# BNY Mellon Global Equity Income Fund

**USD A (ISIN: IE00B3XPRY57)**

a sub-fund of BNY Mellon Global Funds, plc. This Fund is managed by BNY Mellon Fund Management (Luxembourg) S.A.

## Objectives and Investment Policy

### OBJECTIVE

To generate annual distributions and to achieve long-term capital growth by investing predominantly in equity and equity-related global securities.

### POLICY

#### The Fund will:

- invest anywhere in the world;
- invest in company shares and similar investments;
- invest in companies of all sizes (e.g. small, medium and large companies) and in any industry (e.g. pharmaceuticals, financials, etc); and
- limit investment in other collective investment schemes to 10%.

#### The Fund may:

- invest in emerging markets;
- invest up to 10% in equity securities that are listed or traded on Russian markets; and
- invest in derivatives (financial instruments whose value is derived from other assets) to help achieve the Fund's investment objective.

The Fund will also use derivatives with the aim of risk or cost reduction or to generate additional capital or income.

**Benchmark:** The Fund will measure its performance against the FTSE World TR Index (the "Benchmark").

The Fund is actively managed, which means the Investment Manager has absolute discretion to invest outside the Benchmark subject to the investment objective and policies disclosed in the Prospectus. While the Fund's holdings may include constituents of the Benchmark, the selection of investments and their weightings in the portfolio are not influenced by the Benchmark. The investment strategy does not restrict the extent to which the Investment Manager may deviate from the Benchmark.

### OTHER INFORMATION

**Treatment of income:** net income from investments will be retained within the Fund and reflected in the value of your shares.

**Dealing:** you can buy and sell your shares in the Fund between 9:00 and 17:00 (Irish time) on each business day in Ireland. Instructions received before 12:00 will receive the price quoted on that day. The minimum initial investment for this share class is USD 5,000.

## Risk and Reward Profile

We have calculated the risk and reward category, as shown above, using a method of calculation derived from EU rules. It is based on the rate at which the value of the Fund has moved up and down in the past (i.e. volatility) and is not a guide to the future risk and reward category of the Fund. The category shown is not a target or guarantee and may shift over time. Even the lowest category 1 does not mean a risk-free investment.

This Fund is in category 5 because its historical value has shown moderately high volatility. With a Fund of category 5, you have a moderately high risk of losing money but your chance for gains is also moderately high.

### THE FOLLOWING RISKS MAY NOT BE FULLY CAPTURED BY THE RISK AND REWARD INDICATOR:

- **Objective/Performance Risk:** There is no guarantee that the Fund will achieve its objectives.
- **Currency Risk:** This Fund invests in international markets which means it is exposed to changes in currency rates which could affect the value of the Fund.

- **Derivatives Risk:** Derivatives are highly sensitive to changes in the value of the asset from which their value is derived. A small movement in the value of the underlying asset can cause a large movement in the value of the derivative. This can increase the sizes of losses and gains, causing the value of your investment to fluctuate. When using derivatives, the Fund can lose significantly more than the amount it has invested in derivatives.
- **Emerging Markets Risk:** Emerging Markets have additional risks due to less-developed market practices.
- **Market Capitalisation Risk:** Investments in the securities of small to medium-sized companies (by market capitalisation) may be riskier and less liquid (i.e. harder to sell) than large companies. This means that their share prices may have greater fluctuations.
- **Charges to Capital:** The Fund takes its charges from the capital of the Fund. Investors should be aware that this has the effect of lowering the capital value of your investment and limiting the potential for future capital growth. On redemption, you may not receive back the full amount you initially invested.
- **Counterparty Risk:** The insolvency of any institutions providing services such as custody of assets or acting as a counterparty to derivatives or other contractual arrangements, may expose the Fund to financial loss.

A complete description of risk factors is set out in the Prospectus in the section entitled "Risk Factors".
