Investment Policy

The fund is managed with an indexed method and is distinguished by broad diversification, low tracking errors, and low-cost management. The investment objective is to replicate the reference index as closely as possible and to minimize performance deviations from the benchmark. The FTSE EMU Government Bond Index measures the performance of fixed-rate, local currency, investment grade sovereign bonds. It consists of the EMU-participating countries that meet specific criteria for market size, credit quality, and barriers-to-entry.

The fund follows the exclusion recommendations of the Swiss Association for Responsible Investments (www.svk-asir.ch). The recommendations affect issuers whose conduct or products violate the normative criteria of SVVK-ASIR, e.g. violations of international conventions or production of controversial weapons. This fund is not a sustainable fund and it does not integrate any environmental, social and governance (ESG) considerations into its investment process. The fund does not meet Credit Suisse Asset Management (CSAM) Sustainable Investing Policy, nor any specific client or investor sustainability preferences.

Investing involves risk including the risk of loss of capital. Past performance does not predict future returns. Neither simulated nor historical performance is a reliable indicator for current or future performance.
