#### **GENERAL INFORMATION**

The following information is derived from and should be read in conjunction with the full text and definitions section of the prospectus.

The Principal Global Investors Funds ("the Trust") was constituted on 13 October 1992 as an open-ended umbrella Unit Trust established as an Undertaking for Collective Investment in Transferable Securities ("UCITS") under the laws of Ireland. Units of certain classes of the Trust are listed on Euronext Dublin (formerly the Irish Stock Exchange). The Trust has been authorised in Ireland pursuant to the European Communities (Undertakings for Collective Investments in Transferable Securities) Regulations, 2011, (as amended) and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) (Amendment) Regulations 2019 (the "Central Bank UCITS Regulations").

Units are unhedged, except where otherwise noted.

For the period to 31 March 2020, the Trust comprised of the following Funds:

Fund	Type of Units	Launch Date
Global Equity Fund	A Class Income	4 December 1992

<sup>\*</sup>Fixed Income Fund.

Principal Global Investors (Ireland) Limited (the "Manager") may, with the prior consent of the Central Bank and approval of The Bank of New York Mellon SA/NV, Dublin Branch (the "Depositary") and the Board of Directors of the Manager (the "Directors"), add additional Funds.

The financial statements are published on the <a href="www.principalglobal.com">www.principalglobal.com</a> website. The Directors, together with the Manager and Principal Global Investors, LLC (the "Investment Adviser") are responsible for the maintenance and integrity of the financial information included on this website.

#### **PRICES**

There will be a single price for buying, selling and switching units in each of the Funds. This will be represented by the Net Asset Value ("NAV") per Unit rounded to the nearest cent (less/plus duties and charges where applicable).

#### **DEALING**

The dealing deadline (being the time by which subscription and redemption requests for units must be received in Dublin in order for such requests to be dealt with in normal circumstances on a particular dealing day) is 10.00 a.m. (Irish time) on that dealing day. The dealing deadline for requests from Hong Kong investors is 5.00 p.m. (Hong Kong time) on that dealing day. All dealing requests should be addressed to:

N Class	USD1,000

#### **DISTRIBUTIONS AND DISTRIBUTOR STATUS**

The Trust Deed provides for the Manager to decide to make, and for the Trustee on each distribution date to make, distributions among holders of income units in each of the Funds. It is the intention of the Manager to make distributions to the extent that they are covered by income received from underlying investments. It is also the intention of the Manager that distributions will be declared on 30 September each year or nearest business day for all Income Unit Classes where possible. Quarterly distributions will be payable in respect of the A, I, D, F, N, P and X Income Unit Classes on the Preferred Securities Fund, the A, I and N Income Unit Classes on the High Yield Fund, the A, I and N Income Unit Classes on the Post Global Limited Term High Yield Fund and the A, A2, I, I2, I3, D, F and N Income Unit Classes on the Finisterre Unconstrained Emerging Markets Fixed Income Fund. Monthly distributions will be payable in respect of the D2 Income Unit Classes on the Preferred Securities Fund, High Yield Fund, Global Property Securities Fund, Post Global Limited Term High Yield Fund and Asian High Yield Fund and the D Income Unit Class on the Global Diversified Income fund. There are no D2 Income Unit Classes in issue currently on the Finisterre Unconstrained Emerging Markets Fixed Income Fund. Monthly distributions will also be payable in respect of the N2 Income Unit Class on the Preferred Securities Fund. There are no N2 Income Unit Classes in issue currently.

Upon the expiry of the period of six years after the relevant Distribution Date, the Holder and any person claiming through, under or in trust for him shall forfeit any right to any distribution not paid, and such amount shall become part of the relevant Fund.

#### **GENERAL INFORMATION (continued)**

#### **CORPORATE GOVERNANCE**

The Board of Directors has adopted and applied standards of corporate governance that are consistent with the Irish Funds Code for the period ended 31 March 2020.

#### **CONNECTED PERSONS**

CBI UCITS Regulations, Section 43(1), Restrictions on transactions with connected persons - requires that any transaction carried out with a UCITS by a distributor, manager, trustee, administrator, depositary, investment adviser, sub-adviser and/or associated or group companies of these ("connected persons") must be carried out as if negotiated at arm's length. Transactions must be in the best interests of the Unitholders of the UCITS.

Having regard to confirmations from the Manager's Designated Person for Capital and Financial Management and the Trustee, the Board of Directors is satisfied that there are arrangements (evidenced by written procedures) in place to ensure that the obligations set out in Regulation 43(1) of the Central Bank UCITS Regulations are applied to all transactions with connected persons, and is satisfied that transactions with connected persons entered into during the period complied with these obligations.

None of the Directors had any interests in the units of the funds for the period from 1 October 2019 – 31 March 2020.

- New supplement was issued for the Global Equity Fund on 16 March 2020.
- New Prospectus were issued on 19 December 2019. Significant updates included:
  - > The Manager may issue additional Income Units, Income Plus Units in funds Distribution Policy.
  - > Special Investment Considerations and Risks section updated to include disclosure outlining potential uncertainties resulting from changes in the UK political environment following the UK's decision to exit from the EU.
  - > Hong Kong applicants may submit requests directly to the Administrator on public holidays in Hong Kong.
  - Kamal Bhatia was appointed as non-executive director and chair of the Principal Global Investors (Ireland) Limited Board on 3 December 2019.
  - The definition of "Income Plus Units" has the meaning attributed to it in the Trust Deed.

#### **Other Events**

- Effective 1 December 2019, BNY Mellon Trust Company (Ireland) Limited merged into The Bank of New York Mellon SA/NV, Dublin Branch, which itself is a wholly owned subsidiary of The Bank of New York Mellon (the "Merger"). Following the Merger, The Bank of New York Mellon SA/NV, Dublin Branch, will be the entity, which will provide trustee, depositary and/or custody services to the Company.
- Global Income Fund name changed to Global Diversified Income Fund on 17 January 2020.
- The UK left the EU on 31 January 2020, an event commonly known as Brexit. At the date of this report discussions
  remain ongoing as to the precise nature of the future relationship between the UK and EU27. The Board does not
  believe that Brexit will present significant issues that cannot be mitigated.

The Company is part of a global group and has been committed for many years to meeting clients needs across Europe in both EU and non-EU countries. The change in the UK's status from and EU to an non-EU country will not change the Group's focus or commitment to serve its clients across Europe. The Company continues to monitor developments closely.

#### **GENERAL INFORMATION (continued)**

#### SIGNIFICANT EVENTS DURING THE PERIOD (continued)

#### Other Events (continued)

• World Health Organisation ("WHO") has recently declared Covid -19 a pandemic. This could have a material effect on the Company's assets given the uncertain impact this may have on many sectors of the financial economy. The subsequent spread of the virus and its identification as the Covid-19 pandemic by the WHO does not provide additional evidence about the situation that existed at 31 March 2020, and it is therefore a non-adjusting event.

Since the start of January 2020, global financial markets have been monitoring and reacting to the novel coronavirus (2019- nCoV) that is believed to have originated in Wuhan, China. As of 2 April 2020, the virus has affected an estimated 960,000 people globally. While containment efforts have helped to slow the growth of the virus in mainland China, in late February 2020, global financial markets reacted sharply to the news that the virus continued to spread into South Korea, Italy and Iran, as well as concerns regarding the economic impact this may have on a global scale. Factories around the world are grappling with parts shortages as their Chinese suppliers struggle to resume normal operations. China's leaders postponed the biggest event on their political calendar, the National People's Congress, as a consequence of the country's battle against the virus, which has hampered the domestic economy. Investors should be aware of the market price risk and liquidity risk presented by this global pandemic. The Manager continues to monitor this situation closely. While the full impact is not yet known, COVID 19 may have a significant adverse impact on the value of a Fund's underlying investments as a result of continued market volatility and a period of economic decline globally which may also increase the risk of insolvencies of issuers of a Fund's underlying investments. There is the risk that an entity will encounter difficulty in meeting obligations associated with financial liabilities. The Funds' market price risk and liquidity risk is managed by the Investment Manager in accordance with policies and procedures in place. The Investment Manager will normally keep an allocation of cash to meet pending liabilities that may arise from time to time. The Funds' expected cash flows on these instruments do not vary significantly from this analysis, except for net assets attributable to holders of redeemable participating shares. Typically, shares are held by unitholders on a medium- or long-term basis. During extreme or unusual market conditions, as outlined in the prospectus, the Manager may place restrictions on redemptions such as by extending settlement, gating daily redemption to 10% or suspending redemptions.

There have been no other significant events affecting the Funds during the period ended.

#### SIGNIFICANT EVENTS AFTER THE PERIOD END

#### **Prospectus & Supplement changes**

 A New supplement was issued for the Finisterre VAG Unconstrained EM Fixed Income Fund on 17 April 2020, in advance of the launch of the fund on 29 April 2020.

There were no other significant events after the period end.

#### **INVESTMENT ADVISER'S REPORT**

#### for the period ended 31 March 2020

#### **Global Equity Fund**

For the six-month period ending 31 March 2020, the Global Equity Fund reported a net performance of -13.15%.

From a sector perspective, stock selection in communication services was strong. As the world faces "social distancing" driven by the global pandemic of COVID-19, video games are a natural beneficiary of greater engagement given increased time spent at home. We saw this in total returns leading to outperformance in communication services. This was led by gaming-related holdings of Nintendo, Tencent, Take-Two Interactive, and Capcom.

Weakness in the industrials sector was led by airline-related holdings of CAE and AerCap. Aircraft leasing company, AerCap Holdings, and flight training company, CAE, were pressured due to airline industry cash flow declines from COVID-19. This has led to travel restrictions and sharp capacity reductions.

As the world faces "social distancing," driven by the global COVID-19 pandemic, video games are a natural beneficiary of greater engagement given increased time spent at home. As a result, the portfolio purchased Capcom with increased earnings upside also being driven by the company pivoting its video game publishing revenues away from one-time sales tethered to cyclical console launches and towards more predictable / recurring streams, regardless of console cycle schedules. We also own Take-Two Interactive Software and Nintendo. With corporations being forced to have their employees work remotely, a surge in demand is expected to continue for Citrix Systems which provides workspace, networking, and professional services worldwide. Given the fundamental change taking place, the portfolio recently purchased Citrix.

For energy, we believe downside risk remains given demand destruction, bankruptcy risks and likelihood of a reduction in shareholder returns. Within financials, the historically low interest rate environment is putting further pressure on net interest margins and provisions are likely to rise given the current growth set up, while asset qualities are also set to deteriorate.

Given increased uncertainty, including global virus impact and geopolitical issues, and except for the fact that earnings guidance will be cut broadly on a lower global growth projection, we have taken a measured approach and trimmed active weights in companies where we've reduced our earnings forecasts but valuations have not fully adjusted. We continue to assess our holdings balance sheets and scenario analysis of earnings forecasts, particularly as credit markets remain strained, and likely to last longer than expected. Based on this, we are acting accordingly. Notably, the portfolio's cash position was increased given increased market volatility and uncertainty. We will re-invest, as we re-assess company-specific fundamental outlooks, in a combination of existing positions and new ideas from our analyst team where they have identified sustainable fundamental change at discounted valuations.

#### **European Equity Fund**

For the six-month period ending 31 March 2020, the PGIF European Equity Fund reported net performance of -13.90%.

Strong stock selection was witnessed in the health care sector while Switzerland and Spain were top performers from a country perspective.

Sartorius Stedim Biotech was a strong contributor during the period, rising 22% after announcing the acquisition of select Life Science businesses from Danaher. Coloplast rose 17%, coming off of a solid set of results including 8% organic growth year-over-year, while Lonza Group rose 14% after announcing strong fourth quarter results and a credible path to achieving 2023 mid-term targets.

On the other hand, negative attribution was seen in the United Kingdom and the consumer discretionary and industrials sectors. U.K.-based International Consolidated Airlines was a top detractor during the period, falling 67% on COVID-19 travel restrictions and capacity reductions. Vistry Group, the U.K. homebuilder, fell 60% after concerns surrounding COVID-19 risks and suspending its May dividend. National Express Group fell 59% during the period but has a strong acquisition pipeline, with their most recent U.S. acquisition reporting revenues +30%.

The longest running equity bull market abruptly came to an end in March as negative ramifications from the COVID-19 global pandemic as well as a failed OPEC+ production deal reverberated across the world; a swift market correction ensued.

The longest running equity bull market abruptly came to an end in March as negative ramifications from the COVID-19 global pandemic as well as a failed OPEC+ production deal reverberated across the world; a swift market correction ensued.

#### **INVESTMENT ADVISER'S REPORT**

#### for the period ended 31 March 2020 (continued)

#### **European Equity Fund (continued)**

No sector or geography has been spared, but the hardest hit areas include: 1) those most impacted by falling travel and tourism (hotels, restaurants & leisure, transportation), 2) those with heavy commodity influence (the energy sector, Canada and Australia); 3) those impacted by supply-chain disruptions (semiconductors and some industrials); and 4) the financial sector hit by credit concerns and falling rates. Lastly, large caps held up better than its smaller cap brethren amid balance sheet concerns with an impending global recession on the horizon.

The combination of COVID-19 spreading across the globe, the oil price collapse of over 50% in the full period, and uneven policy responses are driving markets substantially down and volatility up. It now seems clear that the 2020 positive earnings outlook that was market consensus not that long ago has now given way to high likelihood of a global recession. The unforeseen events of a simultaneous pandemic and oil price shock, both considered black swans, are causing significant growth and earnings estimates cuts. Interest rates hover around historically low levels and central banks implement seemingly daily unconventional monetary measures.

The collapse in economic activity associated with the virus has caused certain aspects of market action to resemble the 2008 financial crisis and 2010/2011 Eurozone crisis. U.S. dollar funding markets are stressed as those who borrow in USD scramble to secure them. Italian bond spreads have risen as the market once again questions the commitment of European authorities to do what it takes to hold the Eurozone together.

As noted above, equity returns abruptly witnessed a sharp selloff in the latter part of the month culminating in one of the worst's months of equity returns. The S&P 500 dropped by -12.4% while the MSCI EM Index posted a loss of 15.4%. The MSCI Europe Index declined heavily posting a negative return of 14.4% while the MSCI Japan Index fared the best of a bad breed with a loss of 7.0%.

Given increased uncertainty, including global virus impact and geopolitical issues, and except for the fact that earnings guidance will be cut broadly on a lower global growth projection, we have taken a measured approach and trimmed active weights in companies where we've reduced our earnings forecasts but valuations have not fully adjusted.

We continue to assess our holdings balance sheets and scenario analysis of earnings forecasts, particularly as credit markets remain strained, and likely to last longer than expected. Based on this, we are acting accordingly.

Notably, the portfolio's cash position moved higher over the past weeks. We will re-invest, as we re-assess companyspecific fundamental outlooks, in a combination of existing positions and new ideas from our analyst team where they have identified sustainable fundamental change at discounted valuations.

R&D and capex investments into bioprocessing remains elevated as shifting portfolios towards biologics and cell/gene therapies creates demand for bioprocessing equipment (Life Science Tools companies), CDMOs (contract development manufacturing organizations), and CROs (contract research organizations). The portfolio looks to capture the fundamental change taking place in bioprocessing leading to positions in Lonza Group, ICON, Evotec and Merck KGaA.

Regardless of the region, sector, or general market conditions, our bottom-up focus on sustainable earnings trends and valuations relative to expectations remains a constant across the portfolio, and helps rise above the fray of short-term "risk on/risk off" tendencies of many investors during bouts of volatility. As always, our analysts' search for underappreciated fundamental change at attractive valuations continues and, despite the macro noise, is highlighting profitable investment opportunities across sectors and regions.

#### **Preferred Securities Fund**

For the six - month period ending to 31 March 2020, the Preferred Securities Fund reported net performance of -10.47%.

The Fund underperformed over the six-month period. The significant overweight to overweight to junior subordination in financials during an extreme and sudden repricing of credit and duration primarily explains the unerperformance. Spreads in the Fund's allocation widened over 300bps on average during the period.

At the end of the six-month period, the Fund's highest weight by sector is Insurance Hybrids followed by Additional Tier1 of non-US banks (i.e., Cocos) and Legacy Banking Hybrids. The Fund's allocation to CoCos declined 2.7% as a primary source of liquidity during the extreme outflow demands experienced in March. Allocations to senior debt and subordinated debt increased by 2.0% and 2.7%, respectively because spreads in more senior paper became quite compelling by late March.

#### **INVESTMENT ADVISER'S REPORT**

#### for the period ended 31 March 2020 (continued)

#### **Preferred Securities Fund (continued)**

We have no doubt that the U.S. and global economies will prosper again, but the path to prosperity will be burdened as the economic implication of surviving the coronavirus is a plethora of public and private debt – the blessing of survival will leave a higher burden of debt. Interest rates are low now, but low for longer does not mean low forever. We expect a fundamental paradigm shift from globalization to localization, which should be inflationary longer term. The process of resurgent growth (I.e., climbing out of recession) should reduce volatility, and this should bode well for spreads to tighten as the world recovers with monetary & fiscal aid. Uniquely, the preferred and capital securities markets have core structural attributes enabling fixed rates to reset higher if inflation happens and current remarkable spreads to US treasuries (+2.3 standard deviations) provide additional cushion to unprecedented times.

#### **High Yield Fund**

For the six-month period ending 31 March 2020, the High Yield Fund reported net performance of -10.46%

Sector allocation outperformed due to an underweight to energy, and an overweight to media. However, this was slightly offset due to underweights to real estate and banking. Security selection negatively impacted returns due to the underperformance from overweights to Altice France, Travelodge, Hema, Eldorado Resorts, and Navistar. This was somewhat offset by the outperformance from overweights and our positioning within the capital structures of Antero Midstream Partners, Lennar Corp, Buckeye Partners, JBS USA, and Springleaf Finance.

We expect volatility to remain heightened as the market continues to digest the unknown global economic and societal impact of COVID-19. As such, we remain cautiously positioned with cash to deploy if conditions improve. Despite the rapid sell-off and ongoing concerns around COVID-19, the overall long-term fundamental backdrop for high yield is still stable; with extremely accommodative central bank policy, significant government stimulus packages being announced across the globe, lower oil prices providing a boost to both consumers and producers, and a universal demand for yield with rates across the developed world near 0%. We will continue to adhere to our disciplined fundamental investment process and focus on buying issuers with improving fundamentals and limited refinancing needs. We are continually assessing industries from a COVID-19 impact perspective for potential underperformance.

### **Global Property Securities Fund**

For the six-months period ending 31 March 2020, the Global Property Securities Fund reported net performance of -24.06%.

An underweight to retail across the globe, particularly in the U.S., Netherlands, and Australia, had the largest contribution to alpha generation. The sector continues to suffer as COVID-19 social-distancing recommendations keep shoppers at home and due to concerns about tenants' ability to pay rent after forced store closures. On the other hand, the portfolio benefitted from an overweight to the industrial sector globally, particularly in the U.S., U.K., and Australia. The sector acted more defensively as companies benefitted from rising e-commerce distribution. Strong stock selection in U.S. office contributed due to our overweight to Alexandria. Strong credit tenants, long lease duration, and resilience of demand for lab office space from biotech and life sciences sector gives this stock more defensive attributes. Strong stock selection in U.S. healthcare contributed as a result of avoiding Ventas. Its key property segment (senior housing) targets the most vulnerable population to COVID-19 (aged 80+), which creates meaningful headwinds on occupancy and expenses. With the company's dividend not fully covered, it could be at risk, particularly if COVID-19's meaningful impact on move-ins last more than 2-3 months. Stock selection in U.S. data centers was another main contributor, due to an overweight to Equinix. Data center names performed more defensively versus other REIT sectors in this COVID-19 environment. The company also has very solid balance sheet and arguably should see some immediate benefits in (higher margin) interconnection business from distributed network traffic driven by remote working.

Stock selection in Japan REITs was the largest detractor to performance, due to our overweight to Japan Hotel REIT Investment. The company was hit alongside all hotels due to travel restrictions, as well as the market reacting to the postponement of the Tokyo Olympics. Stock selection in U.S. net lease names was another drag to returns, as we were overweight to stocks with heavy exposure to hard-hit movie theater operators under COVID-19 conditions and concerns about tenant credit. Not holding defensive Belgium and Switzerland stocks was another detractor.

The global spread of COVID-19 sparked a selloff in global REITs. Commercial real estate serves the function of bringing people together for social or business interactions, and REITs failed to display their typical defensive characteristics in an environment of government-mandated social distancing. Concern over cashflow pressures on tenants impacted by distancing measures and credit market dislocations from an anticipated spike in bankruptcies pressured the capital-intensive REIT sector.

#### **INVESTMENT ADVISER'S REPORT**

#### for the period ended 31 March 2020 (continued)

#### **Global Property Securities Fund (continue)**

Lower levered stocks with lower volatility meaningfully outperformed, reflecting the risk-off sentiment and concern over balance sheet risk. There was also a clear trend of stocks with lower dividend yields and larger market capitalization outperforming, as investors sought safety in structural growth sectors, such as industrial and data centers. These sectors tend to have higher growth and thus lower yields compared to growth challenged sectors, such as retail.

Many of our favorite stock ideas are these "structural growers", particularly data centers, towers, single-family rental, and industrial. We believe these companies are poised to deliver above average earnings growth over the long term, despite slowing economic trends, as demand for their properties are driven by structural or secular forces in the economy o how society utilizes certain real estate. Our portfolio is tilted away meaningfully from retail REITs globally, and underweight in some of the biggest office markets such as New York and London.

Early indications of stabilizing global leading indicators started to trickle through in the fourth quarter of 2019, especially as relates to global manufacturing PMIs and trade volumes. Unfortunately, the outbreak of the COVID-19 virus is now expected to tip the world into a global recession, the severity and duration of which remains unknown. The global spread of the virus has forced governments to adopt containment measures borrowed from China's playbook, with lockdowns, restrictions on travel inbound travel and social distancing measures implemented to varying degrees, globally. These measures will have significant and far reaching consequences for economic activity, triggering supply chain and cashflow disruptions that may tip many businesses across the brink into insolvency and individuals into unemployment. Fears of a forthcoming wave of bankruptcies have seen credit markets seize up and triggered a raft of forced deleveraging across virtually all asset classes that manifested in a highly correlated selloff towards the end of the quarter. Central banks and governments have responded swiftly with unprecedented monetary and fiscal stimulus. The former draws a leaf from the Global Financial Crisis playbook of 2008 and has helped to assuage strains in credit markets. However, it remains premature to judge the effectiveness of the latter given the lack of visibility on how long the virus outbreak will last.

