

KEY INVESTOR INFORMATION

This document provides you with Key Investor Information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

Janus Henderson

Intech European Core Fund Class A2 EUR ISIN: IE00B613V626

A sub-fund of Janus Henderson Capital Funds plc, an Irish Investment Company (IIC) managed by Janus Henderson Investors Europe S.A.
Fund Currency: EUR Share Class Currency: EUR

Objective and investment policy

Objective

The Fund aims to provide capital growth over the long term.

Performance target: To outperform the MSCI Europe Index by at least 2.75% per annum, before the deduction of charges, over any 5 year period.

Investment policy

The Fund invests at least 80% of its assets in shares (equities) and equity-related securities of companies, which at the time of purchase are at least equal in size to a company included in the MSCI Europe NR Index, in any industry, in Europe (including UK).

The Fund may also invest in other assets including cash and money market instruments.

The Fund is actively managed with reference to the MSCI Europe NR Index, which is broadly representative of the companies in which it may invest, as this forms the basis of the Fund's performance target. The investment manager has a mathematical approach to investing which controls the extent to which the portfolio may differ from the index.

Strategy

The investment manager has a mathematical investment process that attempts to build a portfolio in a more efficient combination than the index. The portfolio

consists of constituents of the index weighted differently than the index, the process focuses on companies that demonstrate more volatility than the index. The process won't prevent under performance but aims to have an equal or lower amount of risk relative to the index.

Transaction costs In addition to the charges set out in the Charges section below, the Fund involves a high level of buying and selling activity and will incur higher portfolio transaction costs which are paid from the assets of the Fund. These may have a material impact on your returns.

Distribution policy This share class accumulates income which is retained within the price of the share class.

Recommendation This Fund may not be appropriate for investors who plan to withdraw their money within 5 years.

The Fund is designed to be used only as one component of several in a diversified investment portfolio. Investors should consider carefully the proportion of their portfolio invested into this Fund.

You can buy, sell or switch shares in the Fund on any business day, as defined in the Company's Prospectus.

For an explanation of some of the terms used in this document, please visit the glossary on our website at www.janushenderson.com.

Risk and reward profile

The value of an investment and any income from it can go up or down. When you sell your shares they may be worth less than you paid for them.

The rating above is based on the historic volatility of the share class. Historic data may not be a reliable indication of the future risk profile of the Fund. The rating is not guaranteed and may change over time.

The share class appears at 6 out of 7. Share classes in higher categories have shown greater and/or more frequent variations in Net Asset Value in the past five years than those in lower categories. The lowest category does not mean risk free.

Other material risks not captured by the rating:

Equities Shares/Units can lose value rapidly, and typically involve higher risks than bonds or money market instruments. The value of your investment may fall as a result.

Country or Region If a Fund has a high exposure to a particular country or geographical region it carries a higher level of risk than a Fund which is more broadly diversified.

Exchange Rates If the Fund holds assets in currencies other than the base currency of the Fund, or you invest in a share/unit class of a different currency to the Fund (unless hedged, i.e. mitigated by taking an offsetting position in a related security), the value of your investment may be impacted by changes in exchange rates.

Liquidity Securities within the Fund could become hard to value or to sell at a desired time and price, especially in extreme market conditions when asset prices may be falling, increasing the risk of investment losses.

Proprietary Trading Model The Fund uses mathematical formulae to select investments. There is a risk that the processes used to invest in shares with higher volatility and low price-correlation may not achieve positive returns or outperform.

Counterparty Risk and Operational Risk The Fund could lose money if a counterparty with which the Fund trades becomes unwilling or unable to meet its obligations, or as a result of failure or delay in operational processes or the failure of a third party provider.

For more information please see the Company's Prospectus.

Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of managing and distributing it. These charges reduce the potential growth of your investment.

If you invest through a third party provider you are advised to consult them directly as charges, performance and terms and conditions may differ materially to those shown in this document.

One-off charges taken before or after you invest*

Entry Charge	5.00%
Exit Charge	0.00%

* The charges shown are maximum figures. In some cases you may pay less.

Past performance

Charges taken from the Fund over a year

Ongoing Charges	1.74%
-----------------	-------

The ongoing charges are based on actual annualised expenses for the period ending 31 December 2022. Ongoing charges may vary from year to year. The figure for ongoing charges excludes portfolio transaction costs, except in the case of an initial charge paid by the Fund when buying shares or units in another Fund.

For more information about Charges please see the Company's Prospectus.

The past performance is calculated in EUR.

The Fund was launched in January 2014 and the share class was launched in February 2014.

Past performance does not predict future returns.

The past performance takes into account all charges except one-off charges. Please note that while the Fund aims to achieve its performance target before the deduction of charges, the chart and table illustrate the actual performance of the share class after the deduction of charges.

The Fund does not aim to track the performance of the benchmark.

Practical information

Depositary: J.P. Morgan SE, Dublin Branch

To obtain more information: This Key Investor Information Document may not contain all the information you need.

For the last published price of shares in the Fund or any additional information on the Fund, or to obtain the Company's prospectus or the annual/semi-annual report, please visit www.janushenderson.com. Documents are available free of charge in English and certain other languages.
