

Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

Man GLG Alpha Select Alternative Class ILU GBP Shares

(ISIN:IE00BYQG5598) Man GLG Alpha Select Alternative (the 'Fund') is a sub-fund of Man Funds VI plc (the 'Company').

Man Asset Management (Ireland) Limited, part of Man Group plc, is the Manager of the Company.

Objectives and investment policy

- The Fund seeks positive returns by investing primarily in listed shares (and their related instruments) in the United Kingdom ('UK') or of issuers which derive a substantial part of their revenues from the UK.
- Portfolio's investments will primarily be in mid and large capitalisation companies.
- The Fund aims to deliver absolute returns in any market conditions on a rolling 12 month time frame.
- Debt securities may be issued by any government, company or international agency and are not subject to a minimum rating requirement.
- The Fund may invest in issuers and markets outside the UK and in other asset classes and other funds. These assets include, but are not limited to, foreign currency, debt and interest rate related securities. The Fund may increase its holdings in cash and other liquid assets in times of market turbulence.
- The Fund will pursue a 'long-short strategy' whereby, in addition to buying and holding assets, it may use financial derivative instruments (ie instruments whose prices are dependent on one or more underlying assets, 'FDI') extensively to achieve its investment objectives or to take 'short' positions where the Fund may benefit from a fall in value of the underlying asset.
- Benchmarks. The Fund is actively managed; no benchmark is used as a universe for selection or for performance comparison purposes.
- The Fund may actively use FDI to achieve the investment objective, for hedging a given investment or against anticipated movements in a market or other sector or where it is more cost effective than directly holding the underlying asset. The use of FDI may multiply the gains or losses made by the Fund on a given investment or on its investments generally.
- FDI may allow the Fund to obtain market exposure in excess of the value of the Fund's assets (leverage).
- The extensive use of FDI, and the fact that FDI may only require a small upfront payment, may mean the Fund is consistently required to hold a substantial portion of its assets in bank deposits and other money market securities.
- Any income earned on investments will be added to the value of investors' shares and investors can buy and sell their shares on each dealing day of the Fund.

Risk and reward profile

- The lowest category does not mean 'risk free'.
- The risk and reward profile is not guaranteed and may change over time.
- Historical data may not be a reliable indication for the future.
- The risk category for this share class is 5 as funds of this nature engage in strategies that typically have a moderate to high volatility. The calculation is based on the historical volatility of the Fund's performance. Where there is insufficient Fund performance the calculation is based on either the historical volatility of a relevant benchmark for the investment strategy or the manager's Value at Risk limit for the Fund. Please refer to the prospectus for further information relating to the Value at Risk.

The following risks may not be fully captured by the risk and reward profile:

- The Fund will be exposed to credit risk on counterparties with which it trades in relation to on-exchange traded instruments such as futures and options and where applicable, 'over-the-counter' ('OTC', 'non-exchange') transactions. OTC instruments may also be less liquid and are not afforded the same protections that may apply to participants trading instruments on an organised exchange.

- The Fund will invest FDI to achieve its investment objective. The use of FDI involves additional risks such as high sensitivity to price movements of the asset on which it is based. The extensive use of FDI may significantly multiply the gains or losses.
- The Fund's use of FDI may result in increased leverage which may lead to significant losses
- Liquidity characteristics of non-exchange listed investments can be irregular, and may result in higher than anticipated costs to liquidate the investment.
- The Fund is a specialist country specific fund which, as a result, may carry greater risk than a more internationally diversified portfolio.
- The value of investments designated in another currency may rise and fall due to exchange rate fluctuations. Adverse movements in currency exchange rates may result in a decrease in return and a loss of capital. It may not be possible or practicable to successfully hedge against the currency risk exposure in all circumstances.
- The Fund is subject to normal market fluctuations and the risks associated with investing in international securities markets and therefore the value of your investment and the income from it may rise as well as fall and you may not get back the amount originally invested.
- Whilst the Fund aims to deliver absolute returns over 12 months this is not guaranteed over any time period.
- There is no guarantee that the Fund will achieve its investment objective.

A complete description of risks is set out in the prospectus section entitled 'Certain Investment Risks'.

Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest

Entry charge	None
Exit charge	None

This is the maximum that might be taken out of your money before it is invested / before the proceeds of your investment are paid out.

Charges taken from the fund over a year

Ongoing charges	1.13%
------------------------	-------

Charges taken from the fund under certain specific conditions

Performance fee	20.00% of the aggregate appreciation in value above Adjusted SONIA. The performance fee last year represents 20.00% of the aggregate appreciation in value above the previous fund benchmark, i.e. 3 month LIBOR – GBP. Actual last year fee charged: 1.99%
------------------------	---

The entry and exit charges shown are maximum figures and in some cases you might pay less. Please refer to your financial advisor or the distributor for the actual charges.

The ongoing charges figure is based on expenses for the year ending 31/12/2021.

This figure may vary from year to year. It excludes performance fees (where applicable) and portfolio transaction costs, except in the case of an entry/exit charge paid by the Fund when buying or selling units in another sub-fund.

For detailed information on charges and fees please see the 'Fees and Expenses' section of the prospectus.

"Adjusted SONIA" refers to the Sterling Overnight Index Average rate (SONIA) administered by the Bank of England, to which a term adjustment (SONIA observed over a 3 month period and compounded in arrears daily during that period), and the additional "0.1193%" representing the industry fallback spread relating to 3-month GBP LIBOR, is applied.

Past performance

- The Fund was authorised in 2010. This share class was launched on 29 February 2016.
- The past performance chart shows the annual performance, calculated in GBP, for each full calendar year since launch.
- The performance in this table includes all fees and expenses, excluding any entry charges, and shows percentage year-on-year changes in Fund value.
- Please be aware that past performance is not a reliable indicator of, or guide to, future performance.
- Please note effective 1st January 2022 the fund benchmark changed from 3 month LIBOR – GBP to Adjusted SONIA.
- The Fund is not an index-tracker and does not seek to track the benchmark shown in the past performance chart. The benchmark performance data is shown for performance comparison and performance fee hurdle purposes and is share class specific.