There is no visibility yet on the economic fallout of this pandemic and how long and deep it will cut into REIT earnings and real estate values. The human tragedy of this crisis must be dealt with first, and it is clear that things will get worse before they get better as containment and testing measures in the U.S. and other large countries have been too slow. We expect to be cautious going forward, wary of negative economic surprises and outbreaks reigniting when social distancing restrictions are lifted. Should they occur we could see further downside in markets, including REITs. That being said, valuations for REIT stocks are significantly depressed by historical standards, trading at approximately 24% discounts to NAV (as of quarter end), but not yet the trough valuations we experienced in early 2009 with approximately 40% discounts to NAV. This may start attracting the attention of investors looking to take advantage of pricing dislocations in public and private real estate markets.

We will continue to evaluate relative valuations given this volatility and search for opportunities in our bottom-up, stock selection focused approach. While we expect volatility to remain elevated in the days ahead, we believe short-term tilts designed to exploit sentiment shifts to be highly speculative and more likely to destroy alpha than generate it, and thus we will be measured in making portfolio changes. Our portfolio positioning remains aligned with our medium to longer term outlook unless large changes in our macro views or relative valuations warrant a more significant shift.

#### Post Global Limited Term High Yield Fund

For the six-month period ending 31 March 2020, the Post Limited Term High Yield Fund reported net performance of 4.18%.

The Fund continued to be positioned in high quality businesses in more stable, defensive sectors including technology/software, cable/satellite, and telecommunications, with limited exposure to energy and commodity related businesses. This focus on quality resulted in good downside protection during the sharp weakness in risk assets in the first quarter 2020.

After positive returns in 4Q 2019, high yield markets experienced sharp weakness in 1Q 2020 driven by COVID-19 becoming a global pandemic, triggering stay-at-home orders around the world and significantly curtailing economic activity. Beginning in February, we reduced exposure in select credits which we believed to be more susceptible from both a fundamental and technical perspective to COVID-19 related weakness. The Fund generated solid risk-adjusted returns, protecting on the downside during the weakness in 1Q 2020. Credit quality remained good, as the Fund continued to be positioned defensively in what we believe are high-quality businesses.

#### **INVESTMENT ADVISER'S REPORT**

#### for the period ended 31 March 2020 (continued)

#### Post Global Limited Term High Yield Fund (continue)

We are focused on identifying those sectors and credits that are both fundamentally insulated, and at lower risk of downgrade. While we believe parts of the market are attractive at current levels, we think it is important to be cautious as the full impact of the outbreak remains difficult to understand and assess. The Fund continues to be defensively positioned, with limited energy exposure, and with lower exposure to the sectors most directly at risk from the COVID-19 outbreak – airlines, gaming, leisure – than at the beginning of 1Q 2020.

We expect to see attractive opportunities in the new issue market, as high quality companies look to shore up their liquidity positions amid an increasingly uncertain environment.

#### **Origin Global Emerging Markets Fund**

For the six- month period ending 31 March 2020, the Origin Global Emerging Markets Fund reported net performance of -10.64%.

The overweight allocation to and stock selection in consumer discretionary contributed to performance, along with stock selection within the materials sector, while information technology

proved the biggest drag. From a country perspective, China proved the standout contributor, while the underweight South Korea detracted marginally.

At the end of the six month period, the Fund's highest overweight by sector remains Information technology, and the positions in consumer discretionary and communication services were increased, mainly at the expense of financials. From a geographical point of view, China still represents the biggest overweight, and the exposure was increased over the period, while Brazil and India were decreased.

Origin will continue to bias our portfolios towards high quality growing companies with reasonable valuations, above market EPS revisions and relative price strength. Braver investors than us will try to time individual markets and sectors but with much increased volatility, we feel that kind of approach is the investing equivalent of a game of Russian roulette. At times like this it is all the more important for us to stay in our lane.

#### **Origin Global Smaller Companies Fund**

For the six month period ending 31 March 2020, the Origin Global Smaller Companies Fund reported net performance of - 22.03%.

The overweight allocation to and stock selection in information technology contributed to performance, along with stock selection within the industrials sector, while utilities proved the biggest drag. Regionally, stock selection within the emerging markets was the standout contributor, while holdings in Japan detracted marginally.

At the end of the six-month period, the Fund's highest overweight by sector remains information technology, and the position was further increased, along with health care and financials, mainly at the expense of communication services. From a geographical point of view, the emerging markets still represent the biggest overweight, although the position was slightly decreased, while North American exposure was increased.

Origin will continue to bias our portfolios towards high quality growing companies with reasonable valuations, above market EPS revisions and relative price strength. Braver investors than us will try to time individual markets and sectors but with much increased volatility, we feel that kind of approach is the investing equivalent of a game of Russian roulette. At times like this it is all the more important for us to stay in our lane.

#### Real Estate Debt Fund (Terminated on 28 November 2019)

For the six -month period ending 31 March 2020 the Real Estate Debt Fund reported net performance of -0.41%.

The Fund was unwound in November and in anticipation of this liquidation event, the Fund's liquidity profile was enhanced in October. While the Fund was successfully liquidated, performance was impacted by transaction costs to a larger degree than typical given the high turnover ratio.

The Real Estate Debt Fund invested primarily in U.S. commercial mortgage-backed securities (CMBS) with an objective of providing attractive long-term risk-adjusted returns.

The fund was formally closed on November 28, 2019.

#### **INVESTMENT ADVISER'S REPORT**

#### for the period ended 31 March 2020 (continued)

#### Global Diversified Income Fund (formerly Global Income Fund)

For the six - month period ending 31 March 2020, the Global Diversified Income Fund reported net performance of -15.04%.

The Fund's overweight to fixed income versus equity aided performance in the risk-off environment. Within fixed income, the security selection within high yield bonds, emerging market debt, and preferred securities detracted from performance for the period, but was partially offset by the Fund's tactical overweight allocation to preferred securities as they outperformed. Within equities, the Fund's security selection within U.S. developed and non-U.S. developed shareholder yield detracted.

Investors began 2020 with high hopes for strengthening global growth, but in early 2020, sentiment changed rapidly and worries quickly turned to COVID-19, which spread through China and then around the globe at an astounding pace, leading to quarantine measures unseen in this post—war period. In turn, earnings forecasts dropped as worry about travel bans, shelter in place orders, and supply and demand shocks (particularly acute in the oil market) weighed on markets. Central banks across the globe cut interest rates and introduced unprecedented fiscal policy injections. In addition, global financial conditions tightened, global cross-asset volatility spiked, and global high yield spreads widened. Overall, global high yield bonds and global value equities markets ended the period negative. A sharp global growth slowdown and continued uncertainty over the timing and impact of the virus on the global economy remains a key risk.

With the current market environment, the Fund has an overweight to fixed income and a corresponding underweight to equities. Within fixed income, we have an overweight to high yield corporates and preferred securities as their income components remain attractive. Additionally, we have a corresponding underweight to emerging market debt. While emerging market securities provide diversification with more rapid growth trajectories at times, their elevated risk profile is less appealing at this time.

### Finisterre Unconstrained Emerging Markets Fixed Income Fund

For the six - month period ending 1 March 2020, the PGIF Finisterre Unconstrained Emerging Markets Fixed Income Fund reported net performance of -6.27%.

Most of our positive contributors were a number of hedging or short positions, which we entered into as the market rebounded in the first week of March. Our short risk position on the CDX EM Index, together with the implementation of 5Y/30Y curve steepening positions on the U.S. Treasury and German bund curves using futures, were our strongest contributors. Switching some of our U.S. T-bill cash positions into long U.S. Treasury 5Y and 10Y positions also helped. Our positioning in Russia was also a strong contributor over the quarter, benefitting from currency and local bond positions as continuing policy loosening and well supported oil prices, during 4Q 2019, continued to boost local duration and the currency. Unsurprisingly our biggest detractors came from our largest positions in hard currency credits held March led by Mexican financials and Pemex, followed by Ukraine and Brazilian corporates.

In late September 2019, we continued to add risk by participating in a number of new issues such as Abu Dhabi, Bahrain, PEMEX as well as investing in higher quality corporates and were rewarded in 4Q2019 as a result. Post year-end, the US-lran hiccup and more importantly the COVID-19 outbreak led us to be more tactical in terms of portfolio structure. In addition to the curve flattener position (2Y/10Y) in Chile, we have also played a local curve steepener (2Y/10Y) in Poland. We have also set up and actively traded several liquid portfolio hedging strategies, from U.S. and German 5/30 rates steepeners, synthetic EMD shorts using TRS on the Hard currency EMD ETF and buying protection with the CDX-EM CDS index. Furthermore, we implemented a long USD position versus a basket of liquid EM currencies which we felt were either fundamentally weaker, or vulnerable to potential equity outflows. Lastly, our exposure to the cash proxy bucket was increased to 36% at March month-end, providing us with plenty of flexibility to potentially reinvest at lower market levels.

We still feel that the need to better price lower global potential growth, upcoming corporate failures in U.S. and EU HY markets, rating and earnings downgrades, a surge in sovereign indebtedness in delevoping markets, together with idiosyncratic risk in emerging markets, should lead to further downward price adjustments in the next few weeks, which we see as a potential last phase in the correction, allowing us to consider adding risk again.

#### **INVESTMENT ADVISER'S REPORT**

#### for the period ended 31 March 2020 (continued)

#### U. S Blue Chip Equity Fund

For the six -month period ending 31 March 2020, the U.S. Blue Chip Equity Fund reported net performance of -5.78%.

Company selection contributed positively to rperformance for the six-month period, led primarily by the Fund's holdings in the consumer discretionary and communication services sectors. Contributors from these sectors included the Fund's largest holding, Amazon, and a position that was more recently added to the portfolio, Charter Communications. Company selection was negative in two sectors, health care and information technology. The Fund's position in Danaher was the largest relative detractor in health care, while the Fund's underweight position in Microsoft was the largest relative detractor in information technology.

The last six months included two very different market environments. From October through mid-February, U.S. equity markets continued to climb as most economic indicators pointed to further expansion and public companies posted solid results. However, that environment ended abruptly in February as it became clearer that COVID-19 would become a global pandemic with dramatic economic consequences. Many indices of U.S. stocks fell more than 30% from their previous highs, before recovering some of those losses near the quarter's finish. The Fund performed in line with expectations, slightly trailing its index during the fourth quarter's buoyant markets and performing better than its index through the first quarter's volatility.

Given our time horizon as long-term, fundamental investors that commonly own shares in companies for several years, we do not have a near-term market outlook. We will continue to seek opportunities to invest in high quality companies that are managed by owner-operators and trade at a discount to our estimate of their intrinsic value.

#### **Asian High Yield Fund**

For the six – month period ending 31 March 2020, the Principal Asia High Yield Fund reported net performance of -12.30%.

Security selection contributed positively to returns due to our underweights in Vedanta Resources and the Sri Lanka sovereign as well as our overweights in Chinese property companies Yango Justice International and Ronshine China and Indonesian companies Towers Bersama and Bumi Serpong Damai. On the other hand, our overweights in China SCE holdings, Zhenro Properties and Fantasia Holdings detracted from performance.

Security selection also contributed positively to relative returns to a smaller extent.

Given the bounce in returns from the lows at end of March, the strategy remains to stay up in quality relative to the index, focus on sector allocations and bottom up credit selection. The fund has an overweight to Chinese real estate sector as onshore markets remained open for these credits as an important source of funding, keeping offshore refinancing risks low. The fund is overall underweight in energy and basic materials as aggregate demand for commodities would take time to recover. We continue to stay underweight in the frontier markets as we see the potential for government balance sheets to be increasingly stretched as governments step up fiscal stimulus.

# PRINCIPAL GLOBAL INVESTORS FUNDS NOTES TO THE INTERIM REPORT AND FINANCIAL STATEMENTS for the period ended 31 March 2020

#### 1. FORMATION

The Principal Global Investors Funds ("the Trust") was constituted under the laws of Ireland by a Trust Deed dated 13 October 1992 as an open-ended umbrella Unit Trust established as an Undertaking for Collective Investment in Transferable Securities ("UCITS"). It is an umbrella Unit Trust in that different classes of units may be issued from time to time by the Manager. Units of certain classes of the Trust are listed on the Euronext Dublin (formerly the Irish Stock Exchange). The Trust has been authorised by the Central Bank of Ireland (the "Central Bank") pursuant to the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations, 2011, (as amended) and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) (Amendment) Regulations 2019 (the "Central Bank UCITS Regulations").

The financial statements have been prepared for the period ended 31 March 2020.

The Funds of the Trust are listed on pages 4 to 7. The Portfolios of Investments are listed on pages 21 to 79.

#### 2. PRINCIPAL ACCOUNTING POLICIES

#### **Accounting Convention and Basis of Accounting**

These condensed interim unaudited financial statements for the period ended 31 March 2020 have been prepared in accordance with accounting standards generally accepted in Ireland ("Irish GAAP") including Financial Reporting Standard ("FRS") 104 - Interim Financial Reporting ("FRS 104"), "The Financial Reporting Standard applicable in the United Kingdom and Republic of Ireland" and the provisions of the UCITS Regulations and the Hong Kong Securities and Futures Commission's Code on Unit Trusts and Mutual Funds. Irish GAAP used in preparing financial statements which present a true and fair view are those standards issued by the Financial Reporting Council ("FRC").

The Trust has availed of the exemption available to open ended investment funds that hold a substantial proportion of highly liquid and fair valued investments under Section 7 "Statement of Cash Flows" of FRS 102, also referenced in section 15(g) of FRS 104 and is not presenting cash flow statements.

The Directors have a reasonable expectation that the Trust has adequate resources to continue in operational existence for the foreseeable future. Accordingly, the report has been prepared on a going concern basis for all Funds in the Trust under the historical cost convention, as modified by the revaluation of financial assets at fair value through profit or loss, except for the Real Estate Debt Fund which has terminated - these have been prepared on a non-going concern basis. The report has been prepared in USD for all Funds. The functional and presentation currency of the Trust is USD.

The format and certain wordings of the financial statements have been adapted from those contained in Irish statute so that, in the opinion of the Directors, they more appropriately reflect the nature of the Trusts business as an investment fund.

The information required by FRS 102, to be included in a single statement of comprehensive income for the reporting period displaying all items of income and expense recognised during the period including those items recognised in determining profit or loss and items of other comprehensive income and a Reconciliation of Movements in Unitholders' Funds are, in the opinion of the Directors, contained in the Statements of Comprehensive Income and the Statements of Movement in Net Assets Attributable to Redeemable Participating Unitholders. In arriving at the results for the year, all amounts in the Statements of Comprehensive Income relate to continuing activities except for the Real Estate Debt Fund which has terminated. In the opinion of the Directors, the financial statements give, in all other respects, the information required by the UCITS Regulations and the Hong Kong Securities and Futures Commission's Code on Unit Trusts and Mutual Funds.

All gains or losses for the period are reflected in the Statements of Comprehensive Income.

The significant accounting policies adopted by the Trust are set out overleaf. These policies have been consistently applied to the financial periods presented unless otherwise stated.

#### Financial Instruments at Fair Value through Profit or Loss

Under FRS 102, in accounting for its financial instruments a reporting entity is required to apply either (a) the full provisions of Section 11 "Basic Financial Instruments" and Section 12 "Other Financial Instruments Issues" of FRS 102, (b) the recognition and measurement provisions of International Accounting Standards ("IAS") 39 "Financial Instruments: Recognition and Measurement" ("IAS 39") and only the disclosure requirements of Sections 11 and 12 of FRS 102; or (c) the recognition and measurement provisions of International Financial Reporting Standards ("IFRS") 9 "Financial Instruments" ("IFRS 9") and the disclosure requirements of Sections 11 and 12. The Trust has elected to apply the recognition and measurement provisions of IAS 39 and the disclosure requirements of Sections 11 and 12.

## PRINCIPAL GLOBAL INVESTORS FUNDS NOTES TO THE INTERIM REPORT AND FINANCIAL STATEMENTS

for the period ended 31 March 2020 (continued)

#### 2. PRINCIPAL ACCOUNTING POLICIES (continued)

#### Financial Instruments at Fair Value through Profit or Loss (continued)

This category has two sub-categories: financial assets and liabilities held for trading, and those designated by the Investment Adviser/Sub-Investment Adviser(s) at fair value through profit or loss at inception. All instruments on the Portfolio of Investments are classified as held at fair value through profit or loss. Subsequent to initial recognition, all instruments classified at fair value through profit or loss are measured at fair value with changes in their fair value recognised in the Statement of Comprehensive Income. Financial assets are derecognised when the rights to receive the cashflow from the investments have expired or the Funds have transferred substantially all of the risks or rewards of ownership.

#### **Accounting for Investments**

Investments are recognised at the trade date at last traded prices. Realised gains or losses on investment disposals are calculated using the average cost method. Realised gains or losses on investment transactions in debt instruments are calculated using the amortised cost method based on the effective interest rate.

#### Valuation of Investments

The period end valuation date was 31 March 2020, the last business day of the interim period. Securities listed on a recognised stock exchange or traded on any other organised market, are valued at the current-price at each valuation point on the stock exchange or market which constitutes the principal market for such securities. If trades are received after the dealing cut-off time they will be accounted for in the next valuation. If for specific assets the current prices do not, in the opinion of the Manager, reflect their fair value or are not available, the price of the most recent transaction provides evidence of the current fair value as long as there has not been a significant change in economic circumstances since the time of the transaction or the Manager may also apply a fair value adjustment where they deem appropriate in order to reflect fair value.

In the case of any security not listed, quoted or dealt on a regulated market or for which no quotation or value is available which would provide a fair valuation, or in respect of which the price is unrepresentative, the fair value of such security is determined on the basis of the probable realisation value and is determined by the Investment Adviser, Sub-Investment Adviser(s), a stockbroker or other competent person appointed by the Investment Adviser and approved for the purpose by the Trustee, using valuation techniques.

#### Futures

A futures contract obligates one party to sell and the other party to purchase a specific instrument for an agreed price at an agreed future date. Futures may be used subject to the conditions and limits laid down by the Central Bank and the Trust Deed and subject to any other restrictions or regulations which may affect the portfolio management of the Funds or the Investment Adviser/Sub-Investment Adviser(s). Certain Funds may buy or sell futures to provide an efficient, liquid and effective method for the management of risks by "locking in" gains and/or protecting against future declines in value. The fair value of open future contracts is calculated as the difference between the contracted rate and the current rate that would close out the contract on the Statement of Financial Position date. Gains or losses on futures are included in the Unrealised Gain/(Loss) on Open Future Contracts on the Statement of Financial Position and are shown in the Portfolio of Investments. When the contract is terminated, the Fund will recognise a realised gain or loss in the Statement of Comprehensive Income equal to the difference between the value of the contract at the time it was entered into and the time it was closed.

#### **Forward Foreign Currency Exchange Contracts**

In a Forward Foreign Currency Exchange Contract, the Fund agrees to receive or deliver a fixed quantity of one currency for another, at a pre-determined price at a future date. The fair value of Forward Foreign Currency Exchange Contracts is calculated as the difference between the contracted rate and the current forward rate that would close out the contract on the Statement of Financial Position date. Gains or losses on Forward Foreign Currency Exchange Contracts are included in the Unrealised Gain/(Loss) on Forward Foreign Currency Exchange Contracts on the Statement of Financial Position and are shown in the Portfolio of Investments. Any realised gains or losses are recognised in the Statement of Comprehensive Income at trade date. The Funds may enter into these contracts to hedge against changes in currency exchange rates. The Forward Foreign Currency Exchange Contracts are used to hedge the currency exposure on individual positions taken by the Funds and to hedge certain non base currency units.

#### **Spot Currency Contracts**

In a Spot Currency Contract the Fund agrees to receive or deliver a fixed quantity of one currency for another, at a predetermined price at a future date (the spot date). This date is typically within three business days of inception of the contract. The fair value of Open Spot Currency Contracts is calculated as the difference between the contracted rate and the current forward rate that would close out the contract on the Statement of Financial Position date. Gains or losses on Spot Currency Contracts are included in the Unrealised Gain/(Loss) on Open Spot Currency Contracts on the Statement of Financial Position and are shown in the Portfolio of Investments. Any realised gains or losses are recognised in the Statement of Comprehensive Income at trade date.

## PRINCIPAL GLOBAL INVESTORS FUNDS NOTES TO THE INTERIM REPORT AND FINANCIAL STATEMENTS for the period and d 24 March 2020 (continued)

for the period ended 31 March 2020 (continued)

#### 2. PRINCIPAL ACCOUNTING POLICIES (continued)

#### **Credit Default Swaps**

A Credit Default Swap is a credit derivative transaction in which two parties enter into an agreement, whereby one party pays the other a fixed periodic coupon for the specified life of the agreement. The other party makes no payments unless a credit event, relating to a predetermined reference asset occurs. If such an event occurs, the party will then make a payment to the first party and the swap will terminate. When the swap terminates any realised gains or losses arising are reflected in the Statement of Comprehensive Income as part of the Net Gain/(Loss) on investment activities. A Credit Default Swap provides the Fund with an alternative to investing in assets themselves for a potentially higher return with the same risk or they may be used to obtain exposure to assets which the Fund could not otherwise acquire due to illiquidity in the relevant market. The Fund recognises the swap when it becomes party to the contract. The Credit Default Swaps are marked to market daily based upon quotations from market makers and recorded in the Statement of Financial Position as Market Value Gain/(Loss) on Swap Contracts.

#### **Interest Rate Swaps**

An Interest Rate Swap is a bilateral agreement in which each of the parties agrees to exchange a series of interest payments for another series of payments (usually fixed/floating) based on a notional amount that serves as a computation basis and that is usually not exchanged. The Interest Rate Swaps are marked to market daily based upon quotations from market makers and recorded in the Statement of Financial Position as Market Value Gain/(Loss) on Swap Contracts. When the swap terminates any gains or losses arising are reflected in the Statement of Comprehensive Income as part of the Net Gain/(Loss) on investment activities.

