IMPORTANT BENCHMARK INFORMATION:
The Sub-Fund is actively managed, seeking to deliver excess returns over the Sub-Fund’s benchmark. The holdings may or may not be components of the benchmark and the Investment Manager has broad discretion to deviate from the benchmark securities, weightings and risk characteristics. The degree to which the Sub-Fund resembles the composition and risk characteristics of the benchmark is not a specifically targeted outcome and could vary over time, and the Sub-Fund’s performance may be meaningfully different from the Sub-Fund’s benchmark. The Investment Manager does not target a specific tracking error for the Sub-Fund but historically, tracking errors have ranged from 1-4%. This is subject to change at all times. Source of benchmark: Bloomberg. The benchmark is used for information purposes only and is calculated dividend reinvested. No benchmark is directly identical to the Sub-Fund and its performance is not a reliable indicator of future performance of the Sub-Fund.

GLOSSARY
Beta: Reflects sensitivity of the fund’s returns to that of benchmark returns. A beta of 1.05 suggests that the fund could perform 5% better than the benchmark in up market and 5% worse in down market, assuming all other factors remain constant.
Exit Fee: Fee charged to investors when they redeem units from a fund.
Information Ratio: Measures the funds returns above the benchmark returns relative to the risk (volatility) of the excess returns. It is a measure that identifies the consistency of the manager to outperform the benchmark.
Initial Fee: Fee charged to investors when they purchase units in a fund.
Management Fee: Percentage of the fund’s assets that unitholders pay annually as remuneration to the investment adviser for managing the fund.
Ongoing Charge / Ongoing Charge Fee (OCF): Charge unitholders pay annually which relates to the costs of running a fund. The OCF takes into account the Investment Management Fee and all the expense of running a fund.
R Squared: Reflects the proportion of fund performance explained by changes in the benchmark. A high R-squared indicates the fund’s performance has been in line with the benchmark. A low R-squared indicates the fund’s performance has not been in line with the benchmark.
Service Fee: Percentage of fund’s assets that retail unitholders pay annually for distribution services.
Total Expense Ratio (TER): Estimated percentage (annualized) of fund assets used to pay for management fees and operating expenses, including service fees (if any) incurred by the fund. Fund expenses are reflected in the NAV. When calculating the TER, PineBridge has used the amount of expenses that it has received or estimated in its capacity as the Fund’s Manager. Please note that the expense ratio includes variable expenses that are based on a number of factors including fund size, transactions, and other expenses. No assurance can be given that the TER will be realized over any future given period.
Tracking Error: Reflects the degree of variability of fund returns in relation to the benchmark. The lower the number the closer the fund’s historic performance is to the benchmark.

Class: **Y USD****PineBridge USD Investment Grade Credit Fund****KEY RISKS**

Potential Investors should consider the following key risks before investing in the Sub-Fund:

Fixed Income Default Risk: The failure of an issuer or a counterparty to meet its payment obligations of a financial asset in the Sub-Fund will have a negative impact on the Sub-Fund. **Derivative Risk:** A Sub-Fund may use derivative instruments for both efficient portfolio management and for investment purposes. Derivative transactions may be subject to significant volatility which may result in a loss greater than the principal amount invested. **Counterparty Risk:** A Sub-Fund may have credit exposure (by virtue of position in swaps, repurchase agreements, FDI etc.) to its trading parties and may bear the risk of default of the counterparties. **Operational Risk:** A Sub-Fund may risk loss resulting from process failures, inadequate procedures or controls. **Liquidity Risk:** The risk that the Sub-Fund may invest some of their assets in illiquid securities and other illiquid financial instruments, in respect of which they may not always be possible to execute a buy or sell order at the desired price or to liquidate the open position. **Interest Rate Risk:** Fixed income securities are typically interest rate sensitive, therefore changes in interest rates can result in positive or negative fluctuations in the value of the assets held by the Sub-Fund. **ESG Risk:** Risks associated with the environmental, social and governance variables, which could potentially affect the financial situation or operating performance of the Fund. These include sustainability risk, ESG Categorisation Risk and ESG Data Risk. **Price of Securities Risk:** All types of investments and all markets and therefore the Fund and the Underlying Fund are at risk of market volatility based on prevailing economic conditions. **Concentration Risk:** The Sub-Fund may invest in a limited number of securities compared to more diversified Sub-Funds or it may focus its investments and hold relatively large positions in, among other things, particular industries, countries, sectors, currencies or issuers. This may increase the volatility of the value of the Sub-Fund or for the Sub-Fund to bear losses and may also limit the liquidity of certain securities within the Sub-Fund. **Sovereign Debt Risk:** The Sub-Funds' investments in securities issued or guaranteed by governments may be exposed to political, social and economic risks. **Subordination Risk:** Holders of subordinated securities are paid after senior security holders and have less of a claim on issuer assets. Therefore the risk of loss is greater than in the case of securities which are more senior in the capital structure. **Fixed Income Credit Rating Risk:** Fixed income securities, may be subject to credit rating downgrade risk. Where a Sub-Fund invests in investment grade securities which are downgraded to a below investment grade rating after acquisition, the value of the Sub-Fund may be adversely affected.

The risk factors described above should not be considered an exhaustive list of risks, which potential investors should consider before investing in the Sub-Fund. For more details on the fund's potential risks please read the Prospectus and Key Investor Information Document at pinebridge.com/funds
