## Introduction

The Sub-Funds of MGI Funds plc (the “Company”) are managed using a proprietary multi-manager investment strategy. This strategy involves allocating portions of the Sub-Funds to specialist third party managers or sub-advisors (“Sub-Investment Managers”) or investing in pooled funds, who are selected by Mercer Global Investments Europe Limited (the “Investment Manager”) based on criteria for producing consistent superior returns and who, in aggregate, are considered most likely to achieve the overall objectives of the Company.

## Q3 2021

The pandemic reopening rebound in July and August 2021 in developed countries drove risk-on sentiment initially. However, some emerging economies re-imposed restrictions, which added to already existing supply chain pressures. The supply impact was felt with increasing intensity in September with bottlenecks in a large number of areas. One major event was a run on UK petrol stations at the end of September after rumours of fuel shortages became a self-fulfilling prophecy. Soaring energy futures prices in the UK and continental Europe led to a further deterioration in sentiment. In the emerging world, China’s attempt to deflate its property market by tightening credit increased financial distress and led to the defaulting of some large property developers, most notably Evergrande. This came in addition to its disruptive regulatory campaign that created enormous uncertainty for Chinese companies and led to a sharp deterioration in business sentiment.

## Q4 2021

The fourth quarter of 2021 did not bring much better news for investors. Persistently high inflation in both developed and emerging countries prompted central banks to become more hawkish. Tightening in emerging markets that had already started reacting earlier in the year continued. The Federal Reserve began to taper asset purchases, setting the stage for interest rate rises in 2022. The Bank of England increased rates by 15bps to 0.25% in December. Only the European Central Bank and Bank of Japan remained on the fence. There was a further Covid-19 variant scare from late November onwards but with a more limited impact this time. International travel restrictions were somewhat tightened and only few countries in continental Europe re-imposed meaningful domestic restrictions. The US and UK opted instead for a more pragmatic approach of keeping their economies open and focusing on making booster vaccinations more widely available. Some optimism returned late in the year as existing vaccines proved sufficiently effective against severe symptoms whilst the new variant appeared to be less severe than originally feared, albeit more contagious.

## Q1 2022

At first, 2022 started on a positive note. The continued absence of far-reaching COVID-19 restrictions in developed countries supported demand. Although inflation came in at elevated levels, a combination of improving supply chains and moderate monetary tightening was expected to bring it under control. However, the invasion of Ukraine and subsequent spike in commodity markets completely changed this narrative. Central banks were forced to accelerate the pace of tightening even as growth expectations were dialed down. The recovery in supply chains was nipped in the bud both due to the conflict in Ukraine, sanctions on Russia and China locking down large swathes of its economy.

## Q2 2022

The second quarter of 2022 saw a continuation of the broad macro trends seen since the beginning of 2022. Surging commodity prices, to a large degree the result of the ongoing conflict in Ukraine and associated sanctions against Russia, and the aftermath of the enormous monetary and fiscal stimulus of the last two years led to new multi-decade inflation records. The impact of Chinese lockdowns on supply chains exacerbated this further. Central banks in many major regions doubled down on monetary tightening as a consequence, resulting in elevated market volatility and a sell-off in pretty much all asset classes except commodities. Growth expectations were dialed down drastically over the quarter, with a growing number of investors seeing a recession as an increasingly plausible scenario.

## Overall

Overall, the 12-month period to June 2022 was shaped by an initial six month period of strong global economic recovery supported by economies reopening, higher increased household savings being spent and loose monetary policy. This benign inflationary growth environment turned into a stagflationary environment during the first half of 2022 amid spiralling inflation, tightening financial conditions and soaring commodity prices.

**Overall (continued)**

In terms of the main asset classes, performance over the 12 months has been as follows:

- Equity markets have been volatile with overall negative performance over the last year.
- Fixed Income markets have been impacted greatly by inflation and interest rates which have resulted in negative performance.
- LDI funds in particular, have been negatively impacted. LDI funds are key building blocks of pension fund risk management. By using derivatives, LDI funds provide leveraged exposure to liability matching assets (primarily bonds or gilts) for pension scheme investors. These derivatives allow investors to hedge high proportions of their funded liabilities efficiently whilst still retaining a meaningful allocation to growth assets. In a market where the value of gilts are falling materially, like over this period, LDI funds experience material negative returns.
- Multi-asset Sub-Fund performance, although well diversified, reflects negative returns from equity and fixed income holdings over the period, with very few areas delivering positive returns.

**MGI Funds plc Overview**

All performance figures shown below are calculated by the Investment Manager using pricing from State Street Fund Services (Ireland) Limited (the "Administrator"). Figures shown are gross of the Management Fee, net of Sub-Investment Manager's fees and of all other expenses including custody and administration costs depending on the structure of the Sub-Fund.

There are three different scenarios where Sub-Fund performance may be driven by or compared to an index or benchmark. Passive index-tracking funds will aim to track the performance of a specific market index ("Benchmark"). Actively managed Sub-Funds may aim to outperform a specific index and other funds may choose to use a certain index for performance comparison purposes.

## Market Outlook

The global economy has entered a more challenging phase with central banks raising interest rates to explicitly engineer a period of weaker growth to reduce inflationary pressures. Many central banks have signalled that they intend to take interest rates which remain at low levels, to levels which would be the highest in years. This inevitably raises the question of whether this will push economies into recession. Before giving our view, we note that commentators often frame the answer as soft landing being “good” and hard landing “bad” for equities and other risk assets. While understandable we view this characterisation as unhelpful, especially as a short hard landing and a long soft landing may well yield similar market outcomes on a medium term basis.

With that in mind and relative to deteriorating expectations by other commentators we would position ourselves at the more optimistic end of the spectrum. While weak growth in the US is inevitable, we think strong corporate and household balance sheets will enable the US and other economies to achieve a softish landing and avoid falling into a deep recession. Even if unemployment rises households will be able to fall back on high cash savings which remain in place having been built up during the Covid lockdowns. Another reason for cautious optimism relative to a gloomy consensus, is that if supply chains ease over the next year or two, we may start to see the price of some things, like used car prices, fall sharply boosting household real incomes. Finally, China is set to strengthen as lockdowns are eased while in Europe and elsewhere tourism and face-to-face activities should rebound as mobility post Covid returns to something approaching normality. Nonetheless, one important piece of the puzzle that could cause a recession is what happens to energy prices, especially in Europe and where there remain considerable risks which are hard to quantify.

As with many things, the outlook for inflation is unusually uncertain at the moment. At nearly 10% in many parts of the developed world, current inflation rates are at the highest level in decades. There are good reasons to expect inflation to fall from here although how far and how fast is the key unknown. The inflation rate in energy and some other commodities is set to fall sharply on a year-on-year basis as past rises fall out of the year-on-year numbers. In addition, commodity prices have fallen significantly recently with, for example, wheat prices back at levels seen before the Russian invasion of Ukraine. Finally, there are also signs of some easing in the supply chains that have led to elevated prices for some goods.

Key central banks are set to continue to raise interest rates aggressively in near term regardless of the near path for both growth and inflation. Interest rates are generally still low and central banks want to return to them to at least neutral levels in the near term. Neutral is hard to quantify, but is perhaps 3% in the US, 2% in the Eurozone and somewhere in between in the UK. After these initial moves higher, central bank action will depend on what happens to inflation and growth. We expect monetary policy to reach tight levels in the UK and the US, although not necessarily in the Eurozone.

In monetary policy terms, Japan and China remain the key outliers. While there have been market pressures to raise interest rates of the yield curve ceiling, the Japanese central bank appears committed to no change because of still low inflation and the desire to end what has been 3 decades of ultra-low inflation. In China, monetary policy is set to be loosened to support economic growth as the economy recovers from recent lockdowns.

## Benchmark Tracking Error Appendix

Sub-Fund	Sub-Fund return for the year	Benchmark return for the year	Tracking difference	Tracking difference explanation	Anticipated tracking error	Realised tracking error	Tracking error explanation
MGI Euro Bond Fund	(12.47)%	(12.59)%	0.12%	The Sub-Fund performance over the year was in line with expectations and close to the Index performance before costs (Total Expense Ratio (the "TER"))	0.50%	1.09%	The Sub-Fund has exceeded its anticipated tracking error over the year when looking at daily observations. This is due to market volatility and fund accounting reasons, such as pricing differences between the fund and the index.
MGI UK Inflation Linked Bond Fund	(19.15)%	(19.10)%	(0.05)%	The Sub-Fund performance over the year was in line with expectations and close to the Index performance before costs (Total Expense Ratio (the "TER"))	0.50%	0.99%	The Sub-Fund has exceeded its anticipated tracking error over the year when looking at daily observations. This is due to difference in pricing methodology between custodian and index provider.
MGI UK Long Gilt Fund	(22.84)%	(22.86)%	0.02%	The Sub-Fund performance over the year was in line with expectations and close to the Index performance before costs (TER)	0.50%	0.14%	The Sub-Fund has tracked its benchmark index within its anticipated tracking error.
Mercer US Treasury 1-3 Year Bond Fund	(3.37)%	(3.30)%	(0.07)%	The Sub-Fund performance over the year was in line with expectations and close to the Index performance before costs (TER)	0.50%	0.50%	The Sub-Fund has equalled its anticipated tracking error over the year when looking at daily observations. This is due to market volatility and fund accounting reasons, such as pricing differences between the fund and the index.
Mercer US Treasury 3-7 Year Bond Fund	(7.72)%	(7.59)%	(0.13)%	The Sub-Fund performance over the year was in line with expectations and close to the Index performance before costs (TER)	0.50%	1.26%	The Sub-Fund has exceeded its anticipated tracking error over the year when looking at daily observations. This is due to market volatility and fund accounting reasons, such as pricing differences between the fund and the index.

## Benchmark Tracking Error Appendix (continued)

Sub-Fund	Sub-Fund return for the year	Benchmark return for the year	Tracking difference	Tracking difference explanation	Anticipated tracking error	Realised tracking error	Tracking error explanation
Mercer Passive Global Equity Fund	(14.12)%	(14.34)%	0.22%	The Sub-Fund performance over the year was in line with expectations and close to the Index performance before costs (TER)	0.50%	0.14%	The Sub-Fund has tracked its benchmark index within its anticipated tracking error.
Mercer Passive Emerging Markets Equity Fund	(25.35)%	(25.28)%	(0.07)%	The Sub-Fund performance over the year was in line with expectations and close to the Index performance before costs (TER)	0.50%	2.25%	The Sub-Fund has exceeded its anticipated tracking error during the year when looking at daily observations. This has been driven by market timing differences and accounting differences between the fund and the Index. Moreover, over the past 12 months, the fund accrued CGT on unrealised gains on Indian assets, resulting in performance drag v/s the index. Exclusion of Russian assets from indices also contributed to high daily tracking error in February and March.
Mercer Short Dated UK Gilt Fund	(3.14)%	(3.08)%	(0.06)%	The Sub-Fund performance over the year was in line with expectations and close to the Index performance before costs (TER)	0.50%	0.12%	The Sub-Fund has tracked its benchmark index within its anticipated tracking error.

## Benchmark Tracking Error Appendix (continued)

Sub-Fund	Sub-Fund return for the year	Benchmark return for the year	Tracking difference	Tracking difference explanation	Anticipated tracking error	Realised tracking error	Tracking error explanation
Mercer Passive Euro Corporate Bond Fund	(12.22)%	(12.39)%	0.17%	The Sub-Fund performance over the year was in line with expectations and close to the Index performance before costs (TER)	0.50%	0.96%	The Sub-Fund has exceeded its anticipated tracking error over the year when looking at daily observations. This is due to market volatility and fund accounting reasons, such as pricing differences between the fund and the index.
Mercer Passive Global High Yield Bond fund	(12.45)%	(12.24)%	(0.21)%	The Sub-Fund performance over the year was in line with expectations and close to the Index performance before costs (TER)	0.50%	0.70%	The Sub-Fund has exceeded its anticipated tracking error over the year when looking at daily observations. This is due to market volatility and fund accounting reasons, such as pricing differences between the fund and the index.
Mercer Passive Low Volatility Equity Feeder Fund	(4.29)%	(3.99)%	(0.30)%	The Sub-Fund Feeder fund underperformed the Index and the Master Sub-Fund before costs (TER) due to the application of swing factors on the Master Sub-Fund. The Master Sub-Fund performance over the year was in line with expectations and close to the Index performance before costs (TER)	0.50%	0.41%	The Sub-Fund has tracked its benchmark index within its anticipated tracking error.

## Benchmark Tracking Error Appendix (continued)

Sub-Fund	Sub-Fund return for the year	Benchmark return for the year	Tracking difference	Tracking difference explanation	Anticipated tracking error	Realised tracking error	Tracking error explanation
Mercer Passive Sustainable Global Equity Feeder Fund	(15.50)%	(15.69)%	0.19%	The Sub-Fund performance over the year was in line with expectations and close to the Index performance before costs (TER)	0.50%	0.62%	The Sub-Fund has exceeded its anticipated tracking error during the year when looking at daily observations due to application of swing factors on the Master Sub-Fund. The Master Sub-Fund has tracked its benchmark index within its anticipated tracking error.
Mercer Passive Global REITs Feeder Fund	(10.82)%	(10.99)%	0.17%	The Sub-Fund performance over the year was in line with expectations and close to the Index performance before costs (TER)	0.50%	0.64%	The Sub-Fund has exceeded its anticipated tracking error during the year when looking at daily observations due to application of swing factors on the Master Sub-Fund. The Master Sub-Fund has tracked its benchmark index within its anticipated tracking error.

The figures reported are based on the base currency of the Sub-Fund where available, otherwise it will use the currency of Unit Class with the longest history if base currency not available. If Sub-Funds were launched during the year, figures in the table above are reported from the Sub-Fund's launch date. Other performance tables in the Investment Manager's Report are reported from the first month end following inception.

Tracking difference measures the extent to which a product's return differs from that of its benchmark index. Tracking error indicates how much variability exists among the individual data points that make up the Sub-Fund's average tracking difference to the benchmark.

The above realised tracking error is calculated daily over one year or since inception if the Sub-Fund launched within the year under review.

The Directors have the pleasure in submitting their report to the Shareholders together with the audited financial statements for the financial year ended 30 June 2022.

### Principal Activities

MGI Funds plc (the “Company”) is an open-ended umbrella fund investment company with variable capital with segregated liability between Sub-Funds. The share capital of the Company is divided into different series of shares with each series of shares representing a portfolio of assets which comprises a separate fund (each a “Sub-Fund”). The Company is authorised and regulated by the Central Bank of Ireland (the “Central Bank”) under the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations, 2011 (the “UCITS Regulations”) and the Central Bank of Ireland’s (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulation 2019 (the “CBI UCITS Regulations”).

As at 30 June 2022, the Company consisted of fifty-eight (30 June 2021: fifty-eight) Sub-Funds of which forty-eight are in operation at the financial year end (30 June 2021: forty-nine).

The Company is an umbrella fund with segregated liability between Sub-Funds.

### Statement of Directors’ Responsibilities

The Directors are responsible for preparing the Report of the Directors and financial statements, in accordance with applicable law and regulations.

Company law requires the Directors to prepare financial statements for each financial year. Under that law they have elected to prepare the financial statements in accordance with International Financial Reporting Standards (“IFRS”) as adopted by the European Union (“EU”) and applicable law.

Under Company law the Directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the assets, liabilities and financial position of the Company as at the financial year end date and of the profit or loss of the Company for the financial year and otherwise comply with the Companies Act 2014. In preparing the financial statements, the Directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and estimates that are reasonable and prudent;
- state whether applicable accounting standards have been followed, subject to any material departures disclosed and explained in the financial statements;
- assess the Company’s ability to continue as a going concern, disclosing, as applicable, matters related to going concern; and
- use the going concern basis of accounting unless they either intend to liquidate the Company or to cease operations, or have no realistic alternative but to do so.

The Directors are responsible for ensuring that the Company keeps or causes to be kept adequate accounting records which correctly explain and record the transactions of the Company, enable at any time the assets, liabilities, financial position and profit or loss of the Company to be determined with reasonable accuracy, enable to ensure that the financial statements and the Report of the Directors comply with the Companies Act 2014 (as amended) and with the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations, 2011 and Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations, 2019 (as amended) and enable the financial statements to be audited. They are also responsible for safeguarding the assets of the Company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

### Statement of Compliance on Corporate Governance Code

The Company has adopted in full the voluntary Code of Corporate Governance (the “Corporate Governance Code”) for Collective Investment Schemes (“CIS”) and Management Companies issued by the Irish Funds (“IF”), the text of which is available from the IF website, [www.irishfunds.ie](http://www.irishfunds.ie).

The Company has been in compliance with the Corporate Governance Code during the financial year ended 30 June 2022.

**Directors**

The Directors, who held office on 30 June 2022 as stated below, are not required to retire by rotation under the Memorandum and Articles of Association.

The Directors are:

<b>Name</b>	<b>Director Status</b>	<b>Nationality</b>	<b>Date of Appointment</b>
Tom Finlay	Independent Non-Executive	Irish	13 Jul 2006
Gráinne Alexander	Independent Non-Executive	Irish	1 Jan 2019
Hooman Kaveh	Non-Executive	Irish	1 May 2019
Helen O'Beirne	Non-Executive	Irish	13 Jan 2020
Liam Miley	Independent Non-Executive	Irish	13 May 2020
Carmel Jordan	Non-Executive	Irish	31 May 2020

Directors' fees (including expenses) for the financial year are stated in Note 4 to the financial statements.

*Changes in Directorships*

There were no changes in Directorships during the financial year ended 30 June 2022.

*Transactions involving Directors:*

The Board of Directors (the "Board") are not aware of any contracts or arrangements of any significance in relation to the business of the Company in which the Directors had any interest as defined in the Companies Act 2014 (as amended), at any time during the financial year ended 30 June 2022 (30 June 2021: Nil), other than those disclosed in Note 4 to the financial statements.

**Directors' & Secretary's Interests**

None of the Directors nor the Secretary, who held office at 30 June 2022, or their families, held any interest in the shares of the Company at any time during the financial year ended 30 June 2022 (30 June 2021: Nil).

**Audit Committee**

The Company has established an audit committee under Section 167 of the Companies Act 2014 (as amended).

**Employees**

There were no employees of the Company for the financial year under review or the prior financial year. The only identified staff of the Company, as defined by regulations, are the Directors listed above.

**Transactions with connected persons**

Regulation 43 of the UCITS Regulations "Restrictions of transactions with connected persons" states that "A responsible person shall ensure that any transaction between a UCITS and a connected person is conducted a) at arm's length, and b) in the best interest of the unit-holders of the UCITS".

As required under UCITS Regulation 81.4, the Directors are satisfied that there are arrangements in place, evidenced by written procedures, to ensure that the obligations that are prescribed by Regulation 43(1) are applied to all transactions with a connected person; and all transactions with connected persons that were entered into during the period to which the report relates, complied with the obligations that are prescribed by Regulation 43(1).

**UK Reporting Status**

The Company has received confirmation from HM Revenue & Customs ("HMRC") in the United Kingdom ("UK") that the Sub-Funds listed in the table below, have been granted reporting fund status for UK tax purposes from the effective dates listed below.

<b>Sub-Fund</b>	<b>Class</b>	<b>Reporting Fund Regime Effective Date</b>

## Business Review, Results and Future Developments

The business of the Company is reviewed in detail in the Investment Manager's Report. The results for the financial year are stated in the Statement of Comprehensive Income. The Company will continue to act as an investment vehicle as set out in its Memorandum and Articles of Association. The analysis of the Company's key performance indicators ("KPI's") are contained in the Investment Manager's Report. The Board does not anticipate any significant change in the structure or investment objectives of the Sub-Funds.

## Going Concern

The financial statements of the Company have been prepared on the going concern basis as it has been determined that the Company can continue in operational existence for at least twelve months from the date of approval of these financial statements (the period of assessment). The assessment is completed at Company level by the Directors and takes multiple factors into account including Sub-Fund size, Net Asset Value ("NAV") movements and new Sub-Fund launches and terminations.

## Principal Risks and Uncertainties

The principal risks and uncertainties faced by the Company are market price risk, credit risk, currency risk, interest rate risk and liquidity risk which are outlined in Note 7 to the financial statements.

## Share Capital

The net assets under management are disclosed in the Statement of Financial Position.

Full details of the Company's share capital, including changes during the financial year under review and significant Shareholders are disclosed in Note 11 to the financial statements.

## Dividends

Details of dividends declared and paid during the financial year ended 30 June 2022 and 30 June 2021 are disclosed in Note 12 to the financial statements.

## Responsible Investment

The regulatory environment surrounding environmental, social and governance ("ESG") and "sustainable investing" has continued to develop at unprecedented speed, and we expect this to continue into the future. The EU's Sustainable Finance Disclosure Regulation ("SFDR"), aimed at improving disclosure and mitigating greenwashing, initially came into effect in early 2021, with more advanced "Level 2" requirements due in 2023. SFDR defines three levels of disclosure required under various degrees of sustainable investing: ESG integration ("Article 6"), promoting environmental and/or social characteristics ("Article 8"), and having a sustainable investment objective ("Article 9"). As with all new regulatory frameworks, many of the finer details continue to be worked through during the implementation period. Given the initial uncertainty around what would be required under the more granular Level 2 requirements, the Manager and Investment Manager took a conservative approach last year and classified only the sustainably-themed Mercer Sub-Funds under either Article 8 or Article 9. As the Level 2 requirements have become clearer, the Manager and Investment Manager are now in the process of redefining their "sustainable" solution range, reclassifying the majority of their multi-client mainstream asset class solutions to Article 8, resulting in over 45 Article 8 or 9 solutions being available to clients. The proposed changes to the solutions include an expanded set of exclusions focused on reducing the environmental impact of the solutions, specific engagement and escalation policies on any UN Global Compact breaches, and actively managed solutions making a defined binding commitment to address and reduce carbon emissions. Level 1 Article 8 and Article 9 Sub-Fund disclosures can be found on the Mercer Investment Solutions Responsible Investment website (<https://investment-solutions.mercer.com/europe/ie/en/our-funds/responsible-investment.html>) as well as pages 402-405.

## Significant events during the financial year

### *Prospectus and Supplement updates*

The following documents were issued and updated during the financial year ended 30 June 2022:

Umbrella/Sub-Fund	Issue date	Update
MGI Funds plc	14 Dec 2021	Prospectus updated by means of an addendum to comply with the requirements of the EU Taxonomy Regulation ((EU) 2020/852) to disclose information regarding the environmentally sustainable investments of Article 8 and Article 9 funds and to confirm that the investments underlying Article 6 funds do not take into account the EU criteria for environmentally sustainable economic activities.
	31 Dec 2021	Change of auditor from KPMG to Deloitte Ireland LLP. Change of legal advisors from Matheson to William Fry LLP. Update to include Carmel Jordan's appointment as CEO of MGIM. General updates*.

**Adequate accounting records**

The Board ensures compliance with the Company's obligation to maintain adequate accounting records by appointing competent persons to be responsible for them. The adequate accounting records are kept by State Street Fund Services (Ireland) Limited (the "Administrator"), at 78 Sir John Rogerson's Quay, Dublin 2, Ireland.

**Relevant audit information**

The Board believes that they have taken all steps necessary to make themselves aware of any relevant audit information and have established that the Company's statutory auditor is aware of that information. In so far as they are aware, there is no relevant audit information of which the Company's statutory auditor is unaware.

**Independent Auditor**

Deloitte Ireland LLP, Chartered Accountants & Statutory Auditor, (the "Auditor") indicated their willingness to execute the office in accordance with Section 383(2) of the Companies Act 2014 (as amended).

**Statement of Directors' Compliance**

We acknowledge that we are responsible for securing the Company's compliance with its relevant obligations. We confirm that:

- a compliance policy statement has been drawn up setting out the Company's policies;
- appropriate arrangements and structures that are, in our opinion, designed to secure material compliance with the Company's relevant obligations, have been put in place; and
- a review analysis has been conducted, during the financial year, of the arrangements and structures that have been put in place to secure the Company's compliance with its relevant obligations.

**On behalf of the Board of Directors****Tom Finlay****Liam Miley****Director****Director****24 October 2022**

We have enquired into the conduct of MGI Funds plc (the "Company") for the financial year ended 30 June 2022, in our capacity as Depositary to the Company.

This report including the opinion has been prepared for and solely for the Shareholders in the Company as a body, in accordance with Regulation 34, (1), (3) and (4) in Part 5 of the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (the "UCITS Regulations"), and for no other purpose. We do not, in giving this opinion, accept or assume responsibility for any other purpose or to any other person to whom this report is shown.

### **Responsibilities of the Depositary**

Our duties and responsibilities are outlined in Regulation 34, (1), (3) and (4) in Part 5 of the UCITS Regulations. One of those duties is to enquire into the conduct of the Company in each annual accounting period and report thereon to the Shareholders.

Our report shall state whether, in our opinion, the Company has been managed in that financial year in accordance with the provisions of the Company's constitutional documentation and the UCITS Regulations. It is the overall responsibility of the Company to comply with these provisions. If the Company has not so complied, we as Depositary must state why this is the case and outline the steps which we have taken to rectify the situation.

### **Basis of Depositary Opinion**

The Depositary conducts such reviews as it, in its reasonable opinion, considers necessary in order to comply with its duties as outlined in Regulation 34, (1), (3) and (4) in Part 5 of the UCITS Regulations and to ensure that, in all material respects, the Company has been managed:

- (i) in accordance with the limitations imposed on its investment and borrowing powers by the provisions of the constitutional documentation and the UCITS regulations; and
- (ii) otherwise in accordance with the constitutional documentation and the appropriate regulations.

### **Opinion**

In our opinion, the Company has been managed during the financial year, in all material respects:

- (i) in accordance with the limitations imposed on the investment and borrowing powers of the Company by the constitutional documentation, the UCITS Regulations and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019 (the "Central Bank UCITS Regulations"); and
- (ii) otherwise in accordance with the provisions of the constitutional documentation, the UCITS Regulations and Central Bank UCITS Regulations.

### **State Street Custodial Services (Ireland) Limited**

24 October 2022

**Report on the audit of the financial statements*****Opinion on the financial statements of MGI Funds plc ("the company")***

In our opinion the financial statements:

- give a true and fair view of the assets, liabilities and financial position of the company as at 30 June 2022 and of the profit/(loss) for the 30 June 2022 then ended; and
- have been properly prepared in accordance with the relevant financial reporting framework, the applicable Regulations and, in particular, with the requirements of the Companies Act 2014.

The financial statements we have audited comprise:

- the Statement of Comprehensive Income;
- the Statement of Financial Position;
- the Statement of Changes in Net Assets attributable to holders of Redeemable Participating shares;
- the Statement of Cash Flows; and
- the related notes 1 to 15, including a summary of significant accounting policies as set out in note 2.

The relevant financial reporting framework that has been applied in their preparation is International Financial Reporting Standards (IFRS) as adopted by the European Union ("the relevant financial reporting framework").

The applicable regulations that have been applied in their preparation is the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations, 2011 and Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations, 2019 ("the applicable Regulations").