#### **Total Return Swaps**

A Total Return Swap is a financial contract whereby one party agrees to pay another party the total return of a defined asset in return for receiving a floating rate return. The Trust enters into unfunded swap agreements on behalf of the Fund. Total Return Swaps are marked to market using valuation sources/methods and the fair value is recorded in the Statement of Financial Position as Market Value Gain/(Loss) on Swap Contracts. The change in unrealised gains and losses or any realised gains or losses arising on termination are shown in Net Gain/(Loss) on investment activities in the Statement of Comprehensive Income.

Total Return Swap positions are valued using models which utilise observable data to the extent practicable and contain assumptions on the application of this data. Changes in data inputs and assumptions about these factors could affect the reported fair value of the Total Return Swaps.

#### **Foreign Currency Transactions**

In accordance with Section 30 "Foreign Currency Translation" of FRS 102, items included in the individual Fund's financial statements are measured using the currency of the primary economic environment in which it operates (functional currency). The Fund's selection of the functional currency is attributable to the functional currency being: a) the major component of the Fund's benchmark and b) the common proxy for most clients in the Fund's varied client base. The functional currency assessment was completed at a Fund level. The Funds' presentation currencies equated to their respective functional currencies when assessed under FRS 102. The functional currency of each Fund of the Trust is USD.

#### For each Fund:

- (i) Currency gains or losses can arise where there is a difference between the amounts of foreign dividends and interest recorded on the Fund's books and the Fund's functional currency equivalent of the amounts actually received or paid. These gains or losses are included where appropriate in the dividend and interest income figure in the individual Fund's Statement of Comprehensive Income;
- (ii) Currency gains or losses realised on securities purchases and sales transactions are included in Net Gain/(Loss) on investment activities in the individual Fund's Statement of Comprehensive Income;
- (iii) Unrealised currency gains or losses on securities held at year end are included in Net Gain/(Loss) on investment activities in the individual Fund's Statement of Comprehensive Income; and
- (iv) Monetary assets and liabilities denominated in currencies other than the Fund's functional currency are translated at the rate of exchange ruling at the close of business on the Statement of Financial Position date and exchange differences are included in Net Gain/(Loss) on investment activities in the individual Fund's Statement of Comprehensive Income.

## PRINCIPAL GLOBAL INVESTORS FUNDS NOTES TO THE INTERIM REPORT AND FINANCIAL STATEMENTS for the period ended 24 March 2020 (centinged)

for the period ended 31 March 2020 (continued)

#### 2. PRINCIPAL ACCOUNTING POLICIES (continued)

#### **Income from Investments**

Dividends are credited to the Statement of Comprehensive Income on the dates on which the relevant securities are listed as "ex-dividend". Interest income is accounted for daily on an effective yield basis. Income is shown gross of any non-recoverable withholding taxes, which are disclosed separately in the Statement of Comprehensive Income, and net of any tax credits. Realised gains or losses on investment transactions in debt instruments are calculated using the amortised cost method based on the effective interest rate.

#### Net Gain/(Loss) on Investment Activities

In respect of each instrument type classified as Financial Instruments at Fair Value through Profit or Loss, the movement in unrealised gains/(losses) since the prior period end and realised gains/(losses) are included in Net Gain/(Loss) on investment activities in the Statement of Comprehensive Income. Interest earned on fixed income securities such as bonds is included here also. Net Gain/(Loss) on Investment activities includes interest income on fixed interest securities.

#### **Expenses**

Operating expenses are recognised on an accruals basis in the Statement of Comprehensive Income.

#### **Formation Costs**

Formation costs, if any are incurred, will be written off over a five year period as per the dealing valuation.

#### **Anti-Dilution Levy**

The Manager may exercise its discretion to apply an anti-dilution levy in relation to subscriptions and redemptions of units. The levy is a charge for transaction costs that may be deducted from the NAV per Unit of the relevant class to reflect the costs of acquiring or disposing of underlying assets to fund subscriptions or redemptions from the Fund, respectively. The levy is intended to be used to ensure that all investors in the Trust are treated equitably by allocating transaction costs to the investors whose transactions give rise to those costs. For the period ended 31 March 2020, there was anti-dilution levy charged on the following fund: Origin Global Emerging Markets Fund \$161,974. For the year ended 30 September 2019 there were anti-dilution levies charged on the following funds: Origin Global Emerging Markets Fund \$69,014, Origin Global Smaller Companies Fund \$110,668, Global Property Securities Fund \$25,356, Global Equity Fund \$2,669 and Real Estate Debt Fund \$600.

#### Cash at Bank

Cash is valued at amortised cost, which approximates fair value. Cash is held with The Bank of New York Mellon SA/NV, Dublin Branch.

#### Cash Collateral & Pledged Collateral

Cash Collateral provided by the Fund is identified in the Statement of Financial Position as Cash Collateral and is not included as a component of Cash at Bank.

#### Margin Cash Receivable/Payable

Cash Collateral Receivable/Payable to the Trust in relation to the open Futures Contracts and open Swap Contracts is identified in the Statement of Financial Position as Margin Cash Receivable/Payable and is not included as a component of Cash at Bank. Margin Cash Receivable/Payable at 31 March 2020 and 30 September 2019 are detailed as part of Note 4.

#### **Distributions**

The A Income Unit Classes from the Global Equity Fund and European Equity Fund declare and pay annual distributions to Unitholders.

The Preferred Securities Fund declare and pay quarterly distributions to Unitholders holding the A, I, D, F, N, P and X Income Unit Classes.

The High Yield Fund declare and pay quarterly distributions to Unitholders holding the A, I and N Income Unit Class.

The Post Global Limited Term High Yield Fund declare and pay quarterly distributions to Unitholders holding the A, I and N Income Unit Class.

The A, A2, I, I2 and N Income Unit Classes from the Global Property Securities Fund declare and pay annual distributions to Unitholders.

The Real Estate Debt Fund will declare and pay quarterly distribution to Unitholders holding the I Income Unit Class.

The Global Diversified Income Fund declare and pay monthly distributions to Unitholders holding the D Income Unit Class.

# PRINCIPAL GLOBAL INVESTORS FUNDS NOTES TO THE INTERIM REPORT AND FINANCIAL STATEMENTS for the period ended 31 March 2020 (continued)

#### •

#### 2. PRINCIPAL ACCOUNTING POLICIES (continued)

#### **Distributions (continued)**

The Finisterre Unconstrained Emerging Markets Fixed Income Fund declare and pay quarterly distributions to Unitholders holding the A, A2, I, I2, I3, D, F and N Income Unit Class.

The D2 and N2 Income Unit Classes on the Preferred Securities Fund, High Yield Fund, Global Property Securities Fund, Post Global Limited Term High Yield Fund, Global Diversified Income Fund and Asian High Yield Fund declare and pay monthly distributions to Unitholders. There are no D2 Income Unit Classes in issue currently on the Real Estate Debt Fund or the Finisterre Unconstrained Emerging Markets Fixed Income Fund. There are no N2 Income Unit Classes in issue currently on the Preferred Securities Fund or the Global Property Securities Fund.

Upon the expiry of the period of six years after the relevant Distribution Date, the Holder and any person claiming through, under or in trust for him shall forfeit any right to any distribution not paid, and such amount shall become part of the relevant Fund.

Distributions are recorded by each Fund on ex-dividend date in the Statement of Comprehensive Income once approved by the Board.

#### Offsetting

Financial assets and liabilities are offset and the net amount reported in the Statement of Financial Position when there is a legally enforceable right to set-off the recognised amounts and there is an intention to settle on a net basis, or minimise the assets and settle the liability simultaneously. No offsetting has taken place during the period ended 31 March 2020 and financial year ended 30 September 2019.

#### **Participating Units**

All participating units issued by the Funds provide the investors the right to acquire redemptions for cash at the value proportionate to the investor's share in the Fund's net assets at the redemption date. Such instruments give rise to a financial liability for the present value of the redemption amount. In accordance with the issued prospectus the Funds are contractually obliged to redeem units at the traded Net Asset Value per unit which is calculated at each valuation point.

#### TAXATION

Under current law and practice the Trust qualifies as an investment undertaking as defined in Section 739B of the Taxes Consolidation Act, 1997, as amended. On that basis, it is not chargeable to Irish tax on its income or gains.

However, Irish tax may arise on the happening of a "chargeable event". A chargeable event includes any distribution payments to Unitholders, any encashment, redemption, cancellation, repurchase or transfer of units and any deemed disposals of units as described below for Irish tax purposes arising as a result of holding units in the Trust for a period of eight years or more. Where a chargeable event occurs, the Trust is required to account for the Irish tax thereon.

No Irish tax will arise on the Trust in respect of chargeable events in respect of:

- (i) a Unitholder who is neither Irish resident nor ordinarily resident in Ireland for tax purposes, at the time of the chargeable event, provided appropriate valid declarations in accordance with the provisions of the Taxes Consolidation Act, 1997, as amended, are held by the Trust or the Trust has been authorised by the Irish Revenue to make gross payments in the absence of appropriate declarations; and
- (ii) certain exempted Irish tax resident Unitholders who have provided the Trust with the necessary signed statutory declarations.

Dividends, interest and capital gains (if any) received on investments made by the Trust may be subject to taxes imposed by the country from which the investment income/gains are received and such taxes may not be recoverable by the Trust or its Unitholders.

#### **Redeeming Units**

When a redemption request has been submitted by a Unitholder who is or is deemed to be an Irish resident, or is acting on behalf of an Irish resident, the Manager shall deduct from the redemption proceeds an amount which is equal to the tax payable by the Unit Trust to the Revenue Commissioners in Ireland in respect of the relevant transaction.

### 7. SIGNIFICANT CONTRACTS AND TRANSACTIONS WITH RELATED PARTIES

#### **Management Fee**

Pursuant to the Trust Deed dated 13 October 1992, Principal Global Investors (Ireland) Limited ("the Manager") acts as Manager to the Trust and is responsible for its management and administration. For services rendered, the Trust will pay to the Manager an annual fee, accrued daily in the unit price and payable monthly in arrears. The Management Fee is currently calculated as a percentage of the NAV of each Fund and is accrued every Business Day. These related party transactions have been entered into in the ordinary course of business. The Management Fee expense is shown in the Statement of Comprehensive Income and the accrued amount is shown in the Statement of Financial Position. Management Fee rates for each unit class are listed in the supplement for each Fund. These are available from the www.principalglobal.com website.

### **Expense Cap**

The Manager, at its discretion, may absorb (directly by waiving a portion of its fees or by reimbursement to the account of each Fund), certain additional fees, costs or expenses for each Fund that may arise in respect of the management and operation of the Trust attributable to each Fund. This Expense Cap fee is shown as Rebate/Recharge to the Fund due to capping in the Statement of Comprehensive Income and the accrual/prepaid amount is shown as part of Other Assets or Other Payables in the Statement of Financial Position.

### **Administration Fee**

In addition to the Management Fee, the Trust Deed permits the Manager to charge an Administration Fee of up to 0.15% per annum of the value of the units in the Funds for administering the Trust. Currently the Manager only charges this fee on the NAV of the Funds attributable to A, A2, D, D2, F, F2, N, N2 and P Class units. This fee is calculated as a percentage of the NAV of each Fund attributable to A, A2, D, D2, F, F2, N, N2 and P units and is accrued every Business Day. The total accrued amount is paid monthly in arrears. All fees and expenses payable to the Administrator in respect of the administration services it provides to the Manager will be met by the Manager. Administration Fee expense is shown in the Statement of Comprehensive Income and the accrued amount is shown in the Statement of Financial Position.

#### **Trustee and Depositary fee**

The Manager appointed The Bank of New York Mellon SA/NV, Dublin Branch to act as the Trustee to the Trust. The principal activity of the Trustee is to act as the Depositary and Trustee of the assets of collective investment schemes ("CISs"). The Trustee may retain for its own use out of each Fund a fee of up to 0.022% per annum of the NAV of the units calculated on each Business Day during the month, accrued and deducted from the Fund the following month - subject to a minimum fee of US\$15,000 per annum which may be waived. The fee currently charged by the Trustee per Fund is disclosed in the relevant supplement for each Fund. The Trustee Fee expense is shown in the Statement of Comprehensive Income and the accrued amount is shown in the Statement of Financial Position.

## **Directors' Remuneration**

Mr. David Shubotham, Mr. John O'Connell, Ms. Bronwyn Wright and Mr. Jim Firn are independent non-executive Directors of the Manager and have no executive function with the Investment Adviser or its related party companies. The Manager pays each independent non-executive Director an annual fee of €25,000 for their services rendered to the Trust. Mr. Kamal Bhatia, Mr. Greg Thornton and Mr. Roberto Walker are related parties to the Investment Adviser and receive no compensation from the Trust.

### **Sub-Custody Fee**

The Depositary will be paid a fee at normal commercial rates and such fee shall be paid out of the Fund. The level of Sub-Custodian Fees and expenses will vary depending on the investment profile of the Fund including, in particular, the nature of the securities markets in which the Fund invests, the size of the Fund and the amount of trading in the assets of the Fund. Such fees will be charged at normal commercial rates and will only be reimbursed from a Fund where they are less than 0.50% per annum of the NAV of the Fund. The Manager will pay any fees that exceed this level. Depositary Fee expense is shown in the Statement of Comprehensive Income and the accrued amount is shown in the Statement of Financial Position.

### **Performance Fees**

There are no performance fees payable on any of the Funds for the period ended 31 March 2020 or for the year ended 30 September 2019.

### **Audit Fees**

The audit fee charged for the period ended 31 March 2020 was \$92,028 excluding VAT (31 March 2019: \$91,141 excluding VAT).

#### 9. EFFICIENT PORTFOLIO MANAGEMENT

The Funds are denominated in USD but purchase assets denominated in a range of currencies. During the period, transactions were entered into which are economically appropriate to the reduction of relevant risks or costs to improve investment performance.

Subject to the conditions and within the limits from time to time laid down by the Central Bank, and except as otherwise stated in the investment objective and policies of a Fund, the Investment Adviser and/or Sub-Investment Adviser(s) may employ, for certain Funds, investment techniques and instruments such as futures, forward foreign currency exchange contracts, currency swaps, credit default swaps, total return swaps, options, equity options, warrants and other derivatives for Efficient Portfolio Management ("EPM") purposes if deemed advisable by the Investment Adviser/Sub-Investment Adviser(s). Furthermore, new techniques and instruments may be developed which may be suitable for use by a Fund in the future, and a Fund may employ such techniques and instruments subject to the prior approval of, and any restrictions imposed by, the Central Bank.

For UCITS which have engaged in EPM techniques, certain disclosures are required under Chapter 4 of the Central Bank UCITS Regulations. The Investment Advisers of the Funds have identified all Financial Derivative Instruments (FDIs) which are used for EPM. A UCITS is required to disclose the revenues arising from EPM techniques for the entire reporting period together with the direct and indirect operational costs and fees incurred.

The Funds may also where indicated in the relevant supplement, enter into repurchase, reverse repurchase, sale and buyback agreements and stock lending agreements. The Investment Adviser/Sub-Investment Adviser(s) considers only repurchase agreements, reverse repurchase agreements and securities lending to be EPM techniques. None of the Funds held repurchase agreements, reverse repurchase agreements or took part in securities lending as at 31 March 2020 or at 30 September 2019.

Details of all open transactions at the period end are disclosed in the Portfolios of Investments.

#### 10. DEALING COMMISSION ARRANGEMENTS

The Investment Adviser appointed in relation to each Fund is responsible for the selection of brokers with whom they deal. In relation to certain equity funds, the Investment Adviser/Sub-Investment Adviser(s) have entered into dealing commission arrangements with brokers whereby they obtain services or benefits from them, or from third parties – which are paid for out of commissions charged to the Funds. Such services or benefits relate primarily to research and portfolio management, and ensuring their purchase is compliant with relevant local regulation; including being a permitted service. The relevant Investment Adviser/Sub Investment Adviser(s) are satisfied that trades generating soft commissions comply with the relevant local regulations requiring best execution – which requires consideration of relevant factors, including price and execution quality.

### 11. FINANCIAL RISK MANAGEMENT

#### Financial Assets at Fair Value through Profit or Loss

Under FRS 102, the Trust is required to classify fair value measurement using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

- Level 1: The unadjusted quoted price in an active market for identical assets or liabilities that the entity can access at the measurement date.
- Level 2: Inputs other than quoted prices included within Level 1 that are observable (i.e. developed using market data) for the asset or liability, either directly or indirectly.
- Level 3: Inputs are unobservable (i.e. for which market data is unavailable) for the asset or liability.

### 11. FINANCIAL RISK MANAGEMENT (continued)

### Financial Assets at Fair Value through Profit or Loss (continued)

The level in the fair value hierarchy within which the fair value measurement is categorised in its entirety is determined on the basis of the lowest level input that is significant to the fair value measurement in its entirety. For this purpose, the significance of an input is assessed against the fair value measurement in its entirety. If a fair value measurement uses observable inputs that require significant adjustment based on unobservable inputs, that measurement is a level 3 measurement. Assessing the significance of a particular input to the fair value measurement in its entirety requires judgement, considering factors specific to the asset or liability.

"FRS 102 - Fair value hierarchy disclosures" require disclosure of financial instruments held at fair value on the basis of a fair value hierarchy consistent with EU-adopted IFRS based on Level 1, 2 and 3 classifications. The financial statements and comparatives have been prepared in accordance with these amendments and fair value measurement is categorised based on Levels 1, 2 and 3.

The fair value of securities held in Level 3 for the period ended 31 March 2020 was USD 23,688 (30 September 2019: 24,389). Securities fair valued at nil have been indicated by a footnote on any relevant funds in the following tables. As at 31 March 2020, the Asian Equity Fund held 266,000 shares of Peace Mark Holdings Ltd which was fair valued at nil (30 September 2019: nil).

The following tables analyse the financial assets of each Fund against the fair value hierarchy and measures them at fair value for 31 March 2020 and 30 September 2019 in accordance with FRS 102.

#### As at 31 March 2020

### 13. GLOBAL EXPOSURE

Investment Adviser/Sub-Investment Adviser(s) employs a documented Risk Management Process in relation to the use of FDIs, which ensures the risk associated with the positions is measured, monitored and managed. In respect of the Finisterre Unconstrained Emerging Markets Fixed Income Fund; an Absolute VaR Approach, based on a confidence level of 99% for a daily horizon and considering at least two years of historical data is used to manage risk. In relation to the remaining Funds, the Commitment approach is used; which entails monitoring global exposure and counterparty exposure associated with the positions.

#### 15. SIGNIFICANT EVENTS DURING THE PERIOD (continued)

### **Prospectus & Supplement changes**

- New supplement was issued for the European Equity Fund on 19 December 2019.
- New supplement was issued for the Preferred Securities Fund on 19 December 2019.
- New supplement was issued for the Global Property Securities Fund on 19 December 2019.
- New supplement was issued for the Post Global Limited Term High Yield Fund on 19 December 2019.
- New supplement was issued for the Origin Global Emerging Markets Fund on 19 December 2019.
- New supplement was issued for the Origin Global Smaller Companies Fund on 19 December 2019.
- New supplement was issued for the U.S Blue Chip Equity Fund on 19 December 2019.
- New supplement was issued for the European Equity Fund on 19 December 2019.
- New supplement was issued for the Asian High Yield Fund on 3 January 2020.
- New supplement was issued for the Global Diversified Income Fund on 17 January 2020.
- New supplement was issued for the High Yield Fund on 7 February 2020.
- New supplement was issued for the Finisterre Unconstrained Emerging Markets Fixed Income Fund on 7 February 2020.
- New supplement was issued for the Global Equity Fund on 16 March 2020.
- New Prospectus were issued on 19 December 2019. Significant updates included:
  - > The Manager may issue additional Income Units, Income Plus Units in funds Distribution Policy.
  - Special Investment Considerations and Risks section updated to include disclosure outlining potential uncertainties resulting from changes in the UK political environment following the UK's decision to exit from the EU
  - Hong Kong applicants may submit requests directly to the Administrator on public holidays in Hong Kong.
  - > Kamal Bhatia was appointed as non-executive director and chair of the Principal Global Investors (Ireland) Limited Board on 3 December 2019.
  - > The definition of "Income Plus Units" has the meaning attributed to it in the Trust Deed.

### **Other Events**

- Effective 1 December 2019, BNY Mellon Trust Company (Ireland) Limited merged into The Bank of New York Mellon SA/NV, Dublin Branch, which itself is a wholly owned subsidiary of The Bank of New York Mellon (the "Merger"). Following the Merger, The Bank of New York Mellon SA/NV, Dublin Branch, will be the entity, which will provide trustee, depositary and/or custody services to the Company.
- Global Income Fund name changed to Global Diversified Income Fund on 17 January 2020.
- The UK left the EU on 31 January 2020, an event commonly known as Brexit. At the date of this report discussions remain ongoing as to the precise nature of the future relationship between the UK and EU27. The Board does not believe that Brexit will present significant issues that cannot be mitigated.

The Company is part of a global group and has been committed for many years to meeting clients needs across Europe in both EU and non-EU countries. The change in the UK's status from and EU to an non-EU country will not change the Group's focus or commitment to serve its clients across Europe. The Company continues to monitor developments closely.

#### 15. SIGNIFICANT EVENTS DURING THE PERIOD (continued)

### Other Events (continued)

World Health Organisation ("WHO") has recently declared Covid -19 a pandemic. This could have a material effect on
the Company's assets given the uncertain impact this may have on many sectors of the financial economy. The
subsequent spread of the virus and its identification as the Covid-19 pandemic by the WHO does not provide additional
evidence about the situation that existed at 31 March 2020, and it is therefore a non-adjusting event.

