Chairman

Iain O.S. Saunders

Independent Director and Chairman. A member of the Board since September 2001.

Mr Saunders graduated in Economics from Bristol University and joined Robert Fleming in 1970. He held several senior positions with the group in Hong Kong, Japan and the US, before returning to the UK in 1988. He was appointed Deputy Chairman of Fleming Asset Management and retired in 2001 following the merger of the Robert Fleming group with JP Morgan. Mr Saunders is currently Chairman of several JPMorgan managed Luxembourg-domiciled investment funds and MB Asia Select Fund.

Directors

Jacques Elvinger

Independent Director. A member of the Board since January 2009.

Mr Elvinger became a member of the Luxembourg Bar in 1984 and has been a partner of the Luxembourg law firm Elvinger, Hoss & Prussen since 1987. Mr Elvinger practices general corporate and banking law and specialises in the field of investment and pension funds. He is a member of the Board of Directors of the Luxembourg Fund Association (ALFI) and is currently Chairman of the Regulation Advisory Board and Co-Chair of the Legal Committee of ALFI. He is also a member of the Advisory Committees to the Luxembourg Commission for the Supervision of the Financial Sector in the area of investment funds, pension funds and investment companies in risk capital. Mr Elvinger currently holds a number of professional and board mandates with European organisations including several JPMorgan managed Luxembourg-domiciled investment funds.

Jean Frijns

Independent Director. A member of the Board since July 2005.

Mr Frijns studied Econometrics, attained a doctorate in Economics from the University of Tilburg and was a lecturer at the Northern Illinois University. He joined the Dutch Central Planning Bureau (CPB), the economic think-tank of the Dutch government in 1980 and, in 1983, was appointed as deputy director of the CPB. Mr Frijns has held various posts including Chief Investment Strategist of ABP, a Dutch pension fund, a professorship in Investments from Vrije Universiteit (Amsterdam) and, since 2005 has served as Chairman of the Monitoring Committee on Corporate Governance. Mr Frijns currently holds a number of professional and board mandates with European organisations including several JPMorgan managed Luxembourg-domiciled investment funds.

John Li How Cheong

Independent Director. A member of the Board since June 2012.

During the last 26 years Mr Li worked essentially in the financial sector auditing and advising clients such as banks, investment funds, insurance companies, etc. Clients also were from Europe, US, Japan and Asia offering Mr Li an extensive experience in dealing with international companies. Mr Li was a Partner at KPMG Luxembourg for more than 20 years during which he was Managing Partner for 8 years before taking on the role of Chairman of the Supervisory Board for 3 years. Mr Li was also a member of the Investment Management Practice. Mr Li is a board member of the Institut Luxembourgeois des Administrateurs. Mr Li currently holds a number of board mandates with financial institutions including several JPMorgan managed Luxembourg-domiciled investment funds.

Peter Thomas Schwicht

Independent Director. A member of the Board since June 2012.

Mr. Schwicht obtained a Business Economics degree from the University of Mannheim in Germany after having studied business, tax and accounting in Hamburg, Norway and the USA and was an employee of JPMorgan Asset Management from 1987 until October 2014. Prior to his retirement Mr. Schwicht was the Chief Executive of Investment Management - EMEA, JPMorgan Asset Management. He had previously held positions as the Head of the Continental Europe Institutional business and the Investment Management Country Head for Institutional and Retail business in Germany where he first developed the business and then went on to expand this throughout Continental Europe. Mr Schwicht currently holds a number of board mandates with several JPMorgan managed Luxembourg-domiciled investment funds.

Daniel Watkins

Connected Director. A member of the Board since December 2014.

Mr. Watkins, managing director, is the Deputy CEO of IM Europe and Global Co-Head of IM Client Services and Business Platform. Mr Watkins has been an employee since 1997 and oversees the business infrastructure of Investment Management in Europe and Asia including client services, fund administration, product development, and RFP. Mr Watkins also performs the role of Deputy CEO of GIM EMEA, acting as a director of all the regulated legal entities across the region. Mr Watkins has held a number of positions at JPMorgan namely; Head of Europe COO and Global IM Operations, Head of the European Operations Team, Head of the European Transfer Agency, Head of Luxembourg Operations, manager of European Transfer Agency and London Investment Operations; and manager of the Flemings Investment Operations Teams. Mr Watkins obtained a BA in Economics and Politics from the University of York and is a qualified Financial Advisor. Mr Watkins currently holds a number of board mandates with several JPMorgan managed Luxembourg-domiciled investment funds.

The Board of Directors (the "Board") is pleased to present the Audited Annual Report for the year ended 31 December 2014.

Structure of the Fund

The Fund is a variable capital investment company, organised as a "Société Anonyme", under the laws of the Grand Duchy of Luxembourg. The Board has appointed JPMorgan Asset Management (Europe) S.à r.l. (JPMAME) as Management Company of the Fund. The Fund is organised as an "umbrella" with a number of Sub-Funds each of which has its own investment objective, policies and restrictions.

The objective of the Fund is to place the money available to it in transferable securities and other permitted assets of any kind, in accordance with the Fund's Prospectus, with the purpose of spreading investment risks and affording shareholders the results of the management of their portfolios.

The Fund qualifies as an Undertaking for Collective Investment in Transferable Securities (UCITS) under the EC Directive 2009/65/EC of 13 July 2009 and is subject to the Luxembourg law of 17 December 2010, as amended, relating to undertakings for collective investment. The Fund may therefore be offered for sale in European Union Member States, subject to notification in countries other than the Grand Duchy of Luxembourg. In addition, applications to register the Fund and its Sub-Funds may be made in other countries.

As at the year end the Fund had 22 Sub-Funds. All of the Sub-Funds and Share Classes are registered for offer and distribution in the Grand Duchy of Luxembourg and a number of the Sub-Funds and Share Classes are registered for distribution in the following jurisdictions:

Austria, Bahrain, Belgium, Chile, Cyprus, Denmark, Estonia, Finland, France, Germany, Greece, Hong Kong, Hungary, Ireland, Italy, Jersey, Macau, The Netherlands, Netherlands Antilles, Norway, Poland, Portugal, Singapore, Spain, Sweden, Switzerland, Taiwan and the United Kingdom.

Role and Responsibility of the Board

The responsibility of the Board is governed exclusively by Luxembourg law. With respect to the annual accounts of the Fund, the duties of the Directors are governed by the law of 10 December 2010 on, inter alia, the accounting and annual accounts of undertakings for collective investment and by the law of 17 December 2010, as amended, relating to undertakings for collective investment.

A management agreement between the Fund and JPMorgan Asset Management (Europe) S.à r.l sets out the matters over which the Management Company has authority under Chapter 15 of the Law of 17 December 2010, as amended. This includes management of the Fund's assets and the provision of administration, registration, domiciliation agent and marketing services. All other matters are reserved for approval by the Board and a schedule setting out such matters for clarity is in place between the Board and the Management Company. The matters reserved for the Board include determination of each Sub-Fund's investment objective and policies, investment restrictions and powers, amendments to the Prospectus, reviewing and approving key investment and financial data, including the annual accounts, as well as the appointment of, and review of the services provided by, the Management Company, Auditor and Custodian.

Prior to each Board meeting the Directors receive detailed and timely information allowing them to be prepared for the items under discussion during the meeting. For each quarterly meeting the Board requests, and receives, reports from, amongst others, the Management Company, the investment managers, risk management as well as proposals for changes to existing Sub-Funds or proposals to launch new ones as appropriate. Senior representatives of each of these functions attend Board meetings by invitation to enable the Directors to question the reports presented to it.

The Directors take decisions in the interests of the Fund and its shareholders as a whole and refrain from taking part in any deliberation or decision which creates a conflict of interest between their personal interests and those of the Fund and its shareholders. The subject of conflicts of interest is documented in the Prospectus and the Management Company's policy on conflicts of interest is available for inspection on the website:
http://www.jpmorganassetmanagement.lu/ENG/Document_Library

The Board can take independent professional advice if necessary and at the Fund's expense.

Board Composition

The Board is chaired by Mr. Saunders and consists of five Independent Directors and one Connected Director. The Board defines a Connected Director as someone who is employed by JPMorgan Chase & Co or any of its affiliates. All Board meetings require a majority of Independent Directors to be in attendance and as such the Board acts independently from the Management Company. The Board as a whole has a breadth of investment knowledge, financial skills, as well as legal and other experience relevant to the Fund's business. Directors are elected annually by shareholders at the Annual General Meeting. The Board does not limit the number of years of Directors' service and it does take into account the nature and requirements of the fund industry and of the Fund's business when making recommendation to shareholders that Directors be elected. The terms of each Director's appointment are set out in a contract for services and these are available at the Fund's registered office for inspection.

Change to the Composition of the Board

Mr. May resigned from the Board with effect from the close of business on 12 December 2014. The Board would like to take this opportunity to record its thanks for his service.

At the Board meeting held on 12 December 2014 the Board appointed Mr. Daniel Watkins as a Director with effect from 13 December 2014 to fill the vacancy created by Mr. May's resignation, subject to approval by the CSSF.

