

Key Investor Information Document

This document provides you with key investor information about this Sub-Fund. It is not marketing material. The information is required by law to help you to understand the nature and the risk of this Sub-Fund. You are advised to read it so you can make an informed decision about whether to invest.

Fulcrum Multi Asset Trend Fund C GBP ("the Sub-Fund")

ISIN: LU1225878351

A sub fund of Fulcrum UCITS SICAV (the "Fund")

The fund is managed by ONE fund management S.A. (The "Management Company")

OBJECTIVES AND INVESTMENT POLICY

Investment Objective:

The investment objective of the Sub-Fund is to generate long term capital appreciation in the value of its assets by gaining exposure to certain trends through the use of systematic trading strategies that seek to primarily invest in liquid assets.

Investment Strategies:

The Sub-Fund is a quantitative fund with investment decisions being based on price trends across markets. The Sub-fund will invest in currency, equity, commodity indices, and fixed income markets. Investments will be made through cash settled securities (including equities, bonds and exchange traded funds) and derivatives traded over the counter and listed on an exchange (including futures, forwards, swaps and options).

Shares can be redeemed on a daily basis. Income arising from the Sub-Fund is capitalised not distributed.

RISK AND REWARD PROFILE

A risk level 5 fund has no capital guarantee, with a high potential level of loss. Even level 1 on the risk indicator does not mean the investment is risk-free. This has been determined based on the nature of the investment policy and the historic volatility of the Sub-Fund, it may not be a reliable indicator of the Sub-Fund's future risk profile and the synthetic risk and reward indicator ("SRRI") can vary over time.

Derivatives are used for investment purposes and can be contracted bilaterally with third parties or cleared through a central clearing counterparty; such instruments can be volatile and involve additional risks such as counterparty risk.

The base currency of the Sub-Fund is USD, however it can invest in securities that are denominated in other currencies resulting in exchange rate risk. Any non USD share classes will be hedged to mitigate unwanted currency exposure between the share class and the Sub-Fund, however there is no guarantee this will be effective.

The SRRI is a market based measure and does not include risks such as credit, counterparty and operational. While it is anticipated that the Sub-Fund will be accepting daily subscriptions and redemptions, there can be no guarantee that it will provide such daily liquidity under all market conditions. Past performance is not a guide to future performance.

The net asset value ("NAV") of the Sub-Fund may fall as well as rise and investors may not get back the full amount of invested capital.

For more detail about risk, please refer to the Prospectus.

CHARGES

The charges are used to pay the costs of running the Sub-Fund, including the costs of marketing and distribution. These charges reduce the potential growth of your investment.

The entry/exit charges shown are maximum figures that might be taken out of your investment. In some cases you may pay less, however, you can find this out from your financial adviser or distributor.

Ongoing charges are based on expenses for the last complete financial year ended on 12/2020 and excludes performance fees and transaction costs. This figure may vary from year to year.

Charges are fixed as per the Fixed Operating Charge, further information on these charges can be found in the Prospectus.

No performance fees are charged for this share class.

For more information about charges, please see the Prospectus which is available at www.fulcrumasset.com.

PAST PERFORMANCE

The price and value of the investments referred to in this material and the income from them may go down as well as up and investors may not receive back the amount originally invested. Past performance is not a guide to future performance. Future returns are not guaranteed. Past performance takes all costs and fees into account with the exception of entry and exit charges which are typically not charged.

The share class performance is measured in GBP.
