Key benefits

- Easy access to the Chinese, Hong Kong and Taiwanese markets
- Investors gain access to "A" class shares as UBS is recognised as a qualified financial investor in China
- Investors benefit from UBS being one of the few asset managers with a truly global investment platform
- UBS's proprietary fundamental valuation approach allows consistent identification of the potential most attractive companies

Risks

UBS Emerging Market Funds invest in equities and may therefore be subject to high fluctuations in value. For this reason, an investment horizon of at least five years and corresponding risk tolerance and capacity are required. As these UBS Funds pursue an active management style, each Fund's performance can deviate from that of its reference index. Investors should also be aware of the political and social challenges that emerging markets face. All investments are subject to market fluctuations. Every Fund has specific risks, which can significantly increase under unusual market conditions. The fund can use derivatives, which may result in additional risks (particularly counterparty risk).