At the Annual General Meeting ("AGM") to be held on 24 April 2015 the Board of Directors would like recommend that shareholders consider the appointment of Mr. Massimo Greco as an additional Director with effect from the date of the AGM. Mr. Greco will bring his wealth of knowledge and experience in the asset management business to the Board meetings and it is recommended that shareholders vote in favour of his appointment. A brief summary of his experience is given below:

Massimo Greco, managing director, is responsible for the Global Funds business in Continental Europe, based in London. A JPMorgan employee since 1992, he took on his current responsibilities in 2012. In 1998 Mr. Greco moved to head the Investment Management business in Italy. Before that, he worked for Goldman Sachs International in the London Capital Markets team from 1986 to 1992. He began his career with the Investment Bank as head of Sales for Credit and Rates in Italy. Mr. Greco holds a degree in Economics from the University of Turin and an MBA (Major in Finance) from the Anderson Graduate School of Management at UCLA.

Board Remuneration

The Board believes that the remuneration of the Board members should reflect the responsibilities of the Board, the experience of the Board as a whole and be fair and appropriate given the size, complexity and investment objectives of the Fund and Sub-Funds.

The remuneration is reviewed on an annual basis. The Chairman is currently paid EUR 43,000 per annum and the other Directors EUR 40,000 per annum apart from the Connected Director who has agreed to waive his remuneration.

Board Meetings and Committees

The Board meets quarterly but if necessary additional meetings will be arranged.

Given the scope and nature of the business of the Fund, the Board does not currently consider it necessary to have a formal Audit or Remuneration Committee or indeed any other standing committees. However, this is kept under review.

All Board related matters are therefore currently approved by the Board or, where there are specific matters that need further consideration, a Sub-Committee of the Board could be formed for this specific purpose. Such circumstances could be where the Board requests some amendments to the Prospectus and where it is not appropriate to wait till the next quarterly Board meeting for this to be approved. These Sub-Committee meetings are usually formed of a minimum of two Directors.

There were four Board meetings held during the year. These were quarterly Board meetings where, amongst other matters, the agenda included those items highlighted under the section above called 'Role and Responsibility of the Board'.

In addition to the Board meeting where the Auditors present the report on the audit of the Fund accounts, the Independent Directors also meet with them annually without the Connected Directors being in attendance.

Internal Control

Investment management and all administrative services are provided by the Management Company and custody of assets is provided by J.P. Morgan Bank Luxembourg S.A. The Board's system of internal control therefore mainly comprises monitoring the services provided by the Management Company and the Custodian, including the operational and compliance controls established by them to meet the Fund's obligations to shareholders as set out in the Prospectus, Articles of Incorporation as well as all relevant regulations. The Management Company formally reports to the Board on a quarterly basis on the various activities it is responsible for and in addition shall inform the Board without delay of any material administrative or accounting matters.

Corporate Governance and ALFI Code of Conduct

The Board is responsible for ensuring that a high level of corporate governance is met and considers that the Fund has complied with the best practices in the Luxembourg funds industry.

In particular the Board has adopted the ALFI Code of Conduct (the "Code") which sets out principles of good governance. These principles were amended in August 2013 and are set out below:

1. The Board should ensure that high standards of corporate governance are applied at all times;
2. The Board should have good professional standing and appropriate experience and use best efforts to ensure that it is collectively competent to fulfil its responsibilities;
3. The Board should act fairly and independently in the best interests of the investors;
4. The Board should act with due care and diligence in the performance of their duties;
5. The Board should ensure compliance with all applicable laws and regulations and with the Fund's constitutional documents;
6. The Board should ensure that investors are properly informed, are fairly and equitably treated, and receive the benefits and services to which they are entitled;
7. The Board should ensure that an effective risk management process and appropriate internal controls are in place;
8. The Board should identify and manage fairly and effectively, to the best of its ability, any actual, potential or apparent conflict of interest and ensure appropriate disclosure;
9. The Board should ensure that shareholder rights are exercised in a considered way and in the best interests of the Fund;
10. The Board should ensure that the remuneration of the Board members is reasonable and fair and adequately disclosed.

The Board considers that the Fund has been in compliance with the principles of the Code in all material aspects throughout the financial year ended 31 December 2014. The Board undertakes an annual review of ongoing compliance with the principles of the Code.

Proxy Voting Policy

The Board delegates responsibility for proxy voting to the Management Company.

The Management Company manages the voting rights of the shares entrusted in a prudent and diligent manner, based exclusively on the reasonable judgement of what will best serve the financial interests of clients. So far as is practicable, the Management Company will vote at all of the meetings called by companies in which they are invested.

A copy of the proxy voting policy is available from the Fund's registered office upon request or on the website:
<http://am.jpmorgan.co.uk/institutional/aboutus/aboutus/corporategovernance.aspx>

Directors and Officers Indemnity Insurance

The Fund's Articles of Incorporation indemnify the Directors against expenses reasonably incurred in connection with any claim against them arising in the course of their duties or responsibilities as long as they have not acted fraudulently or dishonestly. To protect shareholders against any such claim, the Board has taken out Directors and Officers Indemnity Insurance which indemnifies the Directors against certain liabilities arising in the course of their duties and responsibilities but does not cover against any fraudulent or dishonest actions on their part.

Independent Auditor

PricewaterhouseCoopers, Société coopérative, has been the Fund's Auditor since February 2006. The provision of audit services was last put to competitive tender in 2013. The Board reviewed the services of PwC this last year and decided that, subject to any other influencing factor, they should continue to be proposed to the Shareholders to be appointed as Auditor for the next three years. At the conclusion of this period the Board will consider again whether to put the provision of audit services out to competitive tender.

Annual General Meeting

The next Annual General Meeting of the Company will be held on 24 April 2015 at the Registered Office of the Company to consider matters relating to the year ending on 31 December 2014. At this meeting shareholders will, amongst other matters, be requested to consider the usual matters at such meetings including:

1. the adoption of the financial statements and approval of the allocation of the results;
2. the approval of Directors fees;
3. the election of the Directors, all of whom wish to stand for election;
4. the election of the Auditor.

No special business is being proposed by the Board.

Events during the Year

During the year, the total net assets of the Fund increased from USD 34.1 billion to USD 41.2 billion at year end.

The Board agreed the following corporate actions and other significant amendments relating to Sub-Funds during the year:

a) Liquidations

Shareholders in the following Sub-Funds were informed of the decision of the Board to liquidate the Sub-Funds as set out below:

- JPMorgan Investment Funds - Emerging Markets Corporate Bond Portfolio Fund I on 19 September 2014

b) Mergers

Shareholders in the following Sub-Funds were informed of the decision of the Board to merge them as set out below:

- i) with effect from 17 January 2014:

- JPMorgan Investment Funds - Euro Liquid Market Fund into JPMorgan Funds - Euro Money Market Fund;

c) Changes to investment strategies, investment objectives and policies, and names

Shareholders in a number of Sub-Funds were informed of the decision of the Board to make the following amendments:

- i) with effect from 5 February 2014:

- JPMorgan Investment Funds - Emerging Markets Corporate Bond Portfolio Fund I. The investment objective and policy was amended to allow them to invest the majority of their assets in a portfolio of emerging market below investment grade corporate debt securities.

- ii) with effect from 5 February 2014:

- JPMorgan Investment Funds - Global Income Fund. The prospectus was amended to remove the following sentence from the Investment Policy section: "The majority of the assets (excluding cash and cash equivalents) will be invested in debt securities."

RMB hedged share classes were created with effect from 17 March 2014 to offer a solution to the growing number of clients holding CNH deposits.

With effect from 24 November 2014, certain Share Classes may charge a Performance Fee. Such Share Classes were renamed by the inclusion of "(perf)" in the Share Class name. Consequently, certain Y Share Classes will be renamed "X".

d) Removal of performance fees

The performance fee was removed from JPMorgan Investment Funds - Global Capital Appreciation Fund with effect from 9 April 2014. The SICAV's prospectus was amended to indicate the removal of this performance fees.

From 12 August 2014 to 19 September 2014 (liquidation date), the Management Company has decided to waive the Management and Advisory Fee rate of JPMorgan Investment Funds - Emerging Markets Corporate Bond Portfolio Fund I to 0%.

Board of Directors

Luxembourg, 26 March 2015

Market review of 2014

In the 12-month period ending 31 December 2014, global stock markets delivered strong returns, with the MSCI World Index up 19.5% in euro terms. Market sentiment was shaped by increasing divergence in central bank policy, geopolitical uncertainty in Ukraine and the Middle East, and the steep fall in the oil price. US stocks performed particularly well, with the S&P 500 up 28.7% in euro terms on the back of a strong recovery in the US economy and a strong move in the US dollar vs. the euro. The MSCI Europe struggled in comparison, returning 6.8%, held back by fears over eurozone economic growth, while the MSCI Emerging Markets Index rose 11.4%. Despite expectations at the beginning of the year for rising bond yields, fixed income investors made solid gains, with the Barclays Global Aggregate Bond Index up 14.5% (source for all market returns is FactSet, as at 31 December 2014, total return net in euro terms).

A major theme in the year was the winding down of asset purchases in the US and speculation over the timing of the first interest rate rise. In December 2013, the Federal Reserve (the Fed) announced that it would taper its USD 85 billion programme of monthly asset purchases by USD 10 billion each month, starting in January 2014. The response of US and other developed stock markets was fairly muted, with the highly-anticipated announcement viewed as a sign of greater confidence in the sustainability of the US recovery.

The Fed's asset purchase programme was eventually wound up in October 2014. However, a lack of inflationary pressures and worries about growth outside of the US pushed expectations for the first interest rate rise back to mid 2015, with the Fed maintaining its stance that interest rates would remain at their current lows for "a considerable time." This helped to force bond yields lower, while also supporting US stocks. US equities were further supported by strong growth in corporate profits and a sustained recovery in the US economy, bolstered by signs of a strong improvement in the labour market. Similar to the US, in the UK the Bank of England indicated that it was preparing to move interest rates higher after the UK economic recovery continued to gain momentum.

