

KEY INVESTOR INFORMATION

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

TCW Unconstrained Bond Fund

Class: AU

a Sub-Fund of TCW Funds

ISIN: LU1437591057

Management Company: Carne Global Fund Managers (Luxembourg) S.A.

Objective and Investment Policy

The Sub-Fund seeks to provide investors with positive long-term returns irrespective of general securities market conditions.

To achieve this objective, the Sub-Fund invests directly at least 80% of its net assets in securities and instruments qualifying as bonds in the U.S. and abroad, including Emerging Market Countries, and in derivative instruments that provide investment exposure to such securities. The Sub-Fund may purchase securities of varying maturities issued by domestic and foreign corporations and governments.

The Sub-Fund may invest in both investment grade and high yield fixed income securities (commonly called “junk bonds”), subject to investing no more than 50% of its total assets (measured at the time of investment) in securities rated below investment grade by Moody’s, S&P or Fitch, or, if unrated, determined by the Investment Manager to be of comparable quality.

Under normal conditions, the average portfolio duration of the fixed-income portion of the Sub-Fund’s portfolio will vary from negative three (-3) years to positive eight (8) years. Duration is a measure of the sensitivity of a security to changes in interest rates. As a separate measure, there is no limit on the weighted average maturity of the Sub-Fund’s portfolio.

Investments include various types of bonds and other securities, typically corporate bonds, notes, collateralized bond obligations, collateralized debt obligations, mortgage-related and asset-backed securities, bank loans (subject to the 10% limitation defined by Article 41 (2) a) of the 2010 Law), money-market securities, swaps, futures, municipal securities, options, credit default swaps, private placements and restricted securities.

These investments may have interest rates that are fixed, variable or floating.

The Sub-Fund may also invest in other instruments including bonds and money market instruments other than those mentioned above, convertible bonds; equity and equity-linked instruments;

Risk and Reward Profile

The shaded area in the table above shows the Class’ ranking based on the Synthetic Risk and Reward Indicator. The risk/return indicator suggests the relationship between risk and potential returns when investing in the Sub-Fund.

Historical data, such as is used in calculating the synthetic indicator, may not be a reliable indication of the future risk profile of the Sub-Fund. The risk and reward category shown is not guaranteed to remain unchanged and may shift over time. Category 1 does not mean a risk-free investment.

This Share Class has a ranking of 3, which indicates that there is typically a moderate risk for up and downturns in the net asset value. This ranking is typically used to indicate a level of risk that is greater than other Sub-Funds that invest in assets such as bonds issued by organizations with high credit quality domiciled in developed markets, but less than Sub-Funds that invest in assets such as equity.

The following risks are materially relevant to the Sub-Fund but are not adequately captured by the synthetic indicator and may cause additional loss: “liquidity risk,” “credit risk,” “counterparty risk,” “cross-liability risk,” and “operational risk”.

- Liquidity risk refers to the possibility that the Sub-Fund may lose money or be prevented from earning capital gains if it cannot sell a security at the time and price that is most beneficial to the Sub-

units/shares of UCITS and/or other UCIs up to 10% of the net assets; deposits; and MBS and ABS for a maximum of 100% of its net assets and other financial derivative instruments.

The Sub-Fund is actively managed. An actively managed fund is a fund in which the investment manager makes decisions about how to invest the fund’s capital.

Sustainable Investment Approach This is an ESG Promotion Sub-Fund. This Sub-Fund promotes and integrates ESG factors and Sustainability Risks in its investment strategy within the meaning of Article 8 of the SFDR and promotes ESG factors and Sustainability Risks as described in Appendix V – Sustainability Disclosures www.tcw.com/en/Literature/Prospectus.

Benchmark: ICE BofA U.S. Dollar 3- Month Deposit Offered Rate Average Index. The Sub-Fund is not constrained by the benchmark.

Geographical constraints: The Sub-Fund will generally invest in US and abroad including Emerging Market Countries.

