

KEY INVESTOR INFORMATION

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

COHEN & STEERS

Global Listed Infrastructure Fund

Class A Acc (USD) Shares (ISIN: LU1276743702) and Class A Acc (USD) Shares (ISIN: LU1276744007)
Class A Inc (EUR) Shares (ISIN: LU1611224913) and Class A Acc (EUR) Shares (ISIN: LU1611225134)
Class A Inc (CHF) Shares (ISIN: LU1611225050) and Class A Acc (CHF) Shares (ISIN: LU1611225217)

This is a sub-fund of the Cohen & Steers SICAV. Cohen & Steers Ireland Limited is the management company of the Fund.

Objectives and Investment Policy

The Fund's objective is to produce both income and capital growth by investing at least 80% of its assets in shares of infrastructure companies worldwide, which consist of utilities, pipelines, toll roads, airports, railroads, marine ports, telecommunications companies and other infrastructure companies. The Fund invests primarily in companies located in developed countries. The Fund may also invest up to 15% of its net assets in shares of companies located in frontier countries and emerging market countries. The Fund's investments may include rights and other instruments that can be exercised to obtain shares. The Fund may invest in infrastructure companies organized as publicly traded partnerships, including master limited partnerships. The Fund may not invest more than 10% of its assets in a single UCITS or other UCI. The Fund may invest in financial instruments whose value is based on the value or characteristics of one or more underlying assets (derivatives) for hedging purposes.

The Fund is actively managed. The investment manager currently uses FTSE Global Core Infrastructure 50/50 Net Tax Index for its internal analysis and for comparison with the investment performance, holdings, and other characteristics of the Fund in materials provided to shareholders and potential

investors, but the composition of the portfolio holdings of the Fund is not constrained by the composition of its benchmark as a result. Active management of the Fund may result in the minority or majority of the portfolio being components of the benchmark while also including securities that are not components of this benchmark. Because the Fund's investment objective and policy focus on the same sector as this benchmark, the investment performance, holdings, and other characteristics of the Fund may resemble those of the benchmark. Such characteristics are the result of the exercise of full discretion over the Fund based on current market conditions.

Investment in the Fund is suitable for a long-term investor who is able to tolerate stock market volatility and potential loss of capital.

Income arising from the Fund will be distributed to shareholders of Class A Inc Shares semi-annually, while all such income will be reinvested in Class A Acc Shares. Class A Inc and A Acc Shares are each offered in USD, EUR, and CHF.

You may buy or sell shares of the Fund on demand on any Luxembourg business day.

Risk and Reward Profile

Calculated using annualized volatility on monthly performance returns of Share Class A Inc USD (LU1276743702)

The Fund is in risk category 6 because the volatility of past returns of the Fund's benchmark has been very high. All investments, including an investment in the Fund, involve risks that cannot be predicted.

The categorization above is based on historical information, may not be a reliable indication of the future performance of the Fund, and may shift over time. The lowest category does not mean risk free. Because investments are concentrated in the infrastructure industry, the Fund will be sensitive to the performance of this industry, which can be cyclical and may be negatively affected by financing challenges, government regulation and low demand. The Fund invests globally, including in frontier countries and emerging markets, and is thus subject to changing currency exchange rates and costs and economic and political conditions in various countries; these risks are often heightened in emerging markets. The Fund's investment may include smaller companies whose share prices may be more volatile than larger companies. Any investment in derivatives would expose the Fund to additional risks, including risk of loss in the event of counterparty default.

Charges for this Fund

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry charge	Up to 5.00%
Exit charge	None
This is the maximum that might be taken out of your money before it is invested and before the proceeds of your investment are paid out.	
Charges taken from the Fund over a year	
Ongoing charges	1.70%
Charges taken from the Fund under certain specific conditions	
Performance fee	None

The entry and exit charges shown are maximum figures.

The ongoing charges figure is based on expenses for the year ending December 2023. This figure may vary from year to year. It excludes:

- Performance fees
- Portfolio transaction costs, except in the case of an entry/exit charge paid by the Fund when buying or selling units in another collective investment undertaking

*Maximum potential expenses are shown. The Fund's investment manager has undertaken to reimburse the Fund for ongoing charges that exceed this amount annually.

For more information about charges, please see the section entitled "Charges and Expenses" in the Cohen & Steers SICAV's prospectus, which is available at www.cohenandsteers.com

Past Performance

No past performance available because there is insufficient data to provide a useful indication of past performance as of the date of this document.

Performance for other share classes of the Fund is available upon request.
