INCOMETRIC FUND - Dux Mixto Moderado A, EUR

A Sub-Fund of INCOMETRIC FUND, ISIN LU1291747225
This Fund is managed by Adepa Asset Management S.A.

Objectives and Investment Policy

The Investment Objective of the Sub-Fund is to achieve mid-term capital appreciation. The Sub-Fund seeks to accomplish this objective through investing primarily in equity and fixed income mainly issued in OECD countries. The Sub-Fund is actively managed following a geographical as well as sectorial diversification, combined with the presence of circumstantial catalysts undervalued by the markets.

The Sub-Fund is invested in equities and in bonds (including but not limited to convertible bonds, high yield bonds (with a maximum exposure of 10% of the Sub-Fund total net assets), fixed-rate or floating securities, zero-coupon bonds and treasury bonds) with no particular rating, UCIs/UCITS including ETFs, money market instruments issued or dealt on the Eurozone and other international regulated markets and deposits. In any case, the total allocation to other UCIs should not exceed 30% of the Sub-Fund total net assets.

In order to achieve the targeted exposure and in compliance with the Grand Ducal Regulation, the Sub-Fund may use financial derivative instruments traded on a regulated market. In particular, the Sub-Fund may at all time take exposure to derivatives on any eligible underlying, such as equity or bond indices, transferable securities, interest rates and currencies.

In addition, derivative instruments traded on a regulated market and/or over the counter (OTC) can be used in order to hedge the exposure to some equity or fixed income markets as well as eventual foreign currencies to which the Sub-Fund underlying may be denominated. In any case, OTC instruments which may be used will be contracted with first class financial institutions specialized in the respective type of transactions.

At all times, the maximum exposure level to derivatives is capped at 100% of the Sub-Fund net assets.

For treasury purposes the Sub-Fund may also invest in liquid instruments according to the criteria of article 41(1) of the 2010 Law such as (but not limited to) money market instruments and money market funds and bank deposits. The Sub-Fund may hold ancillary liquid assets limited to bank deposits and cash on sight with a maximum of 20% of the net assets of the Sub-Fund in order to cover current or exceptional payments, or for the time necessary to reinvest in eligible assets provided under article 41(1) of the Law of 2010 or for a period of time strictly necessary in case of unfavorable market conditions. Ancillary liquid assets do not include bank deposits, money market instruments, money market funds and other instruments that meet the criteria of article 41(1) of the 2010 Law.

The Sub-Fund is not managed in reference to a benchmark.

The Sub-Fund will capitalise its entire earnings following an income accumulation policy.

The Share Class's currency is EUR. The Sub-Fund's reference currency is EUR.

The aforementioned investment strategy corresponds for the investors with a medium investment risk profile.

This Sub-Fund may not be appropriate for investors who plan to withdraw their money within a three-year period.

The investors are able to redeem their units on a weekly basis.

Risk and Reward Profile

The risk/return indicator shows the correlation between risk and returns. Historical data may not be a reliable indication for the future. The risk category shown is not guaranteed and may shift over time. The lowest category does not mean 'risk free'.

The risk category of the Sub-Fund is 4 and is calculated from historical data or simulated historical data of the underlying securities when the real data is not sufficient. Past performance is not necessarily a reliable indicator of the Sub-Fund's future risk and reward profile.

The following risks may materially impact the Sub-Fund but are not captured by the indicator:

Credit risk: The default of the issuer of a debt instrument held by the Sub-Fund.

Liquidity risk: Securities in the Sub-Fund may be sold below their

valuation due to insufficient liquidity in the market.

Counterparty risk: A counterpart may fail paying the proceeds related to the sale of securities by the Sub-Fund or may fail delivering the securities purchased by the Sub-Fund. A counterpart of the Sub-Fund in an OTC derivative may fail satisfying its obligations towards the Sub-Fund at any event of the OTC derivative agreement.

Operational risk: Failures or delays in operational processes may negatively affect the Sub-Fund.

Derivatives risk: Derivatives may be used to increase, lower or maintain the risk level of the Sub-Fund. The derivative strategy may fail resulting in significant losses for the Sub-Fund.

Currency risk: Exchange rate fluctuations may negatively affect the value of the Sub-Fund's investments.

Event Risk: The overall value of all types of investments may be affected by devaluations, political and governmental interventions in relevant markets or irregular and sudden market fluctuations.

The above mentioned list of risk factors is not exhaustive. Other factors may influence the pricing of the underlying securities and therefore the value of the Sub-Fund's investments.
