

Global Evolution Funds Frontier Markets (E - EUR)

ISIN: LU0697197597

OBJECTIVE AND RISK CONSIDERATION

The Sub-Fund aims to create returns by utilizing a diversified selection of strategies within "Frontier Markets", meaning those markets which are small and illiquid and in which information is less available than in other markets. The Sub-Fund will mainly use traditional transferable securities such as hard currency debt securities and local currency debt securities, as well as foreign exchange instruments. For detailed information, please refer to "Sub-Fund Details" in Appendix III to the prospectus.

The Sub-Fund may use derivatives and, therefore, incur significant risks of loss. The NAV may experience high levels of volatility, depending on the market or financial derivative instrument in which the investment is made. The specific risks inherent with investing in the Sub-Fund are: market developments, country crisis, global financial crisis and liquidity crisis. Investors should also refer to "Risks of Investment" in Appendix I to the prospectus.

Disclaimer

This document is issued by Global Evolution Funds. The sources for the data and information contained in this factsheet are the following: Global Evolution Manco S.A., Global Evolution Funds, Global Evolution Fondsmaeglerselskab A/S and J.P. Morgan.

Global Evolution Funds is a Luxembourg-domiciled UCITS umbrella fund, incorporated as a Société Anonyme and organised as a Société d'investissement à Capital Variable (the 'SICAV'). Global Evolution Funds Frontier Markets is a sub-fund of the SICAV (the 'Sub-Fund'). The SICAV is registered pursuant to Part I of the Law of 17 December 2010 relating to undertakings for collective investment in Luxembourg and it is regulated by the Commission de Surveillance du Secteur Financier (CSSF) in Luxembourg.

This document is for information purposes only and should not be considered as an offer or solicitation to purchase the shares of the Sub-Fund. It is not intended for distribution or use by any person or entity who is a citizen or resident of or located in any jurisdiction in the European Union or outside the European Union where such distribution, publication or use would be prohibited under the applicable laws and regulations. The SICAV and its sub-funds are not registered under the United States Securities Act of 1933, as amended, nor under the United States Investment Company Act of 1940, as amended, and therefore may not directly or indirectly be offered or sold in the United States of America or any of its states, territories, possessions or other areas subject to its jurisdiction or to or for the benefit of a "US Person", as defined in the prospectus. Furthermore, the SICAV has to comply with the Foreign Account Tax Compliance Act ("FATCA") as prescribed by the intergovernmental agreement (IGA) entered into by the governments of the Grand Duchy of Luxembourg and the United States as of 28 March 2014 as well as the "FATCA Law" dated 24 July 2015 (MEMORIAL A 145 dated 29 July 2015) and is qualified as "restricted fund". For detailed information about the SICAV and the Sub-Fund please refer to the prospectus and the key investor information document (the 'KIID(s)'). All information reflects the current legal and economic conditions for the SICAV and its sub-funds and are subject to continuous change without notice. Financial information about the sub-funds is provided in the latest audited annual or semi-annual report. The KIID(s), the prospectus and the most recent annual and semi-annual reports are the only binding basis for the purchase of shares and investment decisions should be based solely on those documents. The latest version of the prospectus, the KIID(s), the annual and semi-annual reports can be obtained free of charge at the registered office of the following entities: the SICAV, the appointed agent(s) in the country, if any and listed under the above "Local Market Requirements" section, Global Evolution Manco S.A. as well as on the website www.globalevolutionfunds.com. Investors should read the KIID(s), the prospectus and the last annual and semi-annual reports and they should contact a professional adviser for personalized advice before deciding on any investment. The SICAV, the appointed local agent(s), if any, Global Evolution Manco S.A. as well as their agents assume no responsibility for the use of this document or its content.

***Performance data shown represents past performance and is not a guarantee of future returns.** Shown fund performance is representative of the share class referred to in this document only. Please note that investments in funds are subject to risk. The money invested in a fund can increase and decrease in value and there is no guarantee that you will get back the full amount invested, as described below. More recent performance may be lower or higher. Principal value and returns fluctuate over time so that shares, when redeemed, will be worth more or less than their original cost. Performance shown is net of all fund expenses, placement fees, sales charges (if applicable) and taxation. In the event that the share class referred to in the factsheet is a distributing share class, then shown performance will also assume the reinvestment of the distributed dividends. The performance calculation is based on the share class' currency denomination, as indicated under the "Key Information" section on page 1 of this factsheet. If the currency in which the past performance is displayed differs from the currency of the country in which you reside, then you should be aware that, due to exchange rate fluctuations, the performance shown may increase or decrease if converted into your local currency. Performance for other share classes will be more or less depending on differences in fees and sales charges. For periods when certain share classes were unsubscribed or not yet created (the "inactive share classes"), performance is imputed using the actual performance of the SICAV's active share class which has been determined by the management company as having the closest characteristics to such inactive share class and adjusting it based on the difference in TERs and, where applicable, converting the net asset value of the active share class into the currency of quotation of the inactive share class. The quoted performance for such inactive share class is the result of an indicative calculation.

This document is an advertisement for marketing purposes. Before Subscribing please read the Prospectus and the KIID
