You are advised to read it so you can make an informed decision about whether to invest.*

**Italian Opportunities (the "Fund"), Share class : R EUR (LU0933608696) is a sub-fund of iMGP (the "SICAV") managed by iM Global Partner Asset Management S.A. (the "Management Company") and whose sub-management has been delegated to Decalia Asset Management S.A.**

## Objectives and investment policy

The Sub-fund's objective is to generate capital gains mainly by investing in shares of Italian companies.

The Sub-fund is eligible for the "Piano Individuale di Risparmio a lungo termine" (PIR) under the Italian law n° 232 of 11 December 2016, provided that the PIR has been established on or before 31 December 2018. As such it complies with the specific investment restrictions: at least 70% of the portfolio shall be invested in financial instruments, whether or not negotiated on a Regulated Market or on a multilateral trading facility, issued by or entered into with companies resident in Italy, or in an EU or EEA Member State with permanent establishment in Italy. At least 30% of these financial instruments, which correspond to 21% of the Sub-fund's portfolio, shall be issued by companies which are not listed in the FTSE MIB index or in any other equivalent indices. The Sub-fund may invest on an ancillary basis in cash, in bank deposits and in REITs. The use of derivatives is limited to hedging purposes only, up to 30% of the Sub-fund's assets.

Investors who purchase Sub-fund's shares for the purpose of a PIR established on or after 1 January 2019 cannot claim the benefit of the PIR-related tax exemptions. The Sub-fund is actively managed, with no reference to an index.

As part of the aforementioned investment policy, the manager may also invest in derivatives such as index futures (purchase or sale of an index at the prevailing rate, with settlement at a future date) and options (contract entitling the Sub-fund or the counterparty of the Sub-fund to buy or sell a position at a given price at a future date).

The manager may use techniques to partially or fully protect the Sub-fund from its exposure to currencies other than the base currency. You may sell your shares in the Sub-fund upon request, on a daily basis.

Profits are not distributed but are accumulated by the Sub-fund.

Recommendation: this Sub-fund may not be appropriate for investors who plan to withdraw their money in less than 5 years.

## Risk and reward profile

The Synthetic Risk & Reward Indicator (SRRI) is assigned due to the past or expected share class price variations resulting from its currency and the nature of the Fund's investments and strategy.

The SRRI is based on historical data and may not be a valid indication for the future risk profile of the Share Class. It is not a target or a guarantee and may change over time.

The lowest risk category is not assimilated to a risk-free investment.

The Fund does not offer capital guarantee or asset protection measures.

The Fund may be exposed to the following risks which are not satisfactorily captured by the SRRI and may negatively impact its assets:

**Operational risk:** Human or technical issues or errors during the processing of the transactions and/or the calculation of the NAV of the Fund may result in losses.

**Liquidity risk:** selling securities in low volume markets may imply a negative impact on the valuation which result in losses.

**Financial Derivatives risk:** Derivative transactions generate leverage which may emphasize losses whether the strategy (such as hedging, exposure, efficient portfolio management) does not react as expected under certain market conditions.

**Counterparty risk:** When a counterparty does not respect its obligation related to contracts such as term deposits or over-the-counter derivatives losses may occur.