While improvement in both US and UK economic conditions led to expectations for interest rate increases in both countries next year, continued weakness in the eurozone and Japan saw the European Central Bank (ECB) and Bank of Japan (BoJ) undertake further stimulus measures. In the eurozone, persistently weak growth forced the ECB to take action in June to boost aggregate demand and prevent the eurozone economy from spiralling into deflation. The central bank cut its main refinancing rate to 0.05%, but perhaps more importantly it tried to boost the flow of credit to companies and individuals by introducing a negative deposit rate and by extending cheap long-term funding to the banks in the form of new targeted long-term refinancing operations (TLTROS).

In Japan, meanwhile, the BoJ announced an extension to its government bond-buying programme at the end of October, boosting its asset purchases from around JPY 50 trillion a year to JPY 80 trillion in order to boost Japanese economic activity. The surprise decision came in response to concerns that the economy was not recovering from the first round of consumption tax increases in April. GDP data confirmed that the Japanese economy had slipped back into recession in the third quarter of 2014, mainly due to a drop in consumption.

The increasingly divergent central bank policy led to some fairly large moves in currency markets, with the US dollar strengthening significantly vs. the Japanese yen and euro. Several emerging market currencies also weakened substantially, as the emerging world bore the brunt of the adjustment from the Fed's winding up of its asset purchases. Emerging markets had been the prime beneficiaries of the increased liquidity resulting from the Fed's ultra-loose monetary policy, and were therefore seen as vulnerable to a reduction in stimulus.

Emerging markets also responded to several political developments in the year, many of which were market-positive, particularly the victory of Narendra Modi as prime minister in India, with prospects for economic reform helping to support sentiment. However, in Brazil, worries over the economy resurfaced after Dilma Rousseff was re-elected as president in October. Sentiment towards Brazil and several other commodity-exporting countries also struggled amid a drop in commodity prices later in the year. With the Organisation of the Petroleum Exporting Countries (OPEC) refusing to cut production, and given worries over global demand growth, Brent crude halved from its June high of USD 112 per barrel, reaching a five-and-a-half-year low by the end of the review period. One of the worst-affected countries from the collapse in the oil price was Russia, which was also battling with western sanctions imposed following the escalation of fighting between Russian-backed separatists and the Ukrainian government in eastern Ukraine.

The other key theme in emerging markets was a slowdown in China, as industrial data and GDP growth both weakened significantly. However, Chinese equities performed well compared to the broader emerging market universe, with the MSCI China returning 22.9%, as Chinese authorities acted to stimulate growth. The People's Bank of China announced a surprise rate cut for the first time in two years, and launched infrastructure investment projects to ensure that growth targets are met.

Outlook for 2015

Hopes have receded this year of a shared recovery among the developed economies. While the US and UK have registered decent performance, economies in the eurozone and emerging markets, as well as Japan, have been materially weaker, with the picture less promising than at the start of the year. Looking to the year ahead, continued divergence in economic performance and monetary policy is likely to be the single most important theme investors will have to grapple with.

While monetary policy will remain extraordinarily loose globally, the path to normalisation in 2015 will begin in earnest with an interest rate rise in the US, likely mid year, assuming the US unemployment rate continues to fall faster than expected and wage growth picks up. Both the Fed and BoE will therefore likely raise rates in 2015 as their recoveries mature. Against this backdrop, fixed income returns will be challenging, but different areas of the bond market will react differently to the normalisation process, so there will still be value to be found.

In emerging markets, meanwhile, share price valuations look cheap relative to history and compared to developed markets, but there are still doubts over a recovery in corporate earnings growth given commodity price weakness and concerns over a slowdown in China. The asset class will also face headwinds from rising US interest rates and the potential for further strengthening of the US dollar in 2015.

Audit Report

To the Shareholders of
JPMorgan Investment Funds

We have audited the accompanying financial statements of JPMorgan Investment Funds and of each of its Sub-Funds, which comprise the Combined Statement of Net Assets and the Schedule of Investments as at 31 December 2014 and the Combined Statement of Operations and Changes in Net Assets for the year then ended, and a summary of significant accounting policies and other explanatory notes to the financial statements.

Responsibility of the Board of Directors of the SICAV for the financial statements

The Board of Directors of the SICAV is responsible for the preparation and fair presentation of these financial statements in accordance with Luxembourg legal and regulatory requirements relating to the preparation of the financial statements and for such internal control as the Board of Directors of the SICAV determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Responsibility of the "Réviseur d'entreprises agréé"

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with International Standards on Auditing as adopted for Luxembourg by the "Commission de Surveillance du Secteur Financier". Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the judgment of the "Réviseur d'entreprises agréé", including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the "Réviseur d'entreprises agréé" considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the Board of Directors of the SICAV, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements give a true and fair view of the financial position of JPMorgan Investment Funds and of each of its Sub-Funds as of 31 December 2014, and of the results of their operations and changes in their net assets for the year then ended in accordance with Luxembourg legal and regulatory requirements relating to the preparation of the financial statements.

Other matters

Supplementary information included in the annual report has been reviewed in the context of our mandate but has not been subject to specific audit procedures carried out in accordance with the standards described above. Consequently, we express no opinion on such information. However, we have no observation to make concerning such information in the context of the financial statements taken as a whole.

*The suffix "(perf)" was added to this Share Class on 24 November 2014.

* Share Class inactive as at end of the year.

** Share Class reactivated during the year.

The accompanying notes form an integral part of these Financial Statements.

1. Organisation

JPMorgan Investment Funds (the "SICAV") is an investment company incorporated on 22 December 1994 under the name J.P. Morgan Investment Funds. The name of the SICAV was changed to JPMorgan Fleming Investment Funds on 19 November 2001 and then to JPMorgan Investment Funds on 12 September 2005.

It is organised under Part I of the Luxembourg Law of 17 December 2010 on Undertakings for Collective Investment, as a Société Anonyme qualifying as a "Société d'Investissement à Capital Variable" (SICAV). As at 31 December 2014, it comprises 22 Sub-Funds, each relating to a separate investment portfolio consisting of securities, cash and other instruments.

On 12 September 2005, JPMorgan Asset Management (Europe) S.à r.l. was appointed by the SICAV to act as Management Company. The Articles of Incorporation were also modified so the SICAV complies with UCITS III regulations. From 1 July 2011, JPMorgan Asset Management (Europe) S.à r.l. is acting as a Chapter 15 Management Company under the Luxembourg Law of 17 December 2010 and complies with UCITS IV regulations.

The SICAV is registered with the Registre de Commerce et des Sociétés of Luxembourg, under number B 49 663.

Each Sub-Fund may contain A, B, C, D, I, P, T, X and Y Classes of Shares, which may differ in the minimum subscription amount, minimum holding amount, currency and/or eligibility requirements, the fees and expenses, and the dividend policy applicable to them. In addition, each Sub-Fund may contain Classes of Shares named either "JPM" or "JPMorgan". Certain Share Classes may charge a Performance Fee. Such Share Classes were renamed by the inclusion of "(perf)" in the Share Class name.

Within each Sub-Fund, individual Classes of Shares may have a currency of denomination that differs from the currency of denomination of the Sub-Fund. The currency of denomination for each Class of Share is indicated by a suffix on the name of the Share Class.

2. Significant Accounting Policies

The Financial Statements are prepared in accordance with Luxembourg regulations relating to Undertakings for Collective Investments.

a) Investment Valuation

Transferable securities which are admitted to an official exchange listing or dealt in on another regulated market are valued on the basis of the latest available price prevailing at the time of calculating the net asset value.

If securities are listed or dealt in on several exchanges or markets, the latest available price, or if appropriate, the average price on the principal exchange or market will be applied.

Transferable securities not admitted to an official exchange listing nor dealt in on another regulated market are valued at the latest available price. Those securities for which no price is available or for which the latest available price is not representative are valued on the basis of their reasonably foreseeable sales price determined with prudence and in good faith by the Board of Directors.

Shares or Units in UCITS or other UCIS are valued at the latest available price or net asset value, as reported or provided by such undertakings or their agents.

Liquid assets and money market instruments may be valued at nominal values plus any accrued interest or on an amortised cost basis.

For the JPMorgan Investment Funds - Euro Liquid Market Fund:

- Except as noted below, all investments are valued at amortised cost, which approximates market value. Under this method, the cost of investments is adjusted to income for the amortisation of premiums and discounts over the life of the investments.
- Where the amortised cost basis does not reflect a fair approach to the valuation of the security, the latest available price prevailing on the valuation day is used.

The financial statements are presented on the basis of the net asset values of the Sub-Funds calculated on 31 December 2014, except for JPMorgan Investment Funds - Blue and Green Fund, JPMorgan Investment Funds - Europe Select Equity Fund, JPMorgan Investment Funds - Global Balanced Fund, JPMorgan Investment Funds - Global Capital Appreciation Fund, JPMorgan Investment Funds - Global Capital Preservation Fund (USD), JPMorgan Investment Funds - Global Conservative Balanced Fund, JPMorgan Investment Funds - Japan 50 Equity Fund, JPMorgan Investment Funds - Japan Select Equity Fund and JPMorgan Investment Funds - Japan Strategic Value Fund calculated on 30 December 2014 (due to the Management Company's decision to close these funds on 31 December 2014 due to a substantial portion of the portfolios being traded on a closed stock exchange). In accordance with the Prospectus, the net asset values were calculated using the latest exchange rates known at the time of calculation.

b) Swing Pricing

A Sub-Fund may suffer dilution of the Net Asset Value per Share due to investors buying or selling Shares in a Sub-Fund at a price that does not reflect the dealing and other costs that arise when security trades are undertaken by the Investment Manager to accommodate cash inflows or outflows.