Since the start of January 2020, global financial markets have been monitoring and reacting to the novel coronavirus (2019- nCoV) that is believed to have originated in Wuhan, China. As of 2 April 2020, the virus has affected an estimated 960,000 people globally. While containment efforts have helped to slow the growth of the virus in mainland China, in late February 2020, global financial markets reacted sharply to the news that the virus continued to spread into South Korea, Italy and Iran, as well as concerns regarding the economic impact this may have on a global scale. Factories around the world are grappling with parts shortages as their Chinese suppliers struggle to resume normal operations. China's leaders postponed the biggest event on their political calendar, the National People's Congress, as a consequence of the country's battle against the virus, which has hampered the domestic economy. Investors should be aware of the market price risk and liquidity risk presented by this global pandemic. The Manager continues to monitor this situation closely. While the full impact is not yet known, COVID 19 may have a significant adverse impact on the value of a Fund's underlying investments as a result of continued market volatility, and a period of economic decline globally which may also increase the risk of insolvencies of issuers of a Fund's underlying investments. There is the risk that an entity will encounter difficulty in meeting obligations associated with financial liabilities. The Funds' market price risk and liquidity risk is managed by the Investment Manager in accordance with policies and procedures in place. The Investment Manager will normally keep an allocation of cash to meet pending liabilities that may arise from time to time. The Funds' expected cash flows on these instruments do not vary significantly from this analysis, except for net assets attributable to holders of redeemable participating shares. Typically, shares are held by unitholders on a medium- or long-term basis. During extreme or unusual market conditions, as outlined in the prospectus, the Manager may place restrictions on redemptions such as by extending settlement, gating daily redemption to 10% or suspending redemptions.

There have been no other significant events affecting the Funds during the period ended.

### 16. SIGNIFICANT EVENTS AFTER THE PERIOD END

## **Prospectus & Supplement changes**

• A New supplement was issued for the Finisterre VAG Unconstrained EM Fixed Income Fund on 17 April 2020, in advance of the launch of the fund on 29 April 2020.

There were no other significant events after the period end.

### 17. APPROVAL OF FINANCIAL STATEMENTS

The Financial Statements were approved by the Board of Directors of the Manager on XX XXXX 2020.

Real Estate Debt Fund terminated during the period ended 31 March 2020 therefore no performance has been disclosed of these Fund.

Notes: Fund performance calculated using 10 a.m. EST NAVs

The data is based on the USD I class of each Fund showing the total return over each time period.

Past performance is not indicative of future results.

The information above has been derived from sources believed to be accurate as of 30 September 2020. It contains general information only on investment matters and should not be considered as a comprehensive statement on any matter and should not be relied upon as such. The information it contains does not take account of any investor's investment objectives, particular needs or financial situation. Past performance is not a reliable indicator of future performance and should not be relied upon as a significant basis for an investment decision. Subject to any contrary provisions of applicable law, no company in the Principal Financial Group nor any of their employees or directors gives any warranty of reliability or accuracy nor accepts any responsibility arising in any other way (including by reason of negligence) for errors or omissions in this document. You should consider whether an investment fits your investment objectives, particular needs and financial situation before making any investment decision.

<sup>&</sup>lt;sup>1</sup>Global Income Fund name changed to Global Diversified Income Fund on 17 January 2020.

<sup>&</sup>lt;sup>2</sup>Asian High Yield Fund launched on 8 January 2020.

#### PRINCIPAL GLOBAL INVESTORS FUNDS FUND PERFORMANCE & LEVERAGE

#### for the period ended 31 March 2020 (continued)

#### **LEVERAGE**

The use of derivatives adds leverage to the funds and can increase volatility. Leverage is calculated using the sum of the notionals of the derivatives used by the funds. The levels of leverage are as follows:

As at 31 March 2020

Finisterre Unconstrained Emerging Markets Fixed Income Fund

233%

### Securities Financing Transactions Regulation for the period ended 31 March 2020

#### **Securities Financing Transactions on Total Return Swaps**

The following table details the gross aggregate fair value for total return swaps held on Finisterre Unconstrained Emerging Markets Fixed Income Fund, analysed by counterparty, as at the Statement of Financial Position date.

Counterparty	Counterparty's country of incorporation	Total Return Swaps USD
Citigroup	United States	(1,226,401)
HSBC	United States	(407,282)
		(1,633,683)

The gross aggregate fair value of total return swaps as a proportion of the Fund's NAV, as at the Statement of Financial Position date, is (0.22)%.

The following table provides an analysis of the maturity tenor of open Securities Financing Transactions ("SFTs") on Total Return Swaps ("TRS") and associated collateral received/provided, as at the Statement of Financial Position date.

Maturity tenor	OTC derivative transactions (net exposure) USD	Cash collateral received/ (provided) USD	Non-cash collateral received/ (provided) USD
1 day	-	-	-
2 to 7 days	-	-	-
Open	(1,633,683)	(206,425)	-
Total	(1,633,683)	(206,425)	-

The above maturity tenor analysis has been based on the contractual maturity date of the relevant SFTs on TRS and, in case of non-cash collateral, the contractual maturity date of the security received/provided as collateral.

SFTs on TRS are entered into by the Fund/s under an International Swaps and Derivatives Associations, Inc. Master Agreement ("ISDA Master Agreement") or similar agreement. An ISDA Master Agreement is a bilateral agreement between the Fund/s and a counterparty that governs SFTs (including TRS) entered into by the parties. All SFTs on TRS entered under an ISDA Master agreement are netted together for collateral purposes.

TRS are marked to market using valuation sources/methods and the fair value is recorded in the Statement of Financial Position as Unrealised Gain on Swap Contracts. The change in unrealised gains and losses is shown in Net gain/(loss) on investment activities in the Statement of Comprehensive Income and is not subject to any returns sharing arrangements with the Fund's Investment Adviser or any other third parties.

#### **GENERAL INFORMATION**

The following information is derived from and should be read in conjunction with the full text and definitions section of the prospectus.

The Principal Global Investors Funds ("the Trust") was constituted on 13 October 1992 as an open-ended umbrella Unit Trust established as an Undertaking for Collective Investment in Transferable Securities ("UCITS") under the laws of Ireland. Units of certain classes of the Trust are listed on Euronext Dublin (formerly the Irish Stock Exchange). The Trust has been authorised in Ireland pursuant to the European Communities (Undertakings for Collective Investments in Transferable Securities) Regulations, 2011, (as amended) and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) (Amendment) Regulations 2019 (the "Central Bank UCITS Regulations").

Units are unhedged, except where otherwise noted.

For the year to 30 September 2019, the Trust comprised of the following Funds:

Fund	Type of Units	Launch Date

Principal Global Investors (Ireland) Limited (the "Manager") may, with the prior consent of the Central Bank and approval of The Bank of New York Mellon SA/NV, Dublin Branch (the "Depositary") and the Board of Directors of the Manager (the "Directors"), add additional Funds.

The financial statements are published on the <a href="www.principalglobal.com">www.principalglobal.com</a> website. The Directors, together with the Manager and Principal Global Investors, LLC (the "Investment Adviser") are responsible for the maintenance and integrity of the financial information included on this website.

#### PRICES

There will be a single price for buying, selling and switching units in each of the Funds. This will be represented by the Net Asset Value ("NAV") per Unit rounded to the nearest cent (less/plus duties and charges where applicable).

#### DEALING

The dealing deadline (being the time by which subscription and redemption requests for units must be received in Dublin in order for such requests to be dealt with in normal circumstances on a particular dealing day) is 10.00 a.m. (Irish time) on that dealing day. The dealing deadline for requests from Hong Kong investors is 5.00 p.m. (Hong Kong time) on that dealing day. All dealing requests should be addressed to:

#### **DISTRIBUTIONS AND DISTRIBUTOR STATUS**

The Trust Deed provides for the Manager to decide to make, and for the Trustee on each distribution date to make, distributions among holders of income units in each of the Funds. It is the intention of the Manager to make distributions to the extent that they are covered by income received from underlying investments. It is also the intention of the Manager that distributions will be declared on 30 September each year or nearest business day for all Income Unit Classes where possible. Quarterly distributions will be payable in respect of the A, I, D, F, N, P and X Income Unit Classes on the Preferred Securities Fund, the A, I and N Income Unit Classes on the High Yield Fund, the A and I Income Unit Classes on the Post Global Limited Term High Yield Fund, the I Income Unit Class on the Real Estate Debt Fund and the A, A2, I, I2, I3, D and N Income Unit Classes on the Finisterre Unconstrained Emerging Markets Fixed Income Fund. Monthly distributions will be payable in respect of the D2 Income Unit Classes on the Preferred Securities Fund and High Yield Fund and the D Income Unit Class on the Global Income Fund. There are no D2 Income Unit Classes in issue currently on the Global Property Securities Fund, Post Global Limited Term High Yield Fund, Real Estate Debt Fund or the Finisterre Unconstrained Emerging Markets Fixed Income Fund. Monthly distributions will also be payable in respect of the N2 Income Unit Class on the Preferred Securities Fund. There are no N2 Income Unit Classes in issue currently.

Upon the expiry of the period of six years after the relevant Distribution Date, the Holder and any person claiming through, under or in trust for him shall forfeit any right to any distribution not paid, and such amount shall become part of the relevant Fund.

#### **CORPORATE GOVERNANCE**

The Board of Directors has adopted and applied standards of corporate governance that are consistent with the Irish Funds Code for the year ended 30 September 2019.

#### **GENERAL INFORMATION (continued)**

#### **CONNECTED PERSONS**

CBI UCITS Regulations, Section 43(1), Restrictions on transactions with connected persons - requires that any transaction carried out with a UCITS by a distributor, manager, trustee, administrator, depositary, investment adviser, sub-adviser and/or associated or group companies of these ("connected persons") must be carried out as if negotiated at arm's length. Transactions must be in the best interests of the Unitholders of the UCITS.

Having regard to confirmations from the Manager's Designated Person for Capital and Financial Management and the Trustee, the Board of Directors is satisfied that there are arrangements (evidenced by written procedures) in place to ensure that the obligations set out in Regulation 43(1) of the Central Bank UCITS Regulations are applied to all transactions with connected persons, and is satisfied that transactions with connected persons entered into during the period complied with these obligations.

None of the Directors had any interests in the units of the funds for the period from 1 October 2018 – 30 September 2019.

#### SIGNIFICANT EVENTS DURING THE YEAR

#### Launches during the year:

#### Fund

- Asian Equity Fund was closed on 26 February 2019.
- Japanese Equity Fund was closed on 26 February 2019.
- U.S. Equity Fund was closed on 26 February 2019.
- Emerging Markets Fund was closed on 26 March 2019.

#### **Share Class**

- Post Global Limited Term High Yield Fund I Class Income (GBP hedged) 30 October 2018.
- Finisterre Unconstrained Emerging Markets Fixed Income Fund A Class Income (SGD hedged) 29 August 2019.

#### **Prospectus & Supplement changes**

- High Yield Fund A new supplement was issued for the Fund on 22 October 2018 to reflect investment in Rule 144A Securities (including those which have not yet been issued with an undertaking to register them with the US SEC).
- Post Global Limited Term High Yield Fund The definition of "Business Day" was changed to include US bank holidays as well as Irish bank holidays in the supplement dated 6 November 2018.
- Finisterre Unconstrained Emerging Market Fixed Income Fund Effective from the Supplement dated 3 December 2018, the notice period on redemptions was removed as well as the management fees was lowered on I, N, D and A unit classes.
- New Prospectus and related supplements were issued on 2 July 2019. Significant updates included:
  - > Additional disclosures as a result of United Kingdom's intention to depart from the European Union (Brexit disclosures)
  - > to allow use of Stock Connect as a mechanism for direct investment in China A-Shares.
  - Fund supplements were updated to reflect the US\$1,000 minimum initial subscription amount for unit classes A, A2, D, D2, F, F2, N and P and remove the minimum additional subscription amount for all classes.
  - ➤ Global Equity, Global Income and Origin Global Emerging Markets Funds supplements updated to reflect change in the investment policy section to clarify that any exposure to China going forward will be through H-Shares or China-A Shares via Stock Connect.
  - ➤ Post Global Limited Term High Yield Fund, Origin Global Emerging Markets Fund, Origin Global Smaller Companies Fund and Global Property Securities Fund Updates to the Efficient Portfolio Management section have been made to provide additional clarity on the Fund's leverage.
- New supplement was issued for the U.S Blue Chip Equity Fund on 12 August 2019.
- Following the Extraordinary General Meeting ("EGM") of unitholders of the Trust held on 19 September 2019, amendments to the Trust Deed in relation to among other to the creation of Income Plus Units, payment of dividends out of capital and compulsory redemptions process, as detailed in the Notice of EGM dated 22 August 2019, have been approved.
- Following the Extraordinary General Meeting ("EGM") of unitholders of the Global Income Fund held on 19 September 2019, amendments to the Fund's Investment Objective and Investment Policy have been approved, among other additional amendments to be made to the Supplement (name of the Fund, profile of typical investor, sub-advisors, investment in Rule 144A securities, investment restrictions clarified etc.) as detailed in the Notice of EGM dated 22 August 2019.

#### **GENERAL INFORMATION (continued)**

#### SIGNIFICANT EVENTS DURING THE YEAR (continued)

#### **Other Events**

- In the referendum held on 23 June 2016 the United Kingdom ("UK") voted to leave the European Union ("EU") which was due to have taken effect on 29 March 2019, although this was subsequently extended. Currently there is uncertainty in relation to the outcome of Brexit negotiations between the EU and the UK in respect of both the terms under which the UK will leave the EU, the final effective date and any transitional arrangements that may apply. There is as a result the potential for a period of political and economic instability and volatility in financial markets. The Trust has implemented a number of steps to prepare for various outcomes, including effecting organisational, governance and operational changes, and engaging in client communications.
- On 13 September 2019 Michael Beer resigned as Principal Global Investors (Ireland) Limited executive director.

#### SIGNIFICANT EVENTS AFTER THE YEAR END

- Distributions declared on 1 October 2019, have not been included in the Statement of Comprehensive Income for 30 September 2019. These will be included in the financial statements for 30 September 2020. Please refer to note 6 for further details.
- Following on the unitholder notice dated 17 October 2019, Bank of New York Mellon restructured the legal entities within
  The Bank of New York Mellon group of companies to rationalise its legal entity structure and to streamline its operations;
  and merged the Trustee of the Fund, BNY Mellon Trust Company (Ireland) Limited ("TCIL") into The Bank of New York
  Mellon SA/NV (Dublin Branch).
- Real Estate Debt Fund was closed on 28 November 2019.
- As at 1 December 2019, the Depositary name changed from BNY Mellon Trust Company (Ireland) Limited to The Bank of New York Mellon SA/NV (Dublin Branch).
- Kamal Bhatia was appointed as a non-executive director and chair of the Principal Global Investors (Ireland) Limited Board on 3 December 2019.
- New Prospectus and related supplements were issued on 19 December 2019.
- Asian High Yield Fund launched on 8 January 2020.

There were no other significant events after the year end.

#### **INVESTMENT ADVISER'S REPORT**

#### for the year ended 30 September 2019

#### **Global Equity Fund**

For the twelve-month period ending 30 September 2019, the Global Equity Fund reported net performance of -7.05%.

The Fund benefitted from stock selection within the utilities sector led by Iberdrola and American Electric Power. Conversely, media & entertainment holdings of World Wrestling Entertainment and Ubisoft Entertainment all offset the outperformance.

During the period, the Fund increased its exposure to international markets accompanied by reduced exposure to the U.S. market. This was driven by stock specific valuation opportunities that possess fundamental change dynamics we seek. This has proved to be a headwind for the Fund as the U.S. market has doubled from its prior cycle peak, while many international markets have yet to fully recover. We remained positioned this way as after nearly a decade of U.S. leadership, international markets now present comparable earnings growth with much cheaper valuations and lower debt levels.

Additionally, several years of anemic macro growth has fuelled the popularity of two distinct groups of stocks: disruptive high growth companies, and defensive bond proxies. Both groups now trade at significant valuation premiums relative to history. The Fund reduced exposure in both of these areas given the valuations but proved to be a detractor to performance.

The strategy maintained its valuation discount to the index while positioning more to these opportunities outside of the United States given its long-standing return leadership. This has proved to be a headwind for the Fund over the past year, although indications of relief became apparent as the year concluded. Previously purchased rerating opportunities that possessed fundamental change started to recover in the fourth quarter and proved to be top contributors in outperforming sectors. Lastly, Emerging markets finally demonstrated performance leadership in the quarter benefitting the Fund.

Market consternation brought on by volatile Sino-American trade relations, a rash of geopolitical events including the U.S. impeachment inquiry as well as mixed messages from the Federal Reserve has led to abrupt shifts in investor sentiment and swift dispersion in style and sectoral performance.

While uncertainty remains, it cannot be discounted that the comparisons of earnings and cash flow yields on equites remain quite attractive relative to government and corporate bond yields. The gravitational pull of low and negative yields abroad is consistent with our longstanding view that long horizon accumulation and liability funding objectives still have minimal opportunities to be met without meaningful equity exposure. Selectivity is key.

We continue to prefer companies with favourable earnings trends and other aspects of improving business fundamentals, rising investor expectations and attractive relative valuations. Stock selection remains our focus, as always.

### **European Equity Fund**

For the twelve-month period ending 30 September 2019, the European Equity Fund reported net performance of -1.12%.

The Fund saw strongest positive attribution from Germany and the financials and consumer discretionary sectors. Top contributors include JD Sports Fashion (+55%), Enel (+53%), and Iberdrola (+50%). We saw slight negative attribution in Sweden and the industrials and information technology sectors. Our exposure to Rockwool, Ubisoft, and Wirecard was negative.

Equity markets bounced back following a tough prior period though this did not come without continued volatility amidst a tug of war of geopolitical events and mixed economic data points across the globe. Brexit dynamics continued to evolve though any potential resolution remained far off.

While uncertainty remains due to recent geopolitical events, it cannot be discounted that the comparisons of earnings and cash flow yields on equites remain quite attractive relative to government and corporate bond yields. The gravitational pull of low and negative yields abroad is consistent with our longstanding view that long horizon accumulation and liability funding objectives still have minimal opportunities to be met without meaningful equity exposure. Regardless of the region, sector, or general market conditions, our bottom up focus on sustainable earnings trends and valuations relative to expectations remain a constant across the portfolio and helps rise above the fray of short-term bouts of volatility and the "risk on/risk off" tendencies of many investors.

#### **INVESTMENT ADVISER'S REPORT**

#### for the year ended 30 September 2019 (continued)

#### **Preferred Securities Fund**

For the twelve-month period ending 30 September 2019, the Preferred Securities Fund reported net performance of 10.10%.

We reduced concentrations in active floating rate paper because our income expectations shifted as our rates views changed and spreads had tightened; this sector had the least positive contribution return. We reduced allocations to insurance junior subordinated debt and increased allocations in contingent convertible securities for yield pickup and portfolio structure benefits of fixed-to-refixed coupons over LIBOR resets. Both sectors were top quartile performers.

The fund traded through an extreme period of liquidity demands and spread widening to start the period that were exacerbated at year-end. Spreads widened dramatically. Over the rest of the period interest rates declined and spreads tightened significantly leading to strong fund inflows and breadth to the market's bid.

Overall financial conditions improved as the Federal Reserve ("Fed") pivoted on rate hikes and cut rates two times this year. These insurance cuts, record employment and strong consumer confidence should foster opportunity for the U.S. economy to stabilize and grow modestly. The Fed's reentry into the repo markets and planned Treasury Bill ("T-Bill") purchases to increase excess reserves should support the market plumbing and progress on trade should cheer sentiment into next year.

We expect the credit environment to be constructive as the Fed remains supportive of growth with excess reserve expansion. A combination of tighter spreads and only modestly higher longer-term U.S. Treasury rates and high income should combine for a positive total rate of return for the fund's orientation to junior subordinated capital securities. The retail \$25par market appears overvalued and we will remain underweight the retail sector. We expect the institutional sectors to do well because relative spreads to senior alternatives are attractive, duration risk is mitigated, and issuance should help guide secondary pricing.

#### **High Yield Fund**

For the twelve-month period ending 30 September 2019, the High Yield Fund reported net performance of 5.74%.

Security selection negatively impacted returns due to overweights to Chaparral Energy, Pinnacle Operating Corp, Navios Maritime Holdings, Calfrac, and our positioning within the capital structure of Bausch Health. This was somewhat offset by the outperformance from overweights to Ziggo, underweights to Mallinckrodt, Valaris, and Hexion International, and our positioning within the capital structure of Frontier Communications.

The Fund underperformed the ICE BofA Merrill Lynch Global High Yield USD Hedged Index (the "Index") for the twelve months to 30 September 2019. The underperformance came from the market volatility of late 2018, which was primarily caused by the Federal Reserve hiking interest rates too far, a global manufacturing slowdown caused by a China slowdown and the U.S.-China trade war, and a rebound from the strong rally in markets since the start of 2016. Notably, in the last nine months to 30 September 2019, the portfolio outperformed the index as the market rebounded following the quick sell-off, economic growth remaining positive, and central banks globally turning dovish.

We will continue to adhere to our disciplined fundamental investment process and focus on buying issuers with improving fundamentals and limited refinancing needs. To manage against fluctuations in economic growth, we will continue to limit exposure to cyclical industries. However, supportive central banks, combined with the ongoing hunt for yield should provide support for high yield, and enable issuers to refinance their debt at attractive terms. From a rating perspective, BB-rated securities have significantly outperformed in 2019, as the rating category has the highest correlation to falling global rates and investor risk aversion, as such we continue to see the best value in single B-rated credits, especially given that we're at the wide end of the B to BB spread. In addition, although we do believe that there are opportunities within the CCC category, security selection is even more paramount given the higher level of risk

#### **INVESTMENT ADVISER'S REPORT**

#### for the year ended 30 September 2019 (continued)

#### **Global Property Securities Fund**

For the twelve-month period ending 30 September 2019, the Global Property Securities Fund reported net performance of 14.11%.

Stock selection was the main contributor to relative performance, primarily due to selection in the United States office and hotels & resorts. Stock selection in United Kingdom and Australian industrials also benefitted the portfolio. Within Japan, Hong Kong SAR (China), and Germany, poor stock selection modestly dragged down performance.

Our underweight to retail globally supported performance, as fundamentals in this space remain weak. Selection within the United States (preferences for growth-oriented office, hotel c-corps, and high-quality malls) was a top contributor. Exposure to specialized residential also contributed. Not holding UK diversified and shopping centers in favour of stronger fundamentals in industrial benefitted the portfolio. Avoiding retail-heavy Netherlands was the main contributor in the Continent, but our exposure to German residential negatively impacted by regulations dragged down alpha. Stock selection within the Asia Pacific (specifically Japan) dragged down performance in the last year, except for stock selection in Australia.

