## **Key Investor Information**

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about w hether to invest.

Objectives and Investment Policy							
<i>Objectives</i> We aim to provide you with an increase in your capital over the					<b>Benchmark</b> The Sub-Fund seeks to outperform the STOXX Europe 600 Net		
long tern		4			Return EUR Index. Use of Hedging		
Investment Policy We invest in shares of European companies that are dealt in on a stock exchange.					This share class is denominated in USD and may be hedged against fluctuations of the Sub-Fund's base currency the EURO		
Investment Process We take investment decisions on the basis of our analysis of companies' financial figures and management conditions. This analysis allows us to buy companies that are likely to experience an increase in their value or companies whose share price is undervalued in comparison to their intrinsic value. Use of Derivatives The Sub-Fund may use complex financial instruments ("derivatives") such as futures, options, forwards and swaps to optimise the management of your portfolio or protect its value against adverse movements in financial markets.					Dealing frequency You can buy and sell shares of this class on any business day in Luxembourg. Distribution Policy		
					Any income arising from the share class is reinvested into it.		
					You can find more detail on the investment objective and policy of the Sub-Fund in the "Investment Objective" and "Investment Policy" sections of the Prospectus.
