RISK AND REWARD PROFILE

Lower Risk Higher Risk

Potentially lower return Potentially higher return

The risk level shown reflects the fund's historical volatility, completed where applicable by that of its reference framework. The volatility indicates the extent to which the value of the fund may fluctuate upwards or downwards.

- The indicated category may vary over time.
- The historical data give no indication of a future risk profile.
- The lowest category does not mean "risk-free".
- There is no guarantee or mechanism to protect the capital.

INVESTMENT STRATEGY

Candriam Monétaire SICAV is a sicav (mutual fund) under French law. It invests exclusively in money market instruments and in bonds in the financial and non-financial sectors with a residual maturity of under 24 months. At the time of purchase, the investments must have at least a minimum rating of A2/P2 or equivalent by one of the ratings agencies. Issues are denominated in EUR or currencies from OECD countries. The fund has no currency risk exposure. The fund may use foreign exchange, interest rate and/or credit derivatives for hedging.

The fund is managed actively, with reference to the index mentioned on page 2. For further information about this index and its use, please consult the fund's key investor information document (KIID).