It is likely to be difficult for the United States and China to fully resolve fundamental differences on trade anytime soon. However, it is possible that a more watered down 'deal' could be struck in the near term ahead of the U.S. Presidential election. A sentiment-improving partial deal and the lagged impact of global central bank rate cuts to stabilise global growth could help mitigate the fall in bond yields and push them higher.

A cyclical rebound in earnings seems far less likely from here, even if the economy surprises to the upside. These issues are likely to constrain the upside for global bond yields. Global REITs should therefore continue to fare well given the safety and stability of largely domestic contractual real estate income streams. Lower bond yields and reduced interest rate pressure also provide support for property valuation levels.

Security selection negatively impacted returns due to overweights to Chaparral Energy, Pinnacle Operating Corp, Navios Maritime Holdings, Calfrac, and our positioning within the capital structure of Bausch Health. This was somewhat offset by the outperformance from overweights to Ziggo.

#### Post Global Limited Term High Yield Fund

For the twelve-month period ending 30 September 2019, the Post Limited Term High Yield Fund reported net performance of 5.57%.

The Fund continued to generate steady income returns from high quality businesses in more stable, defensive sectors including technology/software, cable/satellite, and telecommunications, with limited exposure to energy and commodity-related businesses and no exposure to stressed/distressed credits.

After sharp weakness in the fourth quarter of 2018, high yield markets staged a strong rebound in the first nine months of 2019, spurred by dovish central bank policy and generally solid corporate fundamentals, and despite escalating trade tensions. The Fund generated attractive risk-adjusted returns, protecting on the downside during the fourth quarter weakness and participating in upside in the 2019 rally. Credit quality remained stable, as the Fund continued to be positioned defensively in what we believe are high-quality businesses.

While yields have continued to move lower for short duration high yield, we continue to believe the higher-quality segment of the market looks attractive on a relative basis, given the much lower interest rate environment. The newly dovish Federal Reserve is a strong positive force for short duration high yield bonds, in particular for the higher quality segments of the market on which the Fund focuses. In addition, we believe the stated yield to worst for the Fund may understate the actual yield that can be realized, as the Fund has significant exposure to "rolling call" bonds whose realised yields can increase as they remain outstanding for longer periods of time.

#### **Origin Global Emerging Markets Fund**

For the twelve-month period ending 30 September 2019, the Origin Global Emerging Markets Fund reported net performance of -2.28%.

Stock selection at sector level contributed positively over the period, with industrials and consumer discretionary the leaders in stock selection contribution. At country level, China was the standout contributor, followed by Poland and Korea.

#### **INVESTMENT ADVISER'S REPORT**

#### for the year ended 30 September 2019 (continued)

#### **Origin Global Emerging Markets Fund (continued)**

There is no discernible trend in place as regards overall equity market direction right now. Apart from a volatility spike at the end of last year and the quick price dip and recovery, equity markets have been trendless for two years now and volatility is low.

At Origin we do not attempt to forecast the future, preferring instead to follow the evidence. The shape of the portfolio has changed during 2019. At a sectoral level this has meant a material reduction in exposure to Materials as we have increased holdings in the Information Technology and Consumer Discretionary. Geographically we have reduced the portfolio's exposure to South Korea and Thailand, predominantly in favour of India and Brazil.

### **Origin Global Smaller Companies Fund**

For the twelve-month period ending 30 September 2019, the Origin Global Small Companies Fund reported net performance of -7.41%.

Overall, stock selection contributed negatively over the period. At a sector level, energy and health care were the most additive to relative performance, while industrials and materials were the main detractors. Regionally, stock selection in North America proved the biggest detractor.

There is no discernible trend in place as regards overall equity market direction right now. Apart from a volatility spike at the end of last year and the quick price dip and recovery, equity markets have been trendless for two years now and volatility is low.

At Origin we do not attempt to forecast the future, preferring instead to follow the evidence. Thus, the shape of the portfolio has shifted from a regional perspective mainly by increasing the position in emerging markets at the expense of North America. At a sector level, we have seen a move away from materials and consumer staples and an increase in information technology.

Whatever the future holds, we will continue to build portfolios of companies that exhibit those characteristics we favour. As soon as the market returns to rewarding those companies that best embody the balance of those characteristics then the strategy remains positioned to perform well.

#### **Real Estate Debt Fund**

For the twelve-month period ending 30 September 2019, the Real Estate Debt Fund reported net performance of 9.72%.

Over the year, the Fund benefitted from positive security selection which contributed to gross excess return compared to the Bloomberg Barclays Investment Grade CMBS Index. Holdings of longer duration AAA-rated securities contributed most to total return due to the steep drop in U.S. Treasury rates.

The Real Estate Debt Fund invested primarily in U.S. commercial mortgage-backed securities (CMBS) with an objective of providing attractive long-term risk-adjusted returns. The investment sub-advisor constructed a diversified portfolio with exposure to a wide range of vintage and credit segments, which carried a higher yield profile compared to the Bloomberg Barclays Investment Grade CMBS Index. Demand for alternative sources of yield benefitted the portfolio as investors showed interest in the asset class. Additionally, the drop in the 10-year U.S. treasury rate experienced over the past year contributed to total return from a mark-to-market perspective.

The Fund was formally closed on 28 November 2019.

#### **Global Income Fund**

For the twelve-month period ending 30 September 2019, the Global Income Fund reported net performance of 2.79%.

The Fund's allocation to the global real estate & infrastructure sector contributed to the performance of the fund. Conversely, the Fund's allocation to the global industrials & services sector detracted from the performance of the fund.

Over the twelve-month period, we increased our allocation to fixed income and correspondingly reduced our exposure to equities, opportunistically taking advantage of rallying equity markets. Within our four economic income sectors, we have increased our allocation to the global emerging markets sector based on valuations (primarily by increasing our fixed income exposure in the space), and we have reduced our exposure to the global real estate & infrastructure and global industrials &

#### **INVESTMENT ADVISER'S REPORT**

#### for the year ended 30 September 2019 (continued)

#### **Global Income Fund (continued)**

services sectors (primarily by reducing our equity exposure in the spaces). Our allocation to the global finance sector has remained fairly consistent over the twelve-month period.

With the current market environment, the fund has an overweight to fixed income and a corresponding underweight to equities. Across the portfolio's four economic income sectors, the fund is tactically underweight the global real estate and infrastructure sector and slightly overweight the global emerging markets and global industrials and services sectors versus their long-term strategic targets. Emerging market securities can provide diversification with more rapid growth trajectories at times. In the global real estate and infrastructure sector, these defensive "rent" type securities can serve as a risk ballast for the portfolio. Within the global industrials & services sector, continued economic growth bodes well for these cyclically-oriented securities. Lastly, in the global finance sector, the prospect of yield curve normalisation may benefit financial assets.

#### Finisterre Unconstrained Emerging Markets Fixed Income Fund

For the twelve-month period ending 30 September 2019, the Finisterre Unconstrained Emerging Markets Fixed Income Fund reported net performance of 9.69%.

The fund benefitted from positioning in Ukraine credit and local bonds, Brazilian corporate credit and FX, and Egypt local T-bills, which were a significant provider of steady income to the portfolio. On the other hand, the fund's main detractors were our positioning in Caribbean telco operator Digicel, Colombian Peso, and Polish Zloty positions.

In late 2018, we chose to reengage into emerging market risk through the income route first, retaining a focus on alpha and relative-value opportunities, while progressively increasing our positive exposure to momentum assets, although remaining very liquid and tactical. We then started decreasing our risk to be more cautious during the summer, avoiding the Argentine carnage. We then chose to add risk through new issues in September while partially taking profit in strong year-to-date contributors (Ukraine; Egypt).

The short-term outlook is quite challenging as the persistence of global event risks and the overhang of U.S. recession noises on oil and commodities, U.S. equities and U.S. high yield make us more cautious going into year-end. We continue to see value in emerging markets high yield credits and selectively in high yielding local currency debt of Mexico, Russia, Indonesia, and South Africa. In the short-term, tactical Emerging Market FX ("EMFX") opportunities arise from potential U.S. dollar weakness, but that could be negated if global risk assets correct violently on recession fears. While we remain broadly constructive on the global outlook and Emerging Market Debt ("EMD") assets and would be tempted to fade such extreme moves, we are inclined to be more liquid through higher momentum assets and higher cash, preferring idiosyncratic short duration High Yield names and longer-dated IG names, resulting in a broader improvement in credit quality.

#### **U. S Blue Chip Equity Fund**

For the period ending 30 September 2019, the U.S. Blue Chip Equity Fund reported net performance of 2.00%.

Top contributors included Alphabet and Brookfield Asset Management. Both companies are managed by owner-operators who lead the businesses with a long-term perspective. The top detractors included Amazon and Adobe, two companies with durable competitive moats. We remain confident in the companies we own, as they possess competitive advantages that enable them to grow intrinsic value over time.

The U.S. Blue Chip Equity Fund underperformed the Russell 1000 Growth Index during the period since launch. Companies in the health care and financial sectors were the largest positive contributors while companies in the information technology sector detracted from performance.

Given our time horizon as long-term, fundamental investors that commonly own shares in companies for several years, we do not have a near-term market outlook. We will continue to seek opportunities to invest in high quality companies that are managed by owner-operators and trade at a discount to our estimate of their intrinsic value.

#### **INVESTMENT ADVISER'S REPORT**

#### for the year ended 30 September 2019 (continued)

#### Asian Equity Fund (Terminated 26 February 2019)

For the six-month period ending 31 March 2019, the Asian Equity Fund reported net performance of -5.93%.

The top 3 contributors for the fund were no exposure to Hon Hai, which declined 26.1%, Weichai Power, up 13.6%, and KIA Motors, up 27.7%. The top 3 detractors were Housing Development Finance Corporation, down 5.5%, Shin Kong Financial, down 24.5%, and Taiwan Semiconductor, down 13.6%.

Our fund underperformed over the time period with losses in both the Asia and Asia Pacific regions. Losses in Asia were primarily driven by negative stock selection in China and India. Financials and energy were the main detractors from a sector perspective.

The Fund was formally closed on 26 February 2019.

#### Japanese Equity Fund (Terminated 26 February 2019)

For the six-month period ending 31 March 2019, the Japanese Equity Fund reported net performance of -6.76%.

The portfolio underperformed during the six-month period on the back of negative stock selection. Our investment process and portfolio style characteristics faced significant headwinds during the period in Japan. An overweight position in SoftBank Group contributed strongly to performance in the period as the stock was up 11.7% in USD terms. An overweight position in Kanamoto Co. had a negative impact on the portfolio in the period as the security was down 24.9% in USD terms.

Our fund underperformed over the period with losses in both the Asia and Asia Pacific regions. Losses in Asia were primarily driven by negative stock selection in China and India. Financials and energy were the main detractors from a sector perspective.

The Fund was formally closed on 26 February 2019.

#### U.S. Equity Fund (Terminated 26 February 2019)

For the six-month period ending 31 March 2019, the US Equity Fund reported net performance of -5.97%.

Stock selection in the industrials and information technology sectors was the most effective, whereas stock selection in the consumer discretionary and financials sectors was less effective.

The Fund underperformed during the period. Our decision not to hold NVIDIA Corporation as well as our overweight positions in the Boeing Company and VeriSign Inc. contributed positively to performance. Our overweight positions in Capri Holdings Limited, Apple Inc., and Valero Energy Corporation detracted from performance.

Our portfolio was comprised of companies we believed offered superior fundamental change relative to their peers, rising investor expectations, and attractive relative valuations.

The Fund was formally closed on the 26 February 2019.

#### **INVESTMENT ADVISER'S REPORT**

#### for the year ended 30 September 2019 (continued)

#### **Emerging Markets Equity Fund (Terminated 26 March 2019)**

For the six-month period ending 31 March 2019, the Emerging Markets Equity Fund reported net performance of -1.86%.

The top 3 contributors for the fund were Banco do Brasil, up 97.1%, Banco Santander Brasil, up 41.1%, and Itausa, up 40.6%. The top 3 detractors were Banorte, down 27.5%, Taiwan Semiconductor, down 10.0%, and an underweight to Petrobras, which gained 41.2%.

Our fund underperformed over the time period with most of the losses stemming from negative stock selection in Asia. EMEA was a marginal detractor and underperformance in Latin America was due to negative stock selection in Brazil and Mexico. Asia's performance was hurt by negative stock selection in China, India, and Thailand. From a sector standpoint, the main detractors from the fund were financials, energy, and utilities.

The Fund was formally closed on 26 March 2019.

Principal Global Investors, LLC

#### Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (Ireland) ("ISAs (Ireland)") and applicable law.

Our responsibilities under ISAs (Ireland) are further described in the Auditors' responsibilities for the audit of the financial statements section of our report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### Independence

We remained independent of the Trust in accordance with the ethical requirements that are relevant to our audit of the financial statements in Ireland, which includes IAASA's Ethical Standard as applicable to listed entities, and we have fulfilled our other ethical responsibilities in accordance with these requirements.

#### Our audit approach

#### Overview

 Overall materiality: For Fixed Income Funds 100 basis points of Net Assets Value ("NAV") at 30 September 2019. For all other Funds of the Unit Trust overall materiality is set at 50 bps of NAV at 30 September 2019 except for terminating Funds where the overall materiality is 50bps of the average NAV for the previous 3 years.

#### Audit scope

The Trust is an open-ended investment Trust. We tailored the scope of our audit taking
into account the types of investments within the Funds, the involvement of the third
parties referred to overleaf, the accounting processes and controls, and the industry in
which the Trust operates. We look at each of the Funds at an individual level.

#### Key audit matters

Financial Instruments at fair value through profit or loss

#### The scope of our audit

As part of designing our audit, we determined materiality and assessed the risks of material misstatement in the financial statements. In particular, we looked at where the manager made subjective judgements, for example the selection of pricing sources to value the investment portfolio. As in all of our audits, we also addressed the risk of management override of internal controls, including evaluating whether there was evidence of bias by the manager that represented a risk of material misstatement due to fraud.

#### Key audit matters

Key audit matters are those matters that, in the auditors' professional judgement, were of most significance in the audit of the financial statements of the current period and include the most significant assessed risks of material misstatement (whether or not due to fraud) identified by the auditors, including those which had the greatest effect on: the overall audit strategy; the allocation of resources in the audit; and directing the efforts of the engagement team. These matters, and any comments we make on the results of our procedures thereon, were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. This is not a complete list of all risks identified by our audit.

#### Key audit matter

#### Financial Instruments at fair value through profit or loss

See the Portfolio of Investments, refer to the Principal Accounting Policies of the financial statements of the Trust and note 11) Financial Assets at Fair Value through Profit or Loss for further details.

The Financial Instruments at fair value through profit or loss in the Statement of Financial Position of each Fund are held in the Funds' name at 30 September 2019 and are valued at fair value in line with Generally Accepted Accounting Practice in Ireland.

These areas are considered key audit matters as they represent the principal elements of the financial statements.

#### How our audit addressed the key audit matter

We obtained independent confirmation of existence from the Depositary, agent banks and other counterparties of the Financial Instruments held at 30 September 2019, For a portion of the derivative positions we liquidated these positions to post year end bank statements to verify their existence.

We tested the valuation of the Financial Instruments at fair value through profit or loss, by independently agreeing the valuation of the investments to independent third-party vendor sources, where possible.

No material issues were identified from the results of these procedures.

#### How we railored the audit scope

We tailored the scope of our audit to ensure that we performed enough work to be able to give an opinion on the financial statements as a whole, taking into account the structure of the Trust, the accounting processes and controls, and the industry in which it operates.

The manager controls the affairs of the Trust and is responsible for the overall investment policy which is determined by them. The manager has delegated certain responsibilities to Principal Global Investors, LLC (the 'Investment Adviser') and to BNY Mellon Fund Services (Ireland) Designated Activity Company (the 'Administrator'). The financial statements, which remain the responsibility of the manager, are prepared on their behalf by the Administrator. The Trust has appointed BNY Mellon Trust Company (Ireland) Limited (the "Depositary") to act as Depositary of the Trust's assets. In establishing the overall approach to our audit we assessed the risk of material misstatement at a fund level, taking into account the nature, likelihood and potential magnitude of any misstatement. As part of our risk assessment, we considered the Trust's interaction with the Administrator, and we assessed the control environment in place at the Administrator.

#### Materiality

The scope of our audit was influenced by our application of materiality. We set certain quantitative thresholds for materiality. These, together with qualitative considerations, helped us to determine the scope of our audit and the nature, timing and extent of our audit procedures on the individual financial statement line items and disclosures and in evaluating the effect of misstatements, both individually and in aggregate on the financial statements as a whole.

Based on our professional judgement, we determined materiality for the financial statements of each of the Trust's Funds as follows:

Overall materiality and how we determined it	For Fixed Income Funds 100 basis points of Net Assets Value ("NAV") at 30 September 2019. For all other Funds of the Unit Trust overall materiality is set at 50 bps of NAV at 30 September 2019 except for terminating Funds where the overall materiality is 50bps of the average NAV for the previous 3 years.
Rationale for benchmark applied	We have applied this benchmark because the main objective of the Trust is to provide investors with a total return at a fund level, taking account of the capital and income returns.

We agreed with the Audit Committee that we would report to them misstatements identified during our audit above 10 basis points of the Fixed Income Fund's NAV, for NAV per share impacting differences and for all other Funds, misstatements identified during our audit above 5 basis points of each Fund's NAV [average NAV for the previous 3 years for terminating Funds], (2018: 10 basis points of the Fixed Income Fund's NAV, for NAV per share impacting differences and for all other Funds 5 basis points of each Fund's NAV [average NAV for the previous 3 years for terminating Funds]) as well as misstatements below that amount that, in our view, warranted reporting for qualitative reasons.

#### Conclusions relating to going concern

We have nothing to report in respect of the following matters in relation to which ISAs (Ireland) require us to report to you where:

- the manager's use of the going concern basis of accounting in the preparation of the financial statements is not
  appropriate; or
- the manager has not disclosed in the financial statements any identified material uncertainties that may cast
  significant doubt about the Funds' ability to continue to adopt the going concern basis of accounting for a period
  of at least twelve months from the date when the financial statements are authorised for issue.

However, because not all future events or conditions can be predicted, this statement is not a guarantee as to the Funds' ability to continue as going concerns.

#### Reporting on other information

The other information comprises all of the information in the Annual Report and Audited Financial Statements other than the financial statements and our auditors' report thereon. The manager is responsible for the other information. Our opinion on the financial statements does not cover the other information and, accordingly, we do not express an audit opinion or, except to the extent otherwise explicitly stated in this report, any form of assurance thereon. In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If we identify an apparent material inconsistency or material

misstatement, we are required to perform procedures to conclude whether there is a material misstatement of the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report based on these responsibilities.

#### Responsibilities for the financial statements and the audit

Responsibilities of the manager for the financial statements

As explained more fully in the Statement of Manager's Responsibilities set out on page 26, the manager is responsible for the preparation of the financial statements in accordance with the applicable framework giving a true and fair view.

The manager is also responsible for such internal control as the manager determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the manager is responsible for assessing the Funds' ability to continue as going concerns, disclosing as applicable, matters related to going concern and using the going concern basis of accounting unless the manager intends to cease operations, or has no realistic alternative but to do so.

Auditors' responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (Ireland) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A further description of our responsibilities for the audit of the financial statements is located on the IAASA website at:

https://www.iaasa.ie/getmedia/b2389013-1cf6-458b-9b8f-a08202dc9c3a/Description of auditors responsibilities for audit.pdf.

This description forms part of our auditors' report.

Use of this report

This report, including the opinion, has been prepared for and only for the unitholders of each of the Funds as a body in accordance with the European Communities (Undertakings for Collective Investment in Transferable Securities)
Regulations 2011 (as amended) and for no other purpose. We do not, in giving this opinion, accept or assume responsibility for any other purpose or to any other person to whom this report is shown or into whose hands it may come save where expressly agreed by our prior consent in writing.

The Bank of New York Mellon SA/NV, Dublin Branch Riverside Two, Sir John Rogerson's Quay Dublin 2, D02 KV60, Ireland T +353 1 900 7920 F +353 1 829 1024

# PRINCIPAL GLOBAL INVESTORS FUNDS DEPOSITARY'S REPORT TO THE UNITHOLDERS OF PRINCIPAL GLOBAL INVESTORS FUNDS for the year ended 30 September 2019

Report from the Depositary to the Unitholders dated

For the period from 1 October 2018 to 30 September 2019 (the "Period")

The Bank of New York Mellon SA/NV, Dublin Branch (into which entity BNY Mellon Trust Company (Ireland) Limited merged on December 1, 2019 (the "Depositary" "us", "we", or "our") has enquired into the conduct of Principal Global Investors Funds ("The Trust") for the Period, in its capacity as Depositary to the Trust.

This report including the opinion has been prepared for and solely for the shareholders in the Company, in accordance with our role as depositary to the Trust and for no other purpose. We do not, in giving this opinion, accept or assume responsibility for any other purpose or to any other person to whom this report is shown.

#### Responsibilities of the Depositary

Our duties and responsibilities are outlined in Regulation 34 of the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (S.I. No 352 of 2011), as amended ("the Regulations").

Our report shall state whether, in our opinion, the Trust has been managed in that period in accordance with the provisions of the Trust's Trust Deed and the Regulations. It is the overall responsibility of the Manager to comply with these provisions. If the Manager has not so complied, we as depositary must state in what respects it has not been so managed and the steps which we have taken in respect thereof.

#### **Basis of Depositary Opinion**

The Depositary conducts such reviews as it, in its reasonable opinion, considers necessary in order to comply with its duties and to ensure that, in all material respects, the Trust has been managed (i) in accordance with the limitations imposed on its investment and borrowing powers by the provisions of its constitutional documentation and the appropriate regulations and (ii) otherwise in accordance with the Trust's constitutional documentation and the appropriate regulations.

#### Opinion

In our opinion, the Trust has been managed during the Period, in all material respects:

(i) in accordance with the limitations imposed on the investment and borrowing powers of the Manager and the Depositary by the Trust Deed and by the Regulations.