***Basis for opinion***

We conducted our audit in accordance with International Standards on Auditing (Ireland) (ISAs (Ireland)) and applicable law. Our responsibilities under those standards are described below in the "Auditor's responsibilities for the audit of the financial statements" section of our report.

We are independent of the company in accordance with the ethical requirements that are relevant to our audit of the financial statements in Ireland, including the Ethical Standard issued by the Irish Auditing and Accounting Supervisory Authority, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

***Conclusions relating to going concern***

In auditing the financial statements, we have concluded that the directors' use of the going concern basis of accounting in the preparation of the financial statements is appropriate.

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the company's ability to continue as a going concern for a period of at least twelve months from when the financial statements are authorised for issue. Our responsibilities and the responsibilities of the directors with respect to going concern are described in the relevant sections of this report.

***Other information***

The other information comprises the information included in the Annual Report and Audited Financial Statements, other than the financial statements and our auditor's report thereon. The directors are responsible for the other information contained within the Annual Report and Audited Financial Statements. Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in our report, we do not express any form of assurance conclusion thereon.

Our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether there is a material misstatement in the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in this regard.

**Report on the audit of the financial statements (continued)*****Responsibilities of Directors***

As explained more fully in the Directors' Responsibilities Statement, the directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view and otherwise comply with the Companies Act 2014, and for such internal control as the directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the company or to cease operations, or have no realistic alternative but to do so.

***Auditor's responsibilities for the audit of the financial statements***

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (Ireland) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A further description of our responsibilities for the audit of the financial statements is located on IAASA's website at: <http://www.iaasa.ie/Publications/Auditing-standards/International-Standards-on-Auditing-for-use-in-Ire/Description-of-the-auditor-s-responsibilities-for>. This description forms part of our auditor's report.

**Report on other legal and regulatory requirements*****Opinion on other matters prescribed by the Companies Act 2014***

Based solely on the work undertaken in the course of the audit, we report that:

- We have obtained all the information and explanations which we consider necessary for the purposes of our audit.
- In our opinion the accounting records of the company were sufficient to permit the financial statements to be readily and properly audited.
- The financial statements are in agreement with the accounting records.
- In our opinion the information given in the directors' report is consistent with the financial statements and the directors' report has been prepared in accordance with the Companies Act 2014.

***Matters on which we are required to report by exception***

Based on the knowledge and understanding of the company and its environment obtained in the course of the audit, we have not identified material misstatements in the directors' report.

We have nothing to report in respect of the provisions in the Companies Act 2014 which require us to report to you if, in our opinion, the disclosures of directors' remuneration and transactions specified by law are not made.

***Use of our report***

This report is made solely to the company's shareholders, as a body, in accordance with Section 391 of the Companies Act 2014. Our audit work has been undertaken so that we might state to the company's shareholders those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the company and the company's shareholders as a body, for our audit work, for this report, or for the opinions we have formed.

Brian Jackson

\*For the purpose of combining the financial statements of the Sub-Funds to arrive at Company figures, the amounts in the financial statements have been translated to Euro. The method of translation has no effect on the NAV per Redeemable Participating Share attributable to the individual Sub-Funds. The resulting gain of Euro is owing to the difference in exchange rate used to translate the Statement of Comprehensive Income and the Statement of Financial Position and is included as a foreign currency translation adjustment in the Statement of Changes in Net Assets Attributable to Holders of Redeemable Participating Shares. This is a notional gain, which has no impact on the NAV of the Sub-Funds.

\*For the purpose of combining the financial statements of the Sub-Funds to arrive at Company figures, the amounts in the financial statements have been translated to Euro. The method of translation has no effect on the NAV per Redeemable Participating Share attributable to the individual Sub-Funds. The resulting loss of Euro is owing to the difference in exchange rate used to translate the Statement of Comprehensive Income and the Statement of Financial Position and is included as a foreign currency translation adjustment in the Statement of Changes in Net Assets Attributable to Holders of Redeemable Participating Shares. This is a notional loss, which has no impact on the NAV of the Sub-Funds.

\* For the purpose of combining the financial statements of the Sub-Funds to arrive at Company figures, the amounts in the financial statements have been translated to Euro. The resulting gain of Euro is owing to the difference in exchange rate used to translate the Statement of Comprehensive Income and the Statement of Financial Position and is included as a foreign currency translation adjustment in the Statement of Cash Flows. This is a notional gain, which has no impact on the NAV of the Sub-Funds.

<sup>1</sup>These amounts exclude non-cash transactions of US\$ 2,188,366,386. Please refer to Note 4 to the financial statements for more detail regarding in-specie transactions.

\* For the purpose of combining the financial statements of the Sub-Funds to arrive at Company figures, the amounts in the financial statements have been translated to Euro. The resulting loss of Euro is owing to the difference in exchange rate used to translate the Statement of Comprehensive Income and the Statement of Financial Position and is included as a foreign currency translation adjustment in the Statement of Cash Flows. This is a notional loss, which has no impact on the NAV of the Sub-Funds.

**1. Reporting entity**

MGI Funds plc (the “Company”) is an open-ended investment company with variable capital organised under the laws of Ireland. The Company is organised in the form of an umbrella fund insofar as the share capital of the Company will be divided into different series of shares with each series of shares representing a portfolio of assets which will comprise a separate fund (each a “Sub-Fund”).

MGI Funds plc is the reporting entity.

**2. Accounting policies**

The principal accounting policies adopted by the Company are as follows:

**a) Basis of preparation**

The financial statements have been prepared in accordance with IFRS as adopted by the EU, and Irish statute comprising the Companies Act 2014 (as amended), the European Communities UCITS Regulations 2011 and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings For Collective Investment In Transferable Securities) Regulations 2019 (the “Central Bank UCITS Regulations”).

The financial statements of the Company have been prepared on the going concern basis as it has been determined that the Company can continue in operational existence for at least twelve months from the date of approval of these financial statements (the period of assessment). The assessment is completed at Company level by the Directors and takes multiple factors into account including Sub-Fund size, NAV movements and new Sub-Fund launches and terminations.

**b) Functional and presentation currency***(i) Functional and presentation currency of the Company*

The functional and presentation currency of the Company is the Euro (“€”) as it is the currency of the primary economic environment in which the Company operates.

*(ii) Functional and presentation currency of the Sub-Funds*

Items included in the Company’s financial statements are measured using the currency of the primary economic environment in which the respective Sub-Funds operate (the “functional currency”). If indicators of the primary economic environment are mixed, then management uses its judgement to determine the functional currency that most faithfully represents the economic effects of the underlying transactions, events and conditions. The functional currency, which is either €, United States Dollar (“US\$”) or British Pound (“GB£”), is shown in the Statement of Financial Position for each of the Sub-Funds. The Sub-Funds have also adopted these functional currencies as their presentation currency.

*(iii) Translation of Sub-Funds for the purposes of calculating the Company values*

For the purposes of presenting the financial statements of the Company, the Statement of Financial Position of the Sub-Funds with functional and presentation currencies other than € were translated to € at the exchange rate ruling at 30 June 2022. The Statement of Comprehensive Income, proceeds from redeemable participating shares issued, redemptions of redeemable participating shares and Statement of Cash Flows of the Sub-Funds with functional currencies other than the € were translated at the average rates during the year where those rates represent a reasonable approximation of actual rates.

*(iv) Translation and balances*

Monetary assets and liabilities denominated in currencies other than the functional currency of a particular Sub-Fund are translated to the functional currency at the closing rates of exchange at financial year end. Transactions during the financial year are translated at the rate of exchange prevailing on the date of the transaction. Foreign currency gains and losses are included in Net (loss)/gain from financial instruments at fair value through profit or loss (“FVTPL”) in the Statement of Comprehensive Income.

Average rates of exchange were used to translate transfers of shares between share classes of the Sub-Funds (each a “Share Class”) with functional currencies other than the functional currency of the Sub-Fund, where those rates represent a reasonable approximation of actual rates.

**c) Use of judgements and estimates**

The preparation of financial statements in conformity with IFRS as adopted by the EU requires management to make judgements, estimates and assumptions which affects the application of accounting policies and the reported amounts of assets and liabilities, income and expenses and the disclosure of contingent assets and liabilities as at the date of the financial statements. The estimates and associated assumptions are based on historical experience and various other factors which are believed to be reasonable under the circumstances, the results of which form the basis of making judgements about carrying values of assets and liabilities which are not readily apparent from others.

**2. Accounting policies (continued)****c) Use of judgements and estimates (continued)**

Actual results may differ from these estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the financial year in which the estimates are revised and in any future years affected.

*(i) Judgements*

Information about judgements made in applying accounting policies that have the most significant effect on the amounts recognised in the financial statements of the Company and the Sub-Funds is included in Note 2b and in Note 5 to the financial statements.

*(ii) Assumptions and estimation uncertainties*

Information about assumptions and estimation uncertainties that have a significant risk of resulting in a material adjustment to the carrying amounts of assets and liabilities within the financial year ending 30 June 2022 and 30 June 2021 is included in Note 7 to the financial statements and relates to the determination of fair value of certain financial instruments with significant unobservable inputs.

**d) New standards, amendments and interpretations issued and effective for the financial year beginning 1 July 2021**

The following amendments are effective for annual reporting periods beginning 1 July 2021. These have been applied in preparing the Company's financial statements and have not had a significant impact on the Company.

Interest Rate Benchmark Reform – Phase 2 (amendments to IFRS 9, IAS 39, IFRS 7, IFRS 4 and IFRS 16) are intended to adopt and simplify accounting requirements in the context of Interest Rate Benchmark Reform and introduce new requirements for disclosure of the nature and extent of risks arising from the Interest Rate Benchmark Reform. Additional disclosures on the nature and extent of risk arising from financial instruments subject to Interest Rate Benchmark Reform are detailed in Note 7 to the financial statements.

**e) New standards, amendments and interpretations issued but not effective for the financial year beginning 1 July 2021 and not early adopted**

There are no standards, amendments or interpretations to existing standards that are not yet effective that would be expected to have a significant impact on any of the Company's financial statements.

**f) Financial instruments***(i) Recognition and initial measurement*

Financial assets and financial liabilities are initially recognised at FVTPL on the trade date, which is the date on which the Company becomes a party to the contractual provisions of the instrument. Other financial assets and financial liabilities are recognised on the date on which they originated. From this date any gains and losses arising from changes in fair value of the financial assets or financial liabilities are recorded in the Statement of Comprehensive Income.

Financial assets and liabilities are measured initially at fair value. For an item not classified at FVTPL, it is measured initially at fair value plus or minus transaction costs that are directly attributable to its acquisition or issue. Transaction costs on financial assets and financial liabilities at FVTPL are expensed immediately, while on other financial instruments they are amortised.

*(ii) Classification and subsequent measurement*

On initial recognition, the Company classifies financial assets as measured at amortised cost or FVTPL.

A financial asset is measured at amortised cost if it meets both of the following conditions and is not designated as at FVTPL:

- it is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest ("SPPI") on the principal amount outstanding

*Business model assessment*

In making an assessment of the objectives of the business model in which a financial asset is held, the Company considers all of the relevant information about how the business is managed, including:

- the documented investment strategy and the execution of this strategy in practice. This includes whether the investment strategy focuses on earning contractual interest income, maintaining a particular interest rate profile,

**2. Accounting policies (continued)****f) Financial instruments (continued)***(ii) Classification and subsequent measurement (continued)**Business model assessment (continued)*

- matching the duration of the financial assets to the duration of any related liabilities or expected cash outflows or realising cash flows through the sale of assets;
- how the performance of the portfolio is evaluated and reported to the Company's management;
- the risks that affect the performance of the business model (and the financial assets held within that business model) and how those risks are managed;
- how Mercer Global Investments Europe Limited ("MGIE", the "Investment Manager") is compensated: e.g. whether compensation is based on the fair value of the assets managed or the contractual cash flows collected; and
- the frequency, volume and timing of sales of financial assets in prior periods, the reasons for such sales and expectations about future sales activity.

Transfers of financial assets to third parties in transactions that do not qualify for de-recognition are not considered sales for this purpose, consistent with the Company's continuing recognition of the assets. The Company has determined that there are two business models.

- Held to collect business model: this includes cash and cash equivalents, due from broker, subscriptions receivable, deposits, receivable for securities sold, reverse repurchase agreements and other assets. These financial assets are held to collect contractual cash flows.
- Other business model: this includes debt securities, equity investments, money market instruments, loans, investments in unlisted open-ended CIS and financial derivative instruments ("FDIs"). These financial assets are managed and their performance is evaluated on a fair value basis, with frequent sales taking place.

*Assessment whether contractual cash flows are SPPI*

For the purposes of this assessment, "principal" is defined as the fair value of the financial asset on initial recognition. "Interest" is defined as consideration for the time value of money and for the credit risk associated with the principal amount outstanding during a particular period of time and for other basic lending risks and costs (e.g. liquidity risk and administrative costs), as well as a profit margin.

In assessing whether the contractual cash flows are SPPI, the Company considers the contractual terms of the instrument. This includes assessing whether the financial asset contains a contractual term that could change the timing or amount of contractual cash flows such that it would not meet this condition. In making assessment, the Company considers:

- contingent events that would change the amount or timing of cash flows;
- leverage features;
- prepayments and extension features;
- terms that limit the Company's claim to cash flows from specified assets (e.g. non-recourse features); and
- features that modify consideration of the time value of money (e.g. periodical reset of interest rates).

A financial liability is classified as FVTPL if it is classified as held-for-trading, if it is an FDI or, if it is designated as such on initial recognition.

The Company has classified its financial assets and financial liabilities into the following categories:

- Financial assets at FVTPL - investments in transferable securities, money market instruments, loans, investment funds and FDIs with positive fair values.
- Financial assets at amortised cost - cash and cash equivalents, due from broker, receivable for securities sold, subscriptions receivable, other assets, deposits and reverse repurchase agreements.
- Financial liabilities at amortised cost - bank overdraft, due to broker, payable for securities purchased, unfunded loan, interest payable, redemptions payable, expenses payable, repurchase agreements and net assets attributable to holders of redeemable participating shares.
- Financial liabilities at FVTPL - securities sold short.
- Financial liabilities held for trading - FDIs with negative fair values.

Financial assets and financial liabilities at FVTPL are subsequently measured at fair value. Net gains and losses arising from changes in the fair value of financial assets and financial liabilities at FVTPL are included in the Statement of Comprehensive Income in the year in which they arise.

Financial assets and financial liabilities at amortised cost are subsequently measured at amortised cost using the effective interest method ("EIR"). Interest income from the financial assets measured at amortised cost are recognised in interest income calculated using EIR in the Statement of Comprehensive Income. Interest expense from the financial liabilities measured at amortised cost is recognised in the Statement of Comprehensive Income. Net gains and losses from the financial assets and financial liabilities measured at amortised cost are recognised in the Statement of Comprehensive Income.

**2. Accounting policies (continued)****f) Financial instruments (continued)***(ii) Classification and subsequent measurement (continued)**Reclassifications*

Financial assets are not reclassified subsequent to their initial recognition unless the Company were to change its business model for managing financial assets, in which case all affected financial assets would be reclassified on the first day of the first reporting period following the change in the business model.

*(iii) Fair value measurement*

"Fair Value" is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date in the principal or, in its absence, the most advantageous market to which the Sub-Funds have access at that date. The fair value of a liability reflects its non-performance risk.

The fair value of financial instruments traded in active markets (such as equities) or any other regulated market (such as corporate bonds, government bonds, municipal bonds, asset backed securities ("ABS"), mortgage backed securities ("MBS"), convertible securities and credit linked notes) is based on their quoted market prices at the reporting date without any deduction for estimated future selling costs. Financial assets are priced at current last traded market prices, while financial liabilities are priced at current ask prices.

A market is regarded as "active" if transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an ongoing basis. The Sub-Funds measure instruments quoted in an active market at current last traded market price, because this price provides a reasonable approximation of the exit price. If there is no quoted price in an active market, then the Sub-Fund uses valuation techniques that maximise the use of relevant observable inputs and minimise the use of unobservable inputs. The chosen valuation technique incorporates all of the factors that market participants would take into account in pricing a transaction.

This includes, but is not limited to, reviewing information on stale and static prices, suspended securities and securities in liquidation and securities valued at cost. If the Investment Manager has reasonable belief that the valuation of a particular security may not reflect fair market value, the Investment Manager's Valuation Committee ("VC") will meet to consider the appropriate valuation of the security in question. The VC meets on a regular basis and formally reviews all new fair value assessments and other pricing issues. Ad-hoc fair value approvals may be received via email to the committee members or by means of extraordinary meetings of the VC should the need arise.

The Company recognises transfers between levels of the fair value hierarchy as at the end of the reporting period during which the change has occurred.

*(iv) Amortised cost measurement*

The amortised cost of a financial asset or financial liability is the amount at which the financial asset or financial liability is measured at initial recognition, minus principal repayments, plus or minus the cumulative amortisation using the EIR of any difference between the initial amount recognised and the maturity amount, minus any adjustment for any loss allowances for financial assets.

*(v) Impairment of financial assets*

IFRS 9 requires an impairment assessment to be carried out on its financial assets held at amortised cost. Mercer Global Investments Management Limited ("MGIM", the "Manager") has reviewed the impairment assessment of financial assets held at amortised cost. The Manager considers the probability of default to be close to zero, as these instruments have a low risk of default and the counterparties have a strong capacity to meet their contractual obligations in the near term. As a result, no loss allowance has been recognised in the financial statements based on 12-month expected credit losses ("ECLs") as any such impairment would be wholly insignificant to the Company.

The Company measures loss allowances at an amount equal to lifetime ECLs, except for the following which are measured at 12-month ECLs:

- financial assets that are determined to have low credit risk at the reporting date; and
- other financial assets for which credit risk (i.e. the risk of default occurring over the expected life of the asset) has not increased significantly since initial recognition.

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating ECLs, the Company considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Company's historical experience and informed credit assessment and including forward-looking information.

The Company assumes that the credit risk on a financial asset has increased significantly if it is more than 30 days past due. The Company considers a financial asset to have low credit risk when the credit rating of the counterparty is

**2. Accounting policies (continued)****f) Financial instruments (continued)***(v) Impairment of financial assets (continued)*

equivalent to the globally understood definition of “investment grade”. The Company considers this to be Baa3 or higher per Moody’s or BBB- or higher per Standard and Poor’s.

Lifetime ECLs are the ECLs that result from all possible default events over the expected life of a financial instrument. 12-month ECLs are the portion of ECLs that result from the default events that are possible within the 12 months after the reporting date (or a shorter period if the expected life of the instrument is less than 12 months). The maximum period considered when estimating ECLs is the maximum contractual period over which the Company is exposed to credit risk.

*Measurement of ECLs*

ECLs are a probability-weighted estimate of credit losses. Credit losses are measured as the present value of all cash shortfalls (i.e. the difference between the cash flows due to the entity in accordance with the contract and the cash flows that the Company expects to receive). ECLs are discounted at the EIR of the financial asset.

*Credit-impaired financial assets*

At each reporting date, the Company assesses whether financial assets carried at amortised cost are credit-impaired. A financial asset is “credit-impaired” when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

Evidence that a financial asset is credit impaired includes the following observable data:

- significant financial difficulty of the borrower or issuer;
- a breach of contract such as a default or being more than 90 days past due; or
- it is probable that the borrower will enter bankruptcy or other financial reorganisations.

Loss allowances for financial assets measured at amortised cost are deducted from the gross carrying amount of the assets.

*Write off*

The gross carrying amount of financial assets is written off when the Company has no reasonable expectations of recovering a financial asset in its entirety or a portion thereof.

*(vi) Derecognition*

The Company derecognises a financial asset when the contractual right to the cash flows from the financial asset expires or it transfers the financial asset and the transfer qualifies for derecognition in accordance with IFRS 9.

A financial liability is derecognised when the obligation specified in the contract is discharged, cancelled or expired. The Company uses the average cost method to determine realised gains and losses on derecognition.

*(vii) Offsetting*

Financial assets and financial liabilities are offset and the net amount presented in the Statement of Financial Position when and only when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis, or realise the assets and settle the liability simultaneously.

Income and expenses are presented on a net basis for gains and losses from financial instruments at FVTPL and foreign exchange gains and losses.

**g) Dividend and interest income/expense**

Dividend income is recognised in Net (loss)/gain from financial instruments at FVTPL in the Statement of Comprehensive Income on the date that the right to receive payment is established. Dividend income from unquoted equities is recognised when the dividend is declared and Shareholders’ approval has been obtained.

Bank interest income and bank interest expense are recognised in Interest income calculated using the EIR and Bank interest expense respectively in the Statement of Comprehensive Income.

Interest income and interest expense generated from assets classified as FVTPL is disclosed in Net (loss)/gain from financial instruments at FVTPL in the Statement of Comprehensive Income.

**2. Accounting policies (continued)****h) Net (loss)/gain from financial instruments at FVTPL**

Net (loss)/gain from financial instruments at FVTPL includes all realised gains and losses, unrealised gains and losses from fair value changes, foreign exchange differences, dividend and interest income/(expense) on financial instruments at FVTPL. The Company records its investment transactions on trade date basis. Realised gains and losses are calculated based on the average cost method.

The change in unrealised gain or loss represents a movement in fair value to cost of the investment between reporting periods. Where a security's fair value over cost increases over the period, this is recorded as a change in unrealised gain on investments. Where a security's fair value over cost decreases over the period, this is recorded as a change in unrealised loss on investments. For investments and FDIs held at the end of the prior financial year and sold in their entirety during the current financial year, the unrealised gain or loss represents the difference between the carrying amount of a financial instrument at the beginning of the period, or the transaction price if it was purchased in the current reporting period, and its carrying amount at the end of the period, being € Nil.

**i) Rebate income**

Rebate income is received by a Sub-Fund by virtue of its investment in the units of another investment fund where the Manager has negotiated a discounted management fee (the "Management Fee") on its investment in the units of the underlying Investment Fund. Rebate income is accounted for on an accrual basis in the Statement of Comprehensive Income.

**j) Operating expenses**

Operating expenses recognised in the Statement of Comprehensive Income on an accrual basis.

**k) Cash and cash equivalents and bank overdraft**

Cash and cash equivalents comprise deposits with banks and highly liquid financial assets with maturities of three months or less from the date of acquisition that are subject to an insignificant risk of changes in their fair value and are used by the Company in the management of short-term commitments, other than cash collateral provided in respect of derivatives and securities borrowing transactions. Bank overdrafts are shown within liabilities in the Statement of Financial Position.

**l) Unfunded loans**

Unfunded loans occur when the Company commits to purchase a loan asset and has purchased less than 100% of the commitment as at year end. The percentage outstanding as at year end is the unfunded loan. The full 100% of the commitment is reflected in the Statement of Financial Position. The percentage outstanding is reflected in the Statement of Financial Position as a financial liability.

**m) Redeemable participating shares**

Redeemable participating shares are redeemable at the Shareholder's option and are classified as financial liabilities.

The redeemable participating shares can be put back to the Sub-Funds at any dealing day for cash equal to a proportionate share of the relevant Sub-Fund's NAV. The redeemable participating shares are carried at the redemption amount that is payable at the reporting date if the Shareholders exercised their right to put the share back to the Sub-Fund.

**Swing Pricing**

The Directors may determine, at their discretion, to "swing" the NAV to counter the possible negative effects of dilution. Swing pricing is applied to a Sub-Fund once net subscriptions or redemptions for a Sub-Fund for a given dealing day exceeds a predetermined amount.

**Anti-Dilution levy**

An anti-dilution levy is applied to a Sub-Fund on any dealing day where there are net subscriptions or net redemptions, the Directors may determine to add or deduct, as appropriate, an anti-dilution levy, to or from the subscription or redemption amount on that dealing day in order to cover dealing costs and to preserve the value of the underlying assets of the Sub-Fund for existing Shareholders.

Please see Note 11 to the financial statements for further details.

**2. Accounting policies (continued)****n) Financial derivative instruments***(i) Forward foreign currency contracts*

The fair value of open forward foreign currency contracts is calculated as the difference between the contracted rate and the current forward rate that would close out the contract on the valuation date. Gains or losses arising on the settlement of forward foreign currency contracts are included in Net (loss)/gain from financial instruments at FVTPL in the Statement of Comprehensive Income. The unrealised gain/(loss) on open forward foreign currency contracts is calculated by reference to the forward price. Realised gains or losses include net gains and losses on contracts which have been settled or offset by other contracts.

*(ii) Futures contracts on securities*

The fair value of futures contracts is based upon daily quoted settlement prices. Changes in the value of the contract are recognised as unrealised gains or losses in Net (loss)/gain from financial instruments at FVTPL in the Statement of Comprehensive Income by "marking to market" the value of the contract at the reporting date. When the contract is closed, the difference between the proceeds from (or cost of) the closing transactions and the original transaction is recorded as a realised gain/(loss) in Net (loss)/gain from financial instruments at FVTPL in the Statement of Comprehensive Income. Futures contracts are treated as settled to market and are recorded as a due from/to broker in the Statement of Financial Position. Futures contracts are presented in the Portfolio Statements on a gross basis.

*(iii) Interest rate swaps, credit default swaps, total return swaps, cross currency interest rate swaps and equity swaps*

Interest rate swaps ("IRS"), credit default swaps ("CDS"), total return swaps ("TRS"), cross currency interest rate swaps ("CCIRS") and equity swaps may be purchased or sold to enhance return, to hedge against fluctuations in security prices, market conditions or currency exchange rates, or as a substitute for the purchase or sale of securities or currencies, either for efficient portfolio management ("EPM") or investment purposes.

Derivatives such as IRS are used for trading purposes while CDS are used for hedging purposes.

IRS are measured initially at fair value on the date on which the derivative contract is entered into and subsequently remeasured at fair value. Fair values are obtained from counterparties or from quoted market prices in active markets, including recent market transactions, and from valuation techniques using discounted cash flow models and option pricing models as appropriate. IRS are included in assets when the fair value is positive and in liabilities when the fair value is negative, unless there is the legal ability and intention to settle the asset and liability on a net basis. Revenues/payments arising on IRS are included in Net (loss)/gain from financial instruments at FVTPL in the Statement of Comprehensive Income. Swap contracts are carried at fair value based upon the fair value of the underlying assets, the risk associated with the underlying assets, and any additional provisions of the derivative contract. The centrally cleared IRS held on MGI Global Bond Fund, MGI Emerging Markets Debt Fund, Mercer Short Duration Global Bond Fund 2, Mercer Absolute Return Fixed Income Fund, Mercer Short Duration Bond Fund 3 and PIMCO Global Aggregate Bond Fund are treated as settled to market and are presented in the Portfolio Statements of the respective Sub-Funds on a net basis.

CDS contracts are valued at fair value based on a pricing methodology utilising certain factors which include the credit risk of the reference obligations of the underlying issuers, as well as the specific terms of the contract. Certain CDS contracts entered into may include upfront fees that are paid by the buyer to the seller of the CDS contracts at the date of transaction. Such fees are reported as unrealised gains or losses in the Statement of Financial Position and as net gains and losses in the Statement of Comprehensive Income. These upfront payments represent the amounts paid or received when initially entering into the swap agreement to compensate for differences between the stated terms of the swap agreement and the prevailing market conditions and are included as realised gains or losses in the Statement of Comprehensive Income upon termination or maturity of the swap.

