BNY Mellon Absolute Return Bond Fund

INVESTMENT MANAGER

Insight are leaders in risk management, fixed income and multi-asset investment solutions.

INVESTMENT OBJECTIVE

To provide a positive absolute return in all market conditions over a rolling 12 month period by investing primarily in debt and debt-related securities and instruments located worldwide and in financial derivative instruments relating to such securities and instruments. However, a positive return is not guaranteed and a capital loss may occur.

PERFORMANCE BENCHMARK

The Fund will measure its performance against 3- Month EURIBOR (the "Cash Benchmark"). EURIBOR is the Euro Interbank Offer Rate and is a reference rate that is constructed from the average interest rate at which Eurozone banks offer unsecured short-term lending on the inter-bank market.

The Cash Benchmark is used as a target against which to measure its performance on a rolling 12 month basis after fees. The Fund uses Cash Benchmark +3% per annum as a target against which to measure its performance on a rolling annualised 3 year basis before fees.

The Fund is actively managed, which means the Investment Manager has discretion over the selection of investments, subject to the investment objective and policies disclosed in the Prospectus.
