UBS (Lux) Strategy Fund - Balanced (EUR), class Q-C-dist (ISIN: LU1240797990), EUR

a sub-fund of UBS (Lux) Strategy Fund

This subfund is managed by UBS Fund Management (Luxembourg) S.A.(the "Management Company"), a company of the UBS AG.

Objectives and investment policy

The fund invests in bonds primarily of high quality as well as in money market instruments and equities. It invests worldwide and with a roughly balanced, yet variable ratio.

The fund manager combines carefully selected securities from various asset classes of different states and companies from different countries and sectors with the objective of exploiting interesting earnings opportunities and in doing so keeping the level of risk under control.

In principle, investors may ask the Management Company to redeem their units on any business day in Luxembourg.

This share class pays a dividend. Dividends can comprise income and capital and may be paid exclusive of fees. The dividend is not paid out to the unitholder, but is paid into the UBS Optimus Foundation, which uses the money for charitable purposes.

Risk and reward profile

More about the risk category

- The risk category is based on the estimated future volatility of the fund. The method used for this estimate depends on the fund type and historical data.
- Historical performance is not a reliable indicator for future performance.
- The risk category allocated is not static and may vary over time.
- Allocation to the lowest risk category does not mean that an investment in this fund is free of risk.

Why is the fund in this category?

- The fund is in risk category 4 because the volatility of its returns is moderate.
The fund may invest in bonds of varying credit quality, money market securities and equities on a global basis and may be subject to high volatility. This requires corresponding risk tolerance and capacity. The value of a unit may fall below the purchase price.

Further material risks

- Investment in fixed income securities are usually considered as carrying credit risk (i.e. potential loss due to failure of issuer).
- The fund may use derivatives which can reduce investor risks or give rise to market risks as well as potential loss due to failure of counterparty
- Every fund reveals specific risks, a detailed and comprehensive list of risk descriptions can be found in the prospectus.

Charges

The charges you pay are used to pay the costs of running the fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest

Entry charge	2.50%
Exit charge	0.00%
Conversion fee	2.50%

This is the maximum that might be taken out of your money before it is invested / before the proceeds of your investment are paid out.

Charges taken from the fund over a year

Ongoing charges	0.05%
-----------------	-------

Charges taken from the fund under certain specific conditions

Performance fee	none
-----------------	------

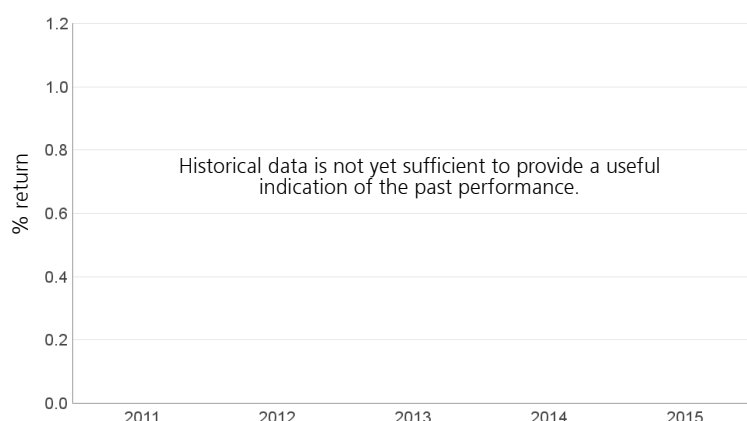

The **entry charge** shown is a maximum figure. In some cases you might pay less – you can find this out from your financial adviser.

The **ongoing charges** are estimated in the absence of historical data or when the calculated figure is considered unsuitable because of a material change. As soon as available or suitable, the calculated ongoing charges are reported and may differ from the estimate. They generally exclude:

- Portfolio transaction costs, except in the case of an entry/exit charge paid by the fund when buying or selling units in another collective investment undertaking.