TRS is an agreement in which one party makes payments based on a set rate, either fixed or variable, while the other party makes payments based on the return of an underlying asset, which includes both the income it generates and any capital gains. In TRS, the underlying asset, referred to as the reference asset, is usually a stock or fixed income index. This is owned by the party receiving the set rate payment. TRS allow the party receiving the total return to gain exposure and benefit from a reference asset without actually having to own it. Contracts are marked-to-market daily based upon calculations using a valuation model and the change, if any, is recorded as unrealised gain or loss in Net (loss)/gain from financial instruments at FVTPL in the Statement of Comprehensive Income.

CCIRS are contracts between the Sub-Fund and a counterparty to exchange cash flows based on interest rate markets in two different currencies (fixed or floating), calculated on a notional principal value for a fixed period. For non-deliverable CCIRS the payments for one of the currencies is settled through an alternate major currency. CCIRS are entered into to gain exposure to long and short positions in a range of international interest rates. Contracts are marked to market daily based upon calculations using a valuation model and the change, if any, is recorded as unrealised gain or loss. Payments

**2. Accounting policies (continued)****n) Financial derivative instruments (continued)***(iii) Interest rate swaps, credit default swaps, total return swaps, cross currency interest rate swaps and equity swaps (continued)*

received or paid on maturity or termination of the contract are recognised as realised gains or losses in Net (loss)/gain from financial instruments at FVTPL in the Statement of Comprehensive Income.

TRS and CCIRS are used for EPM purposes which includes hedging against market movements, currency exchange or interest rate risks or otherwise, and for investment purposes.

Equity swaps are valued based on the price of the underlying investment, which may be a specific share or a share market index. Daily fluctuations in the value of derivatives are recorded as unrealised gain or loss in Net (loss)/gain from financial instruments at FVTPL in the Statement of Comprehensive Income.

Long equity swap contracts allow the Company to gain exposure to price movements of underlying investments without buying the underlying investment. Under the term of each long equity swap contract, the Company makes a profit if the underlying share price was higher on the date that the contract was closed relative to the price when the contract commenced.

With respect to short equity swap contracts, the Company makes a profit if the underlying share price was lower on the date that the contract was closed relative to the price when the contract commenced.

Income related to equity swaps (either interest or dividends) is recognised as part of Net (loss)/gain from financial instruments at FVTPL in the Statement of Comprehensive Income. Expenses related to equity swaps are recognised in other operating expenses within the Statement of Comprehensive Income.

*(iv) Swaptions*

When a Sub-Fund writes a swaption, a premium is received by the Sub-Fund and the swaption is initially recognised at the amount of the premium. The difference between the premium received and the fair value reported in the Statement of Financial Position gives rise to an unrealised gain/(loss). When a swaption which the Sub-Fund has written is exercised, the amount of the premium originally received will offset the cost of the swap upon exercise of the option in arriving at the movement in unrealised gain/(loss) to be included in the Statement of Comprehensive Income. Premiums received on swaptions written which expire unexercised are treated as realised gains in the Statement of Comprehensive Income.

When a Sub-Fund purchases a swaption, a premium is paid by the Sub-Fund and the swaption is initially recognised at the amount of the premium. The swaption is subsequently marked-to-market to reflect the fair value of the swaption purchased, which is reported within financial assets at FVTPL in the Statement of Financial Position. When a swaption which the Sub-Fund holds is exercised, the amount of the premium originally paid will offset the cost of the swap upon exercise of the option in arriving at the movement in unrealised gain/(loss) to be included in the Statement of Comprehensive Income. Premiums paid from the purchase of swaptions which expire unexercised are treated as realised losses in the Statement of Comprehensive Income.

*(v) Warrants*

Warrants are sometimes used to gain exposure to emerging market equities where custody, liquidity, or other issues make ownership of local shares sub-optimal.

The valuation of the warrants depends on the level of trading. If the warrants are actively traded in the market then the market price is used. If the warrants are not actively traded in the market the intrinsic value of the warrant based on underlying equity price and warrant strike price is used. Warrants by their nature are covered investments.

*(vi) Options*

A Sub-Fund may purchase and sell (write) call and put options on securities, securities indices and foreign currencies traded on a national securities exchange or in an over the counter ("OTC") market.

When a Sub-Fund purchases a call or a put option, a premium is paid by the Sub-Fund. The premium on purchased put options exercised is subtracted from the proceeds of the sale of the underlying security or foreign currency in determining the realised gain or loss. The premium on purchased call options exercised is included in determining initial fair value of the securities or foreign currency purchased. Premiums paid on the purchase of options which expire unexercised are treated as realised losses. The option is subsequently marked-to-market to reflect the fair value of the option purchased, which is reported within financial assets at FVTPL in the Statement of Financial Position for each relevant Sub-Fund.

If an option which a Sub-Fund has written either expires on its stipulated expiration date or a Sub-Fund enters into a closing purchase transaction, a Sub-Fund realises a gain (or loss, if the cost of a closing purchase transaction exceeds the premium received when the option was sold) without regard to any unrealised gain or loss on the underlying security, and the liability related to such option is extinguished. If a call option which a Sub-Fund has written is exercised, a

**2. Accounting policies (continued)****n) Financial derivative instruments (continued)***(vi) Options (continued)*

Sub-Fund realises a capital gain or loss from the sale of the underlying security, and the proceeds from such sales are increased by the premium originally received. When a put option which a Sub-Fund has written is exercised, the amount of the premium originally received will reduce the cost of the security which a Sub-Fund purchases upon exercise of the option.

The OTC options are valued at close of business on the dealing day at the settlement price as provided by the counterparty/broker and the values are independently valued, at a minimum, weekly. The fair values of exchange traded options are based upon their quoted daily settlement prices on the relevant exchange. In the event of it being impossible or incorrect to carry out a valuation of a specific investment in accordance with the valuation rules, or if such valuation is not representative of a security's fair market value, the Directors are entitled to use other generally recognised valuation methods in order to reach a proper valuation of that specific instrument, provided that such method of valuation has been approved by State Street Custodial Services (Ireland) Limited (the "Depositary").

**o) Repurchase agreements and reverse repurchase agreements***(i) Repurchase agreements*

When the Sub-Fund sells a financial asset and simultaneously enters into an agreement to repurchase the same or a similar asset at a fixed price on a future date, the arrangement is accounted for as a borrowing and is recognised in the Statement of Financial Position as a payable under a repurchase agreement.

*(ii) Reverse repurchase agreements*

When the Sub-Fund purchases a financial asset and simultaneously enters into an agreement to resell the same or a substantially similar asset at a fixed price on a future date, the arrangement is accounted for as a loan and receivable, and recognised in the Statement of Financial Position as a receivable from a reverse repurchase agreement, and the underlying asset is not recognised in the Company's financial statements.

Receivable for reverse repurchase agreements and payable for repurchase agreements are subsequently measured at amortised cost.

Securities borrowed by the Sub-Funds are not recognised in the Statement of Financial Position. If the Sub-Fund subsequently sells the borrowed securities, then the arrangement is accounted for as a short sold position, recognised in the Statement of Financial Position as a financial liability at FVTPL. Cash collateral for borrowed securities is included within due from broker in the Statement of Financial Position.

**p) Due from/to broker**

Due from/to broker is margin cash and cash collateral which is held by or due to brokers. This amount is the minimum deemed by the brokers and counterparties for collateral requirements and is as such restricted and is reported separately to the unrestricted cash in the Statement of Financial Position.

Upon entering into a centrally cleared derivative contract, the Sub-Funds are required to pledge cash or securities as collateral to a central clearing house, through a broker, in accordance with the initial margin requirements of the central clearing house. At year end, the balances of the initial margin requirements at each broker, excluding the value of any securities pledged as collateral, are recorded as due from/to broker in the Statement of Financial Position. Any security that has been pledged as collateral is identified as an asset in the Statement of Financial Position at FVTPL.

**q) Cross holdings within the Company**

For the purposes of producing the combined Company total financial statements, investments by Sub-Funds within the Company in the units of other Sub-Funds within the Company, also known as "Cross Investments" must be eliminated in order to prevent double counting.

**r) Collateral**

A Sub-Fund's assets may be deposited for collateral purposes with counterparties in respect of OTC FDIs, reverse repurchase agreements and repurchase agreements held by a Sub-Fund. Investments pledged by a Sub-Fund as collateral are recognised at fair value in the relevant Sub-Fund's Portfolio Statements and such investments are referenced accordingly at the base of the Portfolio Statement. These assets remain in the ownership of the relevant Sub-Fund and are recorded as an asset in the Statement of Financial Position.

**2. Accounting policies (continued)****r) Collateral (continued)**

A Sub-Fund may also receive assets as collateral from counterparties. Securities received by the Sub-Funds as collateral from counterparties do not form part of the NAV of the Sub-Funds and are disclosed at the end of the relevant Portfolio Statement.

Cash collateral received is disclosed in the Statement of Financial Position as an asset and a related liability to repay the collateral is recorded, both of which are valued at amortised cost.

Cash pledged by the Sub-Funds as collateral is disclosed in the Statement of Financial Position within due from broker.

**s) Tax**

The Sub-Funds currently incur withholding taxes imposed by certain countries on investment income and capital gains. Such income or gains are recorded gross of withholding taxes in the Statement of Comprehensive Income. Withholding taxes are shown as a separate item in the Statement of Comprehensive Income.

**t) Other assets**

Other assets do not carry any interest and are short-term in nature and are accordingly stated at their nominal value as reduced by appropriate allowances for estimated irrecoverable amounts.

**u) Expenses payable**

Accrued expenses are recognised initially at fair value and subsequently stated at amortised cost using the EIR.

**v) Receivable for securities sold/payable for securities purchased**

Receivable for securities sold and payable for securities purchased represent sales and purchases that have been contracted for but not yet delivered by the end of the financial year. They are disclosed as assets and liabilities, respectively, in the Statement of Financial Position.

**w) Subscriptions receivable/redemptions payable**

The subscriptions receivable/redemptions payable represent amounts receivable and payable from/to investors for Sub-Fund shares issued/redeemed for which settlement has not occurred at the end of the financial year and are included as assets/liabilities in the Statement of Financial Position.

**x) Distributions**

Distributions on distributing share classes with an ex-date during the financial year are included as a finance cost in the Statement of Comprehensive Income. The reinvestment of distributions if applicable, being the portion of the total distribution reinvested, are included as a share transaction in the Statement of Changes in net assets attributable to holders of redeemable participating shares. None of the distributions are paid out of the capital.

**y) Transaction costs**

Transaction costs are incremental costs that are directly attributable to the acquisition, issue or disposal of a financial asset or financial liability. An incremental cost is one that would not have been incurred if the entity had not acquired, issued or disposed of the financial instrument. When a financial asset or financial liability is recognised initially, an entity shall measure it at its fair value plus transaction costs that are directly attributable to the acquisition or issue of the financial asset or financial liability.

Transaction costs on the purchase and sale of bonds, forwards and swaps are included in the purchase and sale price of the investment. They cannot be practically or reliably gathered as they are embedded in the cost of the investment and cannot be separately verified or disclosed.

Transaction costs on purchases and sales of equities, futures and options are included in Net (loss)/gain from financial instruments at FVTPL in the Statement of Comprehensive Income for each Sub-Fund. Depositary transaction costs are included in Depositary/sub-custodian fees in the Statement of Comprehensive Income for each Sub-Fund. These costs are separately identifiable transaction costs and the total of these costs incurred by each Sub-Fund during the financial year are disclosed in Note 3 to the financial statements.

**2. Accounting policies (continued)****z) Securities lending income**

Income earned from securities lending activities is accounted for on an accruals basis. Securities lending income is recognised in the Statement of Comprehensive Income. Investments lent under securities lending agreement continue to be recognised in the Statement of Financial Position, as the Company continues to be exposed to all gains and losses arising from the ownership of these securities and are measured in accordance with the accounting policy for financial instruments.

**aa) Interest payable**

Interest payable is stated at its accrued value.

**ab) Securities sold short**

The Company may enter into short sales transactions. A short sale is a transaction in which a Sub-Fund sells securities it may not own in anticipation of a decline in the fair value of the securities. Securities sold in short sale transactions and the interest payable on such securities, if any, is reflected as a liability on the Statement of Financial Position. A Sub-Fund is obligated to deliver securities at the trade price at the time the short position is covered. Possible losses from short sales may be unlimited, whereas losses from purchases cannot exceed the total amount invested. Cash collateral for borrowed securities is included within due from broker in the Statement of Financial Position.

**ac) Money market instruments**

Certain Sub-Funds may invest in money market instruments including commercial paper, floating rate notes and freely transferable promissory notes for ancillary liquidity purposes.

Money market instruments are recognised at FVTPL and included in the Statement of Financial Position.

**ad) To Be Announced ("TBA") Commitments**

The Sub-Funds may enter into TBA purchase commitments, with payment and delivery at a scheduled future date beyond the customary settlement period for that security. With TBA transactions, the particular securities to be delivered are not identified at trade date. The Sub-Funds maintain cash reserves and liquid assets sufficient to settle their TBAs. TBA securities are purchased and sold on a forward commitment basis with an approximate principal amount and maturity date. The actual principal amount and maturity date will be determined upon settlement when the specific mortgage pools are assigned. TBA commitments may be considered securities in themselves, and involve a risk of loss if the value of the security to be purchased declines prior to settlement date.

Unsettled TBA commitments are valued at FVTPL and included in transferable securities in the Statement of Financial Position.

**3. Fees and expenses****Management Fee, Sub-Investment Managers' Fees and Voluntary Cap**

The Manager is paid a Management Fee and is responsible for the payment of the Investment Manager's fee and the Distributor's fee (including reasonable out of pocket expenses) out of the Management Fee. The additional fees and expenses of any Sub-Investment Manager, the Administrator and the Depositary (including reasonable out of pocket expenses) are paid out of the assets of the relevant Sub-Fund. Investments by Sub-Funds of the Company into funds also managed by the Manager are not charged a Management Fee at the level of the underlying fund, thereby ensuring that there is no double charging of fees by the Manager. However, there may be a hedging fee applied to any investments by the Sub-Funds into hedged Share Classes of the underlying fund. Neither the aggregate fees and expenses of the Manager, Administrator, Depositary, Distributor and Investment Manager nor the Sub-Investment Manager (where applicable) will each exceed 1.25% per annum of the NAV of the MGI Euro Bond Fund, MGI UK Inflation Linked Bond Fund, MGI UK Long Gilt Fund, Mercer Passive Global Equity Fund, Mercer Euro Over 5 Year Bond Fund, Mercer Passive Emerging Markets Equity Fund, Mercer US Treasury 1-3 Year Bond Fund, Mercer US Treasury 3-7 Year Bond Fund, Mercer Short Dated UK Gilt Fund and Mercer Passive Sustainable Global Equity Feeder Fund. For all other Sub-Funds the aggregate fees and expenses of the Manager, Administrator, Depositary, Distributor, Investment Manager and any Sub-Investment Manager will not exceed 3% per annum of the NAV of the Sub-Fund.

## 3. Fees and expenses (continued)

## Management Fee, Sub-Investment Managers' Fees and Voluntary Cap (continued)

The Manager may undertake to limit the annual expenses attributable to certain classes within certain Sub-Funds through the use of a Voluntary Cap. During the financial year ended 30 June 2022 only Mercer Passive Sustainable Global Equity Feeder Fund, Mercer Passive Global REITs Feeder Fund and Mercer Passive Low Volatility Equity Feeder Fund had a Voluntary Cap in place.

\* Maximum fee includes Manager, Administrator, Depositary, Distributor and Investment Manager fees capped at 1.25% and Sub-Investment Manager fees capped at 1.25%.

\*\* Maximum fee includes Manager, Administrator, Depositary, Distributor and Investment Manager fees.

\*\*\*These Share Classes terminated during the financial year ended 30 June 2021.

\*\*\*\*This Sub-Fund terminated during the financial year ended 30 June 2022.

All the Z Share Classes pay 0% Management Fee. The Z Hedged Share Classes may be subject to hedging fees.

**3. Fees and expenses (continued)****Audit fees**

Audit fees charged by the Auditor during the financial year ended 30 June 2022 and 30 June 2021 relate to the following:

	30 Jun 2022 €	30 Jun 2021 €
<b>MGI Funds plc</b>		
Statutory audit fee	(374,525)	(474,611)
Other assurance services	-	(48,000)
<b>Total</b>	<b>(374,525)</b>	<b>(522,611)</b>

The fee for the statutory audit of the accounts, as disclosed in the table above, is exclusive of value added tax ("VAT") and out of pocket expenses. The audit fees recognised in the Statement of Comprehensive Income are inclusive of VAT. There were no other assurance or other non-audit services provided by the Auditor in respect of the current and prior financial year.

**Administration, Depositary and Other fees**

The fees and expenses of the Administrator and the Depositary, (including reasonable out of pocket expenses) shall be paid by the Company out of the assets of the relevant Sub-Fund. The Company shall also reimburse the Depositary out of the assets of the relevant Sub-Fund for the reasonable fees and customary agents' charges paid by the Depositary to any sub-custodian (which shall be charged at normal commercial rates) together with VAT, if any, thereon. These fees accrue and are calculated on each dealing date and are payable monthly in arrears. Administration fees incurred by the Company during the financial year amounted to € 4,842,134 (30 June 2021: € 4,407,163). The Administration fee payable by the Company at financial year end was € 1,120,562 (30 June 2021: € 753,544). Depositary fees incurred by the Company during the financial year amounted to € 1,891,518 (30 June 2021: € 1,683,630). The Depositary fee payable by the Company at financial year end was € 455,188 (30 June 2021: € 305,087).

The Sub-Funds, with the exception of Mercer Alternative Risk Premia Fund, are charged Administration fees, which includes fund accounting, Share Class fees, transfer agency, financial and tax reporting fees, at fee rates ranging between 0.425 basis points ("bps") and 1.5 bps of the NAV based on the daily Assets under Administration ("AUA"). The Sub-Funds are charged Depositary fees, at fee rates ranging between 0.18 bps and 0.625 bps of the NAV based on the daily AUA. Mercer Alternative Risk Premia Fund is charged one fee per annum for Administration, Depositary and Custody services, at fee rates ranging between 8 bps and 12 bps of the NAV. The Sub-Funds are charged Sub-Investment Managers' fees.

Fees incurred by the Company during the financial year are recognised in the Statement of Comprehensive Income. Included in the Sub-Investment Managers' fees are fees earned by State Street Global Advisors (Ireland) Limited. They earned fees of € 1,175,941 (30 June 2021: € 544,782) of which € 1,005,953 (30 June 2021: € 540,546) was payable at the financial year end.

**Transaction costs**

As detailed in Note 2 to the financial statements, transaction costs on the purchase and sale of bonds, forwards, and swaps are included in the purchase and sale prices of the investment. They cannot be practically or reliably gathered as they are embedded in the cost of the investment and cannot be separately verified or disclosed.

For the financial year ended 30 June 2022 and 30 June 2021, the Sub-Funds listed below incurred transaction costs on other purchases and sales, excluding bonds, forwards and swaps as follows:

	Transaction costs on purchase & sale of investments 30 Jun 2022	Custody transaction costs 30 Jun 2022	Transaction costs on purchase & sale of investments 30 Jun 2021	Custody transaction costs 30 Jun 2021

**4. Related parties**

This note provides detail on related party transactions concerning MGI Funds plc.

**Management Fee**

The Manager has appointed MGIE as Investment Manager for each of the Sub-Funds. The Investment Manager has responsibility for the on-going monitoring of investments within each of the Sub-Funds of the Company.

## 4. Related parties (continued)

## Management Fee (continued)

The Management Fee incurred by the Company during the financial year amounted to € 141,023,669 (30 June 2021: € 121,253,127). As detailed in Note 3 to the financial statements, the Manager has undertaken to limit the annual expenses for certain classes of Mercer Passive Sustainable Global Equity Feeder Fund, Mercer Passive Global REITs Feeder Fund and Mercer Passive Low Volatility Equity Feeder Fund through the use of a Voluntary Cap. The application of the Voluntary Cap has resulted in a total reimbursement of € 30,289 (30 June 2021: € 14,589) which is detailed in the table below. The Manager's fee, which is included within expenses in the Statement of Comprehensive Income, is net of the reimbursement. The Management Fee payable at the financial year end was € 10,556,606 (30 June 2021: € 11,391,508).

The following table details the Management Fee charged and the Voluntary Cap Reimbursement received by the Sub-Funds for the financial year ended 30 June 2022 and 30 June 2021.

## Performance fee

## Mercer Alternative Risk Premia Fund

The Sub-Investment Manager shall be entitled to receive a performance fee (the "Performance Fee") in respect of each Share Class which contains "P" in its name.

The Performance Fee shall be calculated as a percentage of the Net Trading Gain (as defined below) of each relevant Share Class. The Performance Fee shall be calculated as a percentage (10%) of the Net Trading Gain attributable to the relevant Share Class, as outlined further below.

The "Net Trading Gain" means for each relevant Share Class the greater of (i) zero or (ii) the difference between the NAV (excluding any Performance Fee for the period, not yet crystallised) in excess of the applicable High Watermark (as defined below) for that Share Class. The Performance Fee will be calculated and accrued on each Valuation Point as an expense of the relevant Share Class and will be payable annually in arrears, at the end of the Calculation Period or on another Calculation Day, in each case as defined below.

The "Calculation Day" for the purposes of calculating the Performance Fee means:

- (i) the last Business Day of the Calculation Period (as defined below);
- (ii) in respect of Shares which are redeemed, the Dealing Day on which such Shares are being redeemed;
- (iii) the date of termination of the Capital Fund Management Sub-Investment Management Agreement (the "CFM Sub-IMA"); or
- (iv) such other date on which the Company or the Sub-Fund may be terminated, liquidated or cease trading.

"Calculation Period" shall mean the period beginning on 1 July each year and ending on 30 June each year. However, the first Calculation Period in respect of any Class of Shares will be the period commencing on the Business Day immediately following the close of the initial offer period for that Class and ending on 30 June in that same calendar year. The first value used in determining the first Performance Fee shall be the initial issue price for the relevant Class. The Performance Fee for each Class of Shares is payable annually in arrears in respect of each Calculation Period.

The Performance Fee for the "P" Share Classes will be calculated by the Administrator and the calculation will be verified by the Depositary.

Net realised and unrealised capital gains and net realised and unrealised capital losses will be included, for all relevant Classes of Shares, in the performance fee calculation as at the end of a Calculation Date. As a result a Performance Fee may be paid on unrealised gains that may subsequently never be realised. All fees and expenses (except the Performance Fee) that have been accrued or paid (but not previously accrued) for a given period will be deducted prior to calculating the Performance Fees for such period.

No Performance Fee may be accrued or paid until the NAV of the relevant Share Class exceeds the High Water Mark (defined below) over which the Performance Fee is payable, adjusted for subscriptions and redemptions. The Performance Fee is payable only on the increase over the High Water Mark.

**4. Related parties (continued)****Mercer Alternative Risk Premia Fund (continued)****High Water Mark**

For the purposes of the Performance Fee calculation, the “High Water Mark” attributable to each relevant Class is the greater of:

- (i) The highest NAV of the relevant Share Class plus the total Hurdle Amount (as defined below) at the point of calculation noted as of the end of each Calculation Period since inception of the Sub-Fund adjusted for subscriptions and redemptions; or
- (ii) If no Performance Fee has ever been realised, then the NAV of the relevant Share Class (i.e. the initial offer price) at the inception of the Sub-Fund plus the total Hurdle Amount (as defined below) adjusted for subscriptions and redemptions.

“Hurdle Amount” means the NAV of the relevant Share Class on each day and aggregated since inception or the last payment of a Performance Fee and adjusted for redemptions.

In any of the circumstances listed (i) to (iv) which occur as of a date other than 30 June, a Performance Fee (if accrued as of the date of any such circumstance) shall be crystallised in respect of the Shares being redeemed. Crystallised Performance Fees shall remain in the relevant Share Class until paid and shall not be used or made available to satisfy repurchases or pay any fees and expenses of the relevant Share Class. When a redemption is made, the High Water Mark is proportionately adjusted downwards in proportion to the change in NAV.

If any Share Class experiences net losses after the payment of a Performance Fee in respect of such Share Class, the Sub-Investment Manager will retain all Performance Fees previously paid to it in respect of such Share Class but will not receive a new Performance Fee in respect of such Share Class until additional New Net Appreciation is achieved by such Share Class. No equalisation or series accounting model will be applied in relation to the Performance Fee calculation. The methodology used may therefore result in inequalities between investors in a Share Class in relation to the payment of Performance Fees.

There was no performance fee paid during the financial year ended 30 June 2022 or 30 June 2021.

**Feeder Funds**

Mercer Passive Sustainable Global Equity Feeder Fund invests substantially all of its assets in the Class Z Units of Mercer Passive Sustainable Global Equity UCITS CCF, a Sub-Fund of Mercer UCITS Common Contractual Fund. The Class Z Units are offered primarily to clients of the Investment Manager or its affiliates pursuant to an investment management agreement. Those investors in the Class Z Units are given a 0% Management Fee.

Mercer Passive Global REITs Feeder Fund invests substantially all of its assets in the Class Z Units of Mercer Passive Global REITs UCITS CCF, a Sub-Fund of Mercer UCITS Common Contractual Fund. The Class Z Units are offered primarily to clients of the Investment Manager or its affiliates pursuant to an investment management agreement. Those investors in the Class Z Units are given a 0% Management Fee.

Mercer Passive Low Volatility Equity Feeder Fund invests substantially all of its assets in the Class Z Units of Mercer Passive Low Volatility Equity UCITS CCF, a Sub-Fund of Mercer UCITS Common Contractual Fund. The Class Z Units are offered primarily to clients of the Investment Manager or its affiliates pursuant to an investment management agreement. Those investors in the Class Z Units are given a 0% Management Fee.

**Directors' fees**

Hooman Kaveh is the Chief Investment Officer (the “CIO”) for Mercer Investment Solutions, Carmel Jordan is the Chief Executive Officer (the “CEO”) of MGIM, the Manager and Helen O’Beirne is the Head of Business Regulation and Conduct Risk for MGIE, the Investment Manager. Hooman Kaveh, Carmel Jordan and Helen O’Beirne do not receive a fee for their Directorship as only Independent Non-executive Directors receive a fee. The Manager and the Investment Manager are related to Mercer (Ireland) Limited as all three entities are wholly owned subsidiaries of Mercer Ireland Holdings Limited, the parent company.

The Directors earned € 135,800 for the financial year ended 30 June 2022 (30 June 2021: € 126,810) of which € 35,165 was payable as at 30 June 2022 (30 June 2021: € 33,154). The Company does not bear the cost of Directors’ expense reimbursements. These are paid by the Manager.

**4. Related parties (continued)****Collateral Manager/Secured Party**

The Company has appointed State Street Bank International GmbH (the "Collateral Manager/Secured Party") as the Collateral Manager/Secured Party. As at 30 June 2022, Mercer Multi Asset Defensive Fund and Mercer Multi Asset High Growth Fund hold FDIs with the Collateral Manager/Secured Party.