Currency hedging: This Share Class is denominated in USD with no currency hedge.

Net asset value calculation frequency: Daily, any full working day in Luxembourg when the banks are opened for business, the New York Stock Exchange is open and when the markets on which the majority of the Sub-Fund’s portfolio is invested are open.

The shares are capitalized. In consequence, unless specifically decided otherwise, no dividends are distributed to the shareholders.

Recommendation: The recommended investment period in this Sub-Fund is medium to long-term.

Fund.

- Credit risk refers to the likelihood of the Sub-Fund losing money if an issuer is unable to meet its financial obligations, such as the payment of principal and/or interest on an instrument, or goes bankrupt.
- Counterparty risk refers to the fact that individually negotiated or over-the-counter derivatives, such as swap agreements or currency forwards, are subject to counterparty risk, which is the risk that the other party to the contract will not fulfill its contractual obligations, which may cause losses or additional costs to a Sub-Fund.
- Cross-liability risk: While there is no cross-liability between Sub-Funds under Luxembourg law there can be no assurance that such provisions of Luxembourg law will be effective in other jurisdictions. There is crossliability between Classes of the same Sub-Fund.
- Operational risk refers to a failure or delay in the systems, processes and controls of the Sub-Fund or its service providers (including all safekeeping of assets) which could lead to losses for the Sub-Fund.

Charges

The charges are used to pay the costs of running the Sub-Fund, including the costs of marketing and distributing the Sub-Fund. These charges reduce the potential growth of the investment.

One-off charges taken before or after you invest

Entry charge	Up to: 4.50%
Exit charge	None

This is the maximum percentage which might be deducted from your capital commitment to the Sub-Fund. In some cases, you might pay less. You can find out the actual entry and exit charges from your financial adviser or distributor. The entry charges are deducted before your capital is invested.

Charges taken from the fund over a year

Ongoing charges	1.50%
-----------------	-------

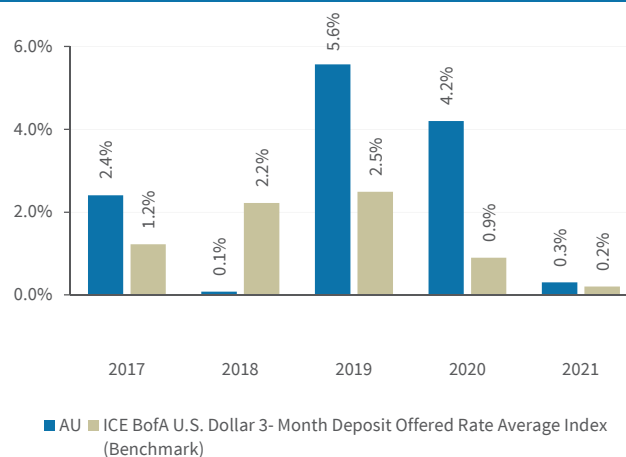

The ongoing charges figure is based on the capped Total Expense Ratio that the Investment Manager has committed to through 31 December 2022. This figure may vary after 31 December 2022. The ongoing charges do not include the portfolio transaction costs, except in the case of an entry/exit charge paid by the Fund when buying or selling units in another collective investment undertaking.

Charges taken from the fund under certain specific conditions

Performance-related fees	None
--------------------------	------

You can obtain further information about these charges, in the “fees and expenses” section of the prospectus which is available at the Registrar Agent at Société Générale Luxembourg, Operational Center, 28-32, Place de la Gare, L-1616 Luxembourg and online at the following web site: www.fundsquare.net.

Past Performance

Past performance is not necessarily indicative of future performance.

The calculation of performance includes all fees and commissions.

Past performance is calculated in USD.

The Sub-Fund launched on 12 September 2014. The Share Class launched on 27 June 2016.

The use of this benchmark is for comparison purposes only and it is not used for tracking or superperforming purposes.
