

Key Investor Information

This document provides you with key investor information about this Sub-Fund. It is not a marketing material. The information is required by law to help you understand the nature and the risks of investing in this Sub-Fund. You are advised to read it so you can make an informed decision about whether to invest.

CONVERTIBLE

A Sub-Fund of Diversified Growth Company (abbreviated as D.G.C.). (the "Fund")

Share Class: B CHF - ISIN: LU0903162732

The Management Company of the Fund is NS Partners Europe SA

Objectives and Investment Policy

Objectives

- The investment objective of the Sub-Fund is to achieve attractive risk adjusted returns over the medium to long term.

Investment policy

- The Sub-Fund will seek to achieve its investment objective primarily through investments in convertible securities and corporate credit instruments. The objective is to identify convertible securities that offer either or both attractively priced credit risk in the form of yield and the ability to participate in the equity upside of the underlying company while benefitting from the downside protection offered by the embedded equity option in the convertible securities.
- The Sub-Fund will have exposure to global convertible and credit markets, although investments in any single country outside the United States will be restricted to 25% of NAV. The Sub-Fund will be allowed to invest 100% of NAV in the United States given the importance of this market and the breadth of available opportunities for appropriate diversification. The Sub-Fund may invest in both rated and unrated debt instruments as well as listed and unlisted instruments and debt-equity hybrid instruments.
- Aggregate exposure to non-rated debt and debt-equity hybrid instruments whose Issuers are domiciled outside the United States, Canada, the European Union, Switzerland, Australia and Japan will be limited to 25% of NAV. By debt and debt – equity Instrument hybrid we intend to capture securities that exhibit a combination of credit and equity characteristics with embedded optionality and hence may provide similar opportunities to convertible securities.
- On an ancillary basis, the Sub-Fund may also invest in cash, deposits with credit institutions, as well as money market instruments, traded regularly and with a residual maturity not exceeding 12 months, including deposit certificates and treasury bills. The Sub-Fund may also invest, in financial derivative instruments for the purposes of efficient portfolio management or hedging.
- Derivatives may be used to a limited extent in order to achieve its investment objective. In such cases, the Sub-Fund may use derivatives with a commitment exposure not expected to be more than 60% and in any case no more than 100% according to Article 42 (3) of the Investment Fund Law.

- The Sub-Fund is actively managed with no reference to a benchmark.

Risk and Reward Profile

The above indicator shows the risk and reward characteristics of the Sub-Fund based on the Sub-Fund's historical performance over the last 5 years. Where a 5-year performance history is not available, the history has been simulated on the basis of an appropriate benchmark index.

The indicator above is based on historical data and thus may not be a reliable indication for the future.

The indicated risk category is not guaranteed and may change over time.

The indicator helps investors have a better understanding of the potential gains and losses of the Sub-Fund. Even the lowest category does not mean a risk-free investment.

The Sub-Fund is classified in the category indicated above due to the fluctuations of its simulated past performance.

Other risks not captured by the risk indicator:

- Concentration Risk:** To the extent that the Sub-Fund's investments are concentrated in a particular company, the Sub-Fund may be susceptible to losses due to adverse occurrences affecting that company.
- Counterparty Risk:** The Sub-Fund may realise losses should a counterparty fail to meet its contractual obligation, especially in the case of derivatives traded Over-The-Counter (OTC).
- Credit Risk:** The risk that the borrower or a counterparty may fail to repay or otherwise withstand contractual obligations to the Sub-Fund.
- Liquidity Risk:** The Sub-Fund is invested in markets that may be affected by a decrease of liquidity. Such market conditions would impact the prices at which the Fund Manager opens and closes positions.
- Operational Risk:** The Sub-Fund is exposed to operational risks whereby losses can occur as a result of inadequate or failed internal processes and systems, human factors or external events.

For full disclosure of risks, please refer to the Prospectus.

Charges

The charges are used to pay costs of running and managing the Fund, including marketing and distribution costs. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest

Entry charge	None
Exit charge	None
This is the maximum that might be taken out of your money before it is invested or before the proceeds of your investment are paid out.	

Charges taken from the Sub-Fund over a year

Ongoing charges	1.21%
Performance fee*	10.00%
Performance fee charged in the last year	0.55%

The ongoing charges figure is based on the last year's expenses, for the year ending December 2021. It includes almost all costs of dealing in the Sub-Fund's underlying investments. The Fund's annual report for each financial year will include details on the exact charges made. This figure may vary from year to year. In some cases you might pay less - you can find this out from your financial advisor.

For more information about charges, please refer to the Prospectus.

*The Sub-Fund will pay the Investment Manager and Management Company a performance fee ("Performance Fee"). The Performance Fee is based on the High watermark ("HWM") principle. The HWM is assessed on the NAV of the last business day ("Valuation Point") of the calendar year ("Calculation Period"). The first Calculation Period begins on the first day following the closing of the initial subscription period and ends on the following Valuation Point. The HWM used for the purpose of the Performance Fee calculation corresponds to the highest NAV of any previous Valuation Point.

The HWM for each Class will be adjusted to reflect the issue of Shares in the Class during a Calculation Period which, seeks to ensure that the relevant Class is only charged a Performance Fee in respect of such Shares for the period during which those Shares are in issue. Therefore, although the Class will be charged a Performance Fee which is proportionate to the performance of the Class as a whole, the adjustments to the HWM as a result of subscriptions during a Calculation Period to achieve this may result in individual Shareholders within a Class paying disproportionately higher amounts in respect of Performance Fee while others pay commensurately lower amounts. These adjustments may also, in certain circumstances, result in a Class being charged a Performance Fee in circumstances where the Net Asset Value per Share of its Shares has not increased over the Calculation Period as a whole.

The Performance fee is accrued at each NAV calculation and paid within 25 days following the end of each Calculation Period. In case of redemptions requested during a Calculation Period, the corresponding Performance Fee will be crystallized and paid at the end of the relevant Calculation Period.

Past Performance

The chart shows the Share Class' annual performance for each full calendar year since launch on 12/06/2013, it is expressed as a percentage change of the Share Class' net asset value at each year-end.

Performance is shown after deduction of ongoing charges.

Any indication of past performance is not a reliable indicator of future performance.

The currency of this share class is CHF.
