

## Key Investor Information

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

### Bankinter International Fund Sicav - CARRION CONSERVATIVE - Class A

(ISIN: LU1214667088) CARRION CONSERVATIVE (the 'Fund') is a Sub-Fund of Bankinter International Fund Sicav (the 'Company'). Lemanik Asset Management S.A. is the Management Company (the 'Management Company') to the Fund.

#### Objectives and Investment Policy

- The Fund's objective is to ensure preservation of capital and, when the market allows it, achieve a return ideally above the European inflation plus 3%.
- To achieve its objective, the Fund will mainly invest in fixed income instruments and other debt instruments rather than in equities, based on the market conditions at the time. The eligible assets can be denominated in any currency. The allocation of investments among countries or regions is not predetermined.
- The Fund is actively managed without any reference to a benchmark. The Investment Manager has discretion over the composition of its portfolio subject to this objective and investment policy.
- The Fund may also invest in Money Market Instruments issued by an EU Member State or an OECD Member State, and in deposits or call deposits with a credit institution having its registered office in an EU Member State or an OECD Member State and with a maximum term of one year.
- The Fund may also invest its assets indirectly, for example through investment funds. Under exceptional circumstances, it may be invested up to 100% in cash and cash equivalents.
- Sale of shares in the Fund can be made on a daily basis.
- Any income arising from the Fund's investments is reflected in the value of your shares as all income is reinvested rather than being paid out.
- The Fund may use Financial Derivatives Instruments (instruments whose prices are dependent on one or more underlying assets 'FDIs'). The Fund invests in FDIs in order to reduce the possibility of financial losses or to achieve higher gains. The Fund is expected to have an increased market exposure as a result of such investments.
- Recommendation: this Fund may not be appropriate for investors who plan to withdraw their money within three years.

#### Risk and Reward Profile

Lower risk Higher risk  
Potentially lower rewards Potentially higher rewards

- The lowest category does not mean a risk free investment.
- The risk and reward profile may change over time.
- Historical data may not be a reliable indication for the future.
- This Fund is in category 2, since the share price has a low volatility and therefore the risk of loss as well as the expected reward is generally small.

The following risks may not be fully captured by the risk and reward

indicator:

- Credit Risk: The Fund can invest a material part of its assets in bonds. Their issuers can become insolvent, thus their bonds can either partly or entirely diminish in value.
- Equity Risk: The risk that investments depreciate because of stock market dynamics.
- Market Risk: The Fund's assets may decrease because of sovereign acts and political transformation, which may also influence free trade of currency. In addition, risks may arise because of restricted information possibilities in addition to less stringent supervision and control of certain markets. The performance of these markets may be subject to significant volatility.

A complete description of risk factors is set out in the Prospectus in the section entitled 'Risk Factors'.

## Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distribution. These charges reduce the potential growth of your investment.

The entry and exit charges shown are maximum figures. In some cases you might pay less. Please refer to your financial advisor or the distributor for the actual charges.

The ongoing charges figure is based on expenses for the year ending 31 December 2021.

This figure may vary from year to year. It excludes:

- Performance Fees.
- Portfolio transaction costs, except in the case of an entry/exit charge paid by the Fund when buying or selling units in another Fund.

For more information on charges, please see the 'Charges and Expenses' section of the Prospectus.
