

TCW High Yield Sustainable Bond Fund a Sub-Fund of TCW Funds

Class: AU

ISIN: LU1377851610

Management Company: Carne Global Fund Managers (Luxembourg) S.A.

Objective and Investment Policy

The objective of the Sub-Fund is to seek high total return provided by current income and capital appreciation through a sustainable investment framework, including the reduction of the Sub-Fund's carbon intensity relative to high yield market.

The Sub-Fund invests, at least 80% of its assets in high yield bonds of US issuers rated below investment grade or unrated.

The other part of the assets will be invested in investment grade securities.

The Sub-Fund may also invest in securities of varying maturities issued by corporations and governments.

Investments include various types of bonds and other securities, typically corporate bonds, notes, collateralized bond obligations, collateralized debt obligations, mortgage-related and asset-backed securities, bank loans, money-market securities, swaps, futures, municipal securities, options, credit default swaps, private placements and restricted securities. These investments may have interest rates that are fixed, variable or floating.

Other instruments include bonds and money market instruments other than those mentioned above; convertible bonds; equities and equity-linked instruments; units/shares of UCITS and/or other UCIs up to 10% of the net assets; deposits; and MBS and ABS for a maximum of 10% of its net assets and other financial derivative instruments.

The Sub-Fund may invest up to 5% of its assets in defaulted securities, which are securities for which there is a failure by the issuer or the guarantor to make timely payment of principal.

The Sub-Fund is actively managed. An actively managed fund is a fund in which the investment manager makes decisions about how to invest the fund's capital.

Risk and Reward Profile

The shaded area in the table above shows the Class' ranking based on the Synthetic Risk and Reward Indicator. The risk/return indicator suggests the relationship between risk and potential returns when investing in the Sub-Fund.

Historical data, such as is used in calculating the synthetic indicator, may not be a reliable indication of the future risk profile of the Sub-Fund. The risk and reward category shown is not guaranteed to remain unchanged and may shift over time. Category 1 does not mean a risk-free investment.

This Share Class has a ranking of 4, which indicates that there is typically a moderate risk for up and downturns in the net asset value. This ranking is typically used to indicate a level of risk that is greater than other Sub-Funds that invest in assets such as bonds issued by organizations with high credit quality domiciled in developed markets, but less than Sub-Funds that invest in assets such as equity.

The following risks are materially relevant to the Sub-Fund but are not adequately captured by the synthetic indicator and may cause additional loss: "liquidity risk," "credit risk," "counterparty risk," "cross-liability risk," and "operational risk".

- Liquidity risk refers to the possibility that the Sub-Fund may lose money or be prevented from earning capital gains if it cannot sell a security at the time and price that is most beneficial to the Sub-Fund.
- Credit risk refers to the likelihood of the Sub-Fund losing money if an issuer is unable to meet its financial obligations, such as the payment of principal and/or interest on an instrument, or goes bankrupt.
- Counterparty risk refers to the fact that individually negotiated or