In order to counter this impact, a Swing Pricing mechanism may be adopted to protect the interests of Shareholders of the Fund. If on any Valuation Day, the aggregate net transactions in Shares of a Sub-Fund exceed a pre-determined threshold, as determined and reviewed for each Sub-Fund on a periodic basis by the Management Company, the Net Asset Value per Share may be adjusted upwards or downwards to reflect net inflows and net outflows respectively. The net inflows and net outflows will be determined by the Management Company based on the latest available information at the time of calculation of the Net Asset Value per Share. The Swing Pricing mechanism may be applied across all Sub-Funds with the exception of JPMorgan Investment Funds - Blue and Green Fund and JPMorgan Investment Funds - Highbridge Statistical Market Neutral Fund as defined by the Prospectus. The extent of the price adjustment will be set by the Management Company to reflect dealing and other costs. Such adjustment may vary from Sub-Fund to Sub-Fund and will not exceed 2% of the original Net Asset Value per Share. The Official Net Asset Value per Share as at year end, disclosed in the Statistical Information section of this report may therefore include a Swing Pricing adjustment, which would not be recognised in the Combined Statement of Net Assets and in the Combined Statement of Operations and Changes in Net Assets.

No Sub-Funds were swung as at 31 December 2014.

From 30 July 2010 onwards, the net asset values of JPMorgan Investment Funds - Emerging Markets Corporate Bond Portfolio Fund I had been adjusted downwards by a swing factor determined by the Management Company under its established procedures, irrespective of redemption flows. The decision to swing downwards is due to the specific nature of the product and the fact that after the initial subscription phase, no further subscriptions will be accepted into the Fund.

c) Realised and Unrealised Gains and Losses on Investments

Investment transactions are accounted for on the trade date (the date the order to buy or sell is executed). For trades into other collective investment schemes, transactions are accounted for on receipt of the trade confirmation from the underlying transfer agents.

Realised gains and losses on sales of investments are calculated on the average book cost. The associated foreign exchange movement between the date of purchase and date of sale of investments is included in realised gains and losses on investments. Unrealised gains and losses on holdings of investments are calculated on the total book cost and include the associated unrealised gains and losses on foreign exchange.

d) Income Recognition

Interest income is accrued daily and includes the amortisation of premiums and accretion of discounts, where applicable. Bank interest income is recognised on an accrual basis. Dividend income is accrued on the ex-dividend date. This income is shown net of any withholding taxes and adjusted accordingly when tax reclaims apply.

e) Conversion of Foreign Currencies

The books and records of each Sub-Fund are denominated in the base currency of the corresponding Sub-Fund. Amounts denominated in other currencies are translated into the base currency on the following basis: (i) investment valuations and other assets and liabilities initially expressed in other currencies are converted each business day into the base currency using currency exchange rates prevailing on each such business day; (ii) purchases and sales of foreign investments, income and expenses are converted into the base currency using currency exchange rates prevailing on the respective dates of such transactions.

Net realised and unrealised gains or losses on foreign exchange represent: (i) foreign exchange gains and losses from the sale and holding of foreign currencies and foreign cash equivalents; (ii) gains and losses between trade date and settlement date on securities transactions; and (iii) gains and losses arising from the difference between amounts of dividends and interest recorded and the amounts actually received.

The resulting gains and losses on translation are included in "Net Realised Gain/(Loss) on Foreign Exchange" in the Combined Statement of Operations and Changes in Net Assets.

The reference currency of the SICAV as reflected in the combined statements is USD.

The principal exchange rates applied as at 31 December 2014 are as follows:

1 USD = 1.223376380 AUD;

1 USD = 1.159180000 CAD;

1 USD = 0.991380000 CHF;

1 USD = 6.218800000 CNH;

1 USD = 0.824531490 EUR;

1 USD = 0.642632220 GBP;

1 USD = 7.756080000 HKD;

1 USD = 261.090000000 HUF;

1 USD = 119.500000000 JPY;

1 USD = 1.279650000 NZD;

1 USD = 3.539000000 PLN;

1 USD = 7.773400000 SEK;

1 USD = 1.323480000 SGD.

f) Forward Foreign Exchange Contracts

Unrealised gains or losses on outstanding forward foreign exchange contracts are valued on the basis of currency exchange rates prevailing at the relevant valuation date. The changes in such amounts are included in the Combined Statement of Operations and Changes in Net Assets under "Net Change in Unrealised Gain/(Loss) on Forward Foreign Exchange Contracts". When a contract is closed, the Realised Gain/(Loss) is recorded under "Net Realised Gain/(Loss) on Forward Foreign Exchange Contracts" in the Combined Statement of Operations and Changes in Net Assets. Unrealised Gains or Losses are recorded under "Unrealised Gain/(Loss) on Forward Foreign Exchanges Contracts" in the Combined Statement of Net Assets.

g) Financial Futures Contracts on Securities and Indices

Regulated financial futures contracts are valued at the exchange quoted settlement price. Initial margin deposits are made upon entering into the contracts and can be either in cash or securities. During the period the contracts are open, changes in the value of the contracts are recognised as unrealised gains and losses by "marking-to-market" on a daily basis to reflect the market value of the contracts at the end of each business day's trading. Variation margin payments are made or received, depending upon whether losses or gains are incurred. When a contract is closed, the SICAV records a realised gain or loss equal to the difference between the proceeds from, or cost of, the closing transaction and the initial cost of the contract in "Net Realised Gain/(Loss) on Financial Futures Contracts" in the Combined Statement of Operations and Changes in Net Assets.

Unrealised gains or losses are recorded under "Unrealised Net Gain/(Loss) on Financial Futures Contracts" in the Combined Statement of Net Assets.

Daily margin calls are recorded under "Net Realised Gain/(Loss) on Financial Futures Contracts" in the Combined Statement of Operations and Changes in Net Assets.

h) Option Contracts

Options purchased are recorded as investments; options written or sold are recorded as liabilities. When the exercise of an option results in a cash settlement, the difference between the premium and the settlement proceeds is accounted for as a realised gain or loss. When securities are acquired or delivered upon exercise of an option, the acquisition cost or sale proceeds are adjusted by the amount of the premium. When an option is closed, the difference between the premium and the cost to close the position is accounted for as a realised gain or loss. When an option expires, the premium is accounted for as a realised gain for options written or as a realised loss for options purchased.

The SICAV writes options on securities, futures, currencies and interest rate swaps ("swaptions"). These options are settled in cash and subject the SICAV to unlimited risk of loss. The SICAV, however, is not subject to credit risk on written options as the counterparty has already performed its obligation by paying the premium at the inception of the contract.

For options on futures, where the investment manager is based in the United Kingdom, variation margin payments are made or received daily, depending upon whether losses or gains are incurred on the underlying futures contract.

The market values are recorded under "Derivative Instruments at Market Value" in the Combined Statement of Net Assets.

i) To Be Announced Securities ("TBAs")

TBAs are related to mortgage backed securities issued by government sponsored agencies. These agencies usually pool mortgage loans and sell interests in the pools created. TBAs relate to future pools of these agencies that are bought and sold for future settlement for which either the interest rate or the maturity date is not yet fixed. TBAs are separately disclosed in the Schedule of Investments.

Certain Sub-Funds may enter into Dollar Rolls, principally using To Be Announced ("TBA") Securities, in which the Sub-Funds sell mortgage-backed securities for delivery in the current month and simultaneously contract to repurchase similar, but not identical, securities at an agreed-upon price on a fixed date. The Sub-Funds account for such Dollar Rolls as purchases and sales and receive compensation as consideration for entering into the commitment to repurchase. The Sub-Funds must maintain liquid securities having a value no less than the repurchase price (including accrued interest) for such Dollar Rolls. The market value of the securities that the Sub-Funds are required to purchase may decline below the agreed upon repurchase price of those securities.

Certain Sub-Funds had TBAs outstanding as of 31 December 2014, which are included in Investment in TBAs at Market Value and Open Short Positions on TBAs in the Combined Statement of Net Assets.

j) Interest Rate Swaps

An interest rate swap is a bilateral agreement in which each of the parties agree to exchange a series of interest payments for another series of interest payments (usually fixed/floating) based on a notional amount that serves as a computation basis and that is usually not exchanged.

The market values are recorded under "Derivative Instruments at Market Value" in the Combined Statement of Net Assets. The changes in such amounts are recorded under "Net Change in Unrealised Gain/(Loss) on Derivative Instruments" and the Realised under "Net Realised Gain/(Loss) on Derivative Instruments" in the Combined Statement of Operations and Changes in Net Assets.

k) Total Return Swaps

The SICAV may enter into swap contracts in which the SICAV and the counterparty agree to exchange payments where one or both parties pay the returns generated by a security, instrument, basket or index thereof. The payments made by the SICAV to the counterparty and vice versa are calculated by reference to a specific security, index, or instruments and an agreed upon notional amount. Any such underlying security or instrument must be a transferable security and any such index must be an index of a regulated market.

A Total Return Swap on a basket of equities will exchange the total performance on the specific basket of equities, selected by the Investment Manager against a reference rate plus a spread. The total performance includes interest, dividends, gains and losses on the underlying securities during the contract period according to the type of underlying. The risk of this type of instrument will depend on the uncertain evolution, at the time of the contract conclusion, of the performance of the underlying. These underlying securities are listed on a primary exchange.

