Ostrum SRI Credit Short Duration is a sub-fund of Natixis AM Funds (the "SICAV"). I/D (EUR) ISIN LU0935221928

Natixis Investment Managers International, part of the BPCE Group, is the Management Company of the Fund.

OBJECTIVES AND INVESTMENT POLICY

- The investment objective of the Product is to outperform the Bloomberg Euro Aggregate Corporate 1-3 index over its recommended minimum investment period of 2 years by investing in a wide range of fixed-income instruments and implementing a Socially Responsible Investment (SRI) strategy.
The Bloomberg Euro Aggregate Corporate 1-3 index is a broad-based benchmark that measures the Investment Grade Euro, euro-denominated, fixed-rate bond market, including only corporate issues with a maturity from 1 to 3 years. Inclusion is based on currency denomination of a bond and not country of risk of the issuer.
- The Product is actively managed. For indicative purposes only, the Product's performance may be compared to the Benchmark. In practice, the portfolio of the Product is likely to include constituents of the Benchmark, but the Investment Manager has full discretion in the selection of the securities comprising the portfolio within the limits of the Product's investment policy. However, it does not aim to replicate that Benchmark and may therefore significantly deviate from it.
- The investment policy of the Product consists of an active management strategy combining the three main performance drivers : credit directional exposure, issuer and issue selection, and to a lesser extent, sector allocation.
The Investment Team relies on the appraisal of credit risk by its team and its own methodology.
In addition, the Product will implement an SRI investment strategy based on the following three steps :
 - incorporating ESG factors into the research,
 - applying an SRI selection process to the Product,
 - applying an exclusion policies.
- The Product invests at least 80% of its net assets in Investment Grade (minimum Standard & Poor's BBB- rating or an equivalent rating in accordance with the Investment Team's analysis) debt securities or other instruments (UCITS, cash...).
The Product may invest :
 - up to 20% of its net assets in High Yield (below Standard & Poor's BBB- rating or an equivalent rating in accordance with the Investment Team's analysis) debt securities and - up to 15% in securitized assets,
 - up to 5% of its net assets in contingent convertible securities,
 - up to 10% of its net assets in debt securities not denominated in euros Foreign exchange risk versus euro shall be hedged for all such debt securities.
The modified duration of the portfolio may range from 0 to 4.
The Product may also invest up to 10% of its net assets into undertakings for collective investment.
- The Product may use derivatives for hedging and investment purposes up to 100% of its nets assets.
- Income earned by the Sub-Fund is distributed.
- Shareholders may redeem Shares on demand on any business day in both France and Luxembourg by 13h30.

RISK AND REWARD PROFILE

- The Sub-Fund is ranked on the synthetic risk and reward indicator scale due to its exposure to short term Euro zone fixed-income markets.
- Historical data may not be a reliable indication for the future.
- The risk category shown is not guaranteed and may shift over time. There is no capital guarantee or protection on the value of the Sub-Fund.
- The lowest category does not mean "risk free".

- The following risks may not be fully captured by the risk and reward indicator:**
- **Credit risk:** Credit Risk arises from the risk of impairment of the quality of an issuer and/or an issue, which may entail a reduction in the value of the security. It may also arise from default at maturity by an issuer in the portfolio.
 - **Liquidity risk:** Liquidity risk represents the price reduction which the UCITS should potentially accept to have to sell certain securities for which there is one insufficient request on the market.
 - **Impact from the Management Techniques:** The risk linked to the management techniques is the risk of increased losses due to the use of financial derivatives instruments and/or securities lending and repurchase transactions.
- Further investment risks are set out in the "Principal risks" section of the Prospectus.