**Sub-Investment Manager**

The Company has appointed State Street Global Advisors Europe Limited as a Sub-Investment Manager.

**Security lending agent**

The Company has appointed State Street Bank and Trust Company, London Branch (the "Securities Lending Agent"), as securities lending agent.

**Equitisation Manager**

The Company has appointed State Street Global Advisors Europe Limited as an equitisation manager to manage a portion of the assets.

**Other related party transactions**

The Company is related to Mercer PIF Fund plc, Mercer QIF Fund plc, Mercer QIF CCF and Mercer UCITS Common Contractual Fund by virtue of the fact that they are managed by the same Manager and Investment Manager. The Company is further related to Mercer PIF Fund plc and Mercer QIF Fund plc by virtue of the fact that they have common Directors. Mercer QIF CCF and Mercer UCITS Common Contractual Fund are managed by the MGIM Board.

## Feeder Funds

Mercer Passive Sustainable Global Equity Feeder Fund is a feeder fund and invests substantially all of its assets in the Class Z Units of Mercer Passive Sustainable Global Equity UCITS CCF, a Sub-Fund of Mercer UCITS Common Contractual Fund (the "Master Fund"). The Company is related to Mercer UCITS Common Contractual Fund by virtue of the fact that they are managed by the same Manager and Investment Manager. The Company is further related by virtue of the fact that they have common Directors. Mercer UCITS Common Contractual Fund is managed by the MGIM Board. As at 30 June 2022, Mercer Passive Sustainable Global Equity Feeder Fund had invested 102.03% of its NAV in Mercer Passive Sustainable Global Equity UCITS CCF (30 June 2021: 101.24%). Mercer Passive Sustainable Global Equity Feeder Fund will indirectly bear a pro rata portion of the fees and expenses of Mercer Passive Sustainable Global Equity UCITS CCF as an investor in the fund. A copy of the annual report and audited financial statements of Mercer Passive Sustainable Global Equity UCITS CCF are available to investors free of charge upon request from the Manager.

Mercer Passive Global REITs Feeder Fund is a feeder fund and invests substantially all of its assets in the Class Z Units of Mercer Passive Global REITs UCITS CCF, a Sub-Fund of Mercer UCITS Common Contractual Fund (the "Master Fund"). The Company is related to Mercer UCITS Common Contractual Fund by virtue of the fact that they are managed by the same Manager and Investment Manager. The Company is further related by virtue of the fact that they have common Directors. Mercer UCITS Common Contractual Fund is managed by the MGIM Board. As at 30 June 2022, Mercer Passive Global REITs Feeder Fund had invested 99.96% of its NAV in Mercer Passive Global REITs UCITS CCF (30 June 2021: 99.95%). Mercer Passive Global REITs Feeder Fund will indirectly bear a pro rata portion of the fees and expenses of Mercer Passive Global REITs UCITS CCF as an investor in the fund. A copy of the annual report and audited financial statements of Mercer Passive Global REITs UCITS CCF are available to investors free of charge upon request from the Manager.

Mercer Passive Low Volatility Equity Feeder Fund is a feeder fund and invests substantially all of its assets in the Class Z Units of Mercer Passive Low Volatility Equity UCITS CCF, a Sub-Fund of Mercer UCITS Common Contractual Fund (the "Master Fund"). The Company is related to Mercer UCITS Common Contractual Fund by virtue of the fact that they are managed by the same Manager and Investment Manager. The Company is further related by virtue of the fact that they have common Directors. Mercer UCITS Common Contractual Fund is managed by the MGIM Board. As at 30 June 2022, Mercer Passive Low Volatility Equity Feeder Fund had invested 101.75% of its NAV in Mercer Passive Low Volatility Equity UCITS CCF (30 June 2021: 102.23%). Mercer Passive Low Volatility Equity Feeder Fund will indirectly bear a pro rata portion of the fees and expenses of Mercer Passive Low Volatility Equity UCITS CCF as an investor in the fund. A copy of the annual report and audited financial statements of Mercer Passive Low Volatility Equity UCITS CCF are available to investors free of charge upon request from the Manager.

## Cross holdings

For the purposes of producing the combined Company financial statements, investments by Sub-Funds within the Company in the shares of other Sub-Funds within the Company, also known as "Cross Investments" must be eliminated in order to prevent double counting.

In preparing the combined Company Statement of Financial Position, the value of financial assets at FVTPL of the Company is reduced by the value of all Cross Investments as at 30 June 2022 and 30 June 2021. In preparing the combined Company Statement of Comprehensive Income, the Net (loss)/gain from financial instruments at FVTPL, is reduced by the amount of realised and unrealised gains and losses earned during the financial year on such Cross Investments.

## 4. Related parties (continued)

There were no asset swap transactions during the financial year ended 30 June 2022.

## 30 June 2021

Mercer Diversified Growth Fund and Mercer Passive Global High Yield Bond Fund were involved in an asset swap transaction during the financial year ended 30 June 2021 amounting to US\$ 932,781,759, which included cash of US\$ 31,789,671.

Mercer Global High Yield Bond Fund and Mercer Diversified Growth Fund were involved in an asset swap transaction during the financial year ended 30 June 2021 amounting to US\$ 936,981,584, which included cash of US\$ 33,776,635.

Mercer Global High Yield Bond Fund and Mercer Multi Asset Growth Fund were involved in an asset swap transaction during the financial year ended 30 June 2021 amounting to GBP£ 954,319,823, which included cash of GBP£ 33,047,037.

Mercer Multi Asset Growth Fund and Mercer Passive Global High Yield Bond Fund were involved in an asset swap transaction during the financial year ended 30 June 2021 amounting to GBP£ 965,085,252, which included cash of GBP£ 27,449,355.

**4. Related parties (continued)****In-specie transfers****30 June 2022**

Mercer Sustainable Global Equity Fund actioned an in-specie transfer of assets during the financial year ended 30 June 2022 amounting to US\$ 533,403,059, which included cash of US\$ 14,409,613.

**30 June 2021**

Mercer Global High Yield Bond Fund actioned an in-specie transfer of assets during the financial year ended 30 June 2021 amounting to US\$ 2,268,209,227, which included cash of US\$ 79,875,572.

Mercer Passive Global Equity Fund accepted an in-specie transfer of assets during the financial year ended 30 June 2021 amounting to US\$ 1,279,866,606, which included cash of US\$ 18,844,756.

Mercer Euro Nominal Bond Long Duration Fund actioned an in-specie transfer of assets during the financial year ended 30 June 2021 amounting to € 34,543,654, which included cash of € 341,078.

Mercer Passive Euro Corporate Bond Fund accepted an in-specie transfer of assets during the financial year ended 30 June 2021 amounting to € 943,960,504, which included cash of € 12,584,741.

Mercer Passive Global High Yield Bond Fund accepted an in-specie transfer of assets during the financial year ended 30 June 2021 amounting to US\$ 2,257,844,027, which included cash of US\$ 69,477,641.

**Shareholders of the Company**

Significant Shareholders in the Company are disclosed in Note 11 to the financial statements.

**Class Z Shares**

Class Z Shares are offered primarily to clients of the Investment Manager or its affiliates pursuant to an investment management agreement. The Sub-Funds and any other fund for which the Manager or any of its affiliates may serve as manager or investment manager may also invest in Class Z Shares. Those investors in the Z Share Class are given a 0% Management Fee. The Z Hedged Share Classes may be subject to hedging fees.

**5. Interests in unconsolidated structured entities**

The Company meets the definition of an Investment Entity under IFRS 10 and therefore does not consolidate any investments. IFRS 12 requires disclosures around "Unconsolidated Structured Entities".

IFRS 12 defines a structured entity as an entity that has been designed so that voting or similar rights are not the dominant factor in deciding who controls the entity, such as when any voting rights relate to the administrative tasks only and the relevant activities are directed by means of contractual agreements. Disclosures are required where an interest is held in a structured entity and where, for example, the investor has been involved in the setting up of the structured entity and the investor would have exposure to potential losses or costs over and above the amount actually invested.

Where it is within their investment objectives, at 30 June 2022 and 30 June 2021 the Sub-Funds held various investments in ABS, MBS and investment funds. The fair value of the ABS and MBS is recorded in the Transferable securities line and the investment funds are recorded in the Investment funds line in the Statement of Financial Position. All gains and losses are recognised as part of Net (loss)/gain from financial instruments at FVTPL in the Statement of Comprehensive Income. The carrying value of these investments is equivalent to fair value, and the Sub-Fund's maximum exposure to loss from these investments is equal to their total fair value. Once a Sub-Fund has disposed of its holding in any of these investments, the Sub-Fund ceases to be exposed to any risk from that investment.

At 30 June 2022 and 30 June 2021, there were no significant restrictions on the ability of the structured entity to transfer funds to the Company in the form of redemption of the shares held by the Company. The Company has no commitments or intentions to provide financial support or other support to the structured entity.

The Sub-Funds have concluded that ABS, MBS and open-ended investment funds in which they invest, but that they do not consolidate, meet the definition of structured entities because:

- the voting rights in these entities are not the dominant rights in deciding who controls them, as they relate to administrative tasks only;
- each entity's activities are restricted by its Prospectus; and
- the entities have narrow and well-defined objectives to provide investment opportunities to investors.

**5. Interests in unconsolidated structured entities (continued)**

The table below describes the type of unconsolidated structured entities, nature, purpose and interest held by the Sub-Funds.

Type of structured entity	Nature and purpose	Interests held by the Sub-Fund
ABS	Allow issuers to generate cash, which can be used for more lending, while giving investors in the ABS the opportunity to participate in a wide variety of income-generating assets.	Investment in ABS
MBS	An investment similar to a bond that is made up of a bundle of home loans bought from the banks that issued them. Investors in MBS receive periodic payments similar to bond coupon payments.	Investment in MBS
Investment funds	To manage assets on behalf of third party investors. These vehicles are financed through the issue of units to investors.	Investment in units issued by the funds

The table below sets out the interests greater than 1% of the relevant Sub-Fund's NAV held by the Sub-Funds in unconsolidated structured entities at 30 June 2022:

<b>Total</b>		<b>1,377,719,000</b>	<b>1</b>	<b>15,469,460</b>

\*Based on the latest available Net Assets of the Structured Entities where each underlying fund is considered a structured entity.

The table below sets out holdings held by the Sub-Funds in unconsolidated structured entities greater than 50% at 30 June 2022:

Investing Sub-Fund	Name of investee	Place of business	% of ownership
Mercer Multi Asset Growth Fund	Mercer UCITS Common Contractual Fund - Mercer Passive Low Volatility Equity UCITS CCF	Ireland	71.24%
	Mercer UCITS Common Contractual Fund - Mercer Passive Fundamental Indexation Global Equity UCITS CCF	Ireland	52.27%
	Mercer UCITS Common Contractual Fund - Mercer Passive Global Small Cap Equity UCITS CCF	Ireland	59.65%

As at 30 June 2022, there were no significant restrictions on the Sub-Fund's ability to dispose of holdings in the above listed unconsolidated structured entities.

Although the Sub-Funds hold more than 50% of the underlying entity, the Sub-Funds do not have sufficient power to affect the returns of the underlying structured entities.

The table below sets out the interests held by the Sub-Funds in MBS at 30 June 2022:

## Investment in MBS

## 5. Interests in unconsolidated structured entities (continued)

## Investment in open-ended investment funds (continued)

The table below sets out holdings held by the Sub-Funds in unconsolidated structured entities greater than 50% at 30 June 2021:

Investing Sub-Fund	Name of investee	Place of business	% of ownership
Mercer Multi Asset Growth Fund	MGI Funds plc- Mercer Passive Global High Yield Bond Fund	Ireland	52.89%
	Mercer UCITS Common Contractual Fund- Mercer Passive Global Listed Infrastructure UCITS CCF	Ireland	54.64%
	Mercer UCITS Common Contractual Fund- Mercer Passive Global Small Cap Equity UCITS CCF	Ireland	56.91%
	Mercer UCITS Common Contractual Fund- Mercer Passive Low Volatility Equity UCITS CCF	Ireland	59.10%
	Mercer UCITS Common Contractual Fund- Mercer Passive Fundamental Indexation Global Equity UCITS CCF	Ireland	59.44%

As at 30 June 2021, there were no significant restrictions on the Sub-Fund's ability to dispose of holdings in the above listed unconsolidated structured entities.

Although the Sub-Funds hold more than 50% of the underlying entity, the Sub-Funds do not have sufficient power to affect the returns of the underlying structured entities.

The table below sets out the interests held by the Sub-Funds in MBS at 30 June 2021:

## Investment in MBS

## 6. Taxation

The Company is an investment undertaking as defined in Section 739B of the Taxes Consolidation Act, 1997. Therefore, the Company will not be liable to Irish tax in respect of its income and gains, other than on the occurrence of a chargeable event. A chargeable event includes any distribution payments to Shareholders or any encashment, redemption or transfer of shares or the ending period for which the investment was held.

Generally a chargeable event arises on any distribution, redemption, repurchase, cancellation, transfer of shares or the ending of a 'Relevant Period'. A 'Relevant Period' is an eight year period beginning with the acquisition of the shares by the Shareholder and each subsequent period of eight years beginning immediately after the preceding Relevant Period.

**6. Taxation (continued)**

A gain on a chargeable event may not arise in respect of:

- (i) a Shareholder who is not an Irish resident and not ordinarily resident in Ireland at the time of the chargeable event, provided the necessary signed statutory declarations are held by the Company;
- (ii) certain exempted Irish tax resident Investors who have provided the Company with the necessary signed statutory declarations;
- (iii) an exchange of shares arising on a qualifying amalgamation or reconstruction of the Company with another fund;
- (iv) any transactions in relation to shares held in a recognised clearing system as designated by order of the Revenue Commissioners of Ireland;
- (v) certain exchanges of shares between spouses and former spouses on the occasion of judicial separation and/or divorce;
- (vi) an exchange by a Shareholder, effected by way of an arm's length bargain where no payment is made to the Shareholder of Shares in the Company for other Shares in the Company.

There were no chargeable events during the financial year ended 30 June 2022 and 30 June 2021.

Capital gains, dividends and interest (if any) received on investment made by the Company may be subject to withholding taxes imposed by the country from which the investment income/gains are received and such taxes may not be recoverable by the Company or its Shareholders.

In the absence of an appropriate declaration, the Company will be liable for Irish tax on the occurrence of a chargeable event, and the Company reserves its right to withhold such taxes from the relevant Shareholders.

The Sub-Funds currently incur withholding taxes imposed by certain countries on investment income and capital gains. Such income or gains are recorded gross of withholding taxes in the Statement of Comprehensive Income. Withholding taxes are shown as a separate item in the Statement of Comprehensive Income.

Withholding tax expense incurred by the Company during the financial year amounted to € 62,311,029 (30 June 2021: € 54,215,657). Capital gains tax incurred by the Company during the financial year amounted to € 21,003 (30 June 2021: € 21,504,655). Stamp duty incurred by the Company during the financial year amounted to € 4,781 (30 June 2021: € 265,495).

**7. Financial Instruments and Associated Risks****Introduction and overview**

The investments of a Sub-Fund in securities and derivatives is subject to normal market fluctuations and other risks inherent in investing in securities and derivatives. In pursuing its investment objectives, the Company holds a number of investments, including:

- Equities;
- Investment funds;
- Bonds, MBS, ABS and other debt instruments;
- Loans;
- Cash and liquid resources;
- Swaps, futures, warrants, options, swaptions and forwards;
- Money market instruments;
- Deposits; and
- Repurchase agreements and reverse repurchase agreements.

The Company's activities expose it to a variety of financial risks: market risk (including currency risk, interest rate risk and equity price risk), credit risk and liquidity risk. The Company's overall risk management program focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the Sub-Funds' financial performance. The Company has maintained its aim of spreading investment risk during the financial year.

The following information is not intended to be a comprehensive summary of all risks and investors should refer to the Prospectus and relevant Supplement for a more detailed discussion of the risks inherent in investing in the Company.

The Directors review reports from the Investment Manager in relation to the Sub-Funds' performance and risk profile on a quarterly basis, or more frequently as required. The Investment Manager is also responsible for ensuring that the Sub-Funds of the Company are managed in accordance with the terms of each Sub-Fund's investment objective, policy, guidelines and limits as set out in the Prospectus and relevant Supplement, as well as the Investment Manager's own internal investment guidelines and limits. The Company delegates to the Manager, who in turn delegates to the Investment Manager, responsibility for the monitoring and risk oversight for the Sub-Funds.

## 7. Financial Instruments and Associated Risks (continued)

### Risk Management Framework

The Company's Depositary is responsible for independent day to day monitoring of compliance of each Sub-Fund's investment guidelines and limits, reporting any breaches to the Manager, Investment Manager or Company, as appropriate. These guidelines and limits are set to ensure that the risk borne by each Sub-Fund is appropriate. In addition, the Investment Manager reviews and monitors risk, exposure and performance from internally generated analysis using data fed directly from the Depositary, and this is supplemented with data received directly from the Sub-Investment Manager.

### Role of the Investment Manager

The Investment Manager has responsibility for the on-going monitoring of investments within each of the Sub-Funds of the Company. This includes, but is not limited to, reviewing information on stale and static prices, suspended securities and securities in liquidation and securities valued at cost. If the Investment Manager has reasonable belief that the valuation of a particular security may not reflect fair market value, the VC will meet to consider the appropriate valuation of the security in question. The VC meets on a regular basis and formally reviews all new fair value assessments and other pricing issues. Ad-hoc fair value approvals may be received via email to the VC members or by means of extraordinary meetings of the VC should the need arise. This VC may then make recommendations to the Board of Directors of the Manager (the "Directors"), who in turn can then review fair value pricing.

Further to this, the Investment Manager has responsibility for the selection and monitoring of the Sub-Investment Managers. To that end, the Investment Manager follows a well defined and rigorous due diligence review of each Sub-Investment Manager. As part of this process the Investment Manager will review the proposed use of FDIs and the Sub-Investment Managers' risk management processes ("RMP"). Additionally, Sub-Investment Managers will agree with the Investment Managers that their use of FDIs will comply with the provisions of the Sub-Fund's/Company's RMP. Any material deviations to a Sub-Investment Manager's use of FDI and RMP require the prior notification of and approval of the Investment Manager. This is a condition of the investment or currency management agreements with the Sub-Investment Managers. Each Sub-Investment Manager must complete annual compliance questionnaires and are subject to periodic compliance reviews by the Compliance Group of the Investment Manager.

The portfolio managers within the Investment Manager monitor the Sub-Funds on an ongoing basis. Any inappropriate use of FDIs (such as a non-approved FDI) or excessive exposures will typically be picked up as part of their ongoing review. Apart from ongoing review of the portfolios, the Investment Manager will receive a detailed FDI report monthly from each Sub-Investment Manager. The report will list out the FDI positions and give details of the various exposure levels. This is reviewed in detail by the Investment Manager and any issues arising are followed up with the relevant Sub-Investment Manager.

### Role of the Administrator

The Administrator provides fund administration services and valuation of all assets and liabilities including FDIs used by the Sub-Funds at each valuation point. Any issues identified by the Administrator are immediately brought to the attention of the Investment Manager for further investigation.

### Role of the Depositary - Independent Compliance Monitoring

The Company's Depositary carries out a separate and independent compliance monitoring role to those carried out by the Investment Manager, investment service providers, and Administrator. As part of its fiduciary role to a regulated fund, the Depositary reviews all of the investment objectives and limits (including FDI limits) on an ongoing basis. While not appointed by the Investment Manager (the Depositary is appointed by the Company), any breaches identified by the Depositary are immediately brought to the attention of the Investment Manager for investigation and resolution.

### Role of Sub-Investment Managers

As mentioned above, discretionary investment management has been outsourced to the Sub-Investment Managers. In addition to the oversight and independent monitoring being carried out by the Investment Manager, Administrator and Depositary, each Sub-Investment Manager must have adequate controls and procedures in place to manage their respective portfolios within the limits prescribed under the UCITS Regulations and the Central Bank guidance in respect of FDIs.

Each Sub-Investment Manager must have a robust RMP in place which is UCITS V compliant. As outlined in the various Sub-Investment Managers' RMP documents, each Sub-Investment Manager must manage its portfolio in accordance with the UCITS Regulations and the Central Bank's guidance on FDIs. Furthermore, the Sub-Investment Managers will only use the FDIs outlined in their respective RMPs. If a Sub-Investment Manager wishes to use a FDI not covered by the existing RMP, this change will necessitate an amendment to their RMP document and, by implication, the Sub-Fund's RMP. This will require the approval of the Central Bank before the FDI can be used.

**7. Financial Instruments and Associated Risks (continued)****Permanent Risk Management Function**

The Company has appointed a Head of Risk Management and Designated Persons (the "Designated Persons") for the Managerial Functions\* of Operational Risk Management and Fund Risk Management. Together these Designated Persons and Head of Risk constitute the Company's Permanent Risk Management Function ("PRMF") and are responsible for the implementation of their respective obligations under the risk management policy, framework and procedures.

The Investment Manager is responsible for day to day monitoring of compliance with the UCITS risk limits, including statutory limits concerning global exposure and counterparty risk.

The Investment Manager provides the relevant Designated Person(s) with updates and reports such as:

- Relevant information impacting on the risk profile of each managed Sub-Fund;
- Reports on breaches of compliance with UCITS risk limits and investment and borrowing restrictions of each managed Sub-Fund;
- Reports, where applicable, on the adequacy and effectiveness of the risk management process; and
- Relevant information on the arrangements and procedures for the valuation of OTC derivatives.

\*Managerial Functions refers to the six mandatory Pre-Approval Controlled ("PCF") roles set out in the Central Bank's Fund Management Company Guidance (commonly referred to as "CP86").

**Market Price Risk**

Market price risk results mainly from the uncertainty about the future prices of financial instruments held. It represents the potential loss a Sub-Fund may suffer through holding market positions in the face of market movements and changes in exchange rates.

All Sub-Funds' investments present a risk of loss of capital. The Investment Manager and Sub-Investment Managers moderate this risk by ensuring careful selection of securities and other financial instruments within the specified limits as detailed in the Prospectus and approved by the Directors.

Market risk is controlled and monitored through the application of pre-agreed portfolio control ranges which cover attributes such as asset allocation, duration, yield curve and liquidity. The Investment Manager uses historic data to measure market risk, which is controlled relative to the benchmark.

The following tables highlight the market price risk associated with the various financial instruments held by the Company. The market price risk of equity swaps, futures, options, TRS & warrants is shown separately. Other FDIs are not exposed to market price risk.

	MGI Funds plc Fair Value 30 Jun 2022 €	Impact of 5% price increase 30 Jun 2022 €	MGI Funds plc Fair Value 30 Jun 2021 €	Impact of 5% price increase 30 Jun 2021 €

If the price of each of the Sub-Fund's underlying investments to which the relevant Sub-Fund had exposure at 30 June 2022 and at 30 June 2021 had increased by 5%, (1% for cash funds), with all other variables held constant, the impact is as shown in the tables above. Conversely, if the price of each of the Sub-Fund's underlying investments to which the relevant Sub-Fund has exposure had decreased by 5%, (1% for cash funds), this would have an equal but opposite effect on net assets attributable to holders of redeemable participating shares of the relevant Sub-Fund.

## Liquidity Risk

The Company's assets comprise mainly of realisable securities and investments in investment funds. The Company's main liability and exposure is to daily cash redemptions of redeemable shares. Assets from a Sub-Fund may need to be sold if insufficient cash is available to finance such redemptions. It therefore invests the majority of its assets in investments that are traded in an active market and can be readily disposed of.

The Sub-Funds may, from time to time, invest in derivative contracts traded OTC, which are not traded in an organised market and may be less liquid. As a result, the Sub-Funds may not be able to liquidate these as quickly as its cash investments at an amount which represent their fair value. However, this will be managed as mentioned below and would always be a small proportion of a portfolio.

The majority of assets held by the Sub-Funds are negotiable securities. The ability to sell on demand ensures that the Investment Manager can efficiently alter the investment strategy as required. The ability to sell also permits the financing of any unexpected withdrawals from a portfolio. It is important that these assets are readily tradeable and the Investment Manager will ensure that assets are only held where an efficient secondary market is operating. From time to time the secondary market in any particular issue or market may become less liquid, so to minimise this risk the Manager will also ensure that a portfolio is well diversified. In some circumstances the markets in which the Sub-Funds trade can be illiquid, thereby making it difficult to acquire or dispose of investments at prices quoted on the relevant exchanges. In addition, suspension by an exchange of trading in a particular security could make it impossible for positions to be realised and thereby expose the Company to losses.

Investors in the Company may redeem daily or weekly in the case of Mercer UCITS Alternatives Strategies. The Company may, if it receives a request for the repurchase of shares in respect of 10% or more of the outstanding shares of any Sub-Fund, elect to restrict the total number of shares repurchased to 10% or more of the outstanding shares, in which case, redemption requests will be scaled down pro rata and the balance of outstanding redemption requests shall be treated as if they were received on each subsequent dealing day until all the shares to which the original request related have been redeemed. Redemption requests can also be met, following approval by the Directors and agreement with the relevant Shareholder, through a transfer of assets of the Sub-Fund in-specie to the relevant Shareholder.

The Investment Manager carries out a liquidity analysis at least on a quarterly basis. Additional analyses are completed as required, particularly during times of market stress. The liquidity analysis is then reviewed by the Investment Risk Management Committee and Fund Risk Committee. This liquidity analysis incorporates specific liability stress scenarios, which assess the ability of the asset liquidity profile to meet stressed investor redemptions, taking investor concentration into consideration. In the event that these stress tests indicate that investors' stressed liquidity requirements may exceed the asset liquidity capacity, this will be escalated and brought to the attention of the MGIM Board as a Key Risk Indicator, alongside analysis and commentary as well as any remedial action proposed. The liquidity of pooled Sub-Funds has been derived with consideration of redemption notification, dealing and settlement terms, in line with the European Securities and Markets Authority ("ESMA"). For segregated accounts, a liquidity scoring methodology is used based on trading volume data. The MGIM Board has also approved a procedure document with respect to the application of Liquidity Management Procedures in exceptional circumstances. The procedure document sets out the Liquidity Management Tools ("LMTs") used both in the ordinary course of business and exceptional circumstances. The procedure document also outlines the course of action the MGIM Board will take in the instance of an exceptional liquidity event. The MGIM Board have also approved a Liquidity Stress Testing Policy. This procedure document outlines the mechanisms by which

## 7. Financial Instruments and Associated Risks (continued)

## Liquidity Risk (continued)

Fund Liquidity Stress Testing is undertaken, in compliance with the ESMA Guidelines on Liquidity Stress Testing in UCITS and AIFs (the "Liquidity Guidelines").

All liabilities of the Sub-Funds at 30 June 2022 and 30 June 2021 including the net assets attributable to redeemable participating Shareholders are due within one month with the exception of the following:

## 30 June 2022

	Sub-Fund	1-3 Months	3 Months - 1 Year	> 1 Year

Liquidity buckets shown will be in line with relevant dealing cycles i.e. daily traded funds will show 1 day bucket onwards and weekly dealing funds will show 5 day bucket onwards.

