

Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

Neuberger Berman US Real Estate Securities Fund ("Fund")

a sub-fund of Neuberger Berman Investment Funds plc

USD E (Monthly) Distributing Class (IE00BYN4NV86)

This Fund is managed by Neuberger Berman Europe Limited

OBJECTIVES AND INVESTMENT POLICY

The Neuberger Berman US Real Estate Securities Fund ("Fund") aims to increase the value of your shares through a combination of growth and income from investments in real estate securities.

The Fund invests predominantly in securities issued by US Real Estate Investment Trusts ("REITs") and does not invest directly in real estate. REITs are companies or trusts that invest mainly in income producing real estate. They may invest broadly or specialise in a particular sector such as offices, industrial buildings or shopping centres.

The Fund can invest in:

- Equity REITs which invest the majority of their assets directly in property and derive their income from rents and capital gains from appreciation realised through property sales
- Mortgage REITs which invest the majority of their assets in real estate mortgages and derive their income mainly from interest payments
- Hybrid REITs which combine the characteristics of both equity and mortgage REITs
- Debt securities which are issued by US private and government issuers

RISK AND REWARD PROFILE

Lower risk

Typically lower rewards

This Fund is in category 5 due to its level of historical volatility. As the share class has less than 5 years of returns history, the historical volatility includes benchmark/representative portfolio returns. The Fund invests in a variety of investments, some of which can vary significantly in price from day to day due to a number of factors.

The main risks facing the Fund are:

- **Market Risk:** The risk of a change in the value of a position as a result of underlying market factors, including the overall performance of companies and the market perception of the global economy.
- **Liquidity Risk:** The risk that the Fund may be unable to sell an investment readily at its fair market value. This may affect the value of the Fund and in extreme market conditions its ability to meet redemption requests upon demand. To counter this risk the Fund actively monitors the liquidity of its investments.
- **Counterparty Risk:** The risk that a counterparty will not fulfil its payment obligation for a trade, contract or other transaction, on the due date. The insolvency of any institution providing services such as the safekeeping of assets or acting as counterparty in respect of derivatives or other instruments may expose the Fund to financial loss.
- **Derivative Risk:** The Fund is permitted to use certain types of derivative instruments to seek to protect its assets against some of the risks outlined in this section. Their use will create leverage, an investment technique which gives an investor a larger exposure to an asset than the amount it invested. The Fund's use of leverage may result in greater

REITs are listed and traded regularly on major stock markets in the US, including the New York Stock Exchange.

The Fund does not track a benchmark. However, its performance may be compared against the FTSE NAREIT All Equity REITs Index (Total Return, Net of Tax, USD) which is an index of publicly traded REITs that own commercial property.

This Fund may not be appropriate for short-term investment and is more suitable as part of a diversified portfolio.

You may sell your shares on any day when the financial markets in London and New York are open for business.

Your shares pay you a dividend on a monthly basis.

Monthly distributing classes will distribute out of income and may also pay out of capital which will be eroded; investors in these classes should be aware that the payment out of capital may have different tax implications to distributions of income and should seek tax advice.

Transaction costs will reduce the Fund's return.

variations (both positive and negative) in the value of your shares. However, leverage is limited to 100% of the Fund's assets and the Investment Manager will ensure that the Fund's use of derivatives does not materially alter the overall risk profile of the Fund. Please refer to the Prospectus for a full list of the types of derivative that the Fund may utilise.

- **Operational Risk:** The risk of direct or indirect loss resulting from inadequate or failed processes, people and systems including those relating to the safekeeping of assets or from external events.

- **Currency Risk:** Investors who subscribe in a currency other than the base currency of the Fund are exposed to currency risk. Fluctuations in exchange rates may affect the return on investment. If the currency of this share class is different from your local currency, then you should be aware that due to exchange rate fluctuations the performance shown may increase or decrease if converted into your local currency.

For more detailed information on REITs please refer to the US Trade or Business section in Annex IV of the Prospectus.

For a more detailed explanation of risks, please refer to the "Investment Restrictions" and "Investment Risks" section of the Prospectus.

A category 1 fund is not a risk free investment - the risk of losing money is smaller than that of a category 7 fund, but the likelihood of making gains is also lower. The seven-category scale is complex: for example, a category 2 fund is not twice as risky as a category 1 fund.

The category is calculated using past data, which cannot be used as a prediction for the future. Therefore the risk classification may change over time.

CHARGES

ONE-OFF CHARGES TAKEN BEFORE OR AFTER YOU INVEST	
Entry charge	3.00% *
Exit charge	None
This is the maximum that might be taken out of your money before it is invested or before the proceeds of your investment are paid out	
CHARGES TAKEN FROM THE FUND OVER A YEAR	
Ongoing charge	3.10%
CHARGES TAKEN FROM THE FUND UNDER SPECIFIC CONDITIONS	
Performance fee	None

These charges are used to pay the costs of running the Fund, including the costs of marketing and distributing it.

These charges reduce the potential growth of your investment.

The one-off charges shown are the maximum figures. In some cases they may be less. You can find out your actual charges from your financial adviser.

The ongoing charges figure is based on the expenses for the period ending 31 December 2019. This figure may vary from year to year.

You can find more details on these charges in the Fees and Expenses section of the prospectus and supplement.

*A contingent deferred sales charge of up to 3% of your initial investment will be payable if you sell your shares within 1 year of purchase.

PAST PERFORMANCE

Past performance is not a reliable indicator of future results.

The past performance takes account of all charges and costs.

The value of this class is calculated in US Dollars.

The Fund launched on 01 February 2006.

This class started to issue shares on 15 August 2016.

The performance is compared against the FTSE NAREIT All Equity REITs Index (Total Return, Net of Tax, USD).
