

Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

"I Class Accumulation Units", a unit class of Origin Global Smaller Companies Fund (the Fund), a sub-fund of Principal Global Investors Funds (the Trust) (ISIN: IE00B94VTJ31)

This Fund is managed by Principal Global Investors (Ireland) Limited (the Manager), part of The Principal Financial Group of companies

Objectives and investment policy

The objective of the Fund is to seek to achieve capital growth through investment in global smaller companies.

The Fund will invest in transferable equity and equity-related securities of a diversified range of companies throughout the globe.

These securities will primarily be common stocks and other securities with equity characteristics, including but not limited to preferred stocks, warrants and rights, as well as depository receipts for such securities.

On occasion, in markets where local restrictions exist which hinder direct ownership of equities, the Sub-Investment Manager on behalf of the Fund may access these equities indirectly through purchasing participation notes.

The Fund may also invest in UCITS eligible Funds in order to obtain its objective.

Subject to complying with the investment restrictions of the Fund, the Fund may hold ancillary liquid assets such as bank deposits.

While it is generally intended for the Fund to be fully invested at all times, there may be a portion of assets held in cash or deposits at any given time.

Any income received by the unit class will be reinvested.

You may buy or sell units on demand on each Dealing Day being a Business Day as defined in the Fund's supplement (which together with the prospectus constitutes the Prospectus).

The Fund is actively managed and aims to outperform the MSCI All Country All World Small Cap NTR (the "Index"). The portfolio manager may reference the Index as part of the investment management process, and it is also considered as part of the investment risk monitoring process. However, the portfolio manager maintains full discretion to select investments for the Fund in line with the above investment policy.

Please see the section entitled Investment Objective, Policies, Strategy and Profile of a Typical Investor of the Supplement where full details are disclosed.

Risk and reward profile

The Risk and Reward Indicator table demonstrates where the Fund ranks in terms of its potential risk and reward. The higher the rank the greater the potential reward but the greater the risk of losing money. It is based on past data, may change over time and may not be a reliable indication of the future risk profile of the Fund. The shaded area in the table below shows the Fund's ranking on the Risk and Reward Indicator.

This Fund is ranked at 6 because funds of this type have experienced high rises and falls in value in the past.

The following are risks materially relevant that are not captured by the SRRI:

- Shares of small capitalisation companies may be less liquid than in large capitalisation companies. Smaller companies may also have higher insider ownership, leaving a smaller free-float for external shareholders.
- The price of equity securities fluctuates based on changes in a company's financial condition, overall market and economic conditions and market sentiment, resulting in an increased potential for volatility.
- The value of an investment may fluctuate due to changes in exchange rates between currencies and may or may not be hedged back to the Fund's base currency.
- The Fund may utilise a number of derivative instruments in managing the Investment Objective of the Fund. The primary risks associated with the use of such instruments are credit risk, counterparty risk, liquidity risk, legal risk and collateral risk.

Please see the section entitled Special Investment Considerations and Risks of the Prospectus where full details are disclosed.

Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest

Entry charge	0.00%
Exit charge	0.00%

These are the maximum charges that we might take out of your money before it is invested and before we pay out the sale proceeds of your investment. In some cases, you might pay less and you should speak to your financial adviser about this.

Charges taken from the Fund over a year

Ongoing charges	1.00%
-----------------	-------

Charges taken from the Fund under specific conditions

Performance fee	NONE
-----------------	------

Ongoing charges are based on the last year's expenses, for the year ended December 2023, and this figure may vary from year to year. It excludes:

- Portfolio transactions costs, except in the case of an entry/exit charge paid by the Fund when buying or selling units in another collective investment undertaking.

- Whereas the entry charge will not normally be made on a conversion, the Manager is entitled to make any such charges at its discretion. In particular, if more than four conversions are made during a twelve month period, the Manager may impose a service fee for any subsequent conversions during the subsequent twelve month period.

For more information about charges, please see Charges and Expenses in the Prospectus which is available as set out below.