**7. Financial Instruments and Associated Risks (continued)****Liquidity Risk (continued)**

The liquidity profile has been calculated on a maximum liquidity basis. Maximum liquidity is an approach to liquidity where securities are sold based on maximum available amount of assets that can be sold on each business day by the Sub-Fund.

Liquidity details included in the tables above are reflective of the Sub-Funds' ability to liquidate positions as at the financial year ended 30 June 2022 and 30 June 2021. There is no guarantee that this level of liquidity will be maintained.

**Credit Risk**

The Company takes on exposure to credit risk, which is the risk that one party to a financial instrument will cause a financial loss for the other party by failing to discharge an obligation.

The Company has counterparty risk in relation to transactions it enters into with brokers, bank and other third parties if the counterparty was to fail to complete any transaction to which the Company is a party.

The Company delegates counterparty selection and management to the Sub-Investment Managers. The Company delegates all derivative trading to the Sub-Investment Managers, who are responsible for trading within agreed investment guidelines and ensuring pre-trade compliance with applicable regulations. During the negotiation of these investment guidelines, the use of derivatives will be discussed, and if deemed appropriate, then the exact derivatives to be permitted in the Sub-Funds will be outlined. Derivative use outside of these limits is not permitted, which is monitored by daily compliance reports reviewed by the Company.

As part of the operational risk assessment ("ORA"), a due diligence is performed on each Sub-Investment Manager prior to their appointment. Counterparty controls are reviewed as part of this ORA. Each Sub-Investment Manager must achieve an acceptable ORA rating before being appointed.

*(i) Credit quality analysis*

The Company has a credit risk exposure to the Depositary and sub-custodian in relation to cash.

Cash balances and bank overdrafts are held by State Street Bank, London which had a credit rating of AA- at the financial year ended 30 June 2022 (30 June 2021: AA-).

Cash balances held in US Dollar bank accounts with State Street Bank, London automatically transfer into overnight deposit accounts held by State Street Cayman Trust Company Ltd., Cayman Islands, which had a credit rating of A- at the financial year ended 30 June 2022 (30 June 2021: A-).

State Street Bank International GmbH, the Collateral Manager/Secured Party, had a credit rating of AA- at the financial year ended 30 June 2022 (30 June 2021: AA-).

Due from broker/Due to broker represents margin accounts and cash collateral balances held by the Sub-Funds at the financial year end.

**Margin Cash**

Margin cash balances at 30 June 2022 and 30 June 2021 were as follows:

Credit rating	30 Jun 2022 €	30 Jun 2021 €
AA-	2,036,499	(8,972)
A+	195,695,009	130,735,400
A	(2,502,613)	5,646,514
A-	8,834,285	11,775,477
BBB+	42,547	3,587,856
	<hr/> 204,105,727	<hr/> 151,736,275

**Cash collateral**

In addition to the above, the following amounts were pledged or held as cash collateral 30 June 2022 and 30 June 2021:

Credit rating	30 Jun 2022 €	30 Jun 2021 €
AA-	20,235,677	24,249,966
A+	(11,425,445)	81,198,079

**7. Financial Instruments and Associated Risks (continued)****Credit Risk (continued)**(i) *Credit quality analysis (continued)***Cash collateral (continued)**

Credit rating	30 Jun 2022 €	30 Jun 2021 €
A	4,162,568	775,722
A-	6,608,648	1,129,300
BBB+	-	16,864
	<hr/> 19,581,448	<hr/> 107,369,931

**Reverse repurchase agreements**

The Company is exposed to credit risk on reverse repurchase agreements. Reverse repurchase agreements are collateralised by an individual security. Securities purchased under agreements to resell are valued at fair value and adjusted for any movements in foreign exchange rates. Interest rates vary for each reverse repurchase agreement and are set at the initiation of the agreement. The Company will generally obtain additional collateral if the market value of the underlying securities is less than the face value of the reverse repurchase agreements plus any accrued interest. In the event of default on the obligation to repurchase, the Company has the right to liquidate the collateral and apply the proceeds in satisfaction of the obligation. In the event of default or bankruptcy by the counterparty to the agreement, realisation and/or retention of the collateral or proceeds may be subject to legal proceedings. Collateral received in respect of reverse repurchase agreements is comprised of government issued fixed income securities. The amounts receivable under these agreements and the market value of net collateral received in respect of reverse repurchase agreements held the financial year ended 30 June 2022 and 30 June 2021 are as follows:

	30 Jun 2022 €	30 Jun 2021 €
<b>Reverse repurchase agreements</b>		
Receivables from reverse repurchase agreements	135,114,310	192,269,073
Fair value of collateral received in respect of reverse repurchase agreements	139,754,010	190,827,821

**Repurchase agreements**

The Company held repurchase agreements at the financial year end 30 June 2022. For repurchase agreements, the Sub-Fund can use the cash proceeds received to make additional investments, which can cause the Sub-Fund's portfolio to behave as if it was leveraged. If the buyer in a repurchase agreement files for bankruptcy or becomes insolvent, the Sub-Fund may be unable to recover the securities it sold or pledged as collateral and as a result would realise a loss equal to the difference between the value of those securities and the cost. In the event of a buyer's bankruptcy or insolvency, the Sub-Fund's use of proceeds from the sale of its securities may be restricted while the other party or its trustee or receiver determines whether to honour the Sub-Fund's right to repurchase the securities. The amounts payable under these agreements and the market value of net collateral pledged in respect of repurchase agreements held at the financial year ended 30 June 2022 and 30 June 2021 are as follows:

	30 Jun 2022 €	30 Jun 2021 €
<b>Repurchase agreements</b>		
Payable for repurchase agreements	122,405,444	-
Fair value of collateral pledged in respect of repurchase agreements	121,683,886	-

**Loans**

The Company may invest in investments such as loans or participations which typically would result in the Sub-Fund having a contractual relationship only with the lender, not with the borrower. In purchasing participations, the Sub-Fund generally will not have the right to enforce compliance by the borrower with the terms of the loan agreement relating to the loan, nor any rights of set-off against the borrower, and a Sub-Fund may not directly benefit from any collateral supporting the loan in which it has purchased the participation. As a result, a Sub-Fund would assume the credit risk of both the borrower and the lender that is selling the participation. In the event of the insolvency of the lender selling a participation, a Sub-Fund may be treated as a general creditor of the lender and may not benefit from any set-off between the lender and the borrower. There were no participations held by the Sub-Funds as at 30 June 2022 and 30 June 2021.

	<hr/> 48,020,685	<hr/> 63,394,200

## Swaps

The Company is also exposed to counterparty risk on its derivative positions, being the risk that a counterparty will default or be unable to pay in full its financial obligations. Controlling credit risk is paramount in the Investment Manager's choice of counterparties. Credit risk arising from receivables from investee funds relating to redemptions or transactions awaiting settlement. Risk relating to unsettled receivables is considered small due to short settlement period involved and the due diligence permitted on the investee funds. The maximum exposure related to unsettled trades equals the amount shown in the Statement of Financial Position. There are no past due or impaired assets as at 30 June 2022 or at 30 June 2021.

Swaps are subject to the counterparty's credit risk: the chance that the other party in the contract will default on its responsibility. Derivative transactions are transacted on exchanges, with central clearing counterparties ("CCPs") or entered into under International Swaps and Derivatives Association ("ISDA") master agreements. In general, under these agreements, in certain circumstances e.g. when a credit event such as a default occurs, all outstanding transactions under the agreement with the counterparty are terminated, the termination value is assessed and only a single net amount is payable in settlement of all transactions with the counterparty. Further analysis of the Sub-Funds' master netting arrangements is disclosed under "Offsetting financial assets and financial liabilities" section of this note. The Company also mitigates the credit risk of FDIs by holding collateral in the form of cash and marketable securities.

The following are the credit ratings of the counterparties and fair value of the swaps held by the Sub-Funds:

## Securities Lending

The Company may have a credit risk exposure to the counterparties to any securities lending contract. Sub-Fund investments can be lent to counterparties over a period of time. The table below details the value of securities on loan, the value of collateral received for the securities on loan and % of collateral on the value of the loaned securities, by Sub-Fund and by counterparty at 30 June 2022 and 30 June 2021:

State Street Bank and Trust Company, London Branch, the Securities Lending Agent, had a credit rating of AA- as at 30 June 2022 (30 June 2021: AA-).

## Debt Securities

The Company invests in debt securities such as ABS, convertible securities, corporate bonds, government bonds, MBS, municipal bonds, TBA and loans. A Sub-Fund will have a credit risk on the issuer of debt securities in which it invests which will vary depending on the issuer's ability to make principal and interest payments on the obligation. Not all of the securities in which a Sub-Fund may invest that are issued by sovereign governments or political subdivisions, agencies or instrumentalities thereof, will have the explicit full faith and credit support of the relevant government. Any failure by any such government to meet the obligations of any such political subdivisions, agencies or instrumentalities will have adverse consequences for a Sub-Fund and will adversely affect the NAV per Share in a Sub-Fund.

**7. Financial Instruments and Associated Risks (continued)****Credit Risk (continued)***(ii) Concentration of credit risk*

The following table outlines the fair value credit exposures of the Company in debt securities based on Standard and Poor's ratings as at 30 June 2022 and 30 June 2021:

*(iii) Amounts arising from ECL*

Impairment on cash and cash equivalents, balances due from brokers and receivables from reverse sale and repurchase agreements has been measured on a 12-month expected loss basis and reflects the short maturities of the exposures. The Company considers that these exposures have low credit risk based on the external credit ratings of the counterparties.

The Investment Manager monitors changes in credit risk on these exposures by tracking published external credit ratings of the counterparties. To determine whether published ratings remain up to date and to assess whether there has been a significant increase in credit risk at the reporting date that has not been reflected in the published ratings, the Company supplements this by reviewing changes in bond yields, where available, CDS prices together with available press and regulatory information about counterparties.

Loss given default parameters generally reflect an assumed recovery rate of 40%. However, if the asset were credit impaired, then the estimate of loss would be based on a specific assessment of expected cash shortfalls and on the original effective interest rate.

No amounts have been recognised in terms of ECL for the financial year ended 30 June 2022 and 30 June 2021.

**Offsetting financial assets and financial liabilities****Offsetting and amounts subject to master netting arrangement and similar agreements**

Each Sub-Fund is a party to various master netting agreements. While the terms and conditions of these agreements may vary, all transactions under any such agreement constitute a single contractual relationship. Each party's obligation to make any payments, deliveries or other transfers in respect of any transaction under such an agreement may be netted against the other party's obligations under such agreement. A default by a party in performance with respect to one transaction under such an agreement would give the other party the right to terminate all transactions under such agreement and calculate one net amount owed from one party to the other.

## 7. Financial Instruments and Associated Risks (continued)

## Offsetting financial assets and financial liabilities (continued)

## Offsetting and amounts subject to master netting arrangement and similar agreements (continued)

At 30 June 2022 the amount that is due to be paid to, or received from the relevant brokers, on the morning after the close of a trading session is reflected as a variation margin receivable or variation margin payable, as applicable, in the Statement of Financial Position. The movement of variation margin between the Sub-Funds and the respective brokers usually occurs the morning after the close of a trading session, and therefore at the end of each day, the total value of a trading account may be greater or less than the initial margin requirement by an amount equal to the current day's net change in unrealised gain or loss of the FDIs respective trading account to move either above or below the initial margin requirement. On a daily basis the Sub-Funds will pay or receive cash in an amount that will bring the total value of each trading account back in line with the respective initial margin requirement. Such receipts or payments of cash are known as variation margin.

Upon entering into a centrally cleared derivative contract the Sub-Fund may pledge cash and/or securities to a trading account as collateral to a central clearing house, through a broker, in accordance with the initial margin requirements of the central clearing house. Exchange-traded and centrally cleared derivatives contracts are valued at least daily, and as such, the net appreciation or depreciation of the derivative contracts causes the value of the respective trading account to move either above or below the initial margin requirement. On a daily basis the Sub-Funds will pay or receive cash in an amount that will bring the total value of each trading account back in line with the respective initial margin requirement. Such receipts or payments of cash are known as variation margin. The movement of variation margin between the Sub-Funds and the respective brokers usually occurs the morning after the close of a trading session, and therefore at the end of each day, the total value of a trading account may be greater or less than the initial margin requirement by an amount equal to the current day's net change in unrealised appreciation or depreciation of the derivative contracts. At reporting year end, the amount that is due to be paid to, or received from the relevant brokers, on the morning after the close of a trading session is reflected as a variation margin receivable or variation margin payable, as applicable, in the Statement of Financial Position.

IRS and CDS settle on a net basis and the net inflows/(outflows) are represented by the unrealised gain/(loss).

For certain Sub-Funds the legal right to offset may be at the Sub-Fund level as opposed to the Sub-Investment Manager level. The tables are prepared on a Sub-Investment Manager level to be prudent for financial reporting purposes. The Sub-Fund level in the tables represents offsetting in relation to forward foreign currency contracts with the counterparty of State Street Bank and Trust.

The following tables present the Sub-Funds' derivatives, repurchase agreements and reverse repurchase agreements by net exposure to each counterparty at Sub-Investment Manager level and any related collateral pledged/received and margin cash as at 30 June 2022:

## MGI Eurozone Equity Fund

## Concentration Risk

The Investment Manager reviews the concentration of securities held based on industries and geographical location.

The Company's exposure to industries above 5% of the NAV at 30 June 2022 and 30 June 2021 is set out in the table below:

	30 Jun 2022 % of NAV	30 Jun 2021 % of NAV
Communications	5.74	6.36
Cyclical Services	-	5.21
Financials	10.95	10.31
Non-Cyclical Services	8.17	7.96
Sovereign Debt	20.53	17.13
Technology	5.00	5.39

## Foreign Currency Risk

Foreign currency risk arises on financial instruments that are denominated in a foreign currency i.e. in a currency other than the functional currency in which they are measured. The value of the Company's investments can be affected by currency translation movements as some of the assets and income may be denominated in currencies other than the base or functional currency of the Company. Shares are issued and redeemed in Australian Dollar, British Pound, Canadian Dollar, Euro, Japanese Yen, New Zealand Dollar, Norwegian Krone, Singapore Dollar, Swedish Krona, Swiss Franc and United States Dollar. A portion of the financial assets/net assets of the Sub-Funds are denominated in currencies other than base currency with the effect that the Statement of Financial Position and total returns can be significantly affected by currency movements. The Company is therefore exposed to currency risk, as the value of the securities denominated in other currencies will fluctuate due to changes in exchange rates.

**7. Financial Instruments and Associated Risks (continued)****Foreign Currency Risk (continued)**

The Investment Manager has identified three principal areas where foreign currency risk could impact the Company:

- movements in exchange rates affecting the value of investments;
- movements in exchange rates affecting the income received; and
- movements in exchange rates affecting the holders of redeemable participating shares in currencies other than the operational currency of the relevant Sub-Fund.

Currency exposure is monitored closely and is considered to be part of the overall investment process. Currency forwards may be used to ensure that the currency exposure of a Sub-Fund is in line with its investment objectives. The Sub-Funds may receive income in currencies other than its base currency and the base value can be affected by movements in exchange rates. Sub-Funds with hedged Share Classes may receive subscriptions or pay redemptions in currencies other than its base currency.

The Investment Manager, or a Sub-Investment Manager, may hedge the foreign currency exposure of classes denominated in a currency other than the base currency of a Sub-Fund in order that investors in that class receive a return in the currency of that class substantially in line with the investment objective of the Sub-Fund. As foreign exchange hedging may be utilised for the benefit of a particular class, transactions will be clearly attributable to that class and the cost and related liabilities and/or benefits shall be for the account of that class only. Accordingly, such costs and related liabilities and/or benefits will be reflected in the NAV per share for shares of any such class.

Per IFRS 7, currency risk does not arise from financial instruments that are non-monetary items or from financial instruments denominated in the functional currency. However, it is the Company's policy that foreign exchange risk is monitored and managed by the Sub-Investment Managers for both monetary and non-monetary assets and liabilities and that the overall exposure is reviewed by the Board of Directors.

In line with the Prospectus, in some cases the Company manages the Sub-Funds' exposure to foreign exchange movements by entering into foreign exchange hedging transactions, while in others the Company elects not to hedge the foreign currency risk but take the effect of the exposure.

The table below summarises the foreign currency risk exposure of the Sub-Funds' assets and liabilities, monetary and non-monetary, and reflects the way the risk is monitored and managed. The sensitivity illustrates the impact of a 5% exchange rate increase or decrease between the functional currency and the monetary assets and monetary liabilities denominated in foreign currency relevant to the Sub-Funds. Sensitivity is based on the assumption that all other variables remain constant. The impact on the Sub-Funds is the change in the NAV of the Sub-Funds in terms of the functional currency of the Sub-Funds. The tables show only the Sub-Funds and currencies with a significant foreign currency risk sensitivity greater than +/- 10,000 in the relevant currency of the Sub-Funds.

Hedge forward foreign currency contracts represent forward foreign currency contracts used to hedge exposure on a Share Class. Non-hedge forward foreign currency contracts are used for investment purposes.

## Share Class hedging

In respect of the Share Classes, it is the Sub-Funds' intention, where practicable, to hedge the currency exposure of holders of such classes. The adoption of this strategy may substantially limit holders of these classes from benefiting if the class currencies fall against the base currency of the Sub-Fund and/or against the other currencies in which the assets of the Sub-Funds are denominated. All costs, gains and losses of such hedging transactions will accrue solely to the holders of the hedged Share Classes. The strategy is undertaken and managed on behalf of the Sub-Funds by the Investment Manager/Sub-Investment Managers.

The exchange rate used for the purpose of converting the proceeds of trades in the AUD hedged classes, CHF hedged classes, EUR hedged classes, GBP hedged classes, JPY hedged classes, NOK hedged classes, NZD hedged classes, SEK hedged classes, SGD hedged classes, and USD hedged classes to or from the base currency of the Sub-Fund is likely to be the rate prevailing at the time the necessary currency hedging contracts are put in place which means that this exchange rate risk is borne by those transacting investors rather than by the other investor in the Sub-Funds.

## Interest Rate Risk

## Interest rate risk profile and sensitivity analysis

Interest rate risk is defined as the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates.

**7. Financial Instruments and Associated Risks (continued)****Interest Rate Risk (continued)****Interest rate risk profile and sensitivity analysis (continued)**

The Company's interest-bearing financial assets and liabilities expose it to risks associated with the effects of fluctuations in the prevailing levels of market interest rates on its financial position and cash flows. The Company invests some of its assets in equities, investee funds and open forward foreign currency contracts, none of which pay interest. As a result the Company is subject to limited risk due to fluctuations in the prevailing levels of market interest rates on these investments.

To the extent any of the underlying funds into which the Sub-Funds invest themselves invest in other collective investment schemes, the underlying investment funds may be exposed to interest rate fluctuations arising from portfolios of such collective investment schemes.

Current market conditions in Europe have led to negative interest rates on deposits in certain credit institutions. MGI Euro Cash Fund is exposed to such negative interest rates, however the effect of such rates on income for the financial year has been insignificant.

The Sub-Funds may invest in inflation-linked bonds. Inflation-linked bonds are fixed income securities whose principal value is adjusted periodically according to the rate of inflation. Index-linked gilts differ from conventional gilts in that both the semi-annual coupon payments and the principal payment are adjusted in line with movements in a specified index. They are designed to cut out the inflation risk of a bond.

The inflation-linked bonds held by the Sub-Funds are linked to movements in the below indices:

Australia Government	Australia Consumer Price Index
Brazil	Extended National Consumer Price Index (IPCA)
Canada	Canada Consumer Price Index
Chile	Chile Consumer Price Index
Colombia	Colombia Consumer Price Index
France	France Consumer Price Index
Italy	Italy Consumer Price Index
Japan Government	Japan Consumer Price Index
Mexico	Mexico Consumer Price Index
New Zealand Government	New Zealand Consumer Price Index
Turkey	Turkey Consumer Price Index
UK Government	General Index of Retail Prices in UK
United States of America	United States Consumer Price Index

The Sub-Funds hold interest bearing securities, the majority of which earn a fixed interest rate. The Sub-Funds listed in the table below hold interest bearing securities that earn fixed and/or floating interest rates.

The following tables summarises the interest rate sensitivity of each relevant Sub-Fund's exposure to interest rate risks. It includes each relevant Sub-Fund's assets and trading liabilities at fair values, categorised by the earlier of contractual re-pricing or maturity dates.

The Sub-Funds not mentioned below are mainly investing in non-interest bearing assets or its investments have a very short time to maturity. As a result, those Sub-Funds are not subject to significant amounts of risk due to fluctuations in the prevailing level of market interest rates.

The sensitivity analysis reflects how net assets attributable to holders of redeemable participating shares would have been affected by changes in the relevant risk variable that were reasonably possible at the reporting date.

The Company has determined that a fluctuation in yield of 25 bps is reasonably possible, considering the economic environment in which the Sub-Funds operate. The table below sets out the effect on the Sub-Funds' net assets attributable to holders of redeemable participating shares of a reasonably possible reduction of 25 bps in yield at 30 June 2022. An increase in yield of the same amount would have resulted in a roughly equal but opposite effect to the amounts shown. The impact of such an increase or reduction has been estimated by calculating the fair value changes of the fixed-interest debt securities and other fixed-interest bearing assets less liabilities and FDIs. This impact is primarily from the change in the fair value of fixed income securities. This analysis assumes that all other variables, in particular foreign currency rates, remain constant.

\*Impact of 25 bps decrease in interest rates on NAV.

## Valuation Techniques

The fair value of the instruments that are not traded in an active market (for example, OTC derivatives) is estimated using valuation techniques, including use of recent arm's length market transactions, reference to the current fair value or another investment that is substantially the same, discounted cash flow techniques, option pricing models or any other valuation technique that provide a reliable estimate or prices obtained in actual market transactions.

Where the discounted cash flow techniques are used, estimated future cash flows are based on management's best estimate and the discount rate used is a market rate at the reporting date applicable for an instrument with similar terms and conditions. Where other pricing models are used, inputs are based on market data at the reporting date. Fair values for unquoted equity instruments are estimated, if possible, using applicable price/earnings ratios for similar listed companies adjusted to reflect the specific circumstances of the issuer.

The fair value of derivatives that are not exchange traded are estimated at the amount that the Company would receive or pay to terminate the contract at the reporting date taking into account current market conditions and the creditworthiness of the counterparties.

**7. Financial Instruments and Associated Risks (continued)****Valuation Techniques (continued)**

Financial assets include investments in open-ended investment funds. The fair value of such assets is based on the underlying fund administrator's calculation of the NAV per share (market value of the fund's assets less liabilities divided by the number of shares) which will be the latest bid price published by the investment funds, taking into account any adjustments that may be required to account for illiquidity, low trading volumes or any such factors that may indicate that the bid price may not be fair value. The fair value of any investments in closed-ended investment funds is based on the bid prices available on the principal market for such security at the valuation date taking into account any adjustments that may be required to account for illiquidity, low trading volumes or any such factors that may indicate that the bid price may not be fair value. There were no adjustments or discounts applied in the valuation of any of the underlying investments in such investment funds.

The Sub-Funds' investment in loans may be in the form of participations in loans or assignments of all or a portion of loans from third parties. A loan is often administered by a bank or other financial institution that acts as an agent for all holders. The agent administers the terms of the loan, as specified in the loan agreement. When investing in a loan participation, (i) the Sub-Funds' have the right to receive payments of principal, interest and any fees to which it is entitled only from the party from whom the Sub-Fund has purchased the participation and only upon receipt by that party of payments from the borrower and (ii) the Sub-Fund generally has no right to enforce compliance by the borrower with the terms of the loan agreement or to vote on matters arising under the loan agreement. Thus, the Sub-Fund may be subject to credit risk both of the party from whom it purchased the loan participation and the borrower and the Sub-Fund may have minimal control over the terms of any loan modification. When the Sub-Fund purchases assignments of loans, it generally acquires direct rights against the borrower.

**Fair Value of Financial Assets and Liabilities**

The majority of the financial assets of the Company are held at fair value with the exception of deposits and reverse repurchase agreements which are carried at amortised cost. All other assets and financial liabilities are stated at amortised cost, which approximates fair value with the exception of redeemable participating shares which are stated at their redemption amount.

IFRS 13 requires the Company to classify assets and liabilities in fair value hierarchy that reflects the significance of the inputs used in making the measurements. IFRS 13 establishes a fair value hierarchy that prioritises the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under IFRS 13 are as follows:

Level 1 - Quoted prices (unadjusted) in active markets for identical assets or liabilities;

Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability either directly (that is, as prices) or indirectly (that is, derived from prices);

Level 3 - Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs).

The use of valuation techniques for Level 3 investments involve consideration of whether discounts or premiums, if any, are to be applied to the NAV of the underlying investment funds. Valuation of loans is based on how many quotes available in the market place and there is an assumption that the quoted price is equivalent of fair value. No significant premiums or discounts have been applied to the NAV at 30 June 2022 and 30 June 2021.

The level in the fair value hierarchy within which the fair value measurement is categorised in its entirety is determined on the basis of the lowest level input that is significant to the fair value measurement in its entirety. For this purpose, the significance of an input is assessed against the fair value measurement in its entirety. If a fair value measurement uses observable inputs that require significant adjustment based on unobservable inputs, that measurement is a Level 3 measurement. Assessing the significance of a particular input to the fair value measurement in its entirety requires judgement, considering factors specific to the asset or liability.

The determination of what constitutes "observable" requires significant judgement by the Company. The Company considers observable data to be that market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market.

For each class of assets and liabilities not measured at fair value in the Statement of Financial Position but for which fair value is disclosed, IFRS 13 requires the Company to disclose the level within the fair value hierarchy that the fair value measurement would be categorised and a description of the valuation technique and inputs used in the technique.

**7. Financial Instruments and Associated Risks (continued)****Fair Value of Financial Assets and Liabilities (continued)**

The financial instruments not measured at FVTPL are short-term financial assets and financial liabilities whose carrying amounts approximate fair value, because of their short-term nature and, for the financial assets, high credit quality of counterparties.

Cash and cash equivalents include deposits held with banks and other short-term investments in an active market and they are categorised as Level 1.

Reverse repurchase agreements and repurchase agreements are categorised as Level 2.

Receivables for investments sold and other receivables include the contractual amounts for settlement of trades and other obligations due to the Company. Payable for investments sold and other payables represent the contractual amounts and obligations due by the Company for settlement of trades and expenses. All receivable and payable balances are categorised as Level 2.

The puttable value of redeemable shares is calculated based on the net difference between total assets and all other liabilities of each Sub-Fund within the Company in accordance with the Sub-Funds' offering memorandum. A demand feature is attached to these shares, as they are redeemable at the holders' option and can be put back to the Sub-Funds at any dealing date for cash equal to a proportionate share of the Sub-Fund's NAV attributable to the Share Class. The fair value is based on the amount payable on demand. As such, Level 2 is deemed to be the most appropriate categorisation for net assets attributable to holders of redeemable shares.

