

Fund Name	Japan Alpha Fund , a sub-fund of Polar Capital Funds plc
Share Class	Class R Hedged Euro Share Class
ISIN	IE00B7G7VV19

Objectives and investment policy

Objectives

The objective of the Fund is to achieve long term capital growth by investing in the shares of Japanese companies, or companies that generate a significant amount of their business in Japan.

Investment Policy

Investments are concentrated in medium to large Japanese companies listed on the Tokyo Stock Exchange.

The Fund may invest in financial derivative instruments for hedging purposes, to reduce risk, to manage the Fund more efficiently, or to gain exposure to securities in a more efficient way.

At the discretion of the Directors the Fund will pay an annual dividend if there is available income to distribute.

You may sell your shares on days which banks are normally open for business in Dublin, London and Tokyo.

Risk and reward profile

Why is this fund in category 6?

The Fund has a high risk rating because it invests in equities, the value of which can move up and down over time to a greater extent than some other investments.

In addition to the risk captured by the indicator, the overall fund value may be considerably affected by:

Concentration Risk - the Fund invests in a relatively concentrated number of companies and industries based in one country. This focused strategy can produce high gains but can also lead to significant losses. The Fund may be less diversified than other investment funds.

Investment Risk - the Fund mainly invests in Japanese equities, and share prices can rise or fall due to a number of factors affecting global stock markets.

Derivative Risk - certain derivatives may result in gains or losses that are greater than the original amount invested. Derivatives also involve counterparty risk, which is the risk that a counterparty to the derivative contract cannot meet its contractual obligations.

Currency Risk - the Fund invests in assets denominated in currencies other than the Fund's base currency. Changes in exchange rates may have a negative impact on the Funds investments.

What do these numbers mean?

The risk indicator was calculated using synthetic data and may not be a reliable indication of the future risk profile of the Fund. The risk category shown is not guaranteed and may change over time. A category 1 fund is not a risk-free investment - the risk of losing your money is small, but the chance of making gains is also limited. With a category 7 fund, the risk of losing your money is high but there is also a chance of making high gains. The numerical scale is complex, for example, 2 is not twice as risky as 1.

Charges

One-off charges taken before or after you invest

Entry charge	5.00%
Exit charge	None

This is the maximum that might be taken out of your money before it is invested and before the proceeds of your investment are paid out.

Charges taken from the Fund over a year

Ongoing charge	1.61%
----------------	-------

Charges taken from the Fund under certain specific conditions

Performance fee	10.00% a year of any returns the Fund achieves above the benchmark for these fees, the Topix Total Return Index. In the year ending 31 December 2013 the performance fee amounted to 0.06%.
-----------------	---

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

The **entry** and **exit charges** shown are maximum figures. In some cases you might pay less. You can find this out from your financial adviser or distributor.

The **ongoing charge** is based on the previous year's expenses, excluding performance fees, for the year ending December 2013. This figure may vary from year to year.

You can find out more details about the charges by looking at the **"Fees and Expenses"** section of the Fund's prospectus, which is available at www.polarcapital.co.uk.

Past performance

Past performance is not a reliable indicator of future performance.

The past performance shown does not take into account any entry, exit or switching charges but does take into account the ongoing charge, as shown in the Charges section.

The performance of this class is calculated in Euro.

The Fund launched on 31 October 2012. This class started to issue shares on 31 October 2012.
