# BNY Mellon Emerging Markets Corporate Debt Fund

**EURO A (ISIN: IE00B6VJMC30)**

a sub-fund of BNY Mellon Global Funds, plc. This Fund is managed by BNY Mellon Fund Management (Luxembourg) S.A.

## Objectives and Investment Policy

### OBJECTIVE

To generate a total return comprised of income and capital growth by investing primarily in corporate debt, and corporate debt-related instruments issued by emerging markets issuers worldwide and in financial derivative instruments relating to such instruments.

### POLICY

#### The Fund will:

- invest in emerging markets;
- invest in bonds and similar debt investments issued by companies (i.e. corporate bonds) and other public entities;
- invest in bonds and similar debt investments denominated in US dollars and in local currencies of the respective emerging market countries;
- invest in bonds, issued by governments and companies, with high and low credit ratings (i.e. investment grade and/or sub-investment grade bonds as rated by Standard and Poor's, Moody's, Fitch or similar agencies) or unrated;
- invest up to 30% of its Net Asset Value in subordinated debt instruments including up to 10% in Contingent Convertible securities (CoCo's);
- invest in derivatives (financial instruments whose value is derived from other assets) to help achieve the Fund's investment objective. The Fund will also use derivatives with the aim of risk or cost reduction or to generate additional capital or income; and

- invest in currencies and currency-related investments.

#### The Fund may:

- invest up to 15% of its Net Asset Value in securities listed or traded on the Moscow exchange;
- invest on a long and short basis; and
- invest up to 10% in other collective investment schemes.

**Benchmark:** The Fund will measure its performance against the JP Morgan Corporate Emerging Market Bond Index Broad Diversified (CEMBI - BD) TR Index (the "Benchmark").

The Fund is actively managed, which means the Investment Manager has absolute discretion to invest outside the Benchmark subject to the investment objective and policies disclosed in the Prospectus. While the Fund's holdings may include constituents of the Benchmark, the selection of investments and their weightings in the portfolio are not influenced by the Benchmark. The investment strategy does not restrict the extent to which the Investment Manager may deviate from the Benchmark.

### OTHER INFORMATION

**Treatment of income:** net income from investments will be retained within the Fund and reflected in the value of your shares.

**Dealing:** you can buy and sell your shares in the Fund between 9:00 and 17:00 (Irish time) on each business day in Ireland. Instructions received before 12:00 will receive the price quoted on that day. The minimum initial investment for this share class is EUR 5,000.

## Risk and Reward Profile

Lower risk  
Potentially lower reward

Higher risk  
Potentially higher reward

1 2 3 4 5 6 7

We have calculated the risk and reward category, as shown above, using a method of calculation derived from EU rules. It is based on the rate at which the value of the Fund has moved up and down in the past (i.e. volatility) and is not a guide to the future risk and reward category of the Fund. The category shown is not a target or guarantee and may shift over time. Even the lowest category 1 does not mean a risk-free investment.

This Fund is in category 4 because its historical value has shown moderate volatility. With a Fund of category 4, you have a moderate risk of losing money but your chance for gains is also moderate.

### THE FOLLOWING RISKS MAY NOT BE FULLY CAPTURED BY THE RISK AND REWARD INDICATOR:

- **Objective/Performance Risk:** There is no guarantee that the Fund will achieve its objectives.
- **Currency Risk:** This Fund invests in international markets which means it is exposed to changes in currency rates which could affect the value of the Fund.
- **Derivatives Risk:** Derivatives are highly sensitive to changes in the value of the asset from which their value is derived. A small

movement in the value of the underlying asset can cause a large movement in the value of the derivative. This can increase the sizes of losses and gains, causing the value of your investment to fluctuate. When using derivatives, the Fund can lose significantly more than the amount it has invested in derivatives.

- **Changes in Interest Rates & Inflation Risk:** Investments in bonds/money market securities are affected by interest rates and inflation trends which may negatively affect the value of the Fund.
- **Credit Ratings and Unrated Securities Risk:** Bonds with a low credit rating or unrated bonds have a greater risk of default. These investments may negatively affect the value of the Fund.
- **Credit Risk:** The issuer of a security held by the Fund may not pay income or repay capital to the Fund when due.
- **Emerging Markets Risk:** Emerging Markets have additional risks due to less-developed market practices.
- **Liquidity Risk:** The Fund may not always find another party willing to purchase an asset that the Fund wants to sell which could impact the Fund's ability to sell the asset or to sell the asset at its current value.
- **Share Class Currency Risk:** This share class is denominated in a different currency from the base currency of the Fund. Changes in the exchange rate between the share class currency and the base currency may affect the value of your investment.
- **Subordinated Debt Risk:** Subordinated Debt carries a greater level of risk compared to unsubordinated debt because it receives a lower priority level in terms of its claims on a company's assets in the case of the borrower's default.

– **CoCo's Risk:** Contingent Convertible Securities (CoCo's) convert from debt to equity when the issuer's capital drops below a pre-defined level. This may result in the security converting into equities at a discounted share price, the value of the security being written down, temporarily or permanently, and/or coupon payments ceasing or being deferred.

– **Counterparty Risk:** The insolvency of any institutions providing services such as custody of assets or acting as a counterparty to derivatives or other contractual arrangements, may expose the Fund to financial loss.

A complete description of risk factors is set out in the Prospectus in the section entitled "Risk Factors".

## Charges

The charges cover the costs of running the Fund, including the costs of marketing and selling. These charges reduce the potential growth of your investment.
