Unless the context otherwise requires, terms defined in the Prospectus shall have the same meaning when used in this PHS

Investment Strategy	
<ul style="list-style-type: none"> • The Fund's investment strategy consists in selecting global equity securities offering statistical characteristics (specifically standard deviation and correlation) that enable the Fund to benefit from low absolute volatility. • When building and managing the Fund's portfolio, the investment manager takes into account the following factors: <ul style="list-style-type: none"> ○ The standard deviation of each individual equity security; ○ The correlation of each individual equity security to other equity securities; and ○ The weight of each equity securities within the portfolio. • The Fund invests at least 90% of its net assets into global equity securities including emerging markets. The Fund exposure to the global equity market evolves between 90% and 110% of its net assets. The Fund may invest in small and mid-capitalization equity securities and may invest up to 10% of its net assets in money market and cash instruments. • The Fund may use derivatives for hedging and investment purposes and enter into securities lending and borrowing transactions as well as repurchase agreements and reverse repurchase agreements, as described under "Use of Derivatives, Special Investment and Hedging Techniques" in the Luxembourg Prospectus. 	<p>Refer to INVESTMENT OBJECTIVE AND POLICIES OF THE SUB FUNDS paragraph in the Prospectus for further information on features of the product.</p>
Parties Involved	
<p>WHO ARE YOU INVESTING WITH?</p> <ul style="list-style-type: none"> • SICAV/Umbrella Fund: NATIXIS AM FUNDS • Management Company: Natixis Investment Managers International • Investment Manager: SEEYOND • Depositary: CACEIS Bank, Luxembourg Branch 	<p>Refer to MANAGEMENT AND ADMINISTRATION OF THE SICAV paragraph in the Prospectus for further information on the role and responsibilities of these entities and what happens if they become insolvent.</p>
KEY RISKS	
<p>WHAT ARE THE KEY RISKS OF THIS INVESTMENT?</p> <ul style="list-style-type: none"> • The price of Shares of the Fund and any income from it may rise or fall. These risk factors may cause you to lose some or all of your investment 	<p>Refer to the PRINCIPAL RISKS paragraph in the Prospectus for further information on the risks of the product.</p>
Market and Credit Risks	
<ul style="list-style-type: none"> • You are exposed to Market Risks – Your investment may go up or down due to changing economic, political or market conditions that impact the prices of the bonds or other securities that the Fund invests in. • You are exposed to Credit Risks - The issuer of any debt security acquired by the Fund may default on its financial obligations. Moreover, the price of any debt security acquired by the Fund normally reflects the perceived risk of default of the issuer of that security at the time the Fund acquired the security. If after acquisition the perceived risk of default increases, the value of the security held by the Fund is likely to fall. 	

Liquidity Risks							
<ul style="list-style-type: none"> • You are exposed to Liquidity risks – The Fund may acquire securities that are traded only among a limited number of investors and the Fund may face difficulty in disposing of those securities quickly or in adverse market conditions. Unusual market conditions or unusually high volumes of repurchase requests may cause lack of liquidity and efficiency in certain markets and the Fund may experience some difficulties in purchasing or selling holdings of securities and therefore meeting your subscription or redemptions requests. The Fund is subject to redemption rules. • Redemptions may only occur on Fund Dealing Days - Shares may only be redeemed on any Dealing Day. 	<p>Refer to the REDEMPTION OF SHARES paragraph in the Prospectus for further information.</p>						
Product Specific Risks							
<ul style="list-style-type: none"> • You are exposed to Capital Loss risk – Principal value and returns fluctuate over time (including as a result of currency fluctuations) so that Shares, when redeemed, may be worth more or less than their original cost. There is no guarantee that the capital invested in a Share will be returned to the investor in full. • You are exposed to Equity Securities risk – Investing in equity securities involve risks associated with the unpredictable drops in a stock's value or periods of below-average performance in a given stock or in the stock market as a whole. • You are exposed to Small and Mid-Capitalization Companies risk – Investments in small and mid-capitalization companies may involve greater risks than investments in larger companies, including fewer managerial and financial resources. Stocks of small and mid-size companies may be particularly sensitive to unexpected changes in interest rates, borrowing costs and earnings. As a result of trading less frequently, stocks of small and mid-size companies may also be subject to wider price fluctuations and may be less liquid. • You are exposed to Emerging Markets risk – Investments in emerging market securities involve certain risks, such as illiquidity and volatility, which may be greater than those generally associated with investing in developed markets. The extent of economic development, political stability, market depth, infrastructure, capitalization, and regulatory oversight in emerging market economies may be less than in more developed countries • You are also exposed to Exchange Rates risk, Geographic Concentration risk, Portfolio Concentration risk, risks related to investments in Financial Derivatives Instruments, Counterparty risk and risks related to Changes in laws and/or tax Regimes. 	<p>Refer to the PRINCIPAL RISKS paragraph in the Prospectus for further information on the specific risks of the product.</p>
