INVESTMENT OBJECTIVE

The fund seeks to earn an attractive total return by investing in corporate high yield bonds while keeping risk under control. To this end, we employ a research-intensive long-only strategy, emphasizing issuers in North America and Europe.

PORTFOLIO COMMENTARY¹

High yield bonds came under pressure early in the month before recovering to earn a coupon-like return in August. The ICE BofA Non-Financial Developed Markets High Yield Constrained (USD Hedged) was up 0.51%, as compared to U.S. investment grade corporate bonds (down 0.28%), the 10-year Treasury (down 0.28%) and the S&P 500 (up 3.04%). CCC-rated and BB/B-rated bonds were roughly in line for the month, keeping pace with the overall high yield market. Within the various industry groups, Oil Refining & Marketing was the best performer. Electric-Integrated was the worst performing sector.

At month end, the global high yield bond portfolio remained broadly diversified by sector and issuer. Roughly 75% of the global portfolio was allocated to North American high yield bonds, with the balance to European high yield. In terms of industry exposure, Oil, Gas & Consumable Fuels (8.3%) and Hotels, Restaurants & Leisure (8.1%) represented the two largest sectors in the portfolio. During the month, in the U.S., 47 deals came to market representing total proceeds of \$34.4 billion in U.S. high yield bonds. European companies issued approximately \$1.5 billion of new bonds during the month. Our credit selection in the Oil Field Equipment & Services, Gas Distribution, and Telecom – Wireline Integrated & Services sectors enhanced returns during the month. At the same time, our holdings in the Energy – Exploration & Production and Software/Services sectors detracted from relative results.
