hedged share class (HSC) will use currency hedging techniques to reduce the effect of fluctuations in currency exchange rates on performance if compared to the main currency of the Fund, both positive and negative.

Investors are able to buy and sell shares during any business day. If you tell us to buy or sell shares before 1pm (Luxembourg time) on any business day we will make the transaction on the same day. If you tell us to buy or sell shares after 1pm (Luxembourg time) we will make the transaction on the following business day.

Risk and reward profile

The Risk and Reward Indicator table demonstrates where the Fund ranks in terms of its potential risk and reward. The higher the rank the greater the potential reward but the greater the risk of losing money. It is based on past data, may change over time and may not be a reliable indication of the future risk profile of the Fund. The shaded area in the table below shows the Fund's ranking on the Risk and Reward Indicator.

Typically lower rewards,
lower risk

Typically higher rewards,
higher risk

1	2	3	4	5	6	7
---	---	---	---	---	---	---

- The lowest category does not mean 'no risk'.
- The Fund is in this category due to the nature of its investments and previous levels of volatility (how much the value of the Fund rises and falls).
- Market and exchange rate movements can cause the value of an investment to fall as well as rise, and you may get back less than originally invested, even if the share class is hedged against the main currency of the Fund.
- The fund can invest a significant portion of the portfolio in high yield bonds and bonds which are not rated by a credit rating agency. While such bonds may offer a higher income, the interest paid on them and their capital value is at greater risk of not being repaid, particularly during periods of changing market conditions.
- Bonds are very sensitive to interest rate changes and it is possible that issuers of bonds will not pay interest or return the capital promised. Bonds may also be downgraded by rating agencies. These events can reduce the value of bonds and have a negative impact on performance.
- In difficult market conditions, reduced liquidity in bond markets may make it harder for the manager to sell assets at the quoted price. This could have a negative impact on the value of your investment. In extreme market conditions, certain assets may become hard to sell in a timely manner or at a fair price. This could affect the Fund's ability to meet investors' redemption requests upon demand.
- The Fund has the ability to use derivatives for efficient portfolio management purposes. Investments in financial derivative instruments used for efficient portfolio management can introduce leverage risks and negatively impact performance.
- There is a risk that any company providing services such as safe keeping of assets or acting as counterparty to derivatives may become insolvent, which may cause losses to the Fund.
- All the Fund's charges are taken from capital. Should there not be sufficient capital growth in the Fund this may cause capital erosion.

Charges

One-off charges taken before or after you invest

Entry charge	0.00%
Exit charge	0.00%

These are the maximum charges that we might take out of your money before it is invested and before we pay out the sale proceeds of your investment. In some cases, you might pay less and you should speak to your financial adviser about this.

Charges taken from the Fund over a year

Ongoing charges	0.65%
-----------------	-------

Charges taken from the Fund under specific conditions

Performance fee	NONE
-----------------	------

- The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.
- The entry and exit charges shown are maximum figures.
- The ongoing charges figure is based on the annual charges as detailed in the prospectus. Where the Fund invests in other underlying funds, which may include closed-ended funds such as investment trusts, the ongoing charges figure will include the ongoing charges for those funds, and will therefore vary from year to year. The ongoing charges figure excludes portfolio transaction costs, except in the case of an entry/ exit charge paid by the Fund when buying or selling shares in another collective investment undertaking.
- Conversion fee of up to 1.00% of the gross amount being converted may be applied for conversions between classes of the same sub-fund and from one sub-fund to another sub-fund.
- For detailed information about charges, please refer to the Company's prospectus, section "General Information".

Past performance

- You should be aware that past performance is not a guide to future performance.
- Fund launch date: 08/05/2012
- Share/unit class launch date: 08/05/2012
- Performance is calculated in GBP
- This chart shows the past performance of the Fund over the last ten full calendar years. If the Fund was launched less than ten years ago, performance is shown since launch. This performance illustration is calculated after the effect of ongoing charges but does not take into account commissions and costs incurred on the issue and redemption of shares. Performance is shown in the base currency of the share class shown.

Practical information

- The depository of the Company is Citibank Europe plc, Luxembourg Branch.
- You can find further information about the Company, all available sub-funds within the Company and share classes at www.jupiteram.com. Investors may obtain the Prospectus, the articles of incorporation and the latest annual (30 September) and half-yearly (31 March) report and accounts by contacting the transfer agent, Citibank Europe plc, Luxembourg Branch via Telephone: +352 451414328, Fax: + 352 45 14 14 860, or Email: citiluxta.jupiter@citi.com.
- These documents are available free of charge and are only available in English and French.
- The prices of shares can be found at www.jupiteram.com and are available at the registered office of the Company. The Company may be held liable solely on the basis of any statement contained in this document that is misleading, inaccurate or inconsistent with the relevant parts of the Prospectus. This Key Investor Information document describes a share class of a sub-fund within the Company. The Prospectus and periodic reports and accounts are prepared for the Company as a whole. The assets and liabilities of each sub-fund within the Company are segregated by law.
- Investors have the right to convert their Shares in one Class of a sub-fund into Shares in another Class of the same sub-fund or into Shares in another sub-fund, provided they meet the minimum investment requirements set out in the Prospectus. An explanation of how to exercise these rights can be found in the Prospectus.
- The taxation regime applicable to the Company may have an impact on the investor's personal tax position because the Company is subject to Luxembourg rules and regulations.
- Jupiter operates a group-wide remuneration policy, overseen by an independent Remuneration Committee. Details of this policy, including an overview of remuneration elements and associated governance processes, are set out on our website <https://www.jupiteram.com/corporate/Governance/Risk-management>. A paper copy of these Remuneration Disclosures is available free of charge, upon request, to the administrator.
