## SUMMARY OF INVESTMENT OBJECTIVE

The Wellington Global High Yield Bond Fund seeks long-term total returns. The Investment Manager will actively manage the Fund against the ICE BofA Global High Yield Constrained Index, seeking to achieve the objective by utilising bottom-up fundamental research to invest primarily in debt securities worldwide which are considered to be below investment grade.

The inception date of the EUR S Acc Hdg share class is 28 September 2012. | Periods greater than one year are annualised. | If an investor's own currency is different from the currency in which the fund is denominated, the investment return may increase or decrease as a result of currency fluctuations. | Fund returns shown are net of EUR S Acc Hdg share class fees and expenses. Fund returns shown are net of actual (but not necessarily maximum) withholding and capital gains tax but are not otherwise adjusted for the effects of taxation and assume reinvestment of dividends and capital gains. The index returns, where applicable, are shown net of maximum withholding tax and assume reinvestment of dividends. | Please note the fund has a swing pricing mechanism in place. | If the last business day of the month is not a business day for the Fund, performance is calculated using the last available NAV. This may result in a performance differential between the fund and the index. | Source: Fund - Wellington Management. Index - ICE BofA.

## WHAT ARE THE RISKS?

**BELOW INVESTMENT GRADE:** Lower rated or unrated securities may have a significantly greater risk of default than investment grade securities, can be more volatile, less liquid, and involve higher transaction costs.

**CAPITAL:** Investment markets are subject to economic, regulatory, market sentiment and political risks. All investors should consider the risks that may impact their capital, before investing. The value of your investment may become worth more or less than at the time of the original investment. The Fund may experience a high volatility from time to time.

**CREDIT:** The value of a bond may decline, or the issuer/guarantor may fail to meet payment obligations. Typically lower-rated bonds carry a greater degree of credit risk than higher-rated bonds.

**EMERGING MARKETS:** Emerging markets may be subject to custodial and political risks, and volatility. Investment in foreign currency entails exchange risks.

**HEDGING:** Any hedging strategy using derivatives may not achieve a perfect hedge.

**INTEREST RATES:** The value of bonds tends to decline as interest rates rise. The change in value is greater for longer term than shorter term bonds.

**MANAGER:** Investment performance depends on the investment management team and their investment strategies. If the strategies do not perform as expected, if opportunities to implement them do not arise, or if the team does not implement its investment strategies successfully; then a fund may underperform or experience losses.

**SUSTAINABILITY RISK:** A Sustainability Risk can be defined as an environmental, social or governance event or condition that, if it occurs, could cause an actual or potential material negative impact on the value of an investment.
