

Key Investor Information

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

Objectives and investment policy

**Objective:** The Fund aims to achieve income and growth on your investment.

**Policy:** The Fund invests at least 70% of its assets in shares of companies that are involved in property around the world.

The Fund may invest up to 100% in emerging markets and in companies of any size. Emerging markets are countries that are progressing toward becoming advanced, usually shown by some development in financial markets, the existence of some form of stock exchange and a regulatory body.

The Fund's performance is compared against the value of the FTSE EPRA Nareit Developed Index.

The Fund is actively managed meaning that the Fund's manager uses expertise to pick investments rather than tracking a benchmark. A majority of the Fund's assets could be components of the benchmark. Investment of the Fund's assets is not constrained by the benchmark composition and the

Fund's manager has discretion within the Fund's investment policy to invest in assets without regard to the benchmark.

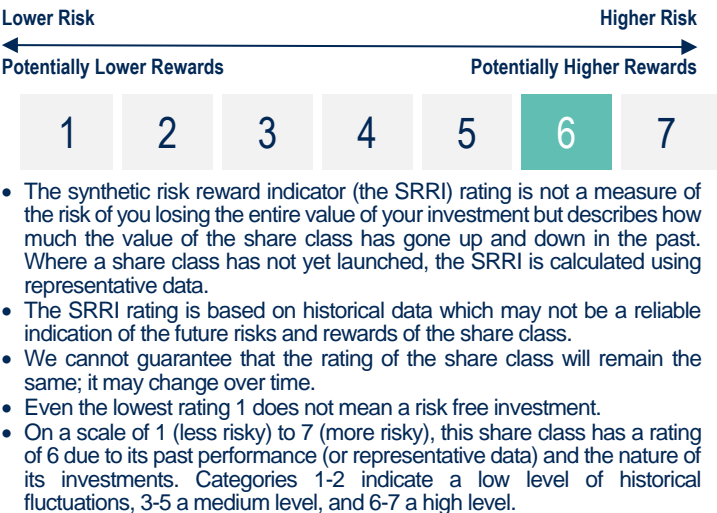

The Fund may use derivatives with the aim of risk reduction or efficient management.

You can buy and sell shares in the Fund on any dealing day. A dealing day is generally defined as a day on which Irish banks and, if applicable, the relevant stock exchange(s) are open for business. Exceptions are noted on the FSI website. As long as we receive your instruction before 10 am (Irish time) on a dealing day, shares will be bought and sold at that day's price.

The Fund will not pay any income out; instead any income will be reflected in the value of your shares.

**Recommendation:** this Fund may not be appropriate for investors who plan to withdraw their money within five years.

Risk and reward profile

- Risk is taken in order to make a higher potential return; the more risk a fund takes, the higher the potential return but the greater the risk of loss.
  - The value of the Fund and its return is not guaranteed and may fall as well as rise. You may get back significantly less than you originally invested. Material risks not adequately captured by the SRRI:
  - Property securities risk:** the Fund invests in the shares of companies that are involved in property (such as real estate investment trusts) rather than in property itself. The value of these investments may fluctuate more than the underlying property assets.
  - Single sector risk:** investing in a single economic sector may be riskier than investing in a number of different sectors. Investing in a larger number of sectors helps to spread risk.
  - Currency risk:** the Fund invests in assets which are denominated in other currencies; changes in exchange rates will affect the value of the Fund and could create losses. Currency control decisions made by governments could affect the value of the Fund's investments and could cause the Fund to defer or suspend redemptions of its shares.
- For further information on risks, please refer to the Risk Factors section in the Company's prospectus.

## Charges for this Fund

The charges are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

### One-off charges taken before or after you invest

Entry charge	5.00%
Exit charge	N/A

This is the maximum that might be taken out of your money before it is invested.

### Charges taken from the fund over a year

Ongoing charge	1.00%
----------------	-------

### Charges taken from the fund under certain specific conditions

Performance fee	N/A
-----------------	-----

The entry and exit charges shown are the maximum you will need to pay. In some cases you might pay less - you can find out the actual entry and exit charges from your financial adviser.

The ongoing charge is based on expenses for the year ending December 2022. It may vary from year to year. It excludes portfolio transaction costs which are paid from assets of the Fund and performance fees, if any.

The fees and expenses are charged against the capital of the Fund. Deducting expenses from capital reduces the potential for capital growth.

There are fees for switching between sub-funds. The fee for switching into the Fund is 1%.

Further information can be found in the Buying, Selling, Converting, and Switching Shares section of the Company's prospectus.