The value of the underlying securities shall be taken into account for the calculation of the investment restrictions applicable to individual issuers. The relevant indices include, but are not limited to, currencies, interest rates, prices and total return on interest rates indices, fixed income indices and stock indices.

The market values are recorded under "Derivative Instruments at Market Value" in the Combined Statement of Net Assets. The changes in such amounts are included in the Combined Statement of Operations and Changes in Net Assets under "Net Change in Unrealised Gain/(Loss) on Derivative Instruments". When a contract is closed, the Realised Gain/(Loss) is recorded under "Net Realised Gain/(Loss) on Derivative Instruments" in the Combined Statement of Operations and Changes in Net Assets.

JPMorgan Investment Funds - Global Select Equity Plus Fund and JPMorgan Investment Funds - Highbridge Statistical Market Neutral Fund have each entered into Total Return Swaps (long/short, together "the Swaps") on a basket of securities with selected counterparties.

l) Credit Default Swaps

A Credit Default Swap is a credit derivative transaction in which two parties enter into an agreement, whereby one party pays the other a periodic payment for the specified life of the agreement. The other party makes no payments unless a credit event, relating to a predetermined reference asset, occurs. If such an event occurs, the party will then make a payment to the first party, and the swap will terminate. The value of the underlying securities shall be taken into account for the calculation of the investment restrictions applicable to individual issuers.

The market values are recorded under "Derivative Instruments at Market Value" in the Combined Statement of Net Assets. The changes in such amounts are recorded under "Net Change in Unrealised Gain/(Loss) on Derivative Instruments" and the Realised under "Net Realised Gain/(Loss) on Derivative Instruments" in the Combined Statement of Operations and Changes in Net Assets.

m) Forward Starting Variance Swap

A variance swap is an instrument which allows the SICAV to trade future realized (or historical) volatility of an underlying asset against its current implied volatility. The market values are recorded under "Derivatives Instruments at Market Value" in the Combined Statement of Net Assets. The changes in such amounts are recorded under "Net Change in Unrealised Gain/(Loss) on Derivatives Instruments" and the Realised Gain/(Loss) when contracts are closed are recorded under "Net Realised Gain/(Loss) on Derivatives Instruments" in the Combined Statement of Operations and Changes in Net Assets.

3. Fees and Expenses

The Operating and Administrative Expenses cover:

(i) Expenses directly contracted by the Fund, including but not limited to the Custodian fees, auditing fees and expenses, the Luxembourg tax d'abonnement, Directors' fees and reasonable out-of-pocket expenses incurred by the Directors.

(ii) A "fund servicing fee" paid to the Management Company for administrative and related services which will be the remaining amount of the Operating and Administrative Expenses after deduction of the expenses detailed under section i) above. The Management Company then bears all expenses incurred in the day to day operation and administration of the Fund, including but not limited to formation expenses such as organisation and registration costs; accounting expenses covering fund accounting and administrative services; transfer agency expenses covering registrar and transfer agency services; the Administrative Agent and Domiciliary Agent services; the fees and reasonable out-of-pocket expenses of the paying agents and representatives; legal fees and expenses; ongoing registration, listing and quotation fees, including translation expenses; the cost of publication of the Share prices and postage, telephone, facsimile transmission and other electronic means of communication; and the costs and expenses of preparing, printing and distributing the Prospectus, Key Investor Information Documents or any offering document, financial reports and other documents made available to Shareholders.

Operating and Administrative Expenses do not include Transaction Fees and Extraordinary Expenses.

Except where otherwise indicated in Appendix III of the Prospectus, Operating and Administrative Expenses borne by the A, B, C, D, P and T Share Classes of all Sub-Funds are set at a fixed rate specified in Appendix III of the Prospectus. The Operating and Administrative Expenses borne by I, X and Y Share Classes will be the lower of the actual expenses incurred by the Fund and the maximum rate detailed in Appendix III of the Prospectus. The Management Company

will bear any Operating and Administrative Expenses which exceed the rate specified in Appendix III of the Prospectus. At its discretion, the Management Company may on a temporary basis meet the Direct Expenses on a Sub-Fund's behalf and/or waive all or part of the Fund Servicing Fee.

a) All Sub-Funds - Share Classes A, B, C, D and T

The fees and expenses charged to these Classes of shares are set at a fixed percentage of the total net assets of each Class of shares. This fixed percentage covers all fees and expenses connected with the management of these Classes of shares, including Investment Management Fees, shareholder servicing fees and Other Operating and Administrative Expenses, which include but are not limited to Custody, Registrar and Transfer Agent Fees; it does not cover taxes paid on investment, brokerage expenses, extraordinary costs or performance fees, if any. No other costs are charged to these Classes of shares, and the Management Company absorbs any difference that may arise between the actual costs of the operations of these Classes of shares and the fixed percentage. To the extent that the actual operating costs are less than the fixed percentage, the excess is paid to the Management Company and included within "Management and Advisory Fees". To the extent that actual operating costs exceed the fixed percentage, the amount borne by the Management Company will be separately disclosed as a "Fee Waiver" in the Combined Statement of Net Assets and the Combined Statement of Operations and Changes in Net Assets.

This fixed annual rate of fees and expenses is categorised as a Total Expense Ratio. The fixed annual rates of fees for each Class of shares are shown in the Appendix.

b) All Sub-Funds - Share Class I

The maximum total fees and expenses to be borne by Class I shareholders of any Sub-Fund will not exceed a capped percentage of the total net assets attributable to that Class. These capped fees and expenses comprise Investment Management Fees plus other Operating and Administrative Expenses, limited to Custody, Fiduciary, Accounting, Transfer Agency Fees, Taxes and Sundry Expenses; it does not cover performance fees, if any.

This capped annual rate of fees and expenses is categorised as a Capped Expense Ratio. The capped annual rates of fees for each Class of shares are shown in the Appendix.

c) All Sub-Funds - Share Class X and Y

The Class X and Y shares of each Sub-Fund are charged a pro-rata share of the Custody and Accounting Fees allocable to that Sub-Fund.

The Management Company pays all other Operating and Administrative Expenses allocable to such Class to the exclusion of performance fees, if any. The maximum Operating and Administrative Expenses to be borne by the Class X and Class Y shareholders of any Sub-Fund will not exceed a capped percentage of the total net assets attributable to that Class, as set out in the Appendix.

The Annual Management Fee that would normally be payable in respect of the X and Y Share Class are administratively levied and collected by the Global Distributor directly from the shareholder or through the relevant J.P.Morgan Chase & Co. entity.

Sub-Funds may invest in UCITS and other UCIs managed by the Management Company, the Investment Manager or any other member of JPMorgan Chase & Co. The avoidance of a double-charge of the Annual Management and Advisory Fee on such assets is achieved by either a) excluding the assets from the net assets on which the Annual Management and Advisory Fee is calculated; or b) investing in UCITS or UCIs via classes that do not accrue an Annual Management and Advisory Fee or other equivalent fees payable to the relevant Investment Manager's group; or c) the Annual Management and Advisory Fee being netted off by a rebate to the SICAV or Sub-Fund of the Annual Management and Advisory Fee (or equivalent) charged to the underlying UCITS or UCIs; or d) charging only the difference between the Annual Management and Advisory Fee of the SICAV or Sub-Fund and the Annual Management and Advisory Fee (or equivalent) charged to the underlying UCITS or UCIs.

The Management Company has from time to time waived all or part of the Annual Management and Advisory Fees payable to it on a number of Sub-Funds. In addition, the Management Company has from time to time paid part of the Operating and Administrative Expenses payable on a number of Sub-Funds. These actions have had the effect of reducing the Annual Total Expenses on a number of Sub-Funds.

d) Performance Fees

Pursuant to the Investment Management Agreement, as set out in the Appendix to the Prospectus, the Investment Manager is entitled to receive from the net assets of certain Sub-Funds or Classes, an annual performance-based incentive fee (the "Performance Fee") if the performance of the Sub-Fund exceeds the return from the benchmark, subject to the operation of a Claw-Back Mechanism or of a High Water Mark as defined in Appendix V of the Prospectus and as specified in Appendix III of the Prospectus for each Sub-Fund. On each Valuation Day, an accrual for the previous Valuation Day's Performance Fee is made, when appropriate, and the final Performance Fee is payable annually. Pursuant to the provisions of the relevant Investment Management Agreement, the Investment Manager may be entitled to receive the performance fees from the Management Company.

On each Valuation Day, the net asset value of each Class of each Sub-Fund for which a Performance Fee applies, which includes an accrual for all fees and expenses (including the Annual Management and Advisory Fee, and the Operating and Administrative Expenses to be borne by the relevant Class at the rate set out in the Appendix to the Prospectus), is adjusted for any dividend distributions and for subscriptions and redemptions dealt with on that Valuation Day, if any, and any Performance Fee accrued through that day in respect of such Class is added back (the "Adjusted net asset value"). For purposes of calculating the Performance Fee, the "Share Class Return" is computed on each Valuation Day, as the difference between the net asset value (adjusted by adding back any accrued Performance Fee) on such day and the Adjusted net asset value on the previous Valuation Day, expressed as a return based on the previous Valuation Day's Adjusted net asset value for that Class.