(ii) otherwise in accordance with the provisions of the Trust Deed and the Regulations.

Michelle Moroney

The Bank of New York Mellon SA/NV trading as The Bank of New York Mellon SA/NV, Dublin Branch is authorised by the National Bank of Belgium.

#### STATEMENT OF MANAGER'S RESPONSIBILITIES

#### Manager

The Manager of the Trust is required by the UCITS Regulations to prepare financial statements for each accounting period which gives a true and fair view of the financial position of the Trust at the end of that period, the results of its operations and the movement in net assets for the period then ended. In preparing these financial statements the Manager is required to:

- select suitable accounting policies and then apply them consistently;
- make judgments and estimates that are prudent and reasonable; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the Trust will
  continue in operation.
- ensure that any transaction carried out with a UCITS by a management company or Depositary to the UCITS, the
  delegates or sub-delegates of the management company or Depositary, and any associate or group of such a
  management company, Depositary, delegate or sub-delegate ("connected persons") is carried out as if negotiated at
  arm's length. Transactions must be in the best interests of the Unitholders.

The Manager is responsible for keeping proper books of account which disclose with reasonable accuracy at any time the financial position of the Trust and for ensuring that the financial statements are prepared in accordance with accounting standards generally accepted in Ireland and for ensuring that they comply with the provisions of the Trust Deed, the UCITS Regulations and the Hong Kong Securities and Futures Commission's Code on Unit Trusts and Mutual Funds. The Manager is also responsible with respect to its duties under the UCITS Regulations to take reasonable steps for the prevention and detection of fraud and other irregularities.

The financial statements are published on the <u>www.principalglobal.com website</u>. The Directors, together with the Manager and Principal Global Investors, LLC (the "Investment Adviser") are responsible for the maintenance and integrity of the financial information included on this website.

**Principal Global Investors (Ireland) Limited** 

#### STATEMENT OF DEPOSITARY'S RESPONSIBILITIES

#### **Depositary**

The Depositary is required by the UCITS Regulations, to:

- maintain the assets of a Unit Trust in safekeeping;
- report to the Unitholders for each accounting period on the conduct of the Manager in the management of a Unit Trust.

The Bank of New York Mellon SA/NV, Dublin Branch

#### 1. FORMATION

The Principal Global Investors Funds ("the Trust") was constituted under the laws of Ireland by a Trust Deed dated 13 October 1992 as an open-ended umbrella Unit Trust established as an Undertaking for Collective Investment in Transferable Securities ("UCITS"). It is an umbrella Unit Trust in that different classes of units may be issued from time to time by the Manager. Units of certain classes of the Trust are listed on the Euronext Dublin (formerly the Irish Stock Exchange). The Trust has been authorised by the Central Bank of Ireland (the "Central Bank") pursuant to the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations, 2011, (as amended) and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) (Amendment) Regulations 2019 (the "Central Bank UCITS Regulations").

The financial statements have been prepared for the year ended 30 September 2019.

The Funds of the Trust are listed on pages 4 to 7. The Portfolios of Investments are listed on pages 27 to 73.

#### 2. PRINCIPAL ACCOUNTING POLICIES

#### **Accounting Convention and Basis of Accounting**

The annual audited financial statements are prepared in accordance with accounting standards generally accepted in Ireland ("Irish GAAP") including Financial Reporting Standard ("FRS") 102, "The Financial Reporting Standard applicable in the United Kingdom and Republic of Ireland" and the provisions of the UCITS Regulations and the Hong Kong Securities and Futures Commission's Code on Unit Trusts and Mutual Funds. Irish GAAP used in preparing financial statements which present a true and fair view are those standards issued by the Financial Reporting Council ("FRC").

The Trust has availed of the exemption available to open ended investment funds that hold a substantial proportion of highly liquid and fair valued investments under Section 7 "Statement of Cash Flows" of FRS 102 and is not presenting cash flow statements.

The Directors have a reasonable expectation that the Trust has adequate resources to continue in operational existence for the foreseeable future. Accordingly, the report has been prepared on a going concern basis for all Funds in the Trust under the historical cost convention, as modified by the revaluation of financial assets at fair value through profit or loss, except for the Asian Equity Fund, Emerging Markets Equity Fund, Japanese Equity Fund and U.S. Equity Fund which have terminated - these have been prepared on a non-going concern basis. The report has been prepared in USD for all Funds. The functional and presentation currency of the Trust is USD.

The format and certain wordings of the financial statements have been adapted from those contained in Irish statute so that, in the opinion of the Directors, they more appropriately reflect the nature of the Trusts business as an investment fund.

The information required by FRS 102, to be included in a single statement of comprehensive income for the reporting period displaying all items of income and expense recognised during the period including those items recognised in determining profit or loss and items of other comprehensive income and a Reconciliation of Movements in Unitholders' Funds are, in the opinion of the Directors, contained in the Statements of Comprehensive Income and the Statements of Movement in Net Assets Attributable to Redeemable Participating Unitholders. In arriving at the results for the year, all amounts in the Statements of Comprehensive Income relate to continuing activities except for the Asian Equity Fund, Emerging Markets Equity Fund, Japanese Equity Fund and U.S. Equity Fund which have terminated. In the opinion of the Directors, the financial statements give, in all other respects, the information required by the UCITS Regulations and the Hong Kong Securities and Futures Commission's Code on Unit Trusts and Mutual Funds.

All gains or losses for the year are reflected in the Statements of Comprehensive Income.

The significant accounting policies adopted by the Trust are set out overleaf. These policies have been consistently applied to the financial periods presented unless otherwise stated.

### 2. PRINCIPAL ACCOUNTING POLICIES (continued)

#### Financial Instruments at Fair Value through Profit or Loss

Under FRS 102, in accounting for its financial instruments a reporting entity is required to apply either (a) the full provisions of Section 11 "Basic Financial Instruments" and Section 12 "Other Financial Instruments Issues" of FRS 102, (b) the recognition and measurement provisions of International Accounting Standards ("IAS") 39 "Financial Instruments: Recognition and Measurement" ("IAS 39") and only the disclosure requirements of Sections 11 and 12 of FRS 102; or (c) the recognition and measurement provisions of International Financial Reporting Standards ("IFRS") 9 "Financial Instruments" ("IFRS 9") and the disclosure requirements of Sections 11 and 12. The Trust has elected to apply the recognition and measurement provisions of IAS 39 and the disclosure requirements of Sections 11 and 12.

This category has two sub-categories: financial assets and liabilities held for trading, and those designated by the Investment Adviser/Sub-Investment Adviser(s) at fair value through profit or loss at inception. All instruments on the Portfolio of Investments are classified as held at fair value through profit or loss. Subsequent to initial recognition, all instruments classified at fair value through profit or loss are measured at fair value with changes in their fair value recognised in the Statement of Comprehensive Income. Financial assets are derecognised when the rights to receive the cashflow from the investments have expired or the Funds have transferred substantially all of the risks or rewards of ownership.

#### **Accounting for Investments**

Investments are recognised at the trade date at last traded prices. Realised gains or losses on investment disposals are calculated using the average cost method. Realised gains or losses on investment transactions in debt instruments are calculated using the amortised cost method based on the effective interest rate.

#### **Valuation of Investments**

The year-end valuation date was 30 September 2019, the last business day of the year. Securities listed on a recognised stock exchange or traded on any other organised market, are valued at the current-price at each valuation point on the stock exchange or market which constitutes the principal market for such securities. If trades are received after the dealing cut-off time they will be accounted for in the next valuation. If for specific assets the current prices do not, in the opinion of the Manager, reflect their fair value or are not available, the price of the most recent transaction provides evidence of the current fair value as long as there has not been a significant change in economic circumstances since the time of the transaction or the Manager may also apply a fair value adjustment where they deem appropriate in order to reflect fair value.

In the case of any security not listed, quoted or dealt on a regulated market or for which no quotation or value is available which would provide a fair valuation, or in respect of which the price is unrepresentative, the fair value of such security is determined on the basis of the probable realisation value and is determined by the Investment Adviser, Sub-Investment Adviser(s), a stockbroker or other competent person appointed by the Investment Adviser and approved for the purpose by the Trustee, using valuation techniques.

#### **Futures**

A futures contract obligates one party to sell and the other party to purchase a specific instrument for an agreed price at an agreed future date. Futures may be used subject to the conditions and limits laid down by the Central Bank and the Trust Deed and subject to any other restrictions or regulations which may affect the portfolio management of the Funds or the Investment Adviser/Sub-Investment Adviser(s). Certain Funds may buy or sell futures to provide an efficient, liquid and effective method for the management of risks by "locking in" gains and/or protecting against future declines in value. The fair value of open future contracts is calculated as the difference between the contracted rate and the current rate that would close out the contract on the Statement of Financial Position date. Gains or losses on futures are included in the Unrealised Gain/(Loss) on Open Future Contracts on the Statement of Financial Position and are shown in the Portfolio of Investments. When the contract is terminated, the Fund will recognise a realised gain or loss in the Statement of Comprehensive Income equal to the difference between the value of the contract at the time it was entered into and the time it was closed.

### **Forward Foreign Currency Exchange Contracts**

In a Forward Foreign Currency Exchange Contract, the Fund agrees to receive or deliver a fixed quantity of one currency for another, at a pre-determined price at a future date. The fair value of Forward Foreign Currency Exchange Contracts is calculated as the difference between the contracted rate and the current forward rate that would close out the contract on the Statement of Financial Position date. Gains or losses on Forward Foreign Currency Exchange Contracts are included in the Unrealised Gain/(Loss) on Forward Foreign Currency Exchange Contracts on the Statement of Financial Position and are shown in the Portfolio of Investments. Any realised gains or losses are recognised in the Statement of Comprehensive Income at trade date. The Funds may enter into these contracts to hedge against changes in currency exchange rates. The Forward Foreign Currency Exchange Contracts are used to hedge the currency exposure on individual positions taken by the Funds and to hedge certain non base currency units.

#### 2. PRINCIPAL ACCOUNTING POLICIES (continued)

#### **Spot Currency Contracts**

In a Spot Currency Contract the Fund agrees to receive or deliver a fixed quantity of one currency for another, at a predetermined price at a future date (the spot date). This date is typically within three business days of inception of the contract. The fair value of Open Spot Currency Contracts is calculated as the difference between the contracted rate and the current forward rate that would close out the contract on the Statement of Financial Position date. Gains or losses on Spot Currency Contracts are included in the Unrealised Gain/(Loss) on Open Spot Currency Contracts on the Statement of Financial Position and are shown in the Portfolio of Investments. Any realised gains or losses are recognised in the Statement of Comprehensive Income at trade date.

#### **Credit Default Swaps**

A Credit Default Swap is a credit derivative transaction in which two parties enter into an agreement, whereby one party pays the other a fixed periodic coupon for the specified life of the agreement. The other party makes no payments unless a credit event, relating to a predetermined reference asset occurs. If such an event occurs, the party will then make a payment to the first party and the swap will terminate. When the swap terminates any realised gains or losses arising are reflected in the Statement of Comprehensive Income as part of the Net Gain/(Loss) on investment activities. A Credit Default Swap provides the Fund with an alternative to investing in assets themselves for a potentially higher return with the same risk or they may be used to obtain exposure to assets which the Fund could not otherwise acquire due to illiquidity in the relevant market. The Fund recognises the swap when it becomes party to the contract. The Credit Default Swaps are marked to market daily based upon quotations from market makers and recorded in the Statement of Financial Position as Market Value Gain/(Loss) on Swap Contracts.

#### **Total Return Swaps**

A Total Return Swap is a financial contract whereby one party agrees to pay another party the total return of a defined asset in return for receiving a floating rate return. The Trust enters into unfunded swap agreements on behalf of the Fund. Total Return Swaps are marked to market using valuation sources/methods and the fair value is recorded in the Statement of Financial Position as Market Value Gain/(Loss) on Swap Contracts. The change in unrealised gains and losses or any realised gains or losses arising on termination are shown in Net Gain/(Loss) on investment activities in the Statement of Comprehensive Income.

Total Return Swap positions are valued using models which utilise observable data to the extent practicable and contain assumptions on the application of this data. Changes in data inputs and assumptions about these factors could affect the reported fair value of the Total Return Swaps.

#### **Foreign Currency Transactions**

In accordance with Section 30 "Foreign Currency Translation" of FRS 102, items included in the individual Fund's financial statements are measured using the currency of the primary economic environment in which it operates (functional currency). The Fund's selection of the functional currency is attributable to the functional currency being: a) the major component of the Fund's benchmark and b) the common proxy for most clients in the Fund's varied client base. The functional currency assessment was completed at a Fund level. The Funds' presentation currencies equated to their respective functional currencies when assessed under FRS 102. The functional currency of each Fund of the Trust is USD.

#### For each Fund:

- (i) Currency gains or losses can arise where there is a difference between the amounts of foreign dividends and interest recorded on the Fund's books and the Fund's functional currency equivalent of the amounts actually received or paid. These gains or losses are included where appropriate in the dividend and interest income figure in the individual Fund's Statement of Comprehensive Income;
- (ii) Currency gains or losses realised on securities purchases and sales transactions are included in Net Gain/(Loss) on investment activities in the individual Fund's Statement of Comprehensive Income:
- (iii) Unrealised currency gains or losses on securities held at year end are included in Net Gain/(Loss) on investment activities in the individual Fund's Statement of Comprehensive Income; and
- (iv) Monetary assets and liabilities denominated in currencies other than the Fund's functional currency are translated at the rate of exchange ruling at the close of business on the Statement of Financial Position date and exchange differences are included in Net Gain/(Loss) on investment activities in the individual Fund's Statement of Comprehensive Income.

#### Income from Investments

Dividends are credited to the Statement of Comprehensive Income on the dates on which the relevant securities are listed as "ex-dividend". Interest income is accounted for daily on an effective yield basis. Income is shown gross of any non-

### 2. PRINCIPAL ACCOUNTING POLICIES (continued)

#### Income from Investments (continued)

recoverable withholding taxes, which are disclosed separately in the Statement of Comprehensive Income, and net of any tax credits. Realised gains or losses on investment transactions in debt instruments are calculated using the amortised cost method based on the effective interest rate.

#### Net Gain/(Loss) on Investment Activities

In respect of each instrument type classified as Financial Instruments at Fair Value through Profit or Loss, the movement in unrealised gains/(losses) since the prior period end and realised gains/(losses) are included in Net Gain/(Loss) on investment activities in the Statement of Comprehensive Income. Interest earned on fixed income securities such as bonds is included here also. Net Gain/(Loss) on Investment activities includes interest income on fixed interest securities.

#### **Expenses**

Operating expenses are recognised on an accruals basis in the Statement of Comprehensive Income.

#### **Formation Costs**

Formation costs, if any are incurred, will be written off over a five year period as per the dealing valuation.

#### **Anti-Dilution Levy**

The Manager may exercise its discretion to apply an anti-dilution levy in relation to subscriptions and redemptions of units. The levy is a charge for transaction costs that may be deducted from the NAV per Unit of the relevant class to reflect the costs of acquiring or disposing of underlying assets to fund subscriptions or redemptions from the Fund, respectively. The levy is intended to be used to ensure that all investors in the Trust are treated equitably by allocating transaction costs to the investors whose transactions give rise to those costs. For the year ended 30 September 2019, there were anti-dilution levies charged on the following funds: Origin Global Emerging Markets Fund \$69,014, Origin Global Smaller Companies Fund \$110,668, Global Property Securities Fund \$25,356, Global Equity Fund \$2.669 and Real Estate Debt Fund \$600. For the year ended 30 September 2018 there were anti-dilution levies charged on the following funds: Asian Equity Fund \$4,652, European Equity Fund \$27,108, Japanese Equity Fund \$1,797,704, Preferred Securities Fund \$4, US Equity Fund \$2,781, High Yield Fund \$54,276, Global Small Cap Equity Fund \$23,011, Origin Global Emerging Markets Fund \$139,059, Claritas Latin American Equity Fund \$27,573 and Finisterre Unconstrained Emerging Markets Fixed Income Fund \$192,645.

#### Cash at Bank

Cash is valued at amortised cost, which approximates fair value. Cash is held with The Bank of New York Mellon SA/NV, Dublin Branch.

#### Cash Collateral & Pledged Collateral

Cash Collateral provided by the Fund is identified in the Statement of Financial Position as Cash Collateral and is not included as a component of Cash at Bank.

#### Margin Cash Receivable/Payable

Cash Collateral Receivable/Payable to the Trust in relation to the open Futures Contracts and open Swap Contracts is identified in the Statement of Financial Position as Margin Cash Receivable/Payable and is not included as a component of Cash at Bank. Margin Cash Receivable at 30 September 2019 is detailed as part of Note 4. There is no Margin Cash Receivable at 30 September 2018.

#### **Distributions**

The A Income Unit Classes from the Global Equity Fund and European Equity Fund declare and pay annual distributions to Unitholders.

The Preferred Securities Fund declare and pay quarterly distributions to Unitholders holding the A, I, D, F, N, P and X Income Unit Classes.

The High Yield Fund declare and pay quarterly distributions to Unitholders holding the A, I and N Income Unit Class.

The Post Global Limited Term High Yield Fund declare and pay quarterly distributions to Unitholders holding the A Income Unit Class and I Income Unit Class.

The I, I2 and N Income Unit Classes from the Global Property Securities Fund declare and pay annual distributions to Unitholders.

The Real Estate Debt Fund will declare and pay quarterly distribution to Unitholders holding the I Income Unit Class.

#### 2. PRINCIPAL ACCOUNTING POLICIES (continued)

#### **Distributions (continued)**

The Global Income Fund declare and pay monthly distributions to Unitholders holding the D Income Unit Class.

The Finisterre Unconstrained Emerging Markets Fixed Income Fund declare and pay quarterly distributions to Unitholders holding the A, A2, I, I2, I3, D, and N Income Unit Class.

The D2 and N2 Income Unit Classes on the Preferred Securities Fund, High Yield Fund and Global Income Fund declare and pay monthly distributions to Unitholders. There are no D2 Income Unit Classes in issue currently on the Post Global Limited Term High Yield Fund, Real Estate Debt Fund or the Finisterre Unconstrained Emerging Markets Fixed Income Fund. There are no N2 Income Unit Classes in issue currently on the Preferred Securities Fund or the Global Property Securities Fund.

Upon the expiry of the period of six years after the relevant Distribution Date, the Holder and any person claiming through, under or in trust for him shall forfeit any right to any distribution not paid, and such amount shall become part of the relevant Fund.

Distributions are recorded by each Fund on ex-dividend date in the Statement of Comprehensive Income once approved by the Board.

#### Offsetting

Financial assets and liabilities are offset and the net amount reported in the Statement of Financial Position when there is a legally enforceable right to set-off the recognised amounts and there is an intention to settle on a net basis, or minimise the assets and settle the liability simultaneously. No offsetting has taken place during the financial year ended 30 September 2019 and 30 September 2018.

#### **Participating Units**

All participating units issued by the Funds provide the investors the right to acquire redemptions for cash at the value proportionate to the investor's share in the Fund's net assets at the redemption date. Such instruments give rise to a financial liability for the present value of the redemption amount. In accordance with the issued prospectus the Funds are contractually obliged to redeem units at the traded Net Asset Value per unit which is calculated at each valuation point.

#### 3. TAXATION

Under current law and practice the Trust qualifies as an investment undertaking as defined in Section 739B of the Taxes Consolidation Act, 1997, as amended. On that basis, it is not chargeable to Irish tax on its income or gains.

However, Irish tax may arise on the happening of a "chargeable event". A chargeable event includes any distribution payments to Unitholders, any encashment, redemption, cancellation, repurchase or transfer of units and any deemed disposals of units as described below for Irish tax purposes arising as a result of holding units in the Trust for a period of eight years or more. Where a chargeable event occurs, the Trust is required to account for the Irish tax thereon.

No Irish tax will arise on the Trust in respect of chargeable events in respect of:

- (i) a Unitholder who is neither Irish resident nor ordinarily resident in Ireland for tax purposes, at the time of the chargeable event, provided appropriate valid declarations in accordance with the provisions of the Taxes Consolidation Act, 1997, as amended, are held by the Trust or the Trust has been authorised by the Irish Revenue to make gross payments in the absence of appropriate declarations; and
- (ii) certain exempted Irish tax resident Unitholders who have provided the Trust with the necessary signed statutory declarations.

Dividends, interest and capital gains (if any) received on investments made by the Trust may be subject to taxes imposed by the country from which the investment income/gains are received and such taxes may not be recoverable by the Trust or its Unitholders.

#### **Redeeming Units**

When a redemption request has been submitted by a Unitholder who is or is deemed to be an Irish resident, or is acting on behalf of an Irish resident, the Manager shall deduct from the redemption proceeds an amount which is equal to the tax payable by the Unit Trust to the Revenue Commissioners in Ireland in respect of the relevant transaction.

#### 6. DISTRIBUTIONS

#### For the year ended 30 September 2019

Annual distributions were declared on 1 October 2019 and 1 October 2018 respectively. Distributions declared on 1 October 2019 or nearest subsequent business day have not been included in the Statement of Comprehensive Income for 30 September 2019. These will be included in the financial statements for 30 September 2020. The A Income Unit Classes from the Global Equity Fund and Finisterre Emerging Market Debt Fund did not declare and pay any annual distributions for the year ended 30 September 2019 or 30 September 2018. Distributions declared on 1 October 2019 relate to 30 September 2019 distributions in the table below.

#### **Accumulation Classes**

The Accumulation Unit Classes did not declare Distributions on 30 September 2019 or 30 September 2018.

#### 7. SIGNIFICANT CONTRACTS AND TRANSACTIONS WITH RELATED PARTIES

#### Management Fee

Pursuant to the Trust Deed dated 13 October 1992, Principal Global Investors (Ireland) Limited ("the Manager") acts as Manager to the Trust and is responsible for its management and administration. For services rendered, the Trust will pay to the Manager an annual fee, accrued daily in the unit price and payable monthly in arrears. The Management Fee is currently calculated as a percentage of the NAV of each Fund and is accrued every Business Day. These related party transactions have been entered into in the ordinary course of business. The Management Fee expense is shown in the Statement of Comprehensive Income and the accrued amount is shown in the Statement of Financial Position. Management Fee rates for each unit class are listed in the supplement for each Fund. These are available from the www.principalglobal.com website.

