

Key Investor Information

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

Tyrus Capital Investments - Tyrus Capital Global Convertible - Class I (EUR) acc.

(ISIN: LU1286785735) Tyrus Capital Investments -Tyrus Capital Global Convertible (the 'Fund') is a sub-fund of Tyrus Capital Investments (the 'Company').

Lemanik Asset Management S.A. is the management company to the Company (the 'Management Company').

Objectives and Investment Policy

- The investment objective of the Fund is to achieve a long-term capital gain on the capital invested.
- The Fund is actively managed without any reference to a benchmark. The Investment Manager has discretion over the composition of its portfolio subject to this objective and investment policy.
- The Fund will seek to achieve its objective by investing in a diversified portfolio composed of different classes of financial assets, in particular convertible or exchangeable bonds, without any geographical or sector allocation constraints. The Fund aims to promote responsible investing and favours therefore companies with lower greenhouse gas emissions (environment) and this focus is implemented in the investment decision process.
- Money Market Instruments, bank deposits (including cash and cash equivalents) and Investment Grade debt securities (securities with good credit rating suggesting a lower risk of default) will represent at least 50% of the assets of the Fund.
- The Fund can also be invested, either directly or indirectly, in shares and/or other negotiable securities obtained as the result of the conversion of a convertible or exchangeable bond on such asset. The maximum proportion of ordinary shares held by the Fund is 10% of its assets.
- The Fund will not invest in assets rated below B+ or equivalent by a Rating Agency.
- The Fund could also be invested in units of other funds up to 10% of its assets.
- The Fund may use Financial Derivative Instruments. ('FDIs'). The Fund invests in FDIs in order to reduce the possibility of financial losses, to achieve efficient portfolio management and/or for hedging purposes.
- Sale of shares in the Fund can be made on any business day in Luxembourg and in the UK.
- The Share Class does not intend to distribute dividends. Any income arising from the Fund's investments is reinvested and reflected in the value of your shares.
- Recommendation: this Fund may not be appropriate for investors who plan to withdraw their money within three years.

Risk and Reward Profile

Lower risk ← → Higher risk
Potentially lower rewards Potentially higher rewards

- The lowest category does not mean a risk free investment.
- The risk and reward profile may change over time.
- Historical data may not be a reliable indication for the future.
- This class is in category 4, since the share price has a moderate volatility and therefore the risk of loss as well as the expected reward is generally medium.

The following risks may not be adequately captured by the risk and reward indicator:

- Credit risk: The Fund can invest a material part of its assets in bonds. Their issuers can become insolvent, thus their bonds can

either partly or entirely diminish in value.

- Derivative risk: Derivative values can rise and fall at a greater rate than equities and debt instruments. Losses can be greater than the initial investment. This risk is minimised by holding a diverse selection of non derivative investments.
- Equity risk: The risk that investments depreciate because of stock market dynamics.
- Interest risk: Risk that interest rates rise and reduce the market value of an investment.
- Market risk: The Fund's assets may decrease because of sovereign acts and political transformation, which may also influence free trade of currency. In addition, risks may arise because of restricted information possibilities in addition to less stringent supervision and control of certain markets. The performance of these markets may be subject to significant volatility.

A complete description of risk factors is set out in the prospectus in the section entitled 'Risk Factors Annex'.