High Water Mark Method

If the Share Class Return exceeds the Benchmark Return and the cumulative Share Class Return exceeds the High Water Mark Return (as set out in the Appendix to the Prospectus), the Performance Fee accrual is increased by the Performance Fee Rate multiplied by the Excess Return multiplied by the previous Valuation Day's Adjusted net asset value for that Class. If the Share Class Return does not exceed the Benchmark Return, the Performance Fee accrual is reduced (but not below zero) by the Performance Fee Rate multiplied by the negative Excess Return multiplied by the previous Valuation Day's Adjusted net asset value for that Class. Following a period of negative Excess Return whereby the Performance Fee accrual has been reduced to zero, no new Performance Fee is accrued until such time as the cumulative Share Class Return exceeds the greater of the High Water Mark Return and the cumulative Benchmark Return since the beginning of the SICAV accounting year. The Performance Fee accrued on any Valuation Day is reflected in the Net Asset Value per Share on the basis of which subscriptions and redemptions may be accepted.

Claw-Back mechanism

The purpose of the Claw-Back Mechanism is to ensure that the Management Company will only become entitled to a Performance Fee when it outperforms the cumulative Benchmark Return (as defined in Appendix V of the Prospectus) accrued since the last Valuation Day of the last period in which a Performance Fee was paid.

JPMorgan Investment Funds

Notes to the Financial Statements (continued)

As at 31 December 2014

As at 31 December 2014, the Performance Fee rate and the benchmarks are as follows:

Sub-Fund or Share Class	Performance Fee Rate	Benchmark
<i>Claw-Back Mechanism method</i>		
JPMorgan Investment Funds - Global Select Equity Plus Fund (All, except hedged)	10%	MSCI World Index (Total Return Net)
JPMorgan Investment Funds - Global Select Equity Plus Fund (EUR hedged)	10%	MSCI World Index (Total Return Net) hedged to EUR
<i>High Water Mark Return method</i>		
JPMorgan Investment Funds - Global Capital Appreciation Fund (1)	10%	ICE 1 Month EUR LIBOR
JPMorgan Investment Funds - Highbridge Statistical Market Neutral Fund (All, except hedged)	20%	EONIA
JPMorgan Investment Funds - Highbridge Statistical Market Neutral Fund (GBP hedged)	20%	ICE Overnight GBP LIBOR
JPMorgan Investment Funds - Highbridge Statistical Market Neutral Fund (SEK hedged)	20%	STIBOR Tomorrow Next Offered Rate
JPMorgan Investment Funds - Highbridge Statistical Market Neutral Fund (USD hedged)	20%	ICE Overnight USD LIBOR
JPMorgan Investment Funds - Income Opportunity Fund (All, except hedged)	20%	ICE Overnight USD LIBOR
JPMorgan Investment Funds - Income Opportunity Fund (CHF hedged)	20%	ICE Spot Next CHF LIBOR
JPMorgan Investment Funds - Income Opportunity Fund (EUR hedged)	20%	EONIA
JPMorgan Investment Funds - Income Opportunity Fund (GBP hedged)	20%	ICE Overnight GBP LIBOR
JPMorgan Investment Funds - Income Opportunity Fund (RMB hedged)	20%	Overnight CNH HIBOR
JPMorgan Investment Funds - Income Opportunity Fund (SEK hedged)	20%	STIBOR Tomorrow Next Offered Rate
JPMorgan Investment Funds - Income Opportunity Fund (SGD hedged) (2)	20%	Singapore Overnight Rate Average

(1) The Management Company stopped the accrual of the Sub-Fund's performance fees with effect from 9 April 2014.

(2) Benchmark changed from Singapore Interbank Overnight Rate with effect from 29 April 2014.

4. Dividend Policy

Share Classes with the suffix "(acc)" are accumulation Share Classes and will not normally pay dividends.

Distribution Share Classes will normally pay dividends as described below.

Share Classes suffixed "(dist)" and suffixed "(inc)"

It is intended that all those Share Classes with the suffix "(dist)" will meet the conditions to qualify as "reporting Fund" for the purposes of the United Kingdom tax legislation relating to offshore funds and will, if appropriate, pay dividends which at least meet the greater of the reportable income under that legislation or the taxable earnings from investments in accordance with the German Investment Tax Act. It is intended that those Share Classes with the suffix "(inc)" will, if appropriate, pay dividends equal to or in excess of the taxable earnings from investments in accordance with the German Investment Tax Act. Payment of dividends on these Share Classes will normally be made in March of each year.

Share Classes suffixed "(div)"

Share Classes with the suffix "(div)" will normally pay quarterly dividends which are calculated by the Management Company based on the estimated annual yield of the relevant Sub-Fund's portfolio which is attributable to that Share Class. The Management Company will review the dividend rate for each Share Class at least semi-annually, but may adjust the dividend rate more frequently to reflect changes in the portfolio's expected yield.

Investors should be aware that "(div)" Share Classes give priority to dividends, rather than to capital growth. The expected yield for each Share Class will be calculated gross of both the Annual Management and Advisory Fee and the Operating and Administrative Expenses, and such Share Classes will typically distribute more than the income received. Share Classes with the suffix "(div)" in issue at the dividend record date will be eligible for any dividends which will normally be paid in the currency of the relevant Share Class.

Share Classes suffixed "(mth)"

Share Classes with the suffix "(mth)" will be available to Shareholders subscribing, and remaining subscribed, through specific Asian distribution networks and to other distributors at the sole discretion of the Management Company. Share Classes with the suffix "(mth)" will normally pay dividends on a monthly basis. The monthly dividend rate per Share will be calculated by the Management Company based on the estimated annual yield of the relevant Sub-Fund's portfolio which is attributable to that Share Class. The Management Company will review the dividend rate for each Share Class at least semi-annually, but may adjust the dividend rate more frequently to reflect changes in the portfolio's expected yield. Investors should be aware that "(mth)" share classes give priority to dividends, rather than to capital growth. The expected yield for each Share Class will be calculated gross of both the Annual Management and Advisory Fee and the Operating and Administrative Expenses, and such Share Classes will typically distribute more than the income received. Dividend payments for these Share Classes will normally be made to Shareholders each month in the currency of the relevant Share Class. The Management Company reserves the right to fix a minimum amount per Share Class, below which the actual payment of the dividend would not be economically efficient for the Fund. These payments will be deferred to the following month or reinvested in further Shares of the same Share Class and not paid directly to the Shareholders. The Net Asset Value of "(mth)" Share Classes may fluctuate more than other Share Classes due to more frequent distribution of income.

Share Classes suffixed "(fix)"

Share Classes with the suffix "(fix)" will normally pay a quarterly fixed dividend based on a total amount per Share per annum as defined in the Prospectus.

Share Classes suffixed "(irc)"

Share Classes with the suffix "(irc)" will normally pay dividends on a monthly basis. The monthly dividend rate per Share will be variable and will be calculated by the Management Company based on: the estimated gross annual yield of the relevant Sub-Fund's portfolio attributable to that Share Class, which is revised at least semi-annually; and the addition or deduction of the estimated interest rate carry depending on whether such carry is positive or negative respectively.

Other Information

Shareholders should note that, where the dividend rate is in excess of the investment income of the Share Class, dividends will be paid out of the capital attributed to the Share Class, as well as from realised and unrealised capital gains. This may be tax inefficient for investors in certain countries. Investors should consult their local tax adviser about their own position. Share Classes with the suffix "(div)", "(fix)", "(inc)", "(irc)" and "(mth)" do not distribute the reportable income in accordance with the United Kingdom tax legislation relating to offshore funds.

JPMorgan Investment Funds

Notes to the Financial Statements (continued)

As at 31 December 2014

During the year ended 31 December 2014, the SICAV paid dividends as follows:

Class name	Currency	Dividend Amount per Share	Payment Date

5. Taxation

Under current law and practice, the SICAV is not subject to any taxes in Luxembourg on income or capital gains, nor are dividends distributed by the SICAV liable to any withholding tax. The only tax to which the SICAV in Luxembourg is subject is the subscription tax, ("taxe d'abonnement") up to a rate of 0.05% per annum based on the net asset value attributed to each Share Class at the end of the relevant quarter, calculated and paid quarterly. A reduced tax rate of 0.01% per annum of the net assets will be applicable to Share Classes as identified in the Appendix. The 0.01% and 0.05% rates described above, as appropriate, are not applicable for the portion of the assets of the SICAV invested in other Luxembourg collective investment undertakings which are themselves already subject to the tax d'abonnement.

No stamp duty or other tax is payable on the issue of shares in the SICAV in the Grand Duchy of Luxembourg. No tax is payable on realised or unrealised capital appreciation of the assets of the SICAV in the Grand Duchy of Luxembourg. Although the SICAV's realised capital gains, whether short or long-term, are not expected to become taxable in another country, the shareholders must be aware and recognise that such a possibility is not totally excluded. The regular income of the SICAV from some of its securities, as well as interest earned on cash deposits in certain countries, may be subject to withholding taxes at varying rates, which normally cannot be recovered.

JPMorgan Investment Funds

Notes to the Financial Statements (continued)

As at 31 December 2014

Following case law precedent within Europe, the SICAV has instigated proceedings to reclaim tax withheld by certain Member States of the European Union on dividend payments it has received. The decision to initiate proceedings against any particular Member State is the result of an analysis of the likely costs and potential benefits of doing so and the likelihood of successfully reclaiming such amounts together with the estimated time to complete proceedings varies across Member States. Any costs associated with this decision have been charged to the relevant Sub-Funds and have been included within total costs for the purposes of determining the relevant expense cap or TER and no amount has been recorded in the SICAV for any possible amounts to be received under this action.

