### OBJECTIVES AND INVESTMENT POLICY

- The investment objective of the Sub-Fund is, for this share class, to outperform the daily-capitalized ESTER over its recommended minimum investment period of 3 years by more than 3.50% with a target 1-year volatility based on weekly data comprised between 3% and 5%.  
The ESTER rate ("European Short-Term Rate") represents the wholesale euro unsecured overnight borrowing costs of euro area banks.
- The Sub-Fund is actively managed. For indicative purposes only, the Sub-Fund's performance may be compared to the Benchmark. In practice, the portfolio of the Sub-Fund is likely to include constituents of the Benchmark, but the Investment Manager has full discretion in the selection of the securities comprising the portfolio within the limits of the Sub-Fund's investment policy. However, it does not aim to replicate that Benchmark and may therefore significantly deviate from it.
- The Benchmark can be used to determine the performance fee that will possibly be levied.
- The investment strategy of the Sub-Fund, in accordance with the UCITS Directive, is discretionary i.e. relies on the Investment Manager anticipation of trends affecting the various markets. It consists in a dynamic allocation across multiple asset classes with a target annualized weekly volatility ranging from 3% to 5%: equities, bonds, money market instruments and currencies, including emerging markets. The allocation is flexible and uses mostly derivatives instruments providing a leveraged exposure to the different asset classes. Portfolio construction combines a strategic allocation based on fundamental and technical analysis over a 6 to 12 months horizon, and a tactical allocation based on a 3 months horizon.
- The Sub-Fund invests up to 100% of its net assets in the global equities, bonds and currencies markets.  
Maximum exposure (in % of the net assets):
  - Global equities up to 50 % including 20% to emerging markets equity
  - Emerging markets bonds: up to 20%,
  - Currencies other than the Euro: up to 100%
- The Sub-Fund may use derivatives for hedging and investment purposes.
- Income earned by the Sub-Fund is reinvested for accumulating Shares and distributed for distributing Shares.
- Shareholders may redeem Shares on demand on any business day in both France and Luxembourg by 13h30.
