

Key Investor Information

This document provides you with key investor information about this sub-fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this sub-fund. You are advised to read it so you can make an informed decision about whether to invest.

NABUCCO
a sub-fund of BEL CANTO SICAV

Class
IC USD

ISIN
LU1258585113

The management company is
Santander Asset Management
Luxembourg S.A.

Objectives and Investment Policy

Objective: The investment objective of the Sub-Fund is to build a diversified portfolio of securities issued by companies or by governments or their local authorities established, listed or traded worldwide.

Investment policy: The Sub-Fund will invest, directly or indirectly through third party investment funds, in fixed income securities and equities of European, North American, OECD and emerging countries while seeking to control economic and monetary risks.

The Sub-Fund can invest more than 10% of its net assets in third party UCITS or UCIs.

Under normal circumstances, the Sub-Fund's investments in equities will be 40% of the Sub-Fund's net assets. The Sub-Fund's exposure to equities will not exceed 70% of the Sub-Fund's net assets and, under exceptional circumstances, could be 0%.

The Sub-Fund may invest up to 50% of its assets in alternative investments.

For direct fixed income investments, a maximum exposure of 85% of portfolio assets will be applied. The Sub-Fund may invest directly or indirectly through third party investment funds in High Yield instruments.

The Sub-Fund's portfolio may be exposed up to 40% of its value to non-USD currencies. To mitigate volatility due to the periodic fluctuations in foreign exchange markets, the Sub-Fund may engage in derivative transactions for the purpose of hedging its currency risk.

The Sub-Fund may invest up to 10% of its assets in exchange-traded commodities (ETCs), in eligible financial derivative instruments on commodities indices or on indices based on financial derivatives on commodities qualifying as eligible financial indices.

The Sub-Fund may use derivatives with a view to reduce the risk of investment positions or for efficient portfolio management or as a part of the investment strategy.

The Investment Manager will, in any case, invest in UCITS and eligible UCIs

managed by first-rate fund management companies with a wide experience in the markets and a high degree of solvency, considering the volume of assets under management. The choice of underlying UCITS and UCIs will also take into account the management quality of the investment manager, the past returns achieved by the underlying fund, the risk/return ratio and the volume of assets of the underlying fund.

The Sub-Fund is actively managed and it is not managed in reference to a benchmark.

Net asset value calculation frequency: Daily, any Luxembourg Business day.

This is an accumulation share class in USD.

Recommendation: This Sub-Fund may not be appropriate for investors who plan to withdraw the money within 3 years.

Risk and Reward Profile

The number indicated above is the fund's **Synthetic Risk Reward Indicator**, a way of illustrating the risk and reward profile of a fund by using historic performance data. Please be aware, this value can change over time and it may not be a reliable indication of the fund's future risk profile. In addition, the lowest category does not mean a risk-free investment.

A ranking of 4 means this fund typically has a medium level of volatility, meaning there is a degree of uncertainty over the size of changes in the fund's value over time. This could result in the value of the fund changing over a short period of time in either direction.

Investors should be aware of the following risks:

Derivatives Risk: The fund is permitted to use derivative instruments. The value of derivatives can be volatile and may result in gains or losses in excess of the amount required initially to establish a position.

Market Risk: Investments in the fund are subject to market fluctuations that could cause the value of a particular investment to change in a way that is detrimental to the fund's value.

Interest Rate Risk: Arise in interest rates can generally be expected to depress the value of the fund's fixed income investments.

Emerging Markets Risk: The fund is permitted to hold some exposure to Emerging Markets, which can at times carry a higher degree of risk compared to similar securities in more developed markets due to political and economic events.

Credit Risk: It refers to the likelihood of the fund losing money if an issuer is unable to meet its financial obligations, such as the payment of principal and/or interest on an instrument, or goes bankrupt.

Liquidity Risk: There is the possibility that the fund may lose money or be prevented from earning capital gains if it cannot sell a security at the time and price that is most beneficial to the fund and may be unable to raise cash to meet redemption requests.

Operational Risk: The risk of failures or delays in the system, processes and

controls of the fund or those of its service providers that could lead to fund losses.

Sustainability risk: The Sub-Fund's investments may be subject to sustainability risks. Sustainability risks are environmental, social or governance events or conditions that, if they occur, could cause an actual or a potential material negative impact on the value of the Sub-Fund's investments.

Currency Risk: Investing in assets denominated in a currency other than that of the investor's own currency exposes the value of the investment to exchange rate fluctuations.

Charges

The fees are used to cover the operating costs for the Sub-Fund, including marketing and distribution costs. These fees reduce the potential growth of the investment.

One-off charges taken before or after you invest

Entry charge	None
Exit charge	None

This is the maximum that might be taken out of your money before it is invested / before the proceeds of your investment are paid out.

Charges taken from the sub-fund over a year

Ongoing charges	0.96%
-----------------	-------

Charges taken from the sub-fund under certain specific conditions

Performance fee	None
-----------------	------

This is the maximum percentage which might be deducted from your capital commitment to the Sub-Fund, in some cases, you might pay less. You can find out the actual entry and exit charges from your financial adviser or distributor. The entry charges are deducted before your capital is invested.

The ongoing charge percentage indicated is based on the fees from the previous financial period, ended on 31 December 2021. This figure can vary from one financial period to another.

You can obtain more information about these charges, in the «fees and expenses» section of the prospectus.

Past performance

Past performance of Sub-Fund is not necessarily indicative of future performance.

The calculation of the past performance includes all fees and commissions which accrue on fund level.

This class was created in 2015.

The past performance has been calculated in USD.