**Fair Value Hierarchy\***

The financial instruments at 30 June 2022 and 30 June 2021 are classified as follows:

Arrowstreet Global Equity Fund	Equity	2	US\$ 149,617

Transfers between levels of the fair value hierarchy occur when the pricing source or methodology used to price an investment changes which triggers a change in level as defined under IFRS 13. For the financial reporting purposes transfers are deemed to have occurred at the end of the financial year.

Transfers occurred between Level 1 and Level 2 during the financial year ended 30 June 2022. This change was due to using the last traded price in a market that has been inactive for a significant period of time and also due to a change in general classification of investments.

Transfers occurred between Level 1 and Level 2 during the financial year ended 30 June 2021. This change was due to using the last traded price in a market that has been inactive for a significant period of time.

Transfers in and out of Level 3 are discussed after the Level 3 reconciliation tables below, where relevant.

Sub-Fund	Transfer	30 Jun 2022 Fair value	30 Jun 2021 Fair value
MGI Emerging Markets Equity Fund	L1 to L2	US\$ 801,526	US\$ 984,681
	L2 to L1	US\$ 253,755	-
MGI Eurozone Equity Fund	L1 to L2	-	€ 71,537
MGI Global Equity Fund	L1 to L2	-	-
Mercer Global Small Cap Equity Fund	L1 to L2	-	US\$ 953,996
Mercer Passive Global Equity Fund	L1 to L2	-	US\$ 553,804
Mercer Passive Emerging Markets Equity Fund	L1 to L2	US\$ 2,830,444	US\$ 18,476,710
	L2 to L1	US\$ 4,695,743	-
Mercer Global High Yield Bond Fund	L2 to L3	US\$ 2,295	US\$ 5,098,618

## 7. Financial Instruments and Associated Risks (continued)

## Fair Value Hierarchy\* (continued)

Sub-Fund	Transfer	30 Jun 2022 Fair value	30 Jun 2021 Fair value
Mercer Global High Yield Bond Fund (continued)	L3 to L2	US\$ 2,060,162	-
Arrowstreet Global Equity Fund	L1 to L2	US\$ 16	-

## Level 3 Reconciliation

	Total 30 Jun 2022 US\$	Total 30 Jun 2021 US\$
<b>Mercer Global High Yield Bond Fund</b>		
Opening value	9,375,178	21,916,978
Sale of investments	(6,351,074)	(17,365,126)
Purchase of investments	319,159	2,156,218
Realised and unrealised gains/(losses)*	(1,285,396)	(2,431,510)
Transfer into Level 3	2,295	5,098,618
Transfer out of Level 3	(2,060,162)	-
Closing value	-	9,375,178

\*The change in unrealised gains/(losses) relating to those financial assets and financial liabilities held at the financial year ended 30 June 2022 and recognised in Net (loss)/gain from financial instruments at FVTPL in the Statement of Comprehensive Income amounted to US\$ 121,423 (30 June 2021: US\$ (350,114)).

## Investments in Equities classified as Level 3

Financial assets include investments in equities.

Certain equities held by Mercer Global High Yield Bond Fund as at 30 June 2021 were classified as Level 3 due to the inherent nature of these investments (i.e. private equity investments which are valued based on a number of valuation techniques). Furthermore, there were equities classified as Level 3 due to significant unobservable inputs, which is a result of being suspended or unlisted.

As observable prices were not available for these securities, valuation techniques have been used to derive the fair value and is reviewed by the Investment Manager.

## Fixed income securities classified as Level 3

Financial assets include investments in fixed income securities: ABS, convertible securities, corporate bonds, MBS and loans.

ABS, convertible securities, corporate bonds, MBS and loans have been categorised as Level 2. The fair values of such securities classified under Level 2 are determined by quoted prices and latest prices executed for a similar asset. If the number of broker quotes is two or less, the Company deems the assets to be Level 3 due to less liquidity in the market.

As at 30 June 2021 the Level 3 classification was given to these fixed income securities as a result of decreased liquidity in the market and wider spreads that are consequently reflected in a broader spectrum of indicative broker quotes, which are factors that indicate that the broker quotes are not based on observable prices.

The fair value of such assets were based on the prices provided by the third party vendors. There were no adjustments or discounts applied in the valuation of any of the investments in fixed income securities.

## Investments in Warrants classified as Level 3

As at 30 June 2021 a number of warrants held in the portfolio of Mercer Global High Yield Bond Fund are classified as Level 3 due to significant unobservable inputs, as a result of being delisted or unlisted.

As observable prices were not available for these securities, valuation techniques have been used to derive the fair value and is reviewed by the Investment Manager.

## Significant unobservable inputs used in measuring fair value

The determination of what constitutes "observable" requires significant judgement by the Company. The Company considers observable data to be that market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary and provided by independent sources that are actively involved in the relevant market.

**7. Financial Instruments and Associated Risks (continued)****Fair Value Hierarchy\* (continued)****Significant unobservable inputs used in measuring fair value (continued)**

Assessing the significance of a particular input to the fair value measurement in its entirety requires judgement, considering factors specific to the asset or liability. Securities that have been classified as Level 3 have been valued using either the last traded price in a market that has been inactive for a significant period of time or fair valued in accordance with the fair value policy.

Transfers into Level 3 during the financial year ended 30 June 2022 occurred on Mercer Global High Yield Bond Fund, amounting to US\$ 2,295 (30 June 2021: US\$ 5,098,618). These securities were priced using the last traded price in a market that has been inactive for a significant period of time.

Transfers out of Level 3 during the financial year ended 30 June 2022 occurred on Mercer Global High Yield Bond Fund, amounting to US\$ 2,060,162 (30 June 2021: US\$ Nil). This change was due to the immaterial cumulative impact of Level 3 investments on the Sub-Fund.

**Effect of change in significant assumptions of Level 3 financial instruments**

The Company considers its estimates of fair value are appropriate. However, the use of different or alternative assumptions could lead to different measurements of fair value.

At 30 June 2022, there were no investments classified as Level 3. At 30 June 2021 there were investments on Mercer Global High Yield Bond Fund classified as Level 3 with a collective value of US\$ 9,375,178. If the Company applied a discount to the NAV of 10% at 30 June 2021, this would result in a reduction in the NAV of the Mercer Global High Yield Bond Fund of US\$ 937,518. If the Company applied a discount to the NAV of 3% at 30 June 2021, this would result in a reduction in the NAV of Mercer Global High Yield Bond Fund of US\$ 281,255.

\*Where the cumulative impact of Level 3 investments on a Sub-Fund are immaterial, these securities are reflected as Level 2.

**Emerging Markets Risk**

The Company invests in equities and bonds in emerging markets\* and also in investment funds investing in emerging markets. It should be appreciated that liquidity and settlement risks may not provide the same degree of Shareholder protection or information to investors as would generally apply internationally.

\*means those countries set out in the Morgan Stanley Capital International or other reputable global index provider, Emerging Markets indices and/or such other markets as the Directors may from time to time determine.

**Leverage Risk**

Any leverage resulting from the use of FDIs and EPM techniques are in accordance with the requirements of the Central Bank and will not exceed 100% of the NAV of the Sub-Fund, with the exception of those Sub-Funds detailed on page 286.

The Investment Manager monitors the assets of each Sub-Fund to ensure that global exposure and leverage, at all times, remains within the limits set by the Central Bank. The commitment approach is used to calculate global exposure on all Sub-Funds which use derivatives, with the exception of Mercer Short Duration Global Bond Fund 1, Mercer Short Duration Global Bond Fund 2, Mercer Short Duration Bond Fund 3, Mercer Absolute Return Fixed Income Fund, Mercer Investment Fund 6, Mercer Alternative Risk Premia Fund and PIMCO Global Aggregate Bond Fund which use the Value at Risk ("VaR") method.

In accordance with the Commitment Approach, global exposure is broadly defined as the total market value of the equivalent underlying to all of the FDIs entered into by a Sub-Fund. VaR represents an estimate of the potential loss which might arise from unfavourable market movements if the current positions were to be held unchanged for 1 month, measured at a confidence level of 99%. VaR is a representation of the minimum expected loss, under normal market conditions at a given confidence level (99% in this case).

A VaR model has certain inherent limitations and it cannot be relied upon to predict or guarantee that the size or frequency of losses incurred by a Sub-Fund will be limited to any extent. As the VaR model relies on historical market data as one of its key inputs, if current market conditions differ from those during the historical observation period, the effectiveness of the VaR model in predicting the VaR of a Sub-Fund may be materially impaired.

The Company has employed a historical VaR. The methodology is based on full re-valuation across all asset classes. VaR is calculated in accordance with UCITS requirements, with the following parameters:

- (i) one-tailed confidence interval of 99%;
- (ii) holding period equivalent to 1 month (20 business days);

**7. Financial Instruments and Associated Risks (continued)****Leverage Risk (continued)**

- (iii) effective observation period (history) of risk factors of at least 1 year (250 business days). This is a rolling one year window looking back from the VaR calculation date such that the relevant historical data set is updated daily;
- (iv) calculated daily and monitored daily versus VaR limit.

VaR utilisation measures the Sub-Funds' VaR relative to the Sub-Funds' VaR limit. The below table details the approach for each Sub-Fund, the minimum, maximum and median daily VaR utilisation (relative VaR) that occurred during one year period ending 30 June 2022 and 30 June 2021 expressed as a percentage of the VaR limit.

**Mercer Short Duration Global Bond Fund 1**

	30 Jun 2022	30 Jun 2021
Lowest utilisation of the VaR limit	49.77%	18.78%
Highest utilisation of the VaR limit	66.91%	24.69%
Median utilisation of the VaR limit	58.84%	22.45%

**Mercer Short Duration Global Bond Fund 2**

	30 Jun 2022	30 Jun 2021
Lowest utilisation of the VaR limit	13.73%	16.13%
Highest utilisation of the VaR limit	24.26%	24.02%
Median utilisation of the VaR limit	16.05%	18.13%

**Mercer Absolute Return Fixed Income Fund**

	30 Jun 2022	30 Jun 2021
Lowest utilisation of the VaR limit	5.38%	6.44%
Highest utilisation of the VaR limit	25.58%	47.90%
Median utilisation of the VaR limit	8.95%*	28.03%*

**Mercer Investment Fund 6**

	30 Jun 2022	30 Jun 2021
Lowest utilisation of the VaR limit	36.10%	36.19%
Highest utilisation of the VaR limit	55.27%	61.75%
Median utilisation of the VaR limit	45.95%	51.31%

**Mercer Short Duration Bond Fund 3**

	30 Jun 2022	30 Jun 2021
Lowest utilisation of the VaR limit	19.00%	19.41%
Highest utilisation of the VaR limit	54.00%	58.95%
Median utilisation of the VaR limit	38.00%	51.64%

**Mercer Alternative Risk Premia Fund\*\***

	30 Jun 2022	30 Jun 2021
Lowest utilisation of the VaR limit	0.34%	6.39%
Highest utilisation of the VaR limit	60.38%	19.06%
Median utilisation of the VaR limit	15.85%*	10.81%

**PIMCO Global Aggregate Bond Fund**

	30 Jun 2022	30 Jun 2021
Lowest utilisation of the VaR limit	39.96%	45.61%
Highest utilisation of the VaR limit	55.06%	70.44%
Median utilisation of the VaR limit	45.14%*	55.89%

**7. Financial Instruments and Associated Risks (continued)****Leverage Risk (continued)****Acadian Systematic Macro**

	30 Jun 2022	30 Jun 2021
Lowest utilisation of the VaR limit	0.60%	1.30%
Highest utilisation of the VaR limit	1.50%	1.50%
Median utilisation of the VaR limit	1.10%*	1.40%

\*This is average rather than median.

\*\*This Sub-Fund terminated during the financial year ended 30 June 2022.

In accordance with the UCITS regulations, a Sub-Fund using VaR must disclose the level of leverage employed by the Sub-Fund during the financial year under review, calculated as the sum of the absolute value of notionals of the derivatives used. The leverage is calculated on a gross basis and does not take into account any netting and hedging arrangements that the Sub-Funds may have in place at any time, even though these arrangements may be used for risk reduction purposes. Therefore this calculation may not provide an accurate measure of the Sub-Funds' actual investment exposures. Below is the median daily level of leverage for each of the above Sub-Funds during the financial year ending 30 June 2022 and 30 June 2021.

**Median leverage employed during the financial year as % of NAV**

	30 Jun 2022	30 Jun 2021
Mercer Short Duration Global Bond Fund 1	113.25%	135.70%
Mercer Short Duration Global Bond Fund 2	248.28%	274.81%
Mercer Absolute Return Fixed Income Fund	1,257.17%*	450.39%*
Mercer Short Duration Global Bond Fund 3	115.00%	123.14%
Mercer Investment Fund 6	147.30%	153.60%
Mercer Alternative Risk Premia Fund**	2,322.48%*	2,528.22%
PIMCO Global Aggregate Bond Fund	311.64%*	279.34%
Acadian Systematic Macro	529.00%*	1,286.00%

\*This is average rather than median.

\*\*This Sub-Fund terminated during the financial year ended 30 June 2022.

**Managing Interest Rate Benchmark Reform and associated risks**

From 31 December 2021, London Interbank Offered Rate ("LIBOR") has been replaced by an appropriate alternate rate, as advised by ISDA in the IBOR Fallbacks Protocol in 2020. Any effect on the value of the investments, at the time the change occurred, as a consequence of the process, was minimal without introduction of inferior terms.

**Legal, Tax and Regulatory Risk**

Legal, tax and regulatory changes could occur at any time, during the existence of the Company which may adversely affect the Company. See Note 6 to the financial statements for details of taxation.

**Taxation in the People's Republic of China ("PRC")\***

The Company and the Investment Manager may be subject to PRC tax, directly or indirectly, in respect of the assets held through Stock Connect, Bond Connect and/or QFIs. The tax law and regulations of the PRC are constantly changing, and they may be changed with retrospective effect. Given the uncertainty surrounding the Company's potential PRC tax liabilities or reimbursement obligations, the NAV of a Sub-Fund on any Dealing Day may not accurately reflect such liabilities. However as at 30 June 2022 the risk of any changes to the current status in PRC is low.

**10. Debtors and creditors**

All debtors and creditors amounts fall due within one financial year.

**11. Share capital****Authorised share capital**

The authorised share capital of the Company is 500,000,000,002 shares of no par value divided into 2 subscriber shares of no par value and 500,000,000,000 unclassified shares of no par value.

**Subscriber share capital**

The subscriber share capital does not form part of Shareholders' funds, and is disclosed in the financial statements by way of this note only. In the opinion of the Directors, this disclosure reflects the nature of the Company's business as an investment fund. Subscriber shares entitle the holders to attend and vote at general meetings of the Company but do not entitle the holders to participate in the profits or assets of the Company except for a return of capital on winding up. Shares entitle the holders to attend and vote at general meetings of the Company and to participate equally (subject to any differences between fees, charges and expenses applicable to different classes of shares) in the profits and assets of the Company on the terms and conditions set out in the relevant Supplement. Matsack Trust Limited and Matsack Nominees Limited hold the 2 subscriber shares at 30 June 2022 and 30 June 2021.

**Redeemable share capital**

The redeemable shares issued by the Sub-Fund provide an investor with the right to require redemption for cash at a value proportionate to the investor's share in the Sub-Fund's net assets at each redemption date and are classified as liabilities. The amounts relating to proceeds from redeemable participating shares issued and payment for redeemable participating shares redeemed are reflected in the functional currency of the Sub-Fund and are inclusive of the anti-dilution charges.

**11. Share capital (continued)****Redeemable share capital (continued)**

The rights attaching to the redeemable shares are as follows:

- Investors in the Company may redeem daily or weekly in the case of Mercer UCITS Alternatives Strategies.
- All shares carry a right to receive notice of, attend and vote at general meetings.

Note 3 to the financial statements details the different expenses and fee rates charged to each Share Class. In the instance where a suitable Management Fee for a given investor is not available from the Share Classes listed below, a new Share Class may be created in the Sub-Fund in accordance with the requirements of the Central Bank and using the following Share Class naming convention: Share Class type – Management Fee – accumulating/distributing – currency. Any such new Share Class will be added to the Supplement in accordance with the requirements of the Central Bank.

The rights attached to each series or class of share may, whether or not the Company is being wound up, be varied with the consent in writing of the holders of three-fourths of the issued shares of that series or class or with the sanction of a special resolution passed at a separate general meeting of the holders of shares of that series or class. The rights attaching to any series or class of shares shall not be deemed to be varied by the creation or issue of further shares ranking pari passu with shares already in issue, unless otherwise expressly provided by the terms of issue of those shares.

The Company may from time to time by ordinary resolution increase its capital, consolidate its shares into a smaller number of shares, sub-divide shares into a larger number of shares or cancel any shares not taken or agreed to be taken by any person. The Company may by special resolution from time to time reduce its share capital in any way permitted by law.

**Capital Management**

The Company's capital includes issued ordinary shares. The capital of the Company is managed in accordance with the Company's investment objectives, policies and restrictions as outlined in the Company's Prospectus, while maintaining sufficient liquidity to meet Shareholder redemptions.

The Company does not have any externally imposed capital requirements.

**Swing pricing and anti-dilution levy**

To enable a Sub-Fund to recover the cost of investing Sub-Fund assets upon an investor's subscription for shares and the cost of liquidating Sub-Fund assets upon a Shareholder's redemption of shares and to preserve the value of the assets of the relevant Sub-Fund, each Shareholder may be subject to swing pricing or an anti-dilution levy of up to 3% of the subscription proceeds or redemption proceeds. In calculating the swing pricing, the NAV of a Sub-Fund is swung by a "swing factor", the Directors may, in respect of net redemptions, adjust downward the NAV per Share and may also, in respect of net subscriptions, adjust upward the NAV per Share. The Administrator will calculate the NAV for the relevant Sub-Fund and then adjust ("swing") the NAV by a pre-determined amount. The direction of the swing will depend on whether there are net subscriptions or redemptions in the relevant Sub-Fund on the relevant Dealing Day, while the magnitude of the swing will be based on pre-determined estimates of the average trading costs in the relevant asset class(es) in which the Sub-Fund is invested. The Net assets attributable to holders of redeemable participating shares in the Statement of Financial Position is inclusive of any swing adjustments applied to the Sub-Funds.

The following table details the Sub-Funds that applied swing pricing as at the financial year ended 30 June 2022.

**Sub-Funds**

Mercer Diversified Growth Fund  
 Mercer Global Buy & Maintain Credit Fund  
 Mercer Euro Over 5 Year Bond Fund  
 Mercer Diversified Retirement Fund  
 Mercer Investment Fund 6

**11. Share capital (continued)****Swing pricing and anti-dilution levy (continued)**

The following table details the Sub-Funds that applied swing pricing as at the financial year ended 30 June 2021.

**Sub-Funds**

MGI Emerging Markets Equity Fund  
MGI Euro Cash Fund  
MGI UK Cash Fund  
Mercer Diversified Growth Fund  
Mercer Short Duration Global Bond Fund 1  
Mercer Diversified Retirement Fund  
Mercer Passive Emerging Markets Equity Fund  
Mercer Short Duration Bond Fund 3  
Mercer Multi Asset Defensive Fund  
Mercer Multi Asset High Growth Fund  
Mercer Multi Asset Moderate Growth Fund  
Acadian Systematic Macro

An anti-dilution levy, if applicable, is paid to the Sub-Fund for the benefit of all Shareholders and is not be paid to the Manager or the Investment Manager. The anti-dilution levy is deducted from subscription proceeds and will correspondingly reduce the number of shares purchased by the investor or will be deducted from redemption proceeds and will correspondingly reduce the amounts received by a Shareholder upon redeeming its shares from the Sub-Fund. Proceeds from redeemable participating shares are inclusive of anti-dilution charges.

As at the financial year ended 30 June 2022 and 30 June 2021, none of the Sub-Funds paid an anti-dilution levy.

**Share movement**

All proceeds from redeemable participating shares issued and payments for redeemable participating shares redeemed are shown in the base currency of the Sub-Fund.

**13. Significant events during the financial year***Prospectus and Supplement updates*

The Prospectus and Supplements of the Sub-Funds have been updated during the financial year. Details of these updates have been outlined in the Report of the Directors.

*Sub-Fund terminations*

Details of the Sub-Fund terminations have been outlined in the Report of the Directors.

*Share Class launches and terminations*

Details of the Share Class launches and terminations have been outlined in the Report of the Directors.

Effective 1 July 2021, William Fry replaced Matheson as legal advisors to the Company.

Effective 12 August 2021, Acadian Alternative Risk Premia Fund changed its name to Acadian Systematic Macro.

Effective 21 October 2021, Carmel Jordan was appointed as CEO of MGIM.

KPMG were the auditor of the Company for the financial years ending 30 June 2021. Deloitte Ireland LLP have been appointed as auditor of the Company for the financial year starting from 1 July 2021.

On 24 February 2022, Russia engaged in military actions in the sovereign territory of Ukraine. The Manager and Investment Manager is closely monitoring developments that may impact financial markets including sanctions, actions by governments and developments of the crisis and continues to assess the impact on the Company's portfolio operations and valuation and will take any potential actions needed, as facts and circumstances are subject to change and may be specific to investment strategies and jurisdictions.

The uncertainty surrounding the ongoing conflict in Ukraine may increase market volatility and the financial risk of investing in securities in these countries and may adversely affect the global economic outlook, all of which may impact the performance of the Company. No assurance can be given that any impact will not adversely affect the market value and/or liquidity of the investment positions of the Company.

There were no other significant events affecting the Company during the financial year that require amendment to or disclosure in the financial statements.

**14. Subsequent events**

Effective 18 July 2022, Mercer Euro Over 5 Year Bond Fund changed its name to Mercer Passive Euro Over 5 Year Bond UCITS Fund.

**14. Subsequent events (continued)***Supplement updates*

Details of Supplement updates have been outlined in the Report of the Directors.

*Sub-Fund launches*

Details of the Sub-Fund launches have been outlined in the Report of the Directors.

*Share Class launches and terminations*

Details of the Share Class launches and terminations have been outlined in the Report of the Directors.

Following the reporting period (30 June 2022), there was an extraordinary UK government bond (gilt) sell-off in September after the UK government announced a budget that markets deemed fiscally unsound. This led to increasing yields and, in particular, impacted UK liability hedging strategies. The Manager and Investment Manager are continuing to closely monitor developments as there is still considerable volatility and this may adversely impact the performance or liquidity of the Company which have large UK gilt exposures.

There were no other significant events affecting the Company since the financial year end date.

**15. Approval of financial statements**

The financial statements were approved by the Board of the Directors on 24 October 2022.

\*The funds are regulated in the jurisdiction noted above.

\*\*Further information on the performance fees can be found in the relevant funds documentation.

\*\*\*Investments by Sub-Funds of the Company into funds also managed by the Investment Manager are not charged an investment management fee at the level of the underlying fund, thereby ensuring that there is no double charging of fees by the Investment Manager. However, there may be a hedging fee applied to any investments by the Sub-Funds into hedged Share Classes of the underlying fund.

## General

MGI Funds plc (the “Company”) is an open-ended umbrella fund investment company with variable capital with segregated liability between Sub-Funds. The share capital of the Company is divided into different series of shares with each series of shares representing a portfolio of assets which comprises a separate fund (each a “Sub-Fund”). The Company is authorised and regulated by the Central Bank of Ireland (the “Central Bank”) under the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations, 2011 (the “UCITS Regulations”) and the Central Bank of Ireland’s (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulation 2019 (the “CBI UCITS Regulations”).

The investment objective of the Company is the collective investment of its Sub-Funds in financial assets with the aim of spreading its investment risk and giving the Shareholders of the Company the benefit of the results of the management of Sub-Funds. The Company’s objective to spread investment risk has been maintained during the financial year.

As at 30 June 2022, the Company consisted of fifty-eight (30 June 2021: fifty-eight) Sub-Funds, forty-eight of which are in operation at 30 June 2022 (30 June 2021: forty-nine) and are listed below.

~Standard Variable NAV Money Market Fund.

\*These Sub-Funds terminated but are not de-authorised as at 30 June 2022. Cash and cash equivalents held by these Sub-Funds as at 30 June 2022 amounted to € 293,067.

\*\*These Sub-Funds are authorised but not launched as at 30 June 2022.

Where it is appropriate to its investment objective and policies a Sub-Fund may also invest in other Sub-Funds of this Company. A Sub-Fund may only invest in another Sub-Fund of this Company if the Sub-Fund in which it is investing does not itself hold Shares in any other Sub-Fund of this Company. Any commission received by the Manager or Investment Manager in respect of such investment will be paid into the assets of the Sub-Fund. Any Sub-Fund that is invested in another Sub-Fund of this Company or any other fund to which the Manager or the Investment Manager has been appointed will be invested in a Share Class for which no management or investment Management Fee is charged. No subscription, conversion or redemption fees will be charged on any such cross investments by a Sub-Fund.

## Data Protection Notice

The General Data Protection Regulation (Regulation (EU) 2016/679) came into effect on 25 May 2018.

The following schedule of significant portfolio movements reflect the aggregate purchases of a security exceeding 1% of the total value of purchases and aggregate disposals greater than 1% of the total sales in the financial year. At a minimum the largest 20 purchases and sales are required to be disclosed, if applicable.

<b>Purchases</b>	<b>Cost US\$'000</b>	<b>Sales</b>	<b>Proceeds US\$'000</b>

**Soft commissions and directed brokerage arrangements**

Sub-Investment Managers appointed by the Investment Manager are not permitted to enter into soft commission arrangements which would result in them receiving research for free, with the exception of minor non-monetary benefits as defined in Markets in Financial Instruments Directive ("MiFID"). Managers can accept research if they pay for it themselves or if they pay for it via a Research Payment Account ("RPA") which is funded by the assets of the Sub-Fund or similar means which result in the same level of protection as the RPA method.

**EPM techniques**

The Company may employ investment techniques and instruments for EPM of the assets of the Company or of any Sub-Fund and for short-term investment purposes under the conditions and limits set out by the Central Bank under the UCITS Regulations and in the Prospectus. The Company may, for the purposes of hedging, enter into put and call options, spot and forward contracts, IRS, CDS, financial futures, stock and bond index futures contracts, repurchase and reverse repurchase agreements and securities lending agreements. In particular, a Sub-Fund may seek to hedge its investments against currency fluctuations which are adverse to its base currency by utilising currency options, futures contracts and forward foreign currency contracts. For FDIs that were entered into during the financial year which remained open at year end and the resulting amount of commitments/exposures, please refer to the Portfolio Statements. FDIs and EPM techniques and instruments were used during the financial year.

A Sub-Fund may also from time to time make use of exchange traded stock index and other futures contracts for the purpose of EPM to enable it to maintain the appropriate exposure to stock markets in accordance with the relevant Investment Manager's recommended overall asset allocation. The use of exchange traded stock index and other futures contracts by the Company will be subject to the conditions and limits laid down by the Central Bank under the UCITS Regulations.

Certain Sub-Funds utilise FDIs for investment purposes and/or for EPM purposes. In addition to investment in FDIs set down in the Prospectus, and subject to the conditions and within the limits laid down by the Central Bank, certain Sub-Funds may employ techniques and instruments for EPM of the assets of the Sub-Fund relating to transferable securities and money market instruments. Transactions for the purposes of EPM may be undertaken with a view to achieving a reduction in risk and/ or a reduction in costs and may not be speculative in nature. These techniques and instruments may include investment in FDIs. New techniques and instruments may be developed which may be suitable for use by a Sub-Fund and the Manager may employ such techniques and instruments. Investment in FDIs are subject to the conditions and limits laid down by the Central Bank.

