EDITORIAL

Europe has been a pioneer in the implementation of environmental, social and governance rules. From now on, beyond shareholder engagement, non-financial criteria are becoming a tool for selectivity but above all for improving social practices, governance and environmental footprint.

2 MANAGEMENT OBJECTIVE

The UCITS is actively managed on a discretionary basis according to a qualitative non-financial filter in line with the policy implemented by Crédit Mutuel Asset Management and in compliance with the requirements of the French SRI label. It is not managed with reference to an index. The investment objective of this UCITS is to obtain a return on the portfolio through selective management of stocks that are deemed undervalued, over the recommended investment horizon.

3 ESG RATING

CRÉDIT MUTUEL ASSET MANAGEMENT

Fund ESG rating	
out of 10	
Overall rating	6.76
E rating (Environment)	6.77
S rating (Social)	6.66
G rating (Governance)	6.94

Crédit Mutuel Asset Management’s proprietary ESG analysis model uses a tool to assess the risks and opportunities related to the environmental and social transitions of the issuers making up the portfolio. The analysis of issuers covers five main pillars: environmental, social, societal, governance and the company’s commitment to a socially responsible approach. A rating is then calculated based on three components (environment, social and governance), which enables us to position the portfolio in terms of ESG. The exercise of voting rights and dialogue with issuers round out our responsible investor approach.

4 MANAGEMENT COMMENT

Equity markets continued to rise, buoyed this month by the rebound of the most valuable sectors, such as retail, banks, energy and chemicals. Every day is an opportunity to set new records, but also leaves little room for disappointment. Within the portfolio, the financial sector was the best contributor, particularly banks in the South: Banco Santander (+17.6%), Caixabank (+17.1%), Intesa (+14.5%) and Unicredit (+13.8%). The sector is benefiting from continued cyclical momentum, fuelled in particular by recovering PMI indicators in Europe. In the Consumer sector, the fund benefited fully from the continued rally in the automotive sector. Stellantis and Renault rose by +24.5% and +26.8% respectively over the quarter. After several quarters of neglect, the Materials sector is regaining investor interest. BASF also gained +12.4% and Evonik +7.4% in March. Lastly, the energy sector was buoyed by oil prices. Technip Energies, which we recently bought, was up 16.3%, while the worst performer was Siemens (-3.3%), which we trimmed slightly following a message of caution about the Chinese recovery. We continue to like the stock, but remain cautious ahead of the earnings release. In terms of movements, we added to the financial sector by initiating a position in NN and Julius Baer, and reweighted Banco Santander and Caixa. On the other hand, we took profits on ING and Pluxee.

6 A WORD FROM SRI

After two years of consultation, the Security and Exchange Commission has just published its climate reporting rules. While the initial text provided for the publication of greenhouse gas emissions in all three scopes, the final version is limited to the first two, which represent on average only 25% of a company's emissions, according to recent estimates by the Carbon Disclosure Project. In addition, this disclosure is now only required for the largest companies that consider this risk to be material for them; growth companies and companies of limited size are not affected. Although it is not very restrictive, this regulation is already being challenged by no less than 10 states and may therefore never come into force.

SRI FOCUS ESG INDICATORS

The philosophy of Crédit Mutuel Asset Management's SRI-labelled funds is based on the monitoring of indicators related to key ESG objectives, such as limiting carbon emissions (intensity), whistle blower policy, gender equality, executive compensation and respect for human rights.

	Portfolio	Universe
E rating : Environmental		
Carbon intensity (Scope 1+2) Tons of CO2 equivalent per million sales	118.1	119.2
Coverage ratio	100.0%	96.7%
S rating : Societal		
Whistleblower Protection Policy	100.0%	96.8%
Coverage ratio	97.4%	91.8%
G rating : Governance		
% of women on the Board of Directors** (Board Gender Diversity)	41.5%	38.7%
Coverage ratio	97.4%	96.2%
DH rating : Human Rights		
Number of red controversies related to human rights*	0	1
Coverage ratio	100%	100%

* 1st performance indicator.

The fund invests in companies whose activities help to reduce the human environmental footprint, i.e. players who enable the transition to a less energy-intensive economy and more renewable energy. In this approach, carbon intensity can be important. The management of the fund will seek to reduce this intensity over time.

** 2nd performance indicator.

The objective of the two performance indicators above is to outperform the starting monetary universe. The raw data of ESG indicators (E, S, G and DH) are published once a year by the companies. The calculations were made using the latest data available.
