

Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

Nuveen Santa Barbara Global Dividend Growth Fund (the "Fund")

A Sub-Fund of Nuveen Global Investors Fund plc (the "Company")

Class C Accumulating USD ISIN: IE00B74YSG85 (the "Class")

Objectives and investment policy

The objective of the Fund is to seek a total return comprised of both income and capital growth.

The Fund expects to invest at least 80% of its assets in shares of companies (equities) that pay dividends (a share of company profits paid to shareholders). The Fund expects that 40% to 75% of its assets will be invested in equities of non-U.S. companies. No country other than the U.S. may comprise more than 25% of the Fund's assets. The Fund may invest up to 10% of its assets in companies located in emerging markets. The Fund may invest more in financial services, utilities and energy companies, which have historically paid higher dividends than companies in other sectors.

The Fund may invest in financial derivative instruments ("FDI"), which are financial instruments linked to the value of underlying assets. FDI may be used for, e.g., managing the Fund's exposure to foreign currencies, reducing risk, managing the Fund more efficiently and to achieve profit.

At times, the Fund may invest in cash and instruments that can be readily converted into cash.

Any income the Fund generates will be reinvested to grow the value of

your investment.

You may purchase or sell shares of the Fund on days on which both the New York Stock Exchange and retail banks in Ireland are open for business, subject to certain cut-off times. This Fund may not be appropriate for investors who plan to withdraw their money within 5 years.

For more information about the investment policy, see "Investment Objective and Policies" in the Company's prospectus available at www.nuveenglobal.com.

Risk and reward profile

This risk and reward category is based on historical data and may not provide a reliable indication of the Fund's actual future risk and reward, which is subject to many variables. A fund in the lowest category is not a risk-free investment. The risk and reward category is not guaranteed and may change over time.

The Fund is in category 6 as it invests in equities that may experience frequent price movements (volatility). The risk and reward category indicated above reflects the historical volatility of shares held by the Fund.

The following risks, which are materially relevant to the Fund, may not be fully captured by the above risk and reward category:

Small/Medium Company Risk - Investments in smaller companies may be less liquid, more volatile and carry greater financial risk than securities of larger companies.

Emerging Markets Risk - The Fund may invest in companies located in countries in the initial stages of industrialisation with low per capita income. Such investments may be subject to greater risk due to political, economic, corporate governance, local market, accounting, liquidity, custody and other risks.

Currency Risk - The Fund invests in assets priced in currencies other than its base currency (USD). The Fund is not obliged to use techniques to try to limit currency exchange risk. Changes in exchange rates may have a negative impact on the Fund's investments.

Risk Relating to Small Fund Size - At any time, the Fund may be small in asset size and/or have a small number of shareholders, which could create greater impact on shareholders in terms of inflows and outflows, purchasing or selling securities at inopportune times and/or market exposure, resulting in each shareholder bearing a greater portion of the Fund's expenses.

The Fund may not achieve its investment objective and the value of the shares may fall. For a more detailed explanation of risks, please refer to "Certain Risk Factors and Investment Considerations" in the Company's prospectus.

Charges for this Fund

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest

Entry charge	5.00%
Exit charge	2.00%

This is the maximum that might be taken out of your money before it is invested or before the proceeds of your investment are paid out.

Charges taken from the Fund over a year

Ongoing charge	2.50%
----------------	-------

Charges taken from the Fund under certain specific conditions

Performance fee	None
-----------------	------

The **entry** and **exit charges** shown are maximum figures. In some cases you might pay less. You can find this out from your financial advisor or distributor.

The Fund may charge the 2.00% exit charge if shares are redeemed within 30 days. A charge of up to 5.00% may be payable when switching from the Fund to another sub-fund.

The ongoing charges figure is based on the expenses for the year ending December 2014. This figure excludes portfolio transaction costs (except for entry/exit charges paid when buying/selling in other schemes) and may vary from year to year.

For a more detailed explanation of charges, please refer to "Schedule V" of the prospectus, which is available at www.nuveenglobal.com.

Past performance

Past performance is not a reliable guide to future performance. The value of your investment may go down as well as up and you may not get back your original investment.

Past performance does not take into account any entry, exit or switching charges but does take into account the ongoing charge, as shown in the "Charges for this Fund" section.

The performance of this Class is calculated in US Dollars.

The Fund launched on 1 November 2011. This Class started to issue shares on 24 May 2012.
