

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

## Nordea 1 – Global Stars Equity Fund, BI-USD Share Class

ISIN-Code: LU0985319804

The fund is managed by Nordea Investment Funds S.A., a company of the group Nordea Bank AB.

### Objectives and investment policy

The sub-fund's objective is to provide shareholders with long-term capital appreciation by investing in global equities.

The sub-fund invests according to the Fundamental Equities Concept: the investment manager determines the fair value of a company by its long term sustainable cash generation. Attractive investment opportunities, arising when securities prices deviate from their fair values, are exploited by investing with a long term investment horizon in companies priced at a discount to fair value. The disciplined investment process is furthermore characterized by rigorous independent research, a high active share and low portfolio turnover.

The sub-fund invests globally and shall invest a minimum of three fourths of its total assets world-wide in equities and equity related securities.

This sub-fund will have particular focus on the companies' ability to comply with international standards for environmental, social and corporate governance and use this actively in the investment process.

In addition to the above, the sub-fund may invest in other transferable securities.

The sub-fund may invest up to 10% of its total assets in China A-Shares via Stock Connect.

The sub-fund may accessarily hold cash.

The sub-fund may invest up to 10% of its total assets in UCITS and/or other open-ended UCIs, including open-ended ETFs.

The sub-fund will be exposed to other currencies than the base currency through investments and/or cash holdings.

The sub-fund may use financial derivative instruments\* to:

- mitigate the negative effects related to a depreciation of the foreign currencies in its portfolio\*\*;
- protect itself against the risks of unfavourable market movements\*\*;
- or replace a direct investment in equity stocks.

\* A financial derivative instrument is a financial contract the value of which depends on the market price of a reference item.

\*\* The sub-fund may decide to partially or completely eliminate those risks.

Nordea's Policy for Responsible Investment aims to create responsible returns throughout environmental, social and governance analysis, norm based screening and active ownership activities.

The sub-fund may take part in a securities lending program.

Any investor may redeem its shares in the sub-fund on demand, on a daily basis. This sub-fund may not be appropriate for investors who plan to withdraw their money within a period of 5 years.

While the sub-fund compares its performance against the MSCI All Country World - Net Return Index, it may freely select the securities where it will invest.

This share class is not distributing dividends. Income from investments is reinvested.

The sub-fund is denominated in USD. Investments in this share class settle as well in USD.

### Risk and reward profile

The indicator measures the risk of price fluctuations in the sub-fund certificates based on the last 5 years volatility and places the sub-fund in category 5. This means that the purchase of units in the sub-fund is connected to **medium risk** of such fluctuations.

Please note that category 1 does not mean a risk free investment.

Historical data, such as is used in calculating the synthetic indicator, may not be a reliable indication of the future risk profile of the UCITS, as the category might change in the future.

Following risks are materially relevant to the UCITS but are not adequately captured by the synthetic indicator and may cause additional loss:

- **Counterparty risk:** A counterpart may fail paying the proceeds related to the sale of securities by the sub-fund or may fail delivering the securities purchased by the sub-fund.
- **Event risk:** Unforeseeable events such as devaluations, political events, etc.
- **Liquidity risk:** Securities in the sub-fund may be sold below their valuation due to insufficient liquidity in the market.
- **Operational risk:** Failures or delays in operational processes may negatively affect the sub-fund.
- **China related risk:** Investments in mainland China may involve a higher risk of financial loss, not least due to related operational and regulatory risks, when compared with countries generally regarded as being more developed.

## Key Investor Information

### Nordea 1 – Global Stars Equity Fund, BI-USD

#### Charges

The charges you pay are used to pay the costs of running the fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

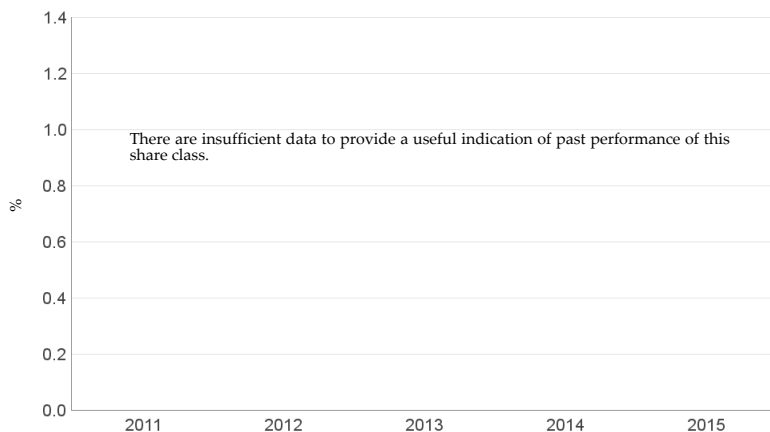

One-off charges taken before or after you invest	
<b>Entry charge</b>	Up to 5.00%
<b>Exit charge</b>	Up to 1.00%
This is the maximum that might be taken out of your money before it is invested / before the proceeds of your investment are paid out.	
Charges taken from the fund over a year	
<b>Ongoing charges</b>	1.06%
Charges taken from the fund under certain specific conditions	
<b>Performance fee</b>	The share class is not subject to any performance fee.

The entry and exit charges shown are maximum figures. In some cases you might pay less – you can find this out from your financial advisor or distributor.

The ongoing charges figure shown here is an estimate of the charges. An estimate is being used because the share class has been in existence for less than a full calendar year. The fund's annual report for each financial year will include detail on the exact charges made. The ongoing charges figure may vary from year to year. It excludes performance related fees and transaction costs including third party brokerage fees and bank charges on securities transactions.

For more information about charges, please see section 17 of the fund's prospectus, which is available at [www.nordea.lu](http://www.nordea.lu).

#### Past performance