#### **Expense Cap**

The Manager, at its discretion, may absorb (directly by waiving a portion of its fees or by reimbursement to the account of each Fund), certain additional fees, costs or expenses for each Fund that may arise in respect of the management and operation of the Trust attributable to each Fund. This Expense Cap fee is shown as Rebate/Recharge to the Fund due to capping in the Statement of Comprehensive Income and the accrual/prepaid amount is shown as part of Other Assets or Other Payables in the Statement of Financial Position.

#### **Administration Fee**

In addition to the Management Fee, the Trust Deed permits the Manager to charge an Administration Fee of up to 0.15% per annum of the value of the units in the Funds for administering the Trust. Currently the Manager only charges this fee on the NAV of the Funds attributable to A, A2, D, D2, F, F2, N, N2 and P Class units. This fee is calculated as a percentage of the NAV of each Fund attributable to A, A2, D, D2, F, F2, N, N2 and P units and is accrued every Business Day. The total accrued amount is paid monthly in arrears. All fees and expenses payable to the Administrator in respect of the administration services it provides to the Manager will be met by the Manager. Administration Fee expense is shown in the Statement of Comprehensive Income and the accrued amount is shown in the Statement of Financial Position.

#### **Trustee and Depositary fee**

The Manager appointed The Bank of New York Mellon SA/NV, Dublin Branch to act as the Trustee to the Trust. The principal activity of the Trustee is to act as the Depositary and Trustee of the assets of collective investment schemes ("CISs"). The Trustee may retain for its own use out of each Fund a fee of up to 0.022% per annum of the NAV of the units calculated on each Business Day during the month, accrued and deducted from the Fund the following month subject to a minimum fee of US\$15,000 per annum which may be waived. The fee currently charged by the Trustee per Fund is disclosed in the relevant supplement for each Fund. The Trustee Fee expense is shown in the Statement of Comprehensive Income and the accrued amount is shown in the Statement of Financial Position.

#### **Directors' Remuneration**

Mr. David Shubotham, Mr. John O'Connell, Ms. Bronwyn Wright and Mr. Jim Firn are independent non-executive Directors of the Manager and have no executive function with the Investment Adviser or its related party companies. The Manager pays each independent non-executive Director an annual fee of €25,000 for their services rendered to the Trust. Mr. Greg Thornton and Mr. Roberto Walker are related parties to the Investment Adviser and receive no compensation from the Trust. Mr. Mike Beer was a related party to the Investment Adviser up until his resignation from the board on 13 September 2019 and received no compensation from the Trust.

#### **Sub-Custody Fee**

The Depositary will be paid a fee at normal commercial rates and such fee shall be paid out of the Fund. The level of Sub-Custodian Fees and expenses will vary depending on the investment profile of the Fund including, in particular, the nature of the securities markets in which the Fund invests, the size of the Fund and the amount of trading in the assets of the Fund. Such fees will be charged at normal commercial rates and will only be reimbursed from a Fund where they are less than 0.50% per annum of the NAV of the Fund. The Manager will pay any fees that exceed this level. Depositary Fee expense is shown in the Statement of Comprehensive Income and the accrued amount is shown in the Statement of Financial Position.

### **Performance Fees**

There are no performance fees payable on any of the Funds for the year ended 30 September 2019 or 30 September 2018.

### 7. SIGNIFICANT CONTRACTS AND TRANSACTIONS WITH RELATED PARTIES (continued)

#### Audit Fees

The audit fee charged for the year ended 30 September 2019 was \$155,391 excluding VAT (2018: \$240,611 excluding VAT). Other than statutory audit fees disclosed in the Statement of Comprehensive Income the only other fees paid to PricewaterhouseCoopers in Dublin, Ireland as the Statutory Auditor of the Trust were in relation to tax services provided amounting to \$93,806 (2018: \$87,115).

#### 9. EFFICIENT PORTFOLIO MANAGEMENT

The Funds are denominated in USD but purchase assets denominated in a range of currencies. During the year, transactions were entered into which are economically appropriate to the reduction of relevant risks or costs to improve investment performance.

Subject to the conditions and within the limits from time to time laid down by the Central Bank, and except as otherwise stated in the investment objective and policies of a Fund, the Investment Adviser and/or Sub-Investment Adviser(s) may employ, for certain Funds, investment techniques and instruments such as futures, forward foreign currency exchange contracts, currency swaps, credit default swaps, total return swaps, options, equity options, warrants and other derivatives for Efficient Portfolio Management ("EPM") purposes if deemed advisable by the Investment Adviser/Sub-Investment Adviser(s). Furthermore, new techniques and instruments may be developed which may be suitable for use by a Fund in the future, and a Fund may employ such techniques and instruments subject to the prior approval of, and any restrictions imposed by, the Central Bank.

For UCITS which have engaged in EPM techniques, certain disclosures are required under Chapter 4 of the Central Bank UCITS Regulations. The Investment Advisers of the Funds have identified all Financial Derivative Instruments (FDIs) which are used for EPM. A UCITS is required to disclose the revenues arising from EPM techniques for the entire reporting period together with the direct and indirect operational costs and fees incurred.

The Funds may also where indicated in the relevant supplement, enter into repurchase, reverse repurchase, sale and buyback agreements and stock lending agreements. The Investment Adviser/Sub-Investment Adviser(s) considers only repurchase agreements, reverse repurchase agreements and securities lending to be EPM techniques. None of the Funds held repurchase agreements, reverse repurchase agreements or took part in securities lending as at 30 September 2019 or at 30 September 2018.

Details of all open transactions at the year end are disclosed in the Portfolios of Investments.

#### 10. DEALING COMMISSION ARRANGEMENTS

The Investment Adviser appointed in relation to each Fund is responsible for the selection of brokers with whom they deal. In relation to certain equity funds, the Investment Adviser/Sub-Investment Adviser(s) have entered into dealing commission arrangements with brokers whereby they obtain services or benefits from them, or from third parties – which are paid for out of commissions charged to the Funds. Such services or benefits relate primarily to research and portfolio management, and ensuring their purchase is compliant with relevant local regulation; including being a permitted service. The relevant Investment Adviser/Sub Investment Adviser(s) are satisfied that trades generating soft commissions comply with the relevant local regulations requiring best execution – which requires consideration of relevant factors, including price and execution quality.

#### 11. FINANCIAL RISK MANAGEMENT

#### Strategy in Using Financial Instruments

The activities of each Fund expose it to a variety of financial risks such as market risk (including currency risk, interest rate risk and price risk), credit risk and liquidity risk. The Funds' overall risk management programme focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the Funds' financial performance. The Funds make use of FDIs to moderate certain risk exposures. The general risk factors set out in the "Special Investment Considerations and Risks" section of the prospectus apply to the Funds and risks specific to these Funds are set out below. These risk factors do not purport to be an exhaustive or complete explanation of all the risks associated with an investment in the Funds and persons considering purchasing units should inform themselves as to (i) the legal requirements within their own countries for the purchase of units, (ii) any foreign exchange restrictions which may be applicable and (iii) the income and other tax consequences of purchase and repurchase of units.

The risk management process operates at a number of levels. In addition to the Investment Adviser/Sub-Investment Adviser(s) monitoring investment activity and exposure at the point of execution ensuring a Fund is managed according to its guidelines and objectives, the Depositary and the Trustee of the Funds also provide an independent analysis of financial instrument exposure by monitoring investment limits in accordance with the UCITS Regulations and the Funds' prospectus.

## 11. FINANCIAL RISK MANAGEMENT (continued)

#### Strategy in Using Financial Instruments (continued)

The Funds' overall market positions are monitored on a daily basis by the Investment Adviser/Sub-Investment Adviser(s) and compliance with the Funds' investment guidelines are monitored on an ongoing basis by the Investment Adviser/Sub Investment Adviser(s) and Trustee. The Board of Directors of the Manager have oversight of the risk management process and receive monthly and quarterly reports from the Investment Adviser/Sub-Investment Adviser(s) and the Trustee. The Funds' investments in securities are subject to normal market fluctuations and other risks inherent in investing in securities. The value of investments and the income from them, and therefore the value of the units can go down as well as up and an investor may not get back the amount they invest.

The strategies as enumerated for the funds below and overleaf are summarised, please refer to the prospectus and supplements of the individual funds for greater detail. These are available on the www.principalglobal.com website.

#### **Global Equity Fund**

The Fund seeks to achieve capital growth over the medium to long term by investing principally in equity securities selected from investment markets around the world. Investments can also include unlisted securities (limited to 10% of the net assets), bank deposits, debt securities, fixed interest and money market securities. The Fund may also invest in Real Estate Investment Trusts ("REITS") and in other Funds of the Trust. No more than 15% of the net assets will be invested in Russia.

## **Asian Equity Fund**

The Fund sought to achieve capital growth over the medium to long term by investing principally in the equity securities of companies domiciled or with their core business in the Asian region (excluding Japan). Investments could also include unlisted securities (limited to 10% of the net assets), bank deposits, debt securities, fixed interest and money market securities. The Fund could also invest in REITS and in other Funds of the Trust. No more than 30% of the net assets would be invested in Pakistan. The Fund terminated on 26 February 2019.

## **European Equity Fund**

The Fund seeks to achieve capital growth over the medium to long term by investing principally in the equity securities of companies domiciled or with their core business in Europe (including Eastern Europe). Investments can also include unlisted securities (limited to 10% of the net assets), bank deposits, debt securities, fixed interest and money market securities. The Fund may also invest in REITS and in other Funds of the Trust. No more than 15% of the net assets will be invested in Russia.

## **Emerging Markets Equity Fund**

The Fund sought to achieve capital growth over the medium to long term by investing principally in the equity securities of companies domiciled or with their core business in the world's emerging investment markets as identified by the International Finance Corporation (a division of the World Bank). Investments could also include unlisted securities (limited to 10% of the net assets), bank deposits, debt securities, fixed interest, money market securities and other CISs. The Fund could also invest in REITS and in other Funds of the Trust. No more than 15% of the net assets would be invested in Russia. The Fund terminated on 26 March 2019.

## **Japanese Equity Fund**

The Fund sought to achieve capital growth over the medium to long term by investing principally in the equity securities of companies domiciled or with their core business in Japan. Investments could also include unlisted securities (limited to 10% of the net assets), bank deposits, debt securities, fixed interest and money market securities. The Fund could also invest in REITS and in other Funds of the Trust. The Fund terminated on 26 February 2019.

## 11. FINANCIAL RISK MANAGEMENT (continued)

#### Strategy in Using Financial Instruments (continued)

#### **Preferred Securities Fund**

The Fund will seek to provide a return consisting of income consistent with capital preservation by investing primarily in a portfolio of USD denominated preferred securities and debt securities. Investments can also include ancillary liquid assets such as bank deposits.

## **U.S. Equity Fund**

The Fund sought to achieve capital growth over the medium to long term by investing principally in the equity securities of companies domiciled or with their core business in the United States, which the Investment Adviser believes were mispriced by the market and have the potential for significant growth. The Fund could invest in both listed and unlisted equity securities, with a level of 10% of the net assets of the Fund permitted in unlisted securities. The Fund could also invest in debt securities, as set out in the prospectus, as well as REITS and other Funds of the Trust. The Fund terminated on 26 February 2019.

#### **High Yield Fund**

The Fund will seek to provide a return consisting of income and, over the long term, capital growth by investing primarily in a portfolio of USD denominated public and private issued high-yield fixed income securities. The Fund may also hold ancillary liquid assets such as bank deposits as well as invest in REITS and in other Funds of the Trust.

#### **Global Property Securities Fund**

The Fund will seek to provide a total return primarily through investment in a global portfolio of publicly traded securities of companies engaged in the property industry or whose value is derived from property assets. The Fund's investments will include no less than 80% of the net assets in REITS or real estate operating companies ("REOCs"). The Fund may also invest in common and preferred equity securities, debt securities, options, warrants (up to 5% of the Fund), convertible securities, exchange traded funds ("ETFs") and depositary receipts.

#### Post Global Limited Term High Yield Fund

The Fund aims to provide a high rate of return with low volatility relative to typical high yield investments by investing primarily in a portfolio of global short-term, lower volatility high yield debt securities with an average duration of approximately 12-24 months. These securities will generally be rated below investment grade. The portfolio will be diversified, consisting from time to time of securities including fixed and floating rate global corporate bonds, debt issued in the leveraged loan market such as bank loan assignments and participations, convertible bonds, commercial paper, private placements, such as section 144A securities, preferred securities, hybrids and taxable municipal bonds. The Fund may also invest in other Funds of the Trust in order to obtain its objective.

## **Origin Global Emerging Markets Fund**

The objective of the Fund is to seek to achieve capital growth through investment in global emerging market equities. The Fund will invest in transferable equity and equity-related securities of a diversified range of companies in what the Sub-Investment Adviser considers to be emerging economies of the world, normally with a minimum market capitalisation on purchase of USD1 billion. These securities will primarily be common stocks and other securities with equity characteristics, including but not limited to preferred stocks, warrants (only held where an existing holding is subject to an issuance of warrants and, in aggregate, normally not more than 5% of the Fund's NAV) and rights as well as depositary receipts for such securities, all of which are traded on securities exchanges or regulated markets.

#### **Origin Global Smaller Companies Fund**

The objective of the Fund is to seek to achieve capital growth through investment in global smaller companies. The Fund will invest in transferable equity and equity-related securities of a diversified range of companies throughout the globe, normally with a maximum market capitalisation on purchase of up to USD5 billion. These securities will primarily be common stocks and other securities with equity characteristics, including but not limited to preferred stocks, warrants (only held where an existing holding is subject to an issuance of warrants and, in aggregate, normally not more than 5% of the Fund's NAV) and rights as well as depositary receipts for such securities, all of which are traded on securities exchanges or regulated markets.

## 11. FINANCIAL RISK MANAGEMENT (continued)

#### Strategy in Using Financial Instruments (continued)

#### **Real Estate Debt Fund**

The objective of the Fund is to provide attractive long term risk adjusted returns. The Fund seeks to achieve the investment objective by investing the majority of its assets in a diversified portfolio of U.S. commercial mortgage-backed securities ("CMBS"). CMBS are structured debt securities, typically secured by diversified pools of mortgages on commercial real estate properties located across the U.S. While the Fund will primarily invest in CMBS, it may also invest in unsecured bonds issued by companies primarily engaged in a real estate or real estate related business. The CMBS and unsecured bonds may include Rule 144A securities. The Fund may also use certain FDI's for investment purposes and the Fund may also hold ancillary liquid assets such as bank deposits and U.S. Treasury Securities.

#### **Global Income Fund**

The investment objective of the Fund is to provide high current income, with reasonable long-term capital appreciation. The Fund seeks to achieve the investment objective by investing the majority of its assets in income-producing equity, debt and hybrid securities. Hybrid securities are securities with features of both debt and equity securities. The Fund will consistently employ a global asset allocation investment process, which is based upon fundamental research driven, long-term focused security selection. The types of debt securities the Fund may invest in include, but are not limited to, corporate, sovereign and quasi-sovereign bonds, commercial and residential mortgage backed securities and other asset backed securities. Investment in commercial and residential mortgage backed securities and other asset backed securities will not exceed 15% of the Fund's NAV in aggregate. The types of hybrid securities the Fund may invest in are preferred stock and convertible securities, including CoCo securities. The Fund may also invest in UCITS or CISs, the constituents of which would typically include the instruments described above.

## Finisterre Unconstrained Emerging Markets Fixed Income Fund

The investment objective of the Fund is to seek to generate total returns through income and capital appreciation, while limiting volatility and potential capital losses. The Fund seeks to achieve its objective by actively investing in a diversified range of fixed-income and FDI, a majority (not less than 51%) issued by or referencing emerging markets. These include corporate, sovereign and quasi-sovereign entities. The Fund seeks to extract value from investments in both investment grade and high yield fixed income instruments, and can include both stressed and distressed securities. A proportion of the net assets of the Fund may be invested in UCITS eligible CISs, including exchange traded funds and the Fund may hold equities as a result of the conversion of a convertible bond or as the result of a debt restructuring.

## **U.S.Blue Chip Equity Fund**

The Fund seeks to achieve capital growth over the medium to long term by investing at least 80% of its net asset value in "Equity and Equity Related Securities" of companies which are incorporated and/or listed on stock exchanges in the United States. A proportion of the net assets of the Fund (subject to a maximum of 10% of its Net Asset Value) may be invested in UCITS eligible collective investment schemes, including exchange traded funds, the constituents of which may comprise the instruments and markets described above and therefore is an alternative means through which the Fund may gain exposure to these types of instruments and markets. The Fund will only invest in AIFs per the Central Bank's Guidance in relation to UCITS Acceptable Investments in other Investment Funds and The Fund may hold ancillary liquid assets.

## **Market Price Risk**

All securities and investments present a risk of loss of capital. The Investment Adviser/Sub-Investment Adviser(s) moderates this risk through diversification and careful selection of securities and other financial instruments within the limits defined in the prospectus.

Except for derivatives, the maximum risk resulting from financial instruments is determined by the fair value of the financial instruments. Possible losses on forwards and futures can result from the movement in currency exchange rates in the time between the forward trade date and the settlement date depending on the volatility of the currencies.

The maximum risk of the Credit Default Swaps and Total Return Swaps is determined by the fair value of the swaps. The Funds' overall market positions are monitored on a daily basis by the Funds' Investment Adviser/Sub-Investment Adviser(s).

The Investment Adviser/Sub-Investment Adviser(s) reviews the portfolio characteristics of each Fund in its entirety. This review may include as appropriate a review of country allocations, country weights, capitalization, distribution, industry sector weights, price/book levels, currency exposure, portfolio maturity, portfolio duration, sector exposure, quality exposure and other key risk measures.

## 11. FINANCIAL RISK MANAGEMENT (continued)

#### Market Price Risk (continued)

The Funds may employ investment techniques and FDIs for EPM and/or investment purposes within the limits set out in the prospectus as described in the sections 'General Information' and 'Special Investment Considerations and Risks'. Each Fund may hold a combination of FDIs such as options, futures, options on futures, forward foreign currency exchange contracts, repurchase contracts, reverse repurchase agreements, sale and buyback agreements, stock lending agreements, credit default swaps, interest rate swaps and other over the counter derivative instruments which may be used subject to the conditions and limits laid down by the Central Bank and the Trust Deed and subject to any other restrictions or regulations which may affect the portfolio management of the Funds.

#### **Sensitivity Analysis**

Sensitivity analysis is an indication based on historical data showing the impact of a 5% movement in the Benchmark on the NAV of the Funds at the Statement of Financial Position date.

#### **Limitations of Sensitivity Analysis:**

Some limitations of sensitivity analysis are;

- the models are based on historical data and cannot take account of the fact that future market price movements, correlations between markets and levels of market liquidity in conditions of market stress may bear no relation to historical patterns;
- the market price risk information is a relative estimate of risk rather than a precise and accurate number;
- the market price information represents a hypothetical outcome and is not intended to be predictive; and future market conditions could vary significantly from those experienced in the past.

## 11. FINANCIAL RISK MANAGEMENT (continued)

#### Market Price Risk (continued)

The Funds' market price risk is managed through investment selection and diversification in accordance with The UCITS Regulations and the limits set out in the prospectus. The Investment Adviser uses their portfolio management selection tool and makes use of tracking errors to monitor deviation with the benchmark. Monthly performance reports are reviewed by the Investment Adviser/Sub-Investment Adviser(s) and quarterly by the Board of Directors of the Manager. Each Fund's overall market exposures and notional exposures for derivatives are disclosed in the Portfolio of Investments.

The Finisterre Unconstrained Emerging Markets Fixed Income Fund's proprietary model uses a non-parametric approach based on a one-tailed confidence level of 99% for a daily horizon and considering no less than two years of historical data.

Market risk exposures for the Funds are measured using value-at-risk (VaR), which estimates the maximum expected loss over a defined financial year for a specified confidence level. The VaR methodology is a statistically defined, probability based approach that takes into account estimates for market volatilities as well as risk diversification by recognising offsetting positions and some estimates of correlations between products. Risks are measured consistently across markets and products, and risk measures are aggregated to arrive at a single risk number.

It is noted that the use of VaR models to assess risk has limitations; these models use historical market data as a basis for their estimates, and assume that future conditions will be like those in the past. The estimates may be unreliable, especially under new or extreme market conditions. As there are frequent changes in a Fund's holdings, the sensitivity analysis should not be relied upon as a measure of future performance.

The VaR as of 30 September 2019 and 30 September 2018 based on a confidence level of 99% is included in the table below:

	30 September 2019	30 September 2018
	%	%
Finisterre Unconstrained Emerging Markets Fixed Income Fund	0.4	0.6

The lowest, highest and average utilisation of the VaR limit, using an Absolute VaR approach based on the above inputs are included in the tables below:

## During the year ended 30 September 2019

	Lowest	Highest	Average
Fund	%	%	%
Finisterre Unconstrained Emerging Markets Fixed Income Fund	0.2	0.7	0.4

## During the year ended 30 September 2018

	Lowest	Highest	Average
Fund	%	%	%
Global Time Diversified Absolute Return Fund <sup>1</sup>	1.2	3.0	2.0
Finisterre Emerging Market Debt Fund <sup>2</sup>	0.2	0.9	0.6
Global Capital Structure Opportunities Fund <sup>3</sup>	0.5	1.0	0.7
Finisterre Unconstrained Emerging Markets Fixed Income Fund	0.3	0.9	0.6

<sup>&</sup>lt;sup>1</sup>Global Time Diversified Absolute Return Fund terminated on 14 September 2018.

## Financial Assets at Fair Value through Profit or Loss

Under FRS 102, the Trust is required to classify fair value measurement using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

• Level 1: The unadjusted quoted price in an active market for identical assets or liabilities that the entity can access at the measurement date.

<sup>&</sup>lt;sup>2</sup>Finisterre Emerging Market Debt Fund terminated on 19 December 2017.

<sup>&</sup>lt;sup>3</sup>Global Capital Structure Opportunities Fund terminated on 14 September 2018.

