# BBVA MEGATRENDS ACTIVE EXPOSURE FUND,

## a Sub-Fund of BBVA DURBANA INTERNATIONAL FUND

**Class A (EUR) - LU0836875178**

**Management Company: BBVA ASSET MANAGEMENT, S.A., SGIC, an entity of BBVA Group.**

### Objectives and Investment Policy

The Sub-Fund is actively managed and compares its performance against the 15% MSCI World Net Total Return USD Index, the 42% ICE BofA 1-10 Year Euro Large Cap Corporate Index, the 12% ICE BofA 1-4 Year US Large Cap Corporate Index, the 6% J. P. Morgan EMBI Global Core USD and the 25% €STR. Therefore, the Investment Manager may freely select the assets, so the composition of the Sub-Fund's portfolio is not constrained by the composition of the respective benchmarks.

The Sub-Fund seeks to provide capital appreciation through a flexible investment approach focused on diversification and risk control. For this purpose it will invest its assets directly or indirectly in a global portfolio composed of fixed income, floating rate notes, equity securities, and convertible bond following absolute return innovative strategies such as volatility or relative value strategies (including equity market neutral, convertible arbitrage, event driven), fixed income strategies (including asset backed securities and mortgage backed securities, fixed income arbitrage) or commodity strategies (including multi-strategy). The Sub-Fund may follow commodity strategies (including multi-strategy) by investing up to 20% in derivatives on financial commodity indices complying with the prospectus.

The Sub-Fund may at any time, invest up to 30% of its assets in equity securities of any capitalization or sector, issued by companies that will offer growth opportunities derived from positive appreciation trends in the social, political, economic, technological sphere, among others, and with transversal incidence. As part of its investment strategy, the fund will allocate between 10% -30% of the global exposure to a portfolio of investments and hedging strategies that provide protection against market downturn risk and minimize the risk of adverse market movements.

The Sub-Fund will invest no more than 20% in asset backed securities and mortgage backed securities. The Sub-Fund may invest up to 10% of its net assets in high yield and/or emerging market securities including no more than 5% in unrated securities. Investments in deposits, cash, cash equivalents or Money Market Instruments may be held on an ancillary basis. The Investment Manager may also invest up to 100% of the Sub-Fund's portfolio in assets issued or guaranteed by one single public issuer in accordance with the prospectus.

Financial derivative instruments may be used for hedging or efficient portfolio management purposes. The Sub-Fund will not enter into (i) repurchase agreements and reverse repurchase agreements, (ii) securities lending and securities borrowings and (iii) buy - sell back transactions or sell -buy back transactions. The Sub-Fund will invest more than 10 % of its assets in units / shares of other UCITS or UCIs, which are in line with this investment strategy.

Dividend Income is not paid out, but it will be reinvested in the Sub-Fund. Shares may be redeemed on demand, on each bank working day in Luxembourg.

Recommendation: This sub-fund may not be appropriate for investors who plan to withdraw their money within 3 years.

### Risk and Reward Profile

The level of Risk and Reward is due to the nature of the investments and the fluctuations of its returns in the past. The risk and reward indicator was calculated using simulated performance data and it may not be a reliable guide of the fund's future risk profile. The risk category shown is not guaranteed and may shift over time. The lowest risk category does not mean a risk free investment.

Risks materially relevant which are not adequately captured by the indicator:

The investments of the Sub-Fund are subject to normal market fluctuation and there can be no assurance that capital appreciation or distribution payments would occur. The value of investments and their income, and therefore the value of the shares of the Sub-Fund, can and do go down as well as up and an investor may not get back the amount he invests.

The principal risks of investing in the Sub-Fund relate, inter alia, to credit, interest rate and counterparty risks as well as liquidity risks. The Sub-Fund may invest 100% of its assets in different securities issued by one single member state of the OECD, the Sub-Fund may be fully exposed to the risk of default of that particular issuer.

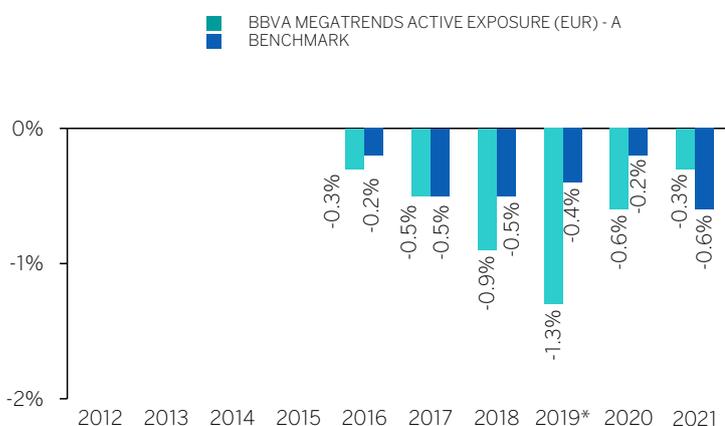

The Sub-Fund may have exposure to other currencies than Euro and USD.

Please refer to the "Risk Factors" section of the prospectus to find a more detailed description of the risk factors applying to this Sub-Fund.