6. Statement of Changes in Investments

A list, specifying for each investment within each Sub-Fund the total purchases and sales which occurred during the financial year under review, may be obtained free of charge upon request at the registered office of the SICAV. Additional information on investments within each Sub-Fund's portfolio is available to shareholders at the registered office of the SICAV.

7. Value of Financial Instruments and Associated Risks

The SICAV entered into forward foreign exchange, financial futures contracts, options and swaps which, to varying degrees, represent a market risk in excess of the amount reflected on the Combined Statement of Net Assets. The amount of the contracts represents the extent of the SICAV's participation in these financial instruments. Market risks associated with such contracts arise due to the possible movements in foreign exchange rates, indices, and security values underlying these instruments. Other market and credit risks include the possibility that there may be an illiquid market for the contracts, that a change in the value of the contracts may not directly correlate with changes in the value of the underlying currencies, indices, or securities, or that the counterparty to a contract defaults on its obligation to perform under the terms of the contract.

8. Collateral Received in respect of Financial Techniques and Financial Derivative Instruments

Assets received from counterparties in securities lending activities, reverse repurchase agreements, and OTC derivative transactions other than currency forwards constitute collateral.

The Fund will only enter into transactions with counterparties which the Management Company believes to be creditworthy. Approved counterparties will typically have a public rating of A- or above. Counterparties will comply with prudential rules considered by the CSSF as equivalent to EU prudential rules. The counterparty does not have discretion over the composition or management of a Sub-Fund's portfolio or over the underlying of financial derivative instruments used by a Sub-Fund. Counterparty approval is not required in relation to any investment decision made by a Sub-Fund.

Collateral may be offset against gross counterparty exposure provided it meets a range of standards, including those for liquidity, valuation, issuer credit quality, correlation and diversification. In offsetting collateral its value is reduced by a percentage (a "haircut") which provides, inter alia, for short term fluctuations in the value of the exposure and of the collateral. Collateral levels are maintained to ensure that net counterparty exposure does not exceed the limits per counterparty as set out in Appendix II of the prospectus. If any, collateral is received in the form of securities and cash. Non-cash collateral received is not sold, reinvested or pledged.

Collateral received in respect of financial derivative instruments are shown in the Appendix.

9. Securities Lending

The SICAV may lend portions of its securities portfolio to third parties for the purpose of generating additional income or for reducing costs or risk, to the maximum extent allowed by and within the limits set forth in (i) article 11 of the Grand Ducal regulation of 8 February 2008 relating to certain definitions of the Luxembourg Law, (ii) CSSF Circular 08/356 relating to the rules applicable to undertakings for collective investments when they use certain techniques and instruments relating to transferable securities and money market instruments ("CSSF Circular 08/356") and (iii) any other applicable laws, regulations, circulars or CSSF positions. A significant proportion of the income generated from the securities lending program is credited to participating Sub-Funds, with a portion of the income being paid to JPMorgan Chase Bank, N.A. for its role as securities lending agent for the Fund. Borrowers of securities lent by participating Sub-Funds are approved by the Management Company after appropriate assessment of such borrowers' status and financial standing. From 1 January 2013, the Management Company has waived the incremental income previously received from the portion of income generated by Securities Lending, for its oversight of the program. From this date, 85% of any incremental income earned from securities lending is accrued to the applicable Sub-Fund, with the remaining income payable to the securities lending agent which arranges the transaction. The income earned from the securities lending program is detailed in the Combined Statement of Operations and Changes in Net Assets. As at 31 December 2014, the SICAV valuation of securities on loan is USD 111,824,815 as detailed below and received collateral as security with a market value of USD 115,443,373.

The table below provides the valuation of securities on loan at a Sub-Fund level as at 31 December 2014:

Fund	Market Value USD	Cash Collateral USD	Non Cash Collateral* USD	Base Currency	Income Base Currency	Lending Gross	Lending Agent Fee Base Currency	Lending Income (Net) Base Currency
JPMorgan Investment Funds - Europe Select Equity Fund	35,555,283	28,609,208	8,088,319	EUR	858,466	128,770	729,696	
JPMorgan Investment Funds - Europe Strategic Dividend Fund	74,622,697	42,856,749	34,144,946	EUR	1,252,890	187,934	1,064,956	
JPMorgan Investment Funds - Global Dividend Fund	1,646,835	-	1,744,151	USD	70,129	10,520	59,609	

* The securities received as collateral are in the form of government securities (US, UK, and some Eurozone). These securities are issued and guaranteed as to principal and interest by the US and the Eurozone government with minimum ratings of AAA and AA-, respectively.

10. Transactions with Connected Parties

All transactions with connected parties were carried out on an arm's length basis.

JPMorgan Chase & Co. and its affiliates are counterparties for all securities lending activity and for certain forward foreign exchange contracts, financial futures contracts and swaps contracts. The Management Company, Registrar and Transfer Agent, Domiciliary Agent and Global Distributor, Investment Managers, Custodian, Corporate and Administrative Agent and other related Agents of the SICAV are considered as connected parties as they are affiliated entities of JPMorgan Chase & Co. In addition Elvinger, Hoss & Prussen (of which Mr Jacques Elvinger who is on the Board of Directors of the SICAV, is a partner) is compensated for legal services to the SICAV.

JPMorgan Investment Funds

Notes to the Financial Statements (continued)

As at 31 December 2014

11. Commission Sharing Arrangements

The Investment Managers may enter into commission sharing arrangements only where there is a direct and identifiable benefit to the clients of the Investment Managers, including the Fund, and where the Investment Managers are satisfied that the transactions generating the shared commissions are made in good faith, in strict compliance with applicable regulatory requirements and in the best interests of the Fund and the Shareholders. Any such arrangements must be made by the Investment Manager on terms commensurate with best market practice. Due to their local regulatory rights, certain Investment Managers may make use of soft commission to pay for research or execution services. Other jurisdictions may have other arrangements in place to pay for such services in accordance with local regulatory obligations.

12. Information for German Registered Shareholders

A list, specifying for each investment within each Sub-Fund the total purchases and sales which occurred during the financial year under review, may be obtained free of charge upon request at the registered office of the SICAV and at the office of the German paying and information agent, J.P. Morgan Bank AG, Junghofstraße 14, D-60311 Frankfurt am Main. Additional information on investments within each Sub-Fund's portfolio is available to shareholders at the registered office of the SICAV and at the office of the German paying and information agent.

13. Information for Swiss Registered Shareholders

J.P. Morgan (Suisse) S.A. was authorised by the Swiss Financial Market Supervisory Authority (FINMA) as Swiss representative of the SICAV and acts also as paying agent. The Prospectus, the Key Investor Information Documents, the articles, the annual and semi-annual reports of the SICAV, as well as a list of the purchases and sales which the SICAV has undertaken during the financial year may be obtained, on simple request and free of charge, at the head office of the Swiss representative of the SICAV, J.P. Morgan (Suisse) S.A., 8, rue de la Confédération, CH-1204 Geneva, Switzerland.

Trailer fee, payments/compensations can be paid out from the management fee for the distribution/marketing of the investment fund to distributors. Reimbursements/Rebates can be granted out of the management fee to institutional investors who hold the Sub-Fund shares for the economic benefit of third parties.

14. Authorisation of Sub-Funds in Hong Kong

Certain share classes of the following Sub-Funds are authorised in Hong Kong and are available to Hong Kong residents:

- JPMorgan Investment Funds - Europe Select Equity Fund
- JPMorgan Investment Funds - Global Dividend Fund
- JPMorgan Investment Funds - Global High Yield Bond Fund

15. Directors Fees

The only remuneration paid to Directors is an annual fee. This is waived by Mr Berndt May (until 12 December 2014) and Mr Peter Thomas Schwicht (until 1 November 2014). The total Directors' fees for the year amount to EUR 169,685 of which EUR 43,000 was due to the Chairman.

16. Transaction Costs

For the year ended 31 December 2014, the SICAV incurred transaction costs which have been defined as brokerage fees relating to purchase or sale of transferable securities, derivatives (except OTC derivatives) or other eligible assets. The SICAV also incurred transaction costs charged by the custodian agent and relating to purchase and sale of transferable securities as follows:

Sub-Fund	Base Currency	Total (in Base Currency)
JPMorgan Investment Funds - Blue and Green Fund	EUR	256,271
JPMorgan Investment Funds - Emerging Markets Corporate Bond Portfolio Fund I	USD	3,872
JPMorgan Investment Funds - Euro Liquid Market Fund	EUR	2,278
JPMorgan Investment Funds - Europe Select Equity Fund	EUR	4,348,612
JPMorgan Investment Funds - Europe Strategic Dividend Fund	EUR	13,356,828
JPMorgan Investment Funds - Global Balanced Fund	EUR	712,569
JPMorgan Investment Funds - Global Capital Appreciation Fund	EUR	428,786
JPMorgan Investment Funds - Global Capital Preservation Fund (USD)	USD	150,934
JPMorgan Investment Funds - Global Conservative Balanced Fund	EUR	404,055
JPMorgan Investment Funds - Global Convertibles Fund (USD)	USD	52,369
JPMorgan Investment Funds - Global Dividend Fund	USD	692,688
JPMorgan Investment Funds - Global Financials Fund	USD	360,117
JPMorgan Investment Funds - Global High Yield Bond Fund	USD	91,195
JPMorgan Investment Funds - Global Income Fund	EUR	9,534,697
JPMorgan Investment Funds - Global Select Equity Fund	USD	407,081
JPMorgan Investment Funds - Global Select Equity Plus Fund	USD	26,653
JPMorgan Investment Funds - Highbridge Statistical Market Neutral Fund	EUR	37,003
JPMorgan Investment Funds - Income Opportunity Fund	USD	238,719
JPMorgan Investment Funds - Japan SO Equity Fund	JPY	38,168,312
JPMorgan Investment Funds - Japan Select Equity Fund	JPY	48,792,452
JPMorgan Investment Funds - Japan Strategic Value Fund	JPY	80,637,322
JPMorgan Investment Funds - US Bond Fund	USD	37,954
JPMorgan Investment Funds - US Equity Fund	USD	356,791
JPMorgan Investment Funds - US Select Equity Fund	USD	1,569,859

* For fixed income securities, transaction costs are not separately identifiable from the purchase price of the security and therefore cannot be disclosed separately.