## 11. FINANCIAL RISK MANAGEMENT (continued)

#### Market Price Risk (continued)

## Financial Assets at Fair Value through Profit or Loss (continued)

- Level 2: Inputs other than quoted prices included within Level 1 that are observable (i.e. developed using market data) for the asset or liability, either directly or indirectly.
- Level 3: Inputs are unobservable (i.e. for which market data is unavailable) for the asset or liability.

The level in the fair value hierarchy within which the fair value measurement is categorised in its entirety is determined on the basis of the lowest level input that is significant to the fair value measurement in its entirety. For this purpose, the significance of an input is assessed against the fair value measurement in its entirety. If a fair value measurement uses observable inputs that require significant adjustment based on unobservable inputs, that measurement is a level 3 measurement. Assessing the significance of a particular input to the fair value measurement in its entirety requires judgement, considering factors specific to the asset or liability.

"FRS 102 - Fair value hierarchy disclosures" require disclosure of financial instruments held at fair value on the basis of a fair value hierarchy consistent with EU-adopted IFRS based on Level 1, 2 and 3 classifications. The financial statements and comparatives have been prepared in accordance with these amendments and fair value measurement is categorised based on Levels 1, 2 and 3.

The fair value of securities held in Level 3 for the year ended 30 September 2019 was USD 24,389 (30 September 2018: nil). Securities fair valued at nil have been indicated by a footnote on any relevant funds in the following tables. As at 30 September 2019, the Asian Equity Fund held 266,000 shares of Peace Mark Holdings Ltd which was fair valued at nil (30 September 2018: nil).

The following tables analyse the financial assets of each Fund against the fair value hierarchy and measures them at fair value for 30 September 2019 and 30 September 2018 in accordance with FRS 102.

## 11. FINANCIAL RISK MANAGEMENT (continued)

#### Interest Rate Risk

Funds which hold interest bearing financial assets and liabilities are exposed to interest rate risk, where the value of the securities may fluctuate as a result of a change in interest rate.

This risk is managed by the setting of limits on the level of cash holdings in the Funds. Such limits are set out in the Funds' prospectus. With the fixed income Funds, the Investment Adviser/Sub-Investment Adviser(s) have set limits of exposure and use an internal process to monitor macroeconomic factors affecting interest rate risk.

The Global Equity Fund, Asian Equity Fund (Terminated on 26 February 2019), European Equity Fund, Emerging Markets Equity Fund (Terminated on 26 March 2019), Japanese Equity Fund (Terminated on 26 February 2019), U.S. Equity Fund (Terminated on 26 February 2019), Global Property Securities Fund, Origin Global Emerging Markets Fund, Origin Global Smaller Companies Fund and U.S. Blue Chip Equity Fund (launched on 15 August 2019) are not included in the below table as the majority of the financial assets and liabilities of those Funds are non-interest bearing or have a very short time to maturity. As a result, those Funds are not subject to significant amounts of risk due to fluctuations in the market interest rates.

The following tables summarise the exposure to interest rate risk for the Preferred Securities Fund, High Yield Fund, Post Global Limited Term High Yield Fund, Real Estate Debt Fund, Global Income Fund and Finisterre Unconstrained Emerging Markets Fixed Income Fund. They include each Fund's assets and trading liabilities at fair values, categorised by the earlier of contractual re-pricing or maturity dates.

The overleaf interest rate sensitivity information is a relative estimate of risk and is not intended to be a precise and accurate number. The calculations are based on historical data. Future price movements and correlations between securities could vary significantly from those experienced in the past.

## 11. FINANCIAL RISK MANAGEMENT (continued)

Interest Rate Risk (continued)

As at 30 September 2018 (continued)

Approximate increase or decrease in NAV due to a 1% change in market interest rates

		Change in NAV	
Fund Name	Currency	As at 30 September 2019	As at 30 September 2018
Preferred Securities Fund	USD	40,582,985	42,853,413
High Yield Fund	USD	2,028,349	1,857,206
Post Global Limited Term High Yield Fund	USD	5,250,560	7,014,515
Real Estate Debt Fund	USD	76,525	90,938
Global Income Fund	USD	233,742	206,487

The Investment Adviser considers a 1% movement to be reasonable.

The Finisterre Unconstrained Emerging Markets Fixed Income Fund has not been included as it uses an Absolute VaR model for sensitivity risk, and as a result there is no sensitivity analysis prepared for this fund.

## **Currency Risk**

The Funds may hold assets denominated in currencies other than the functional currency of a Fund. They are therefore exposed to currency risk, as the value of the securities denominated in other currencies will fluctuate due to changes in exchange rates. A Fund may utilise financial instruments to hedge against fluctuations in the relative values of their portfolio positions.

The Investment Adviser/Sub-Investment Adviser(s) monitors the currency positions on a daily basis utilising quantitative and fundamental models.

The Real Estate Debt Fund and U.S. Blue Chip Equity Fund are not subject to foreign currency exposure.

The following tables detail the material monetary currency exposures.

#### **Currency Sensitivity Analysis**

The table overleaf details the approximate increase or decrease in Net Assets Attributable to Redeemable Participating Unitholders had the exchange rate between the base currency of the relevant Fund and the relevant foreign currency increased by 5% (or 10% for emerging market currencies) for the monetary assets and non-monetary assets. For forward foreign currency exchange contracts the 5% (or 10% for emerging market currencies) has been applied to the contract price. The Investment Adviser/Sub-Investment Adviser(s) considers this movement to be reasonable.

Emerging market countries are those that have low or middle per capita income as determined by the World Bank for at least two consecutive years based on data lagging one year, or those countries that either had restructured external/local debt during the past 10 years or currently have restructured external/local debt outstanding. Investments denominated in emerging market currencies may experience more volatility, can be subject to significant depreciation and may not be freely convertible.

#### **Depositary Risk**

The Trust's Depositary is The Bank of New York Mellon SA/NV, Dublin Branch ("the Depositary"). Substantially all of the Cash at Bank and investments in debt securities of the Trust are held by the Depositary. The Trust is exposed to credit risk through the use of the Depositary for their cash and investments. Bankruptcy or insolvency of the Depositary may cause the Trust's rights with respect to its cash and investments in debt securities held by the Depositary to be delayed or limited. The maximum exposure to this risk at 30 September 2019 and 30 September 2018 is the amount of Cash at Bank disclosed in Note 4 and the investments in securities, liquidity instruments and forward foreign currency exchange contracts disclosed in the relevant Funds' Portfolio of Investments.

To mitigate the risks the Trust is exposed to from the use of the Depositary, the Manager employs appropriate procedures to ensure that the counterparties are reputable institutions and that the credit risk is acceptable to the Trust. The Trust only transacts with Depositary's that are regulated entities subject to prudential supervision, or with high credit-ratings assigned by international credit-rating agencies. In addition, the Trust's non-cash assets are maintained by the Depositary in segregated accounts. Thus in the event of insolvency or bankruptcy of the Depositary the Trust's non-cash assets are segregated and protected and this further reduces counterparty risk. The Trust will, however, be exposed to the credit risk of the Depositary or counterparty/Sub-Custodian used by the Depositary, in relation to the Trust's Cash at Bank held by the Depositary. In the event of the insolvency or bankruptcy of the Depositary, the Trust will be treated as a general creditor of the Depositary in relation to cash holdings of the Trust. To mitigate these risks the Investment Adviser ensures that the Trust transacts only with Depositary's that are regulated entities subject to prudential supervision or with high credit-ratings assigned by international credit-rating agencies.

<sup>&</sup>lt;sup>2</sup>Emerging Markets Equity Fund terminated on 26 March 2019.

<sup>&</sup>lt;sup>3</sup>Japanese Equity Fund terminated on 26 February 2019.

<sup>&</sup>lt;sup>4</sup>U.S. Equity Fund terminated on 26 February 2019.

<sup>&</sup>lt;sup>5</sup>Global Small Cap Equity Fund terminated on 14 September 2018.

<sup>&</sup>lt;sup>6</sup>Claritas Latin American Equity Fund terminated on 28 February 2018.

<sup>&</sup>lt;sup>7</sup>U.S. Blue Chip Equity Fund launched on 15 August 2019.

<sup>^</sup>There is no currency sensitivity analysis for U.S. Equity Fund, Real Estate Debt Fund and U.S. Blue Chip Equity Fund as these funds are not exposed to currency risk.

## 11. FINANCIAL RISK MANAGEMENT (continued)

#### **Credit Risk**

The Funds will be exposed to credit risk, which is the risk that a counterparty or issuer will be unable to pay amounts in full when due. Impairment provisions are provided for losses that have been incurred by the Statement of Financial Position date, if any. The carrying amount of financial assets best represents its maximum exposure to credit risk at the reporting date.

The Funds' main credit risk concentrations arise from trading equity and debt securities and FDIs in addition to the Cash at Bank balances held at the Depositary, Trustee and other counterparties. The Funds' prospectus lists various investment restrictions with regard to issuer and counterparty concentration limits.

All transactions in listed securities are settled/paid for upon delivery using approved brokers. The risk of default is considered minimal, as delivery of securities sold is only made once the broker has received payment. Payment is made on a purchase once the securities have been received by the broker. The trade will fail if either party fails to meet their obligation.

The Funds that engage in swaps trading bilaterally restrict their exposure to credit losses on the trading of derivative instruments held by entering into master netting arrangements with counterparties. Netting arrangements do not result in an offset of Statement of Financial Position assets and liabilities, as transactions are usually disclosed on a gross basis and settled on a net basis. However, the credit risk associated with favourable contracts is reduced by a netting arrangement to the extent that if an event of default occurs, all amounts with the counterparty are terminated and settled on a net basis. The Funds that engage in swaps trading through a CCP restrict their exposure to credit losses on the trading of derivative instruments held by entering into master netting arrangements with the CCP. There were no CCPs at 30 September 2019 and September 2018.

The Investment Adviser/Sub-Investment Adviser(s) may utilise over-the-counter and exchange traded derivatives. Derivatives traded on exchanges will usually be supported by daily margin calls and therefore not carry the same degree of counterparty risk.

The Investment Adviser/Sub-Investment Adviser(s) may also use Futures and Options as part of its investment strategy. The Funds' ability to use these strategies may be limited by market conditions, regulatory requirements and tax considerations.

As part of its investing in derivatives the Funds may pledge or receive collateral. This collateral can be pledged or received either in the form of cash and cash equivalents or securities. There is a risk that the value of such collateral may fall below the value of the underlying derivatives. In addition, as the Funds may invest in Cash Collateral received, subject to conditions, the Funds may be exposed to the risk associated with such investments, such as failure or default of the issuer of the relevant security.

The prices of all derivative instruments, including Forward Foreign Currency Exchange Contracts, Spot Currency Contracts, Futures, Options, Interest Rate Swaps, Credit Default Swaps and Total Return Swaps are highly volatile. The Fund is also subject to the risk of the failure of any of the exchanges on which the open exchange traded Futures Contracts are traded and backed by the exchange. Margin Cash Receivable/Payable consists primarily of cash receivable/payable from the Trust's clearing broker. Derivative instruments held with counterparties are held on an unsecured basis.

### 11. FINANCIAL RISK MANAGEMENT (continued)

#### **Credit Risk (continued)**

The counterparties for the various investments held by the Funds are listed below along with their credit rating at 30 September 2019:

Financial Instrument Type	Counterparty	Credit Rating at 30 September 2019
Forward Foreign Currency Exchange Contracts	Barclays	BBB
Exchange Contracts	Citigroup HSBC JPMorgan Chase & Co Royal Bank of Canada Standard Chartered State Street Global Markets The Australia and New Zealand Banking Group The Bank of New York Mellon	BBB+ A A- A A AA- A
Future Contracts	Citigroup	BBB+
Spot Currency Contracts	Royal Bank of Canada Standard Chartered State Street Global Markets The Australia and New Zealand Banking Group The Bank ofNew York Mellon	A A A AA- A
Swap Contracts	Citigroup Goldman Sachs HSBC JPMorgan Chase & Co	BBB+ BBB+ A A-
Financial Instrument Type	Counterparty	Credit Rating at 30 September 2018
Forward Foreign Currency Exchange Contracts	HSBC JP Morgan Chase & Co State Street Global Markets The Bank of New York Mellon	A A- A A
Spot Currency Contracts	State Street Global Markets The Bank of New York Mellon	A A
Swap Contracts	Barclays Citigroup HSBC	A BBB+ A

There were no assets held by the Funds with counterparties that were past due or impaired at 30 September 2019 or 30 September 2018.

The Funds reduce issuer risk by having investment restrictions in place and subjecting issuers to a selection process that includes a review of their rating.

The Funds' exposure and the credit quality of financial assets invested in are continuously monitored by the Investment Adviser/Sub-Investment Adviser(s).

#### 11. FINANCIAL RISK MANAGEMENT (continued)

#### **Credit Risk (continued)**

The Preferred Securities Fund, High Yield Fund, Post Global Limited Term High Yield Fund, Real Estate Debt Fund, Global Income Fund and Finisterre Unconstrained Emerging Markets Fixed Income Fund had the following exposure to counterparty and issuer credit risk at 30 September 2019.

Preferred Securities Fund		High Yield Fund		Post Global Limited Term High

### **Liquidity Risk**

Liquidity risk is the risk that the Funds will experience difficulty in either realising assets or otherwise raising sufficient funds to satisfy commitments associated with financial instruments. This arises when trading volume, lack of a market maker or legal restrictions impair the Funds' ability to sell particular securities at an advantageous time or price.

The Funds, with the exception of the Post Global Limited Term High Yield Fund which is exposed to bi-monthly cash redemptions and are exposed to daily cash redemptions by Unitholders. Therefore, the Funds invest the majority of their assets in investments that are traded in an active market and can be readily disposed of; only a limited proportion of the assets are invested in assets not actively traded on a stock exchange. In addition, the Funds may restrict redemptions and have the ability to borrow in the short term to ensure settlement.

The Investment Adviser/Sub-Investment Adviser(s) monitors the Funds' liquidity positions on a daily basis.

As at 30 September 2019 and 30 September 2018, all of the Funds' financial liabilities and all of the Funds' FDIs were due or settled within 1 month of the Statement of Financial Position date with the exception of the following;

- Audit Fees Payable which will be due or settled within 3 months to 1 year of the Statement of Financial Position date. These fees payable are detailed on each individual Fund's Statement of Financial Position as at 30 September 2019 and as at 30 September 2018.
- Derivatives contracts held by some of the Funds where the maturity dates are detailed in the Portfolios of Investments.

## 11. FINANCIAL RISK MANAGEMENT (continued)

#### Cybersecurity Risk

Cybersecurity breaches may occur allowing an unauthorised party to gain access to assets of the Funds, Unitholder data, or proprietary information, or may cause the Trust, the Investment Adviser, the Sub-Investment Adviser(s), the Distributor, the Administrator or the Depositary to suffer data corruption or lose operational functionality.

The Funds may be affected by intentional cybersecurity breaches which include unauthorised access to systems, networks, or devices (such as through "hacking" activity); infection from computer viruses or other malicious software code; and attacks that shut down, disable, slow or otherwise disrupt operations, business processes or website access or functionality. In addition, unintentional incidents can occur, such as the inadvertent release of confidential information (possibly resulting in the violation of applicable privacy laws). A cybersecurity breach could result in the loss or theft of Unitholder data or funds, the inability to access electronic systems, loss or theft of proprietary information or corporate data, physical damage to a computer or network system, or costs associated with system repairs. Such incidents could cause the Trust, the Investment Adviser, the Sub-Investment Adviser(s), the Distributor, the Administrator, the Depositary or other service providers to incur regulatory penalties, reputational damage, additional compliance costs or financial loss. Consequently, Unitholders may lose some or all of their invested capital. In addition, such incidents could affect issuers in which a Fund invests and thereby cause a Fund's investments to lose value, as a result of which investors, including the relevant Fund and its Unitholders, could potentially lose all or a portion of their investment with that issuer.

#### 12. TRANSACTION COSTS

Each Fund's transaction costs incurred during the year ended 30 September 2019 relate to the purchase or sale of transferable securities, derivatives or other eligible assets. Transaction costs include commission costs, settlement fees and broker fees.

The transaction costs incurred are as follows:

	30 September 2019 USD	30 September 2018 USD
Global Equity Fund	37,432	29,307
Asian Equity Fund <sup>2</sup>	14,607	27,493

Finisterre Unconstrained Emerging Markets Fixed Income Fund <sup>1</sup>	_	_
U.S. Blue Chip Equity Fund <sup>8</sup>	2,029	_

<sup>&</sup>lt;sup>1</sup>The transaction costs for these Funds are embedded within the purchase and sale prices and have not been separately identified.

<sup>&</sup>lt;sup>2</sup>Asian Equity Fund terminated on 26 February 2019.

<sup>&</sup>lt;sup>3</sup>Emerging Markets Equity Fund terminated on 26 March 2019.

<sup>&</sup>lt;sup>4</sup>Japanese Equity Fund terminated on 26 February 2019.

<sup>&</sup>lt;sup>5</sup>U.S. Equity Fund terminated on 26 February 2019.

<sup>&</sup>lt;sup>6</sup>Global Small Cap Equity Fund terminated on 14 September 2018.

<sup>&</sup>lt;sup>7</sup>Claritas Latin America Fund terminated on 28 February 2018.

<sup>8</sup>U.S. Blue Chip Equity Fund launched on 15 August 2019.

#### 13. GLOBAL EXPOSURE

Investment Adviser/Sub-Investment Adviser(s) employs a documented Risk Management Process in relation to the use of FDIs, which ensures the risk associated with the positions is measured, monitored and managed. In respect of the Finisterre Unconstrained Emerging Markets Fixed Income Fund; an Absolute VaR Approach, based on a confidence level of 99% for a daily horizon and considering at least two years of historical data is used to manage risk (Refer to Note 11 for more details on VaR). In relation to the remaining Funds, the Commitment approach is used; which entails monitoring global exposure and counterparty exposure associated with the positions.

#### 14. EXCHANGE RATES

# PRINCIPAL GLOBAL INVESTORS FUNDS UCITS V Remuneration Policy (UNAUDITED) for the year ended 30 September 2019

### **UCITS V Remuneration Policy (Unaudited)**

### Regulation 89(3A) of the UCITS Regulations: UCITS V Remuneration Requirements;

Regulation 89(3A) of the UCITS Regulations (as introduced pursuant to the UCITS V Regulations on 21 March 2016) requires that the annual report of Principal Global Investors Funds (the "Trust") contains certain disclosures on remuneration paid by the manager to its staff during the year and details of any material changes to the managers remuneration policy made during the year. In this regard, the following points are to be noted:

- The Manager has prepared a remuneration policy outlining how it adheres to the remuneration requirements set out the UCITS Regulations. This policy was adopted with effect from 18 March 2016.
- An annual review was undertaken of the remuneration policy during the financial year and no material changes were made to the remuneration policy.
- The Manager has no employees or staff that it employs and pays directly. The Manager has a Board of Directors, three of whom are employees of the Principal Group and receive no remuneration from the Manager. The remaining four directors, each of whom is independent, receive a fixed fee only (for the year ended 30 September 2019; €100,000 in aggregate) and do not receive variable remuneration. These fees are set at a level that reflects the scope and complexity of its activities.

The Manager delegates certain portfolio management activities for the Trust to Principal Global Investors LLC, (the "Delegate") and to Principal Global Investors (Europe) Limited, Principal Global Investors (Australia) Limited, Spectrum Asset Management, Principal Real Estate Investors LLC, Principal Global Investors (Japan) Limited, Principal Global Investors (Singapore) Limited, Post Advisory Group LLC, Origin Asset Management LLP, Finisterre Malta Limited and Finisterre Capital LLP, (the – "sub-Delegates")

The Delegate has calculated that, in aggregate, it pays its relevant staff\*\* the following in relation to the functions it performs in respect of the Trust:

An aggregate amount of \$4,422,028 including no received performance fees. This amount is applied across 50 members of staff at the Delegate and is apportioned as approximately \$615,954 in aggregate fixed remuneration and \$3,806,074 in aggregate variable remuneration.

In accordance with applicable European regulation and guidance, these figures are calculated on the basis of fee income received by the Delegate in relation to the Trust and how this correlates with the relevant staff's remuneration. Further, these figures relate only to the proportion of the relevant staff's remuneration that is estimated to be attributed, on a pro rata basis, to the functions such staff perform for the Delegate in relation to the Trust.

# Securities Financing Transactions Regulation (UNAUDITED) for the year ended 30 September 2019

### **Securities Financing Transactions on Total Return Swaps**

The following table details the gross aggregate fair value for total return swaps held on Finisterre Unconstrained Emerging Markets Fixed Income Fund, analysed by counterparty, as at the Statement of Financial Position date.

Counterparty	Counterparty's country of incorporation	Total Return Swaps USD
HSBC	United States	1,035,948
		1,035,948

The gross aggregate fair value of total return swaps as a proportion of the Fund's NAV, as at the Statement of Financial Position date, is 0.16%.

The following table provides an analysis of the maturity tenor of open Securities Financing Transactions ("SFTs") on Total Return Swaps ("TRS") and associated collateral received/provided, as at the Statement of Financial Position date.

Maturity tenor	OTC derivative transactions (net exposure) USD	Cash collateral received/ (provided) USD	Non-cash collateral received/ (provided) USD
1 day	-	-	-
2 to 7 days	-	-	-
Open	1,035,948	-	-
Total	1,035,948	-	-

The above maturity tenor analysis has been based on the contractual maturity date of the relevant SFTs on TRS and, in case of non-cash collateral, the contractual maturity date of the security received/provided as collateral.

SFTs on TRS are entered into by the Fund/s under an International Swaps and Derivatives Associations, Inc. Master Agreement ("ISDA Master Agreement") or similar agreement. An ISDA Master Agreement is a bilateral agreement between the Fund/s and a counterparty that governs SFTs (including TRS) entered into by the parties. All SFTs on TRS entered under an ISDA Master agreement are netted together for collateral purposes.

TRS are marked to market using valuation sources/methods and the fair value is recorded in the Statement of Financial Position as Unrealised Gain on Swap Contracts. The change in unrealised gains and losses is shown in Net gain/(loss) on investment activities in the Statement of Comprehensive Income and is not subject to any returns sharing arrangements with the Fund's Investment Adviser or any other third parties.
