

# Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

## Multicooperation SICAV - Julius Baer Fixed Income Emerging Markets Corporate,

a sub-fund of the Multicooperation SICAV  
(ISIN: LU1079021553, share class: K - USD)  
GAM (Luxembourg) S.A., part of GAM Holding AG, manages this Fund

### Objectives and investment policy

- The aim of the sub-fund ("Fund") is to achieve the highest-possible return. For this purpose, the Fund invests in selected debt securities of issuers from emerging countries denominated in hard currencies.
- The Fund invests at least 2/3 of its assets in first-class debt securities and other interest-bearing assets of all types, issued or guaranteed by issuers with their head office or the majority of their business operations in emerging countries denominated in the following currencies: USD, EUR, CHF, GBP, JPY, SEK, NOK, CAD, AUD, NZD.
- The Fund may invest in floating and fixed-rate debt securities issued by governments, international organisations and companies. In addition, the Fund may invest in debt securities which can be converted into shares. The Fund may also invest up to 1/3 of its assets in other debt securities, shares, money market instruments, bank deposits as well as in target funds (less than 10%) and structured products (less than 10%).
- The Fund may, under certain circumstances, and by way of exception to the 2/3 rule, hold up 49% of the assets in liquid instruments.
- The Fund may use complex financial instruments (e.g. derivatives) to hedge the assets against currency risks, to manage it efficiently, and also for investment purposes.

The Fund also has the following characteristics of importance to investors:

- The Fund does not follow a benchmark index. It is therefore free in its choice of asset classes and investment strategies and the financial instruments it uses.
- Investors may buy or sell the Fund on any bank working day in Luxembourg.
- The Fund has several share classes. These may differ with regard to charges, currency and the use of revenues.
- Income is reinvested in the share class.
- Recommendation: this fund may not be appropriate for investors who plan to withdraw their money within three years.

### Risk and reward profile

The above indicator shows what risk and reward characteristics the Fund has, based on the Fund's historical performance over the last 5 years. Where a 5-year performance history is not available, the history has been simulated on the basis of an appropriate benchmark index.

- The Fund is assigned to the above category based on its historical fluctuations in value.
- The indicator helps investors to have a better understanding of the potential gains and losses related with the Fund. In this context, even the lowest category does not represent a risk-free investment.
- The past performance of the Fund provides no indication of its current or future performance.
- This allocation to a risk category may change over time because the future performance of the Fund may fluctuate differently than in the past.
- The Fund does not offer the investor a guaranteed return. Nor does it guarantee the fixed repayment of the money invested in the Fund by the investor.

The indicator takes account of those risks which are entailed in the Fund's net asset value. These mainly involve fluctuations in the value of investments. In addition to the risks expressed through the indicator, the Fund's net asset value may also be significantly affected by the following factors:

- The Fund invests in assets which are generally easy to trade and may therefore be sold at their market value under normal circumstances. However, it cannot be ruled out that in certain extreme situations (e.g. market turbulences) the tradeability of the assets in the Fund may be limited. In such situations, it may only be possible to sell the assets in the Fund at a loss, which will reduce the value of the Fund.
- The Fund invests in debt securities exposed to the risk that the borrower will be unable to meet its payment obligations.
- The Fund invests in complex financial instruments (e.g. derivatives), the value of which is connected to underlying assets. Certain of these financial instruments may entail a leverage effect which may have a sharp impact on the Fund's net asset value.
- Emerging economies often have an unstable political situation. This may lead to unexpected political situations and decisions (e.g. expropriation of assets) which have a negative effect on the capital markets in such countries. Accordingly, the performance of Funds which invest in such countries may be negatively affected.

## Charges

The costs borne by you are used to pay for the management of the Fund and its distribution and marketing. These costs reduce the Fund's performance.

### One-off charges taken before or after you invest

Issue fee	5.00%
Redemption fee	3.00%
Conversion fee	1.00%

This is the maximum that might be taken out of your money before it is invested / before the proceeds of your investment are paid out.

### Charges taken from the fund over a year

Ongoing charges	0.75%
-----------------	-------

### Charges taken from the fund under certain specific conditions

Performance fee

None

Both the issue and redemption fees and the conversion fees are maximum rates. You may be charged less than this. Your advisor will be able to provide you with further information.

Ongoing costs are calculated at the end of the financial year. The figure may differ from year to year. It does not include:

- Transaction costs, except if the Fund has to pay issue and redemption fees to buy or sell other collective investments.

Further information on costs is provided in the full prospectus. This can be downloaded from the websites [www.funds.gam.com](http://www.funds.gam.com) and [www.fundinfo.com](http://www.fundinfo.com).

## Past performance

- Past performance provides no indication of current or future performance.
- The performance data refer to the net asset value. Fees incurred on issue, redemption or exchange (e.g. transaction and custody charges incurred by the investor) are not included.
- Launch year of the Fund: 2014  
Activation year of the share class: 2016
- Past performance has been calculated in USD.

## Practical information

- The custodian is State Street Bank Luxembourg S.C.A., 49, Avenue J. F. Kennedy, L-1855 Luxembourg.
- Further information on this Fund or other share classes or sub-funds of the SICAV may be found in the prospectus, in the articles of association, in the most recent annual report and subsequent semi-annual reports of the SICAV, and may be obtained from the head office of the SICAV and from national representatives and distributors, or on the website [www.funds.gam.com](http://www.funds.gam.com). These documents are available free of charge on request in an official language or in English.
- The net asset value is published daily at [www.funds.gam.com](http://www.funds.gam.com) and [www.fundinfo.com](http://www.fundinfo.com).
- The SICAV is subject to Luxembourg tax law. This may affect your personal tax situation.
- GAM (Luxembourg) S.A. may be held liable only on the basis of a statement included in this document which is misleading, erroneous or incompatible with the relevant parts of the UCITS prospectus.
- Investors have a right of exchange between the sub-funds of the Luxembourg SICAV.
- Multicooperation SICAV is organised as a Société d'Investissement à Capital Variable which is governed by Luxembourg law.