17. Events during the Year

The Board agreed the following corporate actions and other significant amendments relating to Sub-Funds during the year:

a) Liquidations

Shareholders in the following Sub-Funds were informed of the decision of the Board to liquidate the Sub-Funds as set out below:

- JPMorgan Investment Funds - Emerging Markets Corporate Bond Portfolio Fund I on 19 September 2014

b) Mergers

Shareholders in the following Sub-Funds were informed of the decision of the Board to merge them as set out below:

- i) with effect from 17 January 2014:

- JPMorgan Investment Funds - Euro Liquid Market Fund into JPMorgan Funds - Euro Money Market Fund;

c) Changes to investment strategies, investment objectives and policies, and names

Shareholders in a number of Sub-Funds were informed of the decision of the Board to make the following amendments:

- i) with effect from 5 February 2014:

- JPMorgan Investment Funds - Emerging Markets Corporate Bond Portfolio Fund I. The investment objective and policy was amended to allow them to invest the majority of their assets in a portfolio of emerging market below investment grade corporate debt securities.

- ii) with effect from 5 February 2014:

- JPMorgan Investment Funds - Global Income Fund. The prospectus was amended to remove the following sentence from the Investment Policy section: "The majority of the assets (excluding cash and cash equivalents) will be invested in debt securities."

RMB hedged share classes were created with effect from 17 March 2014 to offer a solution to the growing number of clients holding CNH deposits.

With effect from 24 November 2014, certain Share Classes may charge a Performance Fee. Such Share Classes were renamed by the inclusion of "(perf)" in the Share Class name. Consequently, certain Y Share Classes will be renamed "X".

d) Removal of performance fees

The performance fee was removed from JPMorgan Investment Funds - Global Capital Appreciation Fund with effect from 9 April 2014. The SICAV's prospectus was amended to indicate the removal of this performance fees

From 12 August 2014 to 19 September 2014 (liquidation date), the Management Company has decided to waive the Management and Advisory Fee rate of JPMorgan Investment Funds - Emerging Markets Corporate Bond Portfolio Fund I to 0%.

#The suffix "(perf)" was added to this Share Class on 24 November 2014.

* Share Class inactive as at end of the year.

** Share Class reactivated during the year.

*** These figures include the Performance Fees, where applicable.

+ Expense ratios are calculated in accordance with the guidelines dated 16 May 2008 issued by the Swiss Funds & Asset Management Association. The Total Expense Ratio ("TER") represents the total operating costs as a percentage of the Fund's average daily net assets. The total operating cost comprises investment management and advisory fees, custodian fees, taxe d'abonnement and other expenses, as summarised in the Combined Statement of Operations. Overdraft interest and Performance Fees are excluded from the calculation. The capped expense ratios and total expense ratios for some share classes may have changed over the previous five years. All details concerning these changes have been disclosed in previous years' Financial Statements.

All TER figures are annualised unless otherwise mentioned.

2. Summary of Investment Objectives of the Sub-Funds

As at 31 December 2014

Blue and Green Fund

Seeks to achieve, over a medium-term horizon (2 to 3 years), a return in excess of its cash benchmark from a portfolio of securities, globally, using financial derivative instruments where appropriate.

Europe Select Equity Fund

Seeks to achieve a return in excess of the European equity markets by investing primarily in European companies.

Europe Strategic Dividend Fund

Seeks to provide long-term returns by investing primarily in high dividend-yielding equities of European companies.

Global Balanced Fund

Seeks to provide long-term capital growth and income by investing primarily in companies and debt securities issued or guaranteed by governments or their agencies, globally and using financial derivative instruments where appropriate.

Global Capital Appreciation Fund

Seeks to achieve capital appreciation in excess of its cash benchmark by investing primarily in securities, globally, using financial derivative instruments where appropriate.

Global Capital Preservation Fund (USD)

Seeks to achieve, over a medium-term horizon (2 to 3 years), a return in excess of its cash benchmark from a portfolio of securities, globally, using financial derivative instruments where appropriate.

Global Conservative Balanced Fund

Seeks to provide income and long-term capital growth by investing primarily in debt securities issued or guaranteed by governments or their agencies and in companies, globally and using financial derivative instruments where appropriate.

Global Convertibles Fund (USD)

Seeks to provide a return by investing primarily in a diversified portfolio of convertible securities, globally.

Global Dividend Fund

Seeks to provide long-term capital growth by investing primarily in companies, globally, that generate high and rising income.

Global Financials Fund

Seeks to achieve a high return by investing primarily in companies from the financial, banking, insurance and property sectors ("Financial Companies"), globally.

Global High Yield Bond Fund

Seeks to achieve a return in excess of global bond markets by investing primarily in global below investment grade corporate debt securities, using financial derivative instruments where appropriate.

Global Income Fund

Seeks to provide regular income by investing primarily in a portfolio of income generating securities, globally, and through the use of financial derivative instruments.

Global Select Equity Fund

Seeks to achieve a return in excess of the global equity markets by investing primarily in companies, globally.

Global Select Equity Plus Fund

Seeks to provide long-term capital growth primarily through exposure to companies, globally, by direct investment in securities of such companies and through the use of financial derivative instruments.

Highbridge Statistical Market Neutral Fund

Seeks to provide a total return in all market environments in excess of the return on short-term instruments, through a market neutral strategy. Financial derivative instruments will be used where appropriate to gain exposure primarily to European and US equity securities.

Income Opportunity Fund

Seeks to achieve a return in excess of the benchmark by exploiting investment opportunities in, amongst others, the debt and currency markets, using financial derivative instruments where appropriate.

Japan 50 Equity Fund

Seeks to achieve a return in excess of the Japanese equity market primarily from a concentrated portfolio of medium to large sized Japanese companies.

Japan Select Equity Fund

Seeks to achieve a return in excess of the Japanese equity market by investing primarily in Japanese companies.

2. Summary of Investment Objectives of the Sub-Funds (continued)

As at 31 December 2014

Japan Strategic Value Fund

Seeks to provide long-term capital growth by investing primarily in a value style biased portfolio of Japanese companies.

US Bond Fund

Seeks to achieve a return in excess of US bond markets by investing primarily in US debt securities, using financial derivative instruments where appropriate.

US Equity Fund

Seeks to maximise long-term capital growth by investing primarily in an actively managed portfolio of medium to large capitalisation US companies.

US Select Equity Fund

Seeks to achieve a return in excess of the US equity market by investing primarily in US companies.

3. Performance and Volatility

Performance

Returns for periods greater than one year are annualised. Fund performance includes reinvestment of income and is net of all expenses.

Past performance is no indication of current or future performance.

The performance data does not take into account the commissions and costs incurred on the issue and redemption of units.

Volatility

The standard deviation (D) of the price is calculated on a daily basis throughout each Fund's financial year.

The details below relate to the year from 1 January 2014 to 31 December 2014.

If D is equal to or less than 0.1 then volatility will be Low

If D is greater than 0.1 but less than or equal to 1.0 then volatility will be Medium

If D is greater than 1.0 but less than or equal to 2.4 then volatility will be High

If D is greater than 2.4 then volatility will be Very High

* Share Class inactive as at end of the year.

** Share Class reactivated during the year.

#The suffix "(perf)" was added to this Share Class on 24 November 2014.

*** No data is applicable for these Share Classes because they were launched or reactivated less than 3 months before the period end.

4. Interest Rate Received/(Charged) on Bank Accounts

Basis for Bank Interest Rates

The rates are based on the JPMorgan Chase Treasury rates and consequently may change on a daily basis. The bank interest amount is posted to each of the Fund's bank accounts on a monthly basis on the first business day of the subsequent month based on the bank balances from the prior month.

5. Sub-Fund Share Classes Subject to Taxe d'Abonnement Rate of 0.01%

The following Sub-Fund share classes have been subject to an asset based tax of 0.01% per annum:

Share Class Name

6. Portfolio Turnover Ratio

The Portfolio Turnover Ratio is an indicator of the relevance of the additional costs incurred by a fund when buying and selling investments according to its investment policy. The Portfolio Turnover Ratio is calculated in accordance with the CSSF Circular 03/122 and the guidelines dated 16 May 2008 issued by the Swiss Funds & Asset Management Association as outlined below:

(Total securities' purchases and sales - total subscriptions and redemptions of Sub-Fund shares)

Average net Sub-Fund assets in Sub-Fund currency

The Portfolio Turnover Ratio is expressed as a percentage and in the case the outcome of the calculation is negative, a zero value has been published.

Sub-Fund	Portfolio Turnover Ratio
JPMorgan Investment Funds - Blue and Green Fund	250.60
JPMorgan Investment Funds - Emerging Markets Corporate Bond Portfolio Fund I (I)	45.06
JPMorgan Investment Funds - Euro Liquid Market Fund (2)	-
JPMorgan Investment Funds - Europe Select Equity Fund	-
