Objectives and Investment Policy

Objective: Seeks to provide income and, secondarily, to increase the value of your investment over the recommended holding period.

Portfolio securities: The Sub-Fund invests mainly in a broad range of equities of companies that are based in, or do most of their business in Europe. The Sub-Fund invests at least 75% of its assets in equities issued by companies headquartered in the EU. The Sub-Fund may also invest up to 20% in bonds. The Sub-Fund may use derivatives to reduce various risks, for efficient portfolio management or as a way to gain exposure to various assets, markets or income streams. In particular, the Sub-Fund uses options to generate additional income.

Risk and Reward Profile

Lower Risk (not-risk free)
Lower Potential RewardHigher Risk
Higher Potential Reward

What does this risk indicator mean?

The above risk indicator ranks potential risk and reward and is based on medium-term volatility (how sharply the Sub-Fund's actual or estimated unit price has gone up and down over five years). Historical data, such as that used in calculating this synthetic indicator, may not be a reliable indication of the future risk profile of the Sub-Fund. The lowest category does not mean a 'risk-free' investment. The Sub-Fund's risk indicator is not guaranteed and may change over time. The Sub-Fund's risk category reflects the fact that as an asset class, equities tend to be more volatile than money market securities or bonds. For un-hedged currency classes, exchange rate movements may affect the risk indicator where the currency of the underlying investments differs from the currency of the unit class.

Additional key risks:

The risk indicator reflects market conditions of recent years and may not adequately capture the following additional key risks of the Sub-Fund:

Operational risk: Losses may occur due to human error or omission, process errors, system disruptions or external events.

Derivatives risk: Derivatives create leverage in the Sub-Fund and may cause movements in the value of the underlying investments to amplify gains or losses to the Sub-Fund.
