Ongoing charge based on actual expenses for the year ending 31/07/2022. The cost of investing will impact your investment. The return will be reduced by the fees and expenses that may be incurred in managing the investment. Fees may have a compounding effect. Number of holdings represents physical holdings only.

Ratings

Note: Awards and ratings are highlighted to demonstrate our investment capabilities. Past performance is not a guide to future returns.

Fund objective

The investment objective is to maximise total return (income plus capital) by investing at least two thirds of its net assets in high yield bonds. The fund may also hold selected investment grade bonds and cash.

Performance

The fund aims to outperform the peer group median, returning second quartile performance over a rolling 12 month period and top quartile performance over a rolling 36 month period.

Performance for the individual share class is also shown against the reference index as detailed in the key facts table.

Past performance does not predict future returns.

Performance (to 31 August 2022)

Cumulative five year performance

The returns for the sector median are based on the fund's primary share class.

Source: Aegon Asset Management UK. NAV to NAV, noon prices, income reinvested, net of ongoing charges, excluding entry or exit charges.

Sector median source: Lipper, compiled using Lipper primary share classes. Lipper primary share classes are generally the highest charging share classes available, and are usually the 'A' retail share classes for Aegon Asset Management UK funds.

Past performance shown prior to the launch of the share class is simulated back to the launch date of the fund using an existing share class. Neither simulated nor actual past performance is a guide to future returns.

Risk factors

Remember to read the Key Investor Information before making an investment decision.

This is a marketing communication. Past performance is not a guide to future performance. The value of investments and the income from them may go down as well as up and is not guaranteed. Outcomes, including the payment of income, are not guaranteed.

This fund is a medium to long-term investment and your capital is at risk. Any investment objective, performance benchmark and yield information should not be considered as an assurance or guarantee of the performance of the fund or any part of it. An initial charge reduces the amount available for investment. Investors should be aware that funds denominated in a currency other than investors' home state currency are subject to currency fluctuations which may decrease returns. Please be aware that each fund presents its own risk profile. Material risks for this fund are: Credit; Liquidity; Counterparty; Other Markets; Derivatives; Interest Rate and Concentration. Please read the KIID for an explanation and refer to the prospectus for information about all relevant risks.

Fund charges are deducted from capital which has the effect of increasing income distributions but constraining capital growth.

Costs may increase or decrease as a result of currency and exchange rate fluctuations

The Distribution Yield reflects the amounts that may be expected to be distributed over the next twelve months as a percentage of the mid-market unit price of the fund as at the date shown. It is based on a snapshot of the portfolio on that day. It does not include any preliminary charge and investors may be subject to tax on distributions. We calculate yields in compliance with the industry standard formula we are obliged to use which takes no account of potential future defaults. This may mean that, depending on future economic factors, the actual yield could be less than those shown.

The Underlying Yield reflects the annualised income net of expenses of the fund (calculated in accordance with relevant accounting standards) as a percentage of the mid-market unit price of the fund as at the date shown. It is based on a snapshot of the portfolio on that day. It does not include any preliminary charge and investors may be subject to tax on distributions.