Realised and unrealised gains or losses arising from FDIs or EPM techniques and instruments are disclosed in Net (loss)/gain from financial instruments at FVTPL in the Statement of Comprehensive Income.

Revenue from securities lending arrangements is disclosed in Securities lending income in the Statement of Comprehensive Income.

The Company enters into repurchase agreements and reverse repurchase agreements for the purpose of EPM. There are no material revenues arising from the use of repurchase agreements or reverse repurchase agreements.

Interest income and interest expense in relation to reverse repurchase and repurchase agreements are disclosed separately in section Repurchase agreements and Reverse repurchase agreements of the supplemental information of the annual report.

Transaction costs relating to the reverse repurchase and repurchase agreements transactions are embedded in the interest rate applied to each contract, therefore they are not separately identifiable for disclosure within the financial statements. Transaction costs relating to the securities lending transactions in relation to third parties to the agreement are embedded in the income received, therefore they are not separately identifiable for disclosure within the financial statements.

Details of the value of collateral and the exposure to the counterparty is detailed in Note 7 to the financial statements.

**Securities lending**

During the financial year the Sub-Funds entered into securities lending agreements for EPM purposes. Under a securities lending transaction, a Sub-Fund makes a loan of securities which it holds to a borrower upon terms that require the borrower to return equivalent securities to the Sub-Fund within a specified period and to pay the Sub-Fund a fee for the use of the securities during the period that they are on loan. The Manager will ensure that it is able, at any time, to recall any security that has been lent out or terminate any securities lending agreement into which it has entered.

A Sub-Fund may lend its portfolio securities via a securities lending program through an appointed securities lending agent to brokers, dealers and other financial institutions desiring to borrow securities to complete transactions and for other purposes. Pursuant to the terms of the relevant securities lending agreement, the appointed lending agent will be entitled to retain a portion of the securities lending revenue to cover the fees and costs associated with the securities lending activity, including the delivery of loans, the management of collateral and the provision of any securities lending indemnity and such fees paid will be at normal commercial rates.

Securities lending income is recognised in the Statement of Comprehensive Income.

**Repurchase agreements**

Under a repurchase agreement a Sub-Fund sells portfolio assets subject to an agreement by the Sub-Fund to repurchase the same assets at an agreed upon price and date.

The Sub-Fund can use the proceeds received from entering into a repurchase agreement to make additional investments, which generally causes the Sub-Fund's portfolio to behave as if it were leveraged. If the buyer in a repurchase agreement files for bankruptcy or becomes insolvent, the Sub-Fund may be unable to recover the securities it sold and as a result may realise a loss on the transaction if the securities it sold are worth more than the purchase price it originally received from the buyer.

As at 30 June 2022, Mercer Absolute Return Fixed Income Fund entered into repurchase agreements amounting to € 122,405,444 (30 June 2021: Nil). Accrued interest as at 30 June 2022 is € 60,917 (30 June 2021: Nil). The repurchase agreements are held with Royal Bank of Canada. The market value of the securities the Sub-Fund has sold is determined daily and any additional collateral is sent by the Sub-Fund on the next business day. The market value of net collateral on the repurchase agreements as at 30 June 2022 is € 121,683,886 (30 June 2021: Nil) pledged by the Sub-Fund. Each of the securities that have been pledged as collateral in respect of these repurchase agreements have a credit rating of AAA and AA. Interest charged on these repurchase agreements for the financial year ended 30 June 2022 amounted to € 1,794,649 (30 June 2021: Nil).

**Reverse repurchase agreements**

Under a reverse repurchase agreement the Sub-Fund purchases a financial asset and simultaneously enters into an agreement to resell the same or a substantially similar asset at a fixed price on a future date.

As at 30 June 2022, Mercer Short Duration Global Bond Fund 2 entered into a reverse repurchase agreements amounting to US\$ 112,500,000 (30 June 2021: US\$ 34,000,000). Interest receivable as at 30 June 2022 is US\$ 21,940 (30 June 2021: US\$ 3,131). The reverse repurchase agreement is held with Bank of America Merrill Lynch, BNP Paribas and Toronto Dominion Bank. The market value of the securities the Sub-Fund has purchased is determined daily and any additional collateral is received by the Sub-Fund on the next business day. The market value of net collateral on the reverse repurchase agreements as at 30 June 2022 is US\$ 116,543,790 (30 June 2021: US\$ 34,720,811) received by the Sub-Fund. The securities that have been received as collateral in respect of the reverse repurchase agreements had a credit rating of AAA. Interest received on the reverse repurchase agreements for the financial year ended 30 June 2022 amounted to US\$ 73,882 (30 June 2021: US\$ 27,375).

As at 30 June 2022, Mercer Absolute Return Fixed Income Fund did not enter into reverse repurchase agreements. As at 30 June 2021, Mercer Absolute Return Fixed Income Fund entered into reverse repurchase agreements amounting to € 141,200,273. Interest receivable as at 30 June 2021 was € Nil. The reverse repurchase agreements were held with Credit Agricole, Standard Chartered Bank and UBS Bank. The market value of the securities the Sub-Fund had purchased was determined daily and any additional collateral was received by the Sub-Fund on the next business day. The market value of net collateral on reverse repurchase agreements as at 30 June 2021 was € 138,888,574 received by the Sub-Fund. The securities that have been received as collateral in respect of these reverse repurchase agreements had a credit rating of AAA and AA. Interest received on these reverse repurchase agreements for the financial year ended 30 June 2021 amounted to € 57,168.

As at 30 June 2022, PIMCO Global Aggregate Bond Fund entered into a reverse repurchase agreements amounting to € 27,500,000 (30 June 2021: € 22,400,000). Interest receivable as at 30 June 2022 is Nil (30 June 2021: Nil). The reverse repurchase agreements is held with BNP Paribas. The market value of the securities the Sub-Fund has purchased is determined daily and any additional collateral is received by the Sub-Fund on the next business day. The market value of net collateral on the

## Reverse repurchase agreements (continued)

reverse repurchase agreement as at 30 June 2022 is € 28,271,525 (30 June 2021: € 22,662,659) received by the Sub-Fund. The securities that have been received as collateral in respect of the reverse repurchase agreements have a credit rating of AA. Interest received on the reverse repurchase agreements for the financial year ended 30 June 2022 amounted to Nil (30 June 2021: € 10,381).

- a) This information has been taken directly from the Portfolio Statements.  
b) This is the market that the index is representing.  
c) Rationale as to why the index is being used as part of the investment strategy of the Sub-Fund.  
d) This outlines whether the investment will be made directly, through investment in the constituents of the index, or indirectly, through an FDI.  
e) Source of additional information on the index.

## Portfolio Turnover Rate ("PTR")

This report has been prepared in accordance with the Shareholder Rights Directive II disclosure requirements to institutional investors. PTR has been calculated in accordance with the below methodology. The PTR of equities within a portfolio will vary in relation to the investment strategy. For your relevant Sub-Fund investments, the PTR of all securities within the Sub-Fund can be found within the summary table below.

$$\text{PTR} = \frac{\text{Lesser of (Purchases \& Sales)}}{\text{Average Total Net Assets over 12 months} \times 100}$$

Sub-Fund	Financial year ended 30 Jun 2022	Financial year ended 30 Jun 2021
	%	%
MGI Emerging Markets Equity Fund	77.65	114.05
MGI Eurozone Equity Fund	80.36	115.83
MGI Global Equity Fund	58.32	86.31
MGI UK Equity Fund	38.25	6.41
Mercer Global Small Cap Equity Fund	114.60	95.63
Mercer Low Volatility Equity Fund	51.41	50.66
Mercer Passive Emerging Markets Equity Fund	11.67	22.35
Mercer Sustainable Global Equity Fund	64.16	45.54
Mercer Global Listed Infrastructure Fund	80.11	53.37
Arrowstreet Global Equity Fund	175.47	205.02
Mercer Passive Low Volatility Equity Feeder Fund	31.28	44.69

## Remuneration Policy

As part of its authorisation as a UCITS Management Company to MGI Funds plc (the “UCITS”) Mercer Global Investments Management Limited (“MGIM”, the “ManCo”) has implemented a Remuneration Policy (the “Policy”) consistent with the provisions of Article 14a and 14b of Directive 2014/91/EU amending Directive 2009/65/EC (the “UCITS V Directive”) which has been transposed into Irish law via the European Communities (Undertakings for Collective Investment in Transferable Securities) (Amendment) Regulations 2016 – S.I. No. 143 of 2016 - the Irish UCITS V Regulations.

The Policy has been devised in line with the business strategy, objectives, values and interests of MGIM and MGI Funds plc, and includes measures to avoid conflicts of interest, promote sound and effective risk management, including in respect of sustainability risks, and discourage risk taking which is inconsistent with the risk profiles, rules or instruments of incorporation of the UCITS that MGIM manages.

The Policy extends to MGIM in its capacity as Management Company of the UCITS. None of the Directors of MGIM are currently in receipt of variable remuneration in respect of their services as Director of MGIM or in respect of MGI Funds plc. Accordingly, the detailed provisions of Article 14(b) of the UCITS V Directive as implemented into Irish law pursuant to the UCITS V Regulations are not applicable with regard to the Directors of MGIM.

Given the nature of MGIM's business, and the range of services and activities that it undertakes, a delegation model has been employed whereby MGIM does not have any direct employees. Resources are engaged by the Company pursuant to a Secondment Arrangement of employees from Mercer Global Investments Europe Limited ('MGIE' or 'the Investment Manager') and to a lesser extent Mercer Ireland Limited with some supplementary services which continue to be provided under the existing Resource Sharing Agreement with MGIE dated 13 May 2014 (the “RSA”), as amended from time to time, pursuant to which the Investment Manager makes available to MGIM sufficient appropriately qualified employees to discharge certain functions for MGIM thus enabling MGIM to leverage off the skills, experience and knowledge of specialised staff employed by MGIE. The MGIE Remuneration Policy is aligned with the remuneration requirements under the Investment Firms Directive (Directive (EU) 2019/2034), which are deemed equally as effective as the remuneration rules applicable to UCITS. Given that MGIM does not have any direct employees, the Board does not regard it as proportionate to establish a remuneration committee specifically for MGIM. Instead, the MGIE Remuneration Committee will oversee the remuneration process.

Furthermore, MGIE in its capacity as Investment Manager has sub delegated portfolio management to Sub-Investment Managers. Sub-Investment Managers are not incentivised or rewarded for taking excessive risk. The discretion of the Sub-Investment Manager, and thus its risk taking is strictly controlled within certain predetermined narrow parameters and/or its investment decisions are rules based. The parameters take the form of detailed investment restrictions/investment guidelines in the Prospectus and/or the investment management agreement. The Sub-Investment Manager is not permitted to manage outside of these parameters and as such cannot materially affect the risk profile of MGI Funds plc. These parameters are monitored by the State Street Compliance Monitoring team, who is appointed by MGIE to conduct daily post trade monitoring of the UCITS. It is MGIE's policy that all delegates appointed (EU & Non-EU) will be subject to contractual delegation arrangements with detailed investment restrictions and guidelines for managing risk and are remunerated on the basis of providing a service to the Company and MGI Funds plc under such delegation agreements.

## Quantitative Remuneration Disclosure

MGIM is required under UCITS V to make quantitative disclosures of remuneration. These disclosures are made in line with interpretation of currently available regulatory guidance on quantitative remuneration disclosures. As market or regulatory practice develops MGIM may consider it appropriate to make changes to the way in which quantitative remuneration disclosures are calculated. Where such changes are made, this may result in disclosures in relation to a fund not being comparable to the disclosures made in the prior year, or in relation to other Mercer range fund disclosures in that same year.

Disclosures are provided in relation to (a) the staff of MGIE; (b) staff who are senior management; and (c) staff who have the ability to materially affect the risk profile of the UCITS.

All individuals included in the aggregated figures disclosed are rewarded in line with MGIM's remuneration policy for their responsibilities across the relevant Mercer business area. As all individuals have a number of areas of responsibilities, only the portion of remuneration for those individuals' services attributable to the UCITS included in the aggregate figures disclosed.

Members of staff and senior management of the Investment Manager typically provide both UCITS and non-UCITS related services in respect of multiple funds, clients and functions of the MGIM, MGIE and across the broader Mercer group. Therefore, the figures disclosed are a sum of each individual's portion of remuneration attributable to the UCITS according to an objective apportionment methodology which acknowledges the multiple-service nature of the MGIE. Accordingly the figures are not representative of any individual's actual remuneration or their remuneration structure.

The amount of the total remuneration awarded by MGIE to its staff which has been attributed to the UCITS in respect of the financial year ending 30 June 2022 is € 11,571,805 (30 June 2021: € 9,796,590). This figure is comprised of fixed remuneration of € 9,648,744 (30 June 2021: € 7,625,800) and variable remuneration of € 1,923,060 (30 June 2021: € 2,170,790). There were a total of 200 (30 June 2021: 175) beneficiaries of the remuneration described above.

**Quantitative Remuneration Disclosure (continued)**

The amount of the aggregate remuneration awarded by MGIE, which has been attributed to the UCITS in respect of the financial year ending 30 June 2022, to its senior management was € 5,962,587 (30 June 2021: € 5,096,150), and to members of its staff whose actions have a material impact on the risk profile of the UCITS was € 1,478,858 (30 June 2021: € 1,577,547).

**Sustainable Finance Disclosure Regulation (“SFDR”) and Taxonomy Regulation Disclosures**

In accordance with the requirements of the EU Regulation (EU) 2020/852 on the establishment of a framework to facilitate sustainable investment and amending SFDR (the “Taxonomy Regulation”), the Manager is required to disclose compliance with the Taxonomy Regulation. At the date of these financial statements, the investments underlying all Sub-Funds, with the exception of those Sub-Funds listed below, do not take into account the EU criteria for environmentally sustainable economic activities (Article 6 Sub-Funds).

Sub-Fund	Classification under SFDR
Mercer Diversified Growth Fund	Article 8
Mercer Short Duration Global Bond Fund 1	Article 8
Mercer Diversified Retirement Fund	Article 8
Mercer Sustainable Global Equity Fund	Article 8
Mercer Multi Asset Defensive Fund	Article 8
Mercer Multi Asset High Growth Fund	Article 8
Mercer Multi Asset Moderate Growth Fund	Article 8
Mercer Multi Asset Growth Fund	Article 8
Mercer Passive Sustainable Global Equity Feeder Fund	Article 9
Mercer Passive Global High Yield Bond Fund	Article 8

**Mercer Diversified Growth Fund**

As set out in its Supplement, the Sub-Fund seeks to promote environmental characteristics within the meaning of Article 8 of the SFDR, namely, to seek to mitigate the impact of climate change through progressive decarbonisation within the Sub-Fund’s portfolio.

With regards the environmental characteristics Mercer Diversified Growth Fund seeks to promote within the meaning of Article 8 of the SFDR, the Sub-Fund is monitored against its objectives via tracking the Weighted Average Carbon Intensity (“WACI”) of the Sub-Fund over time relative to a baseline set in 2019. The Sub-Fund met its environmental characteristics throughout the year.

The investments underlying the Sub-Fund do not take into account the EU criteria for environmentally sustainable economic activities, as set out in the Taxonomy Regulation. Accordingly, 0% of the Sub-Fund’s investments are in economic activities that qualify as environmentally sustainable under the Taxonomy Regulation. For the purposes of the Taxonomy Regulation, the “do no significant harm” principle applies only to those investments underlying the Sub-Fund that take into account the EU criteria for environmentally sustainable economic activities. As confirmed above, the Sub-Fund’s investments do not currently take into account the EU criteria for environmentally sustainable investments.

**Mercer Short Duration Global Bond Fund 1**

Regarding the environmental and social characteristics the Sub-Fund seeks to promote within Article 8 of the SFDR, the Sub-Fund applies a positive screen towards issuers realising United Nations Sustainable Development Goals (“SDGs”) and applies a negative screen to companies that contribute negatively to these SDGs. The Sub-Fund also avoids investment in companies with material exposure to:

- Negative environmental impact;
- Violation of international law/human rights;
- Corruption and economic crime;
- Recreational cannabis;
- A low sustainability rating within a high-risk industry;
- Production of coal or coal-related products.

The Sub-Fund is monitored against its objectives via adherence to its stated exclusions.

The Sub-Fund met its environmental characteristics throughout the year.

The investments underlying the Sub-Fund do not take into account the EU criteria for environmentally sustainable economic activities, as set out in the Taxonomy Regulation. Accordingly, 0% of the Sub-Fund’s investments are in economic activities that qualify as environmentally sustainable under the Taxonomy Regulation. For the purposes of the Taxonomy Regulation, the “do no significant harm” principle applies only to those investments underlying the Sub-Fund that take into account the EU criteria for environmentally sustainable economic activities. As confirmed above, the Sub-Fund’s investments do not currently take into account the EU criteria for environmentally sustainable investments.

**Sustainable Finance Disclosure Regulation (“SFDR”) and Taxonomy Regulation Disclosures (continued)****Mercer Diversified Retirement Fund**

As set out in its Supplement, the Sub-Fund seeks to promote environmental characteristics within the meaning of Article 8 of the SFDR, namely, to seek to mitigate the impact of climate change through progressive decarbonisation within the Sub-Fund's portfolio.

With regards the environmental characteristics Merer Diversified Retirement Fund seeks to promote within the meaning of Article 8 of the SFDR, the Sub-Fund is monitored against its objectives via tracking the WACI of the Sub-Fund over time relative to a baseline set in 2019. The Sub-Fund met its environmental characteristics throughout the year.

The investments underlying the Sub-Fund do not take into account the EU criteria for environmentally sustainable economic activities, as set out in the Taxonomy Regulation. Accordingly, 0% of the Sub-Fund's investments are in economic activities that qualify as environmentally sustainable under the Taxonomy Regulation. For the purposes of the Taxonomy Regulation, the “do no significant harm” principle applies only to those investments underlying the Sub-Fund that take into account the EU criteria for environmentally sustainable economic activities. As confirmed above, the Sub-Fund's investments do not currently take into account the EU criteria for environmentally sustainable investments.

**Mercer Sustainable Global Equity Fund**

The Sub-Fund seeks to promote environmental and social characteristics within Article 8 of the SFDR by avoiding investment in companies with material involvement in the following sectors:

- Adult entertainment
- Alcohol
- Fossil fuels
- Coal
- Oil sands
- Gambling.

The Sub-Fund also uses third party data providers to identify and exclude companies that are deemed to be in breach of United Nations Global Compact principles and companies considered as having a significant negative impact on environmental SDGs such as sustainable consumption and production, climate action, life on water and life on land.

All Sub-Investment Managers have adhered to the UNGC Global Compact principles via their third party data research providers.

In addition, in selecting Sub-Investment Managers for the Sub-Fund, the Investment Manager limits the available universe to those strategies that have received the highest (ESG1) or second highest (ESG2) ESG rating by the Investment Manager's global manager research team. In selecting the Sub-Investment Managers for the Sub-Fund, the Investment Manager seeks to combine strategies that in turn embed various environmental and/or social considerations in their investment processes while also adhering to good governance standards. Environmental considerations may include greenhouse gas reduction, renewable energy, waste reduction, clean water provision, biodiversity or the circular economy and social considerations include the reduction of inequality, encouraging social cohesion, fair labour practices, investments in human capital or investments in socially disadvantaged communities. All Sub-Investment Managers within the Sub-Fund are rated ESG1 and ESG2 by the Investment Manager's global manager research team.

The Sub-Fund is monitored against its objectives via adherence to its stated exclusions and to its Sub-Investment Manager ESG rating process.

The Sub-Fund met its environmental and social characteristics throughout the year.

The investments underlying the Sub-Fund do not take into account the EU criteria for environmentally sustainable economic activities, as set out in the Taxonomy Regulation. Accordingly, 0% of the Sub-Fund's investments are in economic activities that qualify as environmentally sustainable under the Taxonomy Regulation. For the purposes of the Taxonomy Regulation, the “do no significant harm” principle applies only to those investments underlying the Sub-Fund that take into account the EU criteria for environmentally sustainable economic activities. As confirmed above, the Sub-Fund's investments do not currently take into account the EU criteria for environmentally sustainable investments.

**Sustainable Finance Disclosure Regulation (“SFDR”) and Taxonomy Regulation Disclosures (continued)****Mercer Multi Asset Defensive Fund**

As set out in its Supplement, the Sub-Fund seeks to promote environmental characteristics within the meaning of Article 8 of the SFDR, namely, to seek to mitigate the impact of climate change through progressive decarbonisation within the Sub-Fund's portfolio.

With regards the environmental characteristics Mercer Multi Asset Defensive Fund seeks to promote within the meaning of Article 8 of the SFDR, the Sub-Fund is monitored against its objectives via tracking the WACI of the Sub-Fund over time relative to a baseline set in 2019. The Sub-Fund met its environmental characteristics throughout the year.

The investments underlying the Sub-Fund do not take into account the EU criteria for environmentally sustainable economic activities, as set out in the Taxonomy Regulation. Accordingly, 0% of the Sub-Fund's investments are in economic activities that qualify as environmentally sustainable under the Taxonomy Regulation. For the purposes of the Taxonomy Regulation, the “do no significant harm” principle applies only to those investments underlying the Sub-Fund that take into account the EU criteria for environmentally sustainable economic activities. As confirmed above, the Sub-Fund's investments do not currently take into account the EU criteria for environmentally sustainable investments.

**Mercer Multi Asset High Growth Fund**

As set out in its Supplement, the Sub-Fund seeks to promote environmental characteristics within the meaning of Article 8 of the SFDR, namely, to seek to mitigate the impact of climate change through progressive decarbonisation within the Sub-Fund's portfolio.

With regards the environmental characteristics Mercer Multi Asset High Growth Fund seeks to promote within the meaning of Article 8 of the SFDR, the Sub-Fund is monitored against its objectives via tracking the WACI of the Sub-Fund over time relative to a baseline set in 2019. The Sub-Fund met its environmental characteristics throughout the year.

The investments underlying the Sub-Fund do not take into account the EU criteria for environmentally sustainable economic activities, as set out in the Taxonomy Regulation. Accordingly, 0% of the Sub-Fund's investments are in economic activities that qualify as environmentally sustainable under the Taxonomy Regulation. For the purposes of the Taxonomy Regulation, the “do no significant harm” principle applies only to those investments underlying the Sub-Fund that take into account the EU criteria for environmentally sustainable economic activities. As confirmed above, the Sub-Fund's investments do not currently take into account the EU criteria for environmentally sustainable investments.

**Mercer Multi Asset Moderate Growth Fund**

As set out in its Supplement, the Sub-Fund seeks to promote environmental characteristics within the meaning of Article 8 of the SFDR, namely, to seek to mitigate the impact of climate change through progressive decarbonisation within the Sub-Fund's portfolio.

With regards the environmental characteristics Mercer Multi Asset Moderate Growth Fund seeks to promote within the meaning of Article 8 of the SFDR, the Sub-Fund is monitored against its objectives via tracking the WACI of the Sub-Fund over time relative to a baseline set in 2019. The Sub-Fund met its environmental characteristics throughout the year.

The investments underlying the Sub-Fund do not take into account the EU criteria for environmentally sustainable economic activities, as set out in the Taxonomy Regulation. Accordingly, 0% of the Sub-Fund's investments are in economic activities that qualify as environmentally sustainable under the Taxonomy Regulation. For the purposes of the Taxonomy Regulation, the “do no significant harm” principle applies only to those investments underlying the Sub-Fund that take into account the EU criteria for environmentally sustainable economic activities. As confirmed above, the Sub-Fund's investments do not currently take into account the EU criteria for environmentally sustainable investments.

**Mercer Multi Asset Growth Fund**

As set out in its Supplement, the Sub-Fund seeks to promote environmental characteristics within the meaning of Article 8 of the SFDR, namely, to seek to mitigate the impact of climate change through progressive decarbonisation within the Sub-Fund's portfolio.

With regards the environmental characteristics Mercer Multi Asset Growth Fund seeks to promote within the meaning of Article 8 of the SFDR, the Sub-Fund is monitored against its objectives via tracking the WACI of the Sub-Fund over time relative to a baseline set in 2019. The Sub-Fund met its environmental characteristics throughout the year.

The investments underlying the Sub-Fund do not take into account the EU criteria for environmentally sustainable economic activities, as set out in the Taxonomy Regulation. Accordingly, 0% of the Sub-Fund's investments are in economic activities that qualify as environmentally sustainable under the Taxonomy Regulation. For the purposes of the Taxonomy Regulation, the “do no significant harm” principle applies only to those investments underlying the Sub-Fund that take into account the EU criteria for environmentally sustainable economic activities. As confirmed above, the Sub-Fund's investments do not currently take into account the EU criteria for environmentally sustainable investments.

**Sustainable Finance Disclosure Regulation (“SFDR”) and Taxonomy Regulation Disclosures (continued)****Mercer Passive Sustainable Global Equity Feeder Fund**

As set out in its Supplement, the Sub-Fund sustainable investment, namely a reduction in carbon emissions, as its objective within the meaning of Article 9 of the SFDR, namely, the Sub-Fund achieves its objective by investing at least 85% of its Net Asset Value in units of the Mercer Passive Sustainable Global Equity UCITS CCF (the “Master Fund”), which passively tracks the Benchmark Index, Solactive Sustainable Global Developed Equity EU Paris-Aligned Index.

The Benchmark Index is designed to enhance exposure to positive ESG factors and stay compliant with EU Paris-aligned benchmark regulatory requirements set out in the EU Climate Benchmarks Regulation and provide low carbon emission exposure with a view to achieving the long-term global warming objectives of the Paris Agreement.

The Sub-Fund is monitored against its objectives via adherence to its investment policy of investing at least 85% in the Master Fund, and the Master Fund’s successful tracking of the Benchmark Index, accordingly indicating the Sub-Fund’s ultimate exposure to the underlying constituents of the Benchmark Index. The tracking error of the Sub-Fund over 1 year to 30 June 2022 was 0.12%, within the expected range as per the Supplement.

The Sub-Fund met its environmental objective throughout the year.

The sustainable objective being promoted by the Sub-Fund were met through the Funds’ investments in a portfolio that is primarily made up of securities that represent the Funds’ Benchmark Index and evidenced by the Sub-funds tracking error. As confirmed by the Index Provider the Benchmark Index aligned with its target of reducing carbon emissions and/or the attainment of the objectives of the Paris Agreement.

The investments underlying the Sub-Fund do not take into account the EU criteria for environmentally sustainable economic activities, as set out in the Taxonomy Regulation. Accordingly, 0% of the Sub-Fund’s investments are in economic activities that qualify as environmentally sustainable under the Taxonomy Regulation. For the purposes of the Taxonomy Regulation, the “do no significant harm” principle applies only to those investments underlying the Sub-Fund that take into account the EU criteria for environmentally sustainable economic activities. As confirmed above, the Sub-Fund’s investments do not currently take into account the EU criteria for environmentally sustainable investments.

