## UBS Swiss Opportunity

UBS Equity Funds &gt; UBS Opportunity Equity Funds

### Fund description

- Very actively managed equity fund based on a concentrated equity portfolio investing in promising large, medium and small capitalised Swiss companies.
- The fund manager is given great flexibility to take focused views on the most attractive stocks and exploit the best opportunities, unconstrained by the reference index.
- The fund offers investors a broader diversification compared to the index including lower maximum single stock weights (max. 10%) and a more balanced sector allocation.

## Risks

UBS Opportunity Equity Funds invest in equities and may therefore be subject to high fluctuations in value. For this reason, an investment horizon of at least five years and corresponding risk tolerance and capacity are required. As these UBS Funds pursue an active management style, each Fund's performance can deviate substantially from that of its reference index. All investments are subject to market fluctuations. Every Fund has specific risks, which can significantly increase under unusual market conditions. The fund can use derivatives, which may result in additional risks (particularly counterparty risk).
