

Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

UBS ETF - Barclays TIPS 1-10 UCITS ETF, class (hedged to GBP) A-acc (ISIN: LU1459801947)

a sub-fund of UBS ETF SICAV

This fund is managed by UBS Fund Management (Luxembourg) S.A., a part of UBS AG.

Objectives and investment policy

The UBS ETF - Barclays TIPS 1-10 UCITS ETF sub-fund will take proportionate exposure on the components of the Barclays Capital US Government 1-10 Year Inflation-Linked Bond™ Index (Total Return) either through direct investments in all or substantially all of the component securities and/or through the use of derivatives in particular where it may not be possible or practicable to replicate the index through direct investments or in order to generate efficiencies in gaining exposure to the index. Exposure to the index through direct replication may be affected by rebalancing costs, while exposure to the index through derivatives may be affected by derivative trading costs. The use of OTC derivatives further engenders counterparty risk which is however mitigated by UBS ETF SICAV's collateral policy.

- The sub-fund will invest its net assets predominantly in bonds, transferable securities, money market instruments, units of undertakings for collective investment, deposits with credit institutions, structured notes listed or dealt in on a regulated market and other assets eligible under the prospectus.

Investors other than Authorized Participants may not subscribe shares directly with the UBS ETF SICAV, but may purchase and sell shares, through an intermediary, on one of the stock exchanges listed for the share class on the website www.ubs.com/etf. Direct

redemptions with the UBS ETF SICAV are however possible on each business day in Luxembourg. Authorized Participants may subscribe and redeem shares with the UBS ETF SICAV under the conditions detailed in the relevant Authorized Participant Agreement.

Fund income is not paid out, but instead will be reinvested.

This share class is currency-hedged meaning that it aims to reduce the impact of currency fluctuations between its reference currency and the currency of the Index. For that purpose it sells currency forwards at the one-month forward rate in accordance with the hedging methodology of the Index's currency-hedged index variant, the Barclays Capital US Government 1-10 Year Inflation-Linked Bond™ hedged to GBP Index (Total Return).

Risk and reward profile

More about the risk category

- The risk category is based on the estimated future volatility of the fund. The method used for this estimate depends on the fund type and historical data.
- Historical performance is not a reliable indicator for future performance.
- The risk category allocated is not static and may vary over time.
- Allocation to the lowest risk category does not mean that an investment in this fund is free of risk.

Why is this fund in this Category?

The fund is in risk category 4 because the volatility of its returns is moderate.

The fund invests in bonds and may therefore be subject to volatility. This requires corresponding risk tolerance and capacity. The value of a unit may fall below the purchase price. Changes in interest rates have an effect on the value of the portfolio.

Further material risks

- The fund may use derivatives which can reduce investor risks or give rise to market risks as well as potential loss due to failure of counterparty.
- Investment grade bonds are usually considered as carrying low to medium credit risk (i.e. potential loss due to failure of issuer).
- Every fund reveals specific risks, a detailed and comprehensive list of risk descriptions can be found in the prospectus.

Charges

The charges you pay are used to pay the costs of running the sub-fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest¹

Entry charge	5.00% ²
Exit charge	3.00% ³
Conversion charge	3.00%

Charges taken from the fund over a year

Ongoing charges	0.25%
-----------------	-------

Charges taken from the fund under certain specific conditions

Performance fee	none
-----------------	------

¹ This is the maximum that might be taken out of your money before it is invested / before the proceeds of your investment are paid out.

² This entry charge is applicable to investors who subscribe with the Company.

³ This exit charge is applicable to investors who redeem their Shares with the Company.

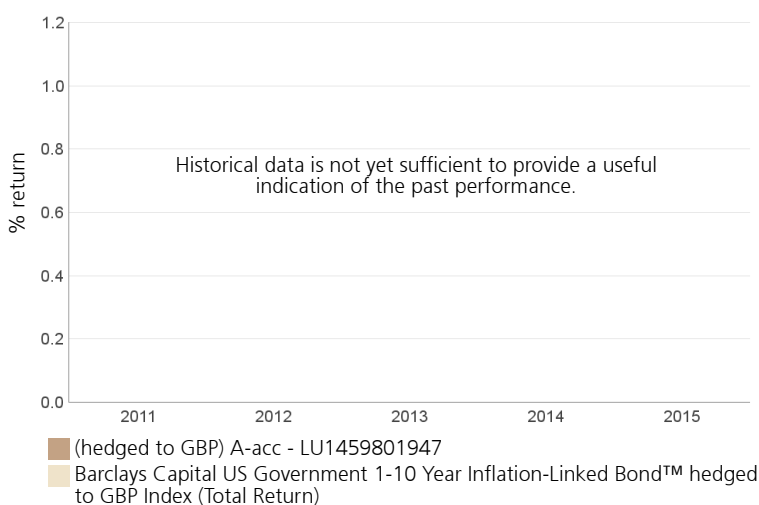

The **entry charge** and **exit charge** shown are maximum figures. In some cases you might pay less – you can find this out from your financial adviser.

The **ongoing charges** are estimated in the absence of historical data or when the calculated figure is considered unsuitable because of a material change. As soon as available or suitable, the calculated ongoing charges are reported and may differ from the estimate. They generally exclude:

- Portfolio transaction costs, except in the case of an entry/ exit charge paid by the sub-fund when buying or selling units in another collective investment undertaking

For more information, please see the charges section of the Fund's prospectus, which is available at www.ubs.com/etf.

Past performance

The class was launched in 2016.