**Mercer Passive Global High Yield Bond Fund**

As set out in its Supplement, the Sub-Fund seeks to promote environmental characteristics within the meaning of Article 8 of the SFDR, namely, the Sub-Fund seeks to track the risk and return profile of the Benchmark Index, the J.P. Morgan ESG Global High Yield BB-B Rated Liquid Corporate Index. The Benchmark Index applies a methodology to tilt exposure towards issuers ranked higher on ESG criteria and green bonds than the broader index.

The Sub-Fund is monitored against its objectives via the extent to which the Sub-Fund successfully tracks the Benchmark Index and accordingly its exposure towards issuers ranked higher on ESG criteria and green bonds than the broader index. The tracking error of the Sub-Fund over 1 year to June 2022 was 0.22%, within the expected range as per the Supplement.

The Sub-Fund met its environmental characteristics throughout the year.

The investments underlying the Sub-Fund do not take into account the EU criteria for environmentally sustainable economic activities, as set out in the Taxonomy Regulation. Accordingly, 0% of the Sub-Fund’s investments are in economic activities that qualify as environmentally sustainable under the Taxonomy Regulation. For the purposes of the Taxonomy Regulation, the “do no significant harm” principle applies only to those investments underlying the Sub-Fund that take into account the EU criteria for environmentally sustainable economic activities. As confirmed above, the Sub-Fund’s investments do not currently take into account the EU criteria for environmentally sustainable investments.

**Securities Financing Transactions**

Article 13 of Regulation (EU) 2015/2365 on transparency of securities financing transactions ("SFTs") and of reuse and amending Regulation (EU) No 648/2012, requires UCITS investment companies to provide the following information on the use made of SFTs and total return swaps ("TRSs"). As outlined in the offering documents, only repurchase agreements, reverse repurchase agreements, securities lending, TRSs and short sales are considered SFTs for the purpose of this disclosure.

**1. Listed below is the market value of all SFTs and TRSs at 30 June 2022, grouped by SFT type and the ten largest counterparties (if fewer than ten counterparties are used then all counterparties are detailed)**

Securities Lending Transactions	-	-	-	GB£ 1,942,621	GB£ 5,937	GB£ 339,207	-

**Securities Financing Transactions (continued)****8. Safe-keeping of collateral received in respect of SFTs**

State Street Custodial Services (Ireland) Limited (or its delegate) are responsible for the safe-keeping of all collateral received in relation to the SFTs held on the Sub-Funds. All cash collateral received as at 30 June 2022 was held with Royal Bank of Canada, as delegate.

Sub-Fund	Value of cash collateral
Mercer Global High Yield Bond Fund	US\$ 178,764
Mercer Short Duration Global Bond Fund 2	US\$ 479,408
Mercer Global Buy & Maintain Credit Fund	US\$ 1,237,827
Mercer Absolute Return Fixed Income Fund	€ 150,789

**9. Re-investment of collateral received**

There was no re-hypothecation of collateral received in respect of SFTs held during the financial year ended 30 June 2022.

**10. Safe-keeping of collateral pledged**

Included in the table below are details of the safe-keeping of the collateral pledged from the Sub-Funds to the relevant counterparties in relation to TRSs/SFTs held on the Sub-Funds. Collateral is held in pooled accounts.

Sub-Fund	SFT Type	Counterparty	Value of collateral pledged
Acadian Systematic Macro	Total Return Swaps	BNP Paribas	US\$ 6,199,641
		Goldman Sachs	US\$ 40,111,201
		Morgan Stanley	US\$ 21,780,000
		UBS	US\$ 170,000
Mercer Absolute Return Fixed Income Fund	Repurchase and Reverse Repurchase Transactions	Royal Bank of Canada	€ 121,683,886

**11. Returns and costs of the SFTs & TRSs**

Sub-Fund	SFT Type	Income received/ Loss incurred	Gains/Losses†	Costs incurred*	Net returns
Mercer Short Duration Global Bond Fund 2	Repurchase and Reverse Repurchase Transactions	US\$ 52,367	-	-	US\$ 52,367
PIMCO Global Aggregate Bond Fund	Repurchase and Reverse Repurchase Transactions	€ (118,844)	-	-	€ (118,844)
Acadian Systematic Macro	Total Return Swaps	-	US\$ (3,623,082)	-	US\$ (3,623,082)

†Amount includes only unrealised gains/losses since the swaps were entered into as at 30 June 2022.

\*Transactions costs relating to the repurchase and reverse repurchase transactions and TRSs transactions are embedded in the interest rate applied to each contract, therefore they are not separately identifiable for disclosure within the financial statements.

\*Security is valued at fair value in accordance with the fair value measurement policy.

The following table outlines the geographic concentrations of financial assets at fair value through profit or loss at 30 June 2021 where the Sub-Fund is no longer invested in at 30 June 2022:

**Financial assets at fair value through profit or loss**

**Transferable securities**

**Equities**

Italy	0.31%
Kuwait	0.49%
Macau	0.35%
United Arab Emirates	0.11%

**Corporate bonds**

India	0.00%
-------	-------

**Financial derivative instruments**

**Warrants**

Netherlands	0.19%
Switzerland	0.31%

Total assets comprised as follows:

	<b>% of Total assets</b>
Transferable securities admitted to an official stock exchange listing;	85.61
UCITS and AIFs;	9.77
Other current assets	4.62
	<hr/>
	100.00
	<hr/>

Country classifications are based upon country of incorporation and/or country of domicile.

**Financial assets at fair value through profit or loss (2021: 99.06%)**
**Transferable securities (2021: 99.06%)**
**Corporate bonds (2021: 30.51%)**

\*Security is valued at fair value in accordance with the fair value measurement policy.

The following table outlines the geographic concentrations of financial assets at fair value through profit or loss at 30 June 2021 where the Sub-Fund is no longer invested in at 30 June 2022:

**Financial assets at fair value through profit or loss**
**Transferable securities**
**Equities**

Curacao	0.04%
Gibraltar	0.01%
Malta	0.02%

Total assets comprised as follows:

	<b>% of Total assets</b>
Transferable securities admitted to an official stock exchange listing;	77.91
UCITS and AIFs;	19.27
Over the Counter financial derivative instruments;	0.09
Other current assets	2.73
	<hr/> 100.00 <hr/>

Country classifications are based upon country of incorporation and/or country of domicile.

The following security has been pledged by the Sub-Fund and is held by the counterparty as collateral in respect of financial derivative instruments.

<b>Security</b>	<b>Counterparty</b>	<b>Shares</b>	<b>Market value €</b>
Kuehne & Nagel International	State Street Bank and Trust	6,870	<hr/> 1,551,284 <hr/>

\*These are zero coupon bonds

\*\*Security is valued at fair value in accordance with the fair value measurement policy.

\*\*\*Citigroup also incorporates positions held with Citibank.

The following table outlines the geographic concentrations of financial assets at fair value through profit or loss at 30 June 2021 where the Sub-Fund is no longer invested in at 30 June 2022:

**Financial assets at fair value through profit or loss**
**Transferable securities**
**Asset backed securities**

Cayman Islands 0.39%

**Corporate bonds**

Sweden 0.12%

**Government bonds**

Cayman Islands 0.05%

Iceland 0.15%

Kuwait 0.06%

South Africa 0.59%

**Financial derivative instruments**

Interest rate swaps at positive fair value 0.07%

**Financial liabilities held for trading**
**Financial derivative instruments**

Interest rate swaps at negative fair value (0.01%)

Total assets comprised as follows:

	<b>% of Total assets</b>
Transferable securities admitted to an official stock exchange listing;	75.48
Transferable securities dealt in on another regulated market;	12.49
Other transferable securities of the type referred to in Regulation 68 (1)(a), (b) and (c);	6.03
Financial derivative instruments dealt in on a regulated market;	0.00
Over the Counter financial derivative instruments;	2.16
Other current assets	3.84
	<u>100.00</u>

Country classifications are based upon country of incorporation and/or country of domicile.

The following securities have been pledged by the Sub-Fund and are held by the counterparty as collateral in respect of financial derivative instruments.

\*Security is valued at fair value in accordance with the fair value measurement policy.

The following table outlines the geographic concentrations of financial assets at fair value through profit or loss at 30 June 2021 where the Sub-Fund is no longer invested in at 30 June 2022:

**Financial assets at fair value through profit or loss**

**Transferable securities**

**Equities**

Chile	0.04%
Gibraltar	0.09%
Isle of Man	0.13%
Poland	0.06%
Russia	0.06%

**Investment funds**

United States of America	0.11%
--------------------------	-------

Total assets comprised as follows:

	% of Total assets
Transferable securities admitted to an official stock exchange listing;	94.93
Financial derivative instruments dealt in on a regulated market;	0.05
Over the Counter financial derivative instruments;	0.18
Other current assets	4.84
	100.00

Country classifications are based upon country of incorporation and/or country of domicile.

The following securities have been pledged by the Sub-Fund and are held by the counterparty as collateral in respect of financial derivative instruments.

Security	Counterparty	Shares	Market value US\$
Flughafen Zurich	State Street Bank and Trust	3,800	572,769
PVH	State Street Bank and Trust	39,400	2,241,860

The following table outlines the geographic concentrations of financial assets at fair value through profit or loss at 30 June 2021 where the Sub-Fund is no longer invested in at 30 June 2022:

**Financial assets at fair value through profit or loss**
**Transferable securities**
**Equities**

Denmark	0.23%
Jersey	0.07%
Luxembourg	0.09%

Total assets comprised as follows:

	<b>% of Total assets</b>
Transferable securities admitted to an official stock exchange listing;	92.96
Transferable securities dealt in on another regulated market;	0.19
UCITS and AIFs;	1.19
Financial derivative instruments dealt in on a regulated market;	0.01
Over the Counter financial derivative instruments;	0.31
Other current assets	5.34
	<hr/>
	100.00
	<hr/>

Country classifications are based upon country of incorporation and/or country of domicile.

The following securities have been pledged by the Sub-Fund and are held by the counterparty as collateral in respect of financial derivative instruments.

<b>Security</b>	<b>Counterparty</b>	<b>Shares</b>	<b>Market value US\$</b>

\*Security is valued at fair value in accordance with the fair value measurement policy.

\*\*Citigroup also incorporates positions held with Citibank.

The following table outlines the geographic concentrations of financial assets at fair value through profit or loss at 30 June 2021 where the Sub-Fund is no longer invested in at 30 June 2022:

**Financial assets at fair value through profit or loss**

**Transferable securities**

**Equities**

Jersey 0.00%

**Corporate bonds**

Austria 0.09%

Isle of Man 0.07%

Jersey 0.54%

Singapore 0.09%

**Financial liabilities held for trading**

**Financial derivative instruments**

Credit default swaps (0.41%)

Total assets comprised as follows:

	% of Total assets
Transferable securities admitted to an official stock exchange listing;	35.04
Transferable securities dealt in on another regulated market;	24.30
Other transferable securities of the type referred to in Regulation 68 (1)(a), (b) and (c);	9.71
Financial derivative instruments dealt in on a regulated market;	0.05
Over the Counter financial derivative instruments;	0.31
Other current assets	30.59
	100.00

Country classifications are based upon country of incorporation and/or country of domicile.

The following securities have been pledged by the Sub-Fund and are held by the counterparty as collateral in respect of financial derivative instruments.

Security	Counterparty	Par value	Market value US\$
United States Treasury Note 2.50% due 31/05/2024	JP Morgan Chase Bank	41,000	40,638
	Morgan Stanley	41,000	40,638
			81,276

The following table outlines the geographic concentrations of financial assets at fair value through profit or loss at 30 June 2021 where the Sub-Fund is no longer invested in at 30 June 2022:

**Financial assets at fair value through profit or loss**

**Transferable securities**

**Corporate bonds**

Bermuda	0.92%
China	1.07%
Norway	1.35%

**Government bonds**

Germany	0.85%
---------	-------

Total assets comprised as follows:

	% of Total assets
Transferable securities admitted to an official stock exchange listing;	83.35
Transferable securities dealt in on another regulated market;	6.17
Other transferable securities of the type referred to in Regulation 68 (1)(a), (b) and (c);	6.74
Over the Counter financial derivative instruments;	0.58
Other current assets	3.16
	100.00

Country classifications are based upon country of incorporation and/or country of domicile.

The following securities have been pledged by the Sub-Fund and are held by the counterparty as collateral in respect of financial derivative instruments.

Security	Counterparty	Par value	Market value US\$
AIB Group 4.75% due 12/10/2023	State Street Bank and Trust	286,000	286,150
Banco Bilbao Vizcaya Argentaria 0.13% due 24/03/2027	State Street Bank and Trust	3,700,000	3,498,368
CVS Health 1.30% due 21/08/2027	State Street Bank and Trust	12,053,000	10,390,048
Deutsche Bank 2.63% due 16/12/2024	State Street Bank and Trust	2,000,000	2,314,572
HCA 5.00% due 15/03/2024	State Street Bank and Trust	3,393,000	3,409,117

**Financial assets at fair value through profit or loss (2021: 98.49%)**
**Transferable securities (2021: 95.86%)**
**Asset backed securities (2021: 2.23%)**

**Financial derivative instruments**

Interest rate swaps	0.08%
---------------------	-------

**Financial liabilities held for trading**

**Financial derivative instruments**

Interest rate swaps	(0.08%)
Options written	(0.00%)

Total assets comprised as follows:

	<b>% of Total assets</b>
Transferable securities admitted to an official stock exchange listing;	63.54
Transferable securities dealt in on another regulated market;	3.72
Other transferable securities of the type referred to in Regulation 68 (1)(a), (b) and (c);	3.68
Money market instruments;	5.51
Financial derivative instruments dealt in on a regulated market;	0.70
Over the Counter financial derivative instruments;	3.26
Other current assets	19.59
	<u>100.00</u>

Country classifications are based upon country of incorporation and/or country of domicile.

The following securities have been pledged by the Sub-Fund and are held by the counterparty as collateral in respect of financial derivative instruments.

<b>Security</b>	<b>Counterparty</b>	<b>Par value</b>	<b>Market value US\$</b>
Bpifrance Financement 0.25% due 14/02/2023	State Street Bank and Trust	4,000,000	4,178,705
United States Treasury Note 0.13% due 15/05/2023	State Street Bank and Trust	4,346,000	4,243,631

The following securities have been received by the Sub-Fund as collateral in respect of reverse repurchase agreements.

<b>Security</b>	<b>Counterparty</b>	<b>Par value</b>	<b>Market value US\$</b>
Ginnie Mae 2.50% due 20/10/2051	BNP Paribas	70,596,900	68,408,505
United States Treasury Bond 5.00% due 15/05/2037	Bank of America Merrill Lynch	7,725,000	9,553,049
United States Treasury Note 0.13% due 15/10/2025	BNP Paribas	27,909,200	25,078,045
United States Treasury Note 2.88% due 30/04/2029	Toronto Dominion Bank	13,660,000	13,504,191

The nominal for the bonds are factored and the nominal for the reverse repurchase agreements and collateral are not factored.

**Financial assets at fair value through profit or loss (2021: 100.17%)**
**Transferable securities (2021: 99.96%)**
**Corporate bonds (2021: 98.99%)**

\*Citigroup also incorporates positions held with Citibank.

The following table outlines the geographic concentrations of financial assets at fair value through profit or loss at 30 June 2021 where the Sub-Fund is no longer invested in at 30 June 2022:

**Financial assets at fair value through profit or loss**

**Transferable securities**

**Corporate bonds**

Hong Kong	0.18%
Saudi Arabia	0.56%

Total assets comprised as follows:

	% of Total assets
Transferable securities admitted to an official stock exchange listing;	78.68
Transferable securities dealt in on another regulated market;	4.24
Other transferable securities of the type referred to in Regulation 68 (1)(a), (b) and (c);	8.80
Financial derivative instruments dealt in on a regulated market;	0.04
Over the Counter financial derivative instruments;	0.39
Other current assets	7.85
	100.00

Country classifications are based upon country of incorporation and/or country of domicile.

The following securities have been pledged by the Sub-Fund and are held by the counterparty as collateral in respect of financial derivative instruments.

Security	Counterparty	Par value	Market value US\$
Abu Dhabi Ports 2.50% due 06/05/2031	State Street Bank and Trust	5,070,000	4,341,618
Apple 3.35% due 09/02/2027	BNP Paribas	10,000	9,939
Cooperatieve Rabobank 5.25% due 24/05/2041	State Street Bank and Trust	4,866,000	5,287,305
Daimler Finance North America 3.65% due 22/02/2024	State Street Bank and Trust	4,822,000	4,814,044
Microsoft 5.20% due 01/06/2039	State Street Bank and Trust	5,182,000	5,890,690
New York Life Global Funding 3.25% due 07/04/2027	Bank of America Merrill Lynch	92,000	89,313
Oracle 3.60% due 01/04/2040	State Street Bank and Trust	10,500,000	7,875,054
Toyota Motor Credit 4.45% due 29/06/2029	BNP Paribas	106,000	107,359

\*These are zero coupon bonds.

\*\*Citigroup also incorporates positions held with Citibank.

The following table outlines the geographic concentrations of financial assets at fair value through profit or loss at 30 June 2021 where the Sub-Fund is no longer invested in at 30 June 2022:

**Financial assets at fair value through profit or loss**
**Transferable securities**
**Corporate bonds**

British Virgin Islands	0.43%
Cayman Islands	0.53%
Hong Kong	0.11%
Japan	0.08%
South Korea	0.09%
United Arab Emirates	0.10%

**Government bonds**

Colombia	0.56%
Finland	0.32%
France	2.74%
Peru	0.39%
Spain	2.11%

**Investment funds**

Luxembourg	5.53%
------------	-------

**Financial derivative instruments settled to market**

Interest rate swaps	0.25%
---------------------	-------

**Financial derivative instruments settled to market**

Interest rate swaps	(0.21%)
---------------------	---------

Total assets comprised as follows:

	<b>% of Total assets</b>
Transferable securities admitted to an official stock exchange listing;	74.05
Transferable securities dealt in on another regulated market;	6.24
Other transferable securities of the type referred to in Regulation 68 (1)(a), (b) and (c);	12.52
Financial derivative instruments dealt in on a regulated market;	0.58
Over the Counter financial derivative instruments;	1.82
Other current assets	4.79
	<hr/>
	100.00
	<hr/>

Country classifications are based upon country of incorporation and/or country of domicile.

The following securities have been pledged by the Sub-Fund and are held by the counterparty as collateral in respect of financial derivative instruments.

<b>Security</b>	<b>Counterparty</b>	<b>Par value</b>	<b>Market value €</b>

The following table outlines the geographic concentrations of financial assets at fair value through profit or loss at 30 June 2021 where the Sub-Fund is no longer invested in at 30 June 2022:

**Financial assets at fair value through profit or loss**

**Transferable securities**

**Equities**

Netherlands	0.56%
New Zealand	0.47%

**Investment funds**

United States of America	1.78%
--------------------------	-------

Total assets comprised as follows:

	% of Total assets
Transferable securities admitted to an official stock exchange listing;	96.90
Over the Counter financial derivative instruments;	0.31
Other current assets	2.79
	<b>100.00</b>

Country classifications are based upon country of incorporation and/or country of domicile.

The following security has been pledged by the Sub-Fund and is held by the counterparty as collateral in respect of financial derivative instruments.

<b>Security</b>	<b>Counterparty</b>	<b>Shares</b>	<b>Market value US\$</b>
Alliant Energy	State Street Bank and Trust	12,700	<u>744,347</u>

**Financial assets at fair value through profit or loss (2021: 96.10%)**
**Transferable securities (2021: 95.00%)**
**Corporate bonds (2021: 64.30%)**

The following table outlines the geographic concentrations of financial assets at fair value through profit or loss at 30 June 2021 where the Sub-Fund is no longer invested in at 30 June 2022:

**Financial assets at fair value through profit or loss**
**Transferable securities**
**Corporate bonds**

India	0.19%
Mexico	0.69%
Norway	0.38%

**Government bonds**

Finland	0.13%
Indonesia	0.89%
Kuwait	0.69%
Russia	0.91%

Total assets comprised as follows:

	<b>% of Total assets</b>
Transferable securities admitted to an official stock exchange listing;	66.04
Transferable securities dealt in on another regulated market;	9.68
Other transferable securities of the type referred to in Regulation 68 (1)(a), (b) and (c);	5.03
UCITS and AIFs;	2.91
Over the Counter financial derivative instruments;	0.46
Other current assets	15.88
	<hr/> 100.00 <hr/>

Country classifications are based upon country of incorporation and/or country of domicile.

The following securities have been pledged by the Sub-Fund and are held by the counterparty as collateral in respect of financial derivative instruments.

<b>Security</b>	<b>Counterparty</b>	<b>Par value</b>	<b>Market value US\$</b>

The following table outlines the geographic concentrations of financial assets at fair value through profit or loss at 30 June 2021 where the Sub-Fund is no longer invested in at 30 June 2022:

**Financial assets at fair value through profit or loss**

**Government bonds**

France	70.35%
Germany	0.06%

**Financial derivative instruments**

Open forward foreign currency contracts	1.28%
---	-------

**Equity Swaps**

Australia	0.57%
Belgium	0.03%
Canada	0.11%
Denmark	0.65%
Finland	0.27%
France	0.26%
Germany	0.35%
Hong Kong	0.07%
Italy	0.07%
Japan	0.25%
Netherlands	0.49%
Norway	0.09%
Portugal	0.04%
South Korea	0.01%
Spain	0.07%
Sweden	0.49%
Switzerland	0.83%
Taiwan	0.05%
United Kingdom	0.87%
United States of America	1.56%

**Financial liabilities held for trading**

**Financial derivative instruments**

Open forward foreign currency contracts (0.03%)

**Equity swaps**

Australia	(0.42%)
Belgium	(0.09%)
Canada	(0.11%)
Denmark	(0.32%)
Finland	(0.04%)
France	(0.20%)
Germany	(0.44%)
Italy	(0.03%)
Japan	(0.31%)
Netherlands	(0.06%)
Norway	(0.20%)
Portugal	(0.07%)
South Korea	(0.01%)
Spain	(0.13%)
Sweden	(0.28%)
Switzerland	(0.19%)
Taiwan	(0.03%)
United Kingdom	(0.45%)

**Financial derivative instruments settled to market**

Futures contracts 0.95%

**Financial derivative instruments settled to market**

Futures contracts (2.21%)

\*These are zero coupon bonds.

\*\*Security is valued at fair value in accordance with the fair value measurement policy.

\*\*\*Citigroup also incorporates positions held with Citibank.

All options purchased and written are covered.

The following table outlines the geographic concentrations of financial assets at fair value through profit or loss at 30 June 2021 where the Sub-Fund is no longer invested in at 30 June 2022:

**Financial assets at fair value through profit or loss**

**Transferable securities**

**Asset backed securities**

Netherlands	0.41%
<b>Corporate bonds</b>	
Belgium	0.05%
British Virgin Islands	0.15%
China	0.13%
India	0.09%
New Zealand	0.11%
Romania	0.11%
United Arab Emirates	0.09%

**Government bonds**

Belgium	0.47%
India	0.13%
Kuwait	0.29%
Lithuania	0.72%
Russia	0.02%
Slovenia	0.07%
South Africa	0.07%

**Financial derivative instruments**

Cross currency interest rate swaps	0.00%
------------------------------------	-------

Total assets comprised as follows:

	<b>% of Total assets</b>
Transferable securities admitted to an official stock exchange listing;	43.95
Transferable securities dealt in on another regulated market;	20.72
Other transferable securities of the type referred to in Regulation 68 (1)(a), (b) and (c);	11.87
UCITS and AIFs;	4.21
Financial derivative instruments dealt in on a regulated market;	0.21
Over the Counter financial derivative instruments;	1.17
Other current assets	17.87
	<u>100.00</u>

Country classifications are based upon country of incorporation and/or country of domicile.

The following securities have been received by the Sub-Fund as collateral in respect of reverse repurchase agreements.

<b>Security</b>	<b>Counterparty</b>	<b>Par value</b>	<b>Market value €</b>
Kreditanstalt fuer Wiederaufbau zero coupon due 31/03/2027	BNP Paribas	10,034,000	<u>9,362,525</u>
Kreditanstalt fuer Wiederaufbau zero coupon due 09/11/2028	BNP Paribas	20,959,000	<u>18,909,000</u>

The nominal for the bonds are factored and the nominal for the reverse repurchase agreements and collateral are not factored.

\*These are zero coupon bonds.

\*\*Citigroup also incorporates positions held with Citibank.

All options purchased and written are covered.

The following table outlines the geographic concentrations of financial assets at fair value through profit or loss at 30 June 2021 where the Sub-Fund is no longer invested in at 30 June 2022:

**Financial assets at fair value through profit or loss**

**Transferable securities**

**Corporate bonds**

Bermuda	0.17%
Trinidad and Tobago	0.03%

**Government bonds**

Bermuda	0.11%
Georgia	0.06%
Trinidad and Tobago	0.12%
United States of America	0.01%

**Financial liabilities held for trading**

**Financial derivative instruments**

Interest rate swaps	(0.03%)
---------------------	---------

Total assets comprised as follows:

	<b>% of Total assets</b>
Transferable securities admitted to an official stock exchange listing;	85.70
Transferable securities dealt in on another regulated market;	7.54
Other transferable securities of the type referred to in Regulation 68 (1)(a), (b) and (c);	2.33
Money market instruments;	0.05
Financial derivative instruments dealt in on a regulated market;	0.03
Over the Counter financial derivative instruments;	0.41
Other current assets	3.94
	<hr/> 100.00 <hr/>

Country classifications are based upon country of incorporation and/or country of domicile.

The following securities have been pledged by the Sub-Fund and are held by the counterparty as collateral in respect of financial derivative instruments.

<b>Security</b>	<b>Counterparty</b>	<b>Par value</b>	<b>Market value US\$</b>
Mexico City Airport Trust 4.25% due 31/10/2026	State Street Bank and Trust	200,000	183,750

\*Citigroup also incorporates positions held with Citibank.

The following table outlines the geographic concentrations of financial assets at fair value through profit or loss at 30 June 2021 where the Sub-Fund is no longer invested in at 30 June 2022:

**Financial assets at fair value through profit or loss**

**Transferable securities**

**Corporate bonds**

Ireland	0.20%
Jersey	0.31%

Total assets comprised as follows:

	<b>% of Total assets</b>
Transferable securities admitted to an official stock exchange listing;	50.81
Transferable securities dealt in on another regulated market;	31.58
Other transferable securities of the type referred to in Regulation 68 (1)(a), (b) and (c);	10.34
Financial derivative instruments dealt in on a regulated market;	0.07
Over the Counter financial derivative instruments;	0.18
Other current assets	7.02
	<b>100.00</b>

Country classifications are based upon country of incorporation and/or country of domicile.

The following securities have been pledged by the Sub-Fund and are held by the counterparty as collateral in respect of financial derivative instruments.

<b>Security</b>	<b>Counterparty</b>	<b>Par value</b>	<b>Market value GB£</b>
United States Treasury Note 2.25% due 31/03/2024	Barclays Bank	176,000	143,113
